President Taft and ex-President Roosevelt. How does that sound?
Yes, the Charlotte Observer said "Taft's" yesterday morning "it is called 'Pauline'."
"Far from the maddening politicians," will be Roosevelt's expression when he reaches the jungles of Africa.
We wonder if Taft will follow his predecessor's example and have Booker T. to dine with him at the White House?

Our gifts to subscribers consists of a pair of shears, a voting contest, a serial story and a first class newspaper. Anything else we can think of we will announce later.
Roosevelt, since he has left the presidency, will now be to Africa and bury himself among the natives with the lions, tigers and other wild beasts at \$1 per word for the Outlook.

In addition to its other plans the News and Courier called upon Governor Ansel to veto the compromise prohibition bill passed by the legislature and the governor immediately signed it.
To make the emblem more fitting for its wearers the Congress of the United States should immediately upon its reassembling in special session on March 15th adjourn and let the new president govern the country himself for a while.

The Hon. C. C. Featherstone is out in an interview saying that he was disappointed in the failure of the legislature to pass a statute prohibiting the election law. Of course this will be Mr. Featherstone's platform next election but we hope that before that time the question will be settled and the statute will be out of the hands of the politicians. That would eliminate a good many candidates for governor and the state will be much better off with some of them left at home.

They Need Nurses.
A rather unusual circumstance has arisen in the passage of the order providing for a measure to take the election out of the hands of thirteen members of the senate of that state, democrats of Governor Patterson's faction, have left the state thus preventing a quorum of the body being present and the prevention of the passage of the measure over the veto of the governor.
It will be recalled that the late Senator Carmack was a candidate in the democratic primaries last summer against Patterson and the gubernatorial nomination on a statewide prohibition platform. Carmack was defeated and shortly afterwards happened that awful tragedy in the streets of Nashville, when that brilliant and courageous Tennesseean, was shot down by Robin Cooper, with D. B. Cooper adding John Sharpe as accessories.

After the election of Patterson and the death of Carmack a coalition was made between the republicans and the democrats in the Tennessee legislature and the prohibition measure was passed over the governor's veto. Then came the election law requiring the machinery of the hands of the governor. He vetoed the measure and it was to keep the legislature from passing it over his veto that these senators fled the state. They declare that they will remain away until the legislature adjourns.
Such an example is a disgrace to the state of Tennessee. If the men have not the grit to stand up for the principles of their measures they have no business being the representatives of the people. Such a use as they have made of their power, casts the will of the majority of the people of Tennessee sharply to the front the question of imposing some restrictions on fool legislators. As a result of such a members seat vacant seems to be to the logical conclusion. That and holding up whatever may have been due him would soon bring him back to his senses. Men, or rather so-called men with childish ways, have no business sitting as lawmakers. What they need is either guardians or nurses.

Our Gills.
We desire to call the attention of our readers to the fact that in addition to the contest and prizes which the Lantern is now offering its subscribers we are giving each reader who takes the Lantern a pair of patented steel shears with a patented self-adjuster. These shears if bought on the market would cost you at least 50 cents a pair. In themselves they are a great premium.
In addition to these matters the

Lantern at all times carries in its columns the news of the entire city and county. We cover the local field thoroughly and we have the news which happens to the very time we go to press. Also we are now running "The Barrier" a thrilling love tale of the Arctic and the gold fields of Alaska. Human blood and beautiful women are some of the settings of our stories. In itself it is well worth the price of the paper and no one should miss a single copy.
And now have you ever seen such an array of good things for the money? To be candid we are just getting excited to be on the handwaggon and partake of these good things subscribe at once for the Lantern.

Taft Now President.
Washington, March 4.—The first Chief Executive to take the oath of office to the chamber of the senate in a private sitting. Howard Chandler Christy, today became president of the United States.
Accompanied to the Capitol by President Roosevelt and a guard of honor through a swirl of blinding snow, Taft returned to the White House just as the sun began to force its way through the thinning clouds of gray. An almost blizzard assailed the Northwest last night, to set away the weather bureau's optimistic promise of "fair and somewhat cooler," caused an astounding blinding snow-door ceremonies on the famous east front of the Capitol, much to Mr. Taft's chagrin, and threatened for a time to stop the brilliant pageant of the afternoon.
By almost superhuman efforts passage way was cleared along the centre of Pennsylvania avenue and for nearly three hours Festus T. P. and Vice President Sherman reviewed the passing columns which was replete with martial splendor and picturesque civic display.
Following the brilliant and impressive ceremonies in the senate, during which both president and vice president took the oath of office, President Taft, in a private sitting, made an affectionate adieu to his successor while all in the historic chamber looked on in silence and then hurried to the train for New York. As he passed out of the chamber Mr. Roosevelt was given an ovation quite the equal of that tendered to the new president.

Simple Remedy for La Grippe.
Read Joseph H. Espelman, Standard Bearer, N. C., who is the author of several books, books, writes: "For several years I was afflicted with a terrible trouble and last winter I was suddenly stricken with a severe pain in the back of my head, which continued day after day to get up without assistance. I was unable to get up, and I was white and cold, and I passed some very bad days and nights. I commenced taking a bottle of Dr. Williams' Pink Pills for Pale People, and in a few days the pain gradually abated finally ceased. My energy came back, and I cheerfully recommend Foleo's Compound, J. J. Lettner's Pharmacy."

Earthquake Reported.
London, March 3.—A telegram received here from Smyrna, in Asiatic Turkey, says that the village of Masran, near Jerusalem, has been destroyed by an earthquake. One hundred and fifty persons are buried in the ruins.
No confirmation is obtainable here of the reported destruction of this village, nor can the place itself be located.
A dispatch of similar effect has heretofore appeared in Paris, and it is believed that the present report grows out of this publication, which also up to the present time lacks confirmation.

Nothing in the way of a cough is quite so annoying as a tickling, itching, wheezing, bronchitis-sough. The quickest relief comes perhaps from a prescription known to druggists everywhere as Dr. Cooper's Cough Remedy. Besides, it is harmless that mother and give with perfect safety even to the youngest babies. The tender leaves to take hold of the throat. Dr. Cooper's Cough Remedy is its name. It is sold by all dealers.
Charlotte, March 2.—The annual commencement exercises of the South Carolina Military academy will be held next June at Chester, and the commencement, instead of being held on Sullivan's Island, as at first determined, will take place at Chester. A four day march across the country to Lancaster is also scheduled, and after a day or two in that hospitable city the parade will march back to Chester for commencement.—The State.

This is the most dangerous time of the year to catch cold and it is the hardest time to cure it. If you should take a cold a dose of Kennedy's Cough Syrup will do you a great deal of good. It is a very promptly acting laxative principle and is sold by druggists. It is from the system by a gentle but natural action of the bowels. Children especially like it. It is a very pleasant taste. It is taken so good, nearly like maple syrup. It is sold by Standard Pharmacy.

SIX CORNERED LEAGUE PLANNED? SUCH A SUGGESTION HAS BEEN OFFERED
What is the matter with baseball? Day after day both in this city and elsewhere in any of the neighboring towns the question is asked "Is Chester going to have baseball?" And to that question at present no answer can be made.
In talking of baseball yesterday a gentleman suggested a six cornered league composed of the following: Chester, Rock Hill, Lancaster, Greenville, Union, and Greenwood to Chester with Yorkville as a possibility. This would make the distance between the different towns a minimum, the expenses are not would then be practically nothing and receipts would be greater.
Of course such a league would not be as extensive as the last state league. Not many of these towns, with the exception of Chester and Rock Hill, could furnish the crowd to support a regular hired set of professionals. But it has been suggested that it would be led by boys from the homes in the cities in the league and supplementing these with boys who are not regular professionals and this would give good interesting ball.
A six cornered league is much better than a four cornered one. It gives more time to the fans in any one town and keeps the interest up and makes the race for the pennant more lively and uncertain. In the four cornered league the two towns jump to the front and then that takes the heart out of the other two and makes them lag, the people's interest. That too a four cornered league gives too much to each town and just a little too much ball has been by the folks to keep the interest at white heat.
It is not known what will come out of this suggestion but it is offered for what it is worth. It won't do to have too expensive a league and one such as the above would give this locality all the ball they wanted and the expenses would be kept down to a minimum.
There has been some talk of reorganizing the old state league but so far nothing has materialized in this line and the above amendment is offered for consideration. What is the vote?

A voting topic that makes men, redoubtable, brings strength and happiness to the whole family. Nothing equals Hollister's Rocky Mountain Tea. It is a certain and safe remedy for all ailments. Sold by Standard Pharmacy.

Explosion in Coal Mine.

Wilkesbarre, Pa., March 2.—Number 14 colliery of the Pennsylvania Coal Company at Port Blanchard, near here, was the scene of a terrific explosion of gas today which caused the death of two men and the serious injury of twelve others.

The explosion set fire to the wood-work in the Pitman roadway, demolishing 40 men. A large party of rescuers were put to work but owing to the presence of blank damp they made slow progress. Fortunately there was a second exit from the mine and the employes behind the fire succeeded in making their way to the surface, none the worse for their experience.

Tonight the flames were extinguished.

A report from the Pitman Hospital tonight states that four of the burned miners are in a serious condition and may die before morning.

An old toper, being very hard up, went into his favorite bar and asked the publican for a glass "on tick."

"No," said the proprietor, "but I won't give you whiskey on credit, but there's a pension. Now, what do you want?"

"Nothing here," replied the tippler, "I'll take the coin and putting in my pocket 'The man who refuses me credit won't get my ready cash," and with an elevated nose he marched out the door.—London Telegraph.

Explosion in Coal Mine.

Wilkesbarre, Pa., March 2.—Number 14 colliery of the Pennsylvania Coal Company at Port Blanchard, near here, was the scene of a terrific explosion of gas today which caused the death of two men and the serious injury of twelve others.

The explosion set fire to the wood-work in the Pitman roadway, demolishing 40 men. A large party of rescuers were put to work but owing to the presence of blank damp they made slow progress. Fortunately there was a second exit from the mine and the employes behind the fire succeeded in making their way to the surface, none the worse for their experience.

GREAT FALLS TO SPARTANBURG

TALK OF AN ELECTRIC LINE ALONG THIS ROUTE

At present a force of Southern Power Company men are busy surveying the right of way for a line of that company from this city to Spartanburg. With the completion of this line here it will be pushed on to Spartanburg thus completing the double circuit.

In the connection talk of an electric line from Great Falls to Spartanburg has been revived. Before the panic of 1907 some New York capitalists were looking into the matter and it is confidently believed that if the business depression which swept over the country in 1907 had not come when it did that the matter would have materialized sometime ago.

With the revival in business and the return to normal conditions the matter is being talked. The advantages and the splendid returns which money invested in such an enterprise are obvious.

Traversing a length of about 75 miles and spending up country which is now remote from any railroad such a line would be a fine thing. It would pass through the cream of the great Piedmont section of South Carolina. It would touch good manufacturing towns, and plenty of undeveloped country which would be on the route which it would traverse.

When the Southern Power Company line to Spartanburg is completed and money gets a little easier something more of this project may come to light.

Blizzard Supt the North.

A severe snowstorm interrupted the inauguration ceremonies in Washington and caused the loss of several lives, thousands of dollars worth of property, and untold suffering in many sections of the North. The worst storm in many years swept the Middle Atlantic Seaboard from Norfolk to New York. Trains are blocked, telegraph and telephone wires are down, many vessels are ashore and it will be fully a week before normal conditions are restored.

Out of State inland three lives were lost by sinking ships and two are reported dead at Washington. A report from Baltimore says that the city was laid out by the blizzard and that one life was lost with many suffering from exposure. At Washington it was necessary for the office of the city to be administered to the president in the senate chamber and the frozen ground with slush underfoot and driving sleet and snow in their faces got the enjoyment out of the day.

South by railway passenger train No. 25, which is due here at 4:45 a. m. was indefinitely delayed this morning being held up by the storm in the North. Yesterday morning it went through several hours behind time and it is not known when it will arrive today.
