N. C. TAX ON COTTON
 The following with reference to the recent act of the North Carolina legislature placing a direct tax upon cotton is from the Charlotte Observer:
 "The passage by the Legislature of the cotton warehouse bill indicates that North Carolina is at last to be provided with this economic and stabilizing utility. The legislature did not stand back on levying a direct tax on the farmer for the creation of this public benefit. A tax of 25 cents on every bale of cotton raised in the State is levied, through which revenue will be raised to build and operate the warehouses—and the blessings that may be expected to flow to the agricultural community will be of a nature to more than compensate for the tax. It did not take so much nerve to pass the bill as it did to frame the revenue provision. We believe this is the first time in the history of the State that a direct farmer's tax has been laid on his back. The dog tax, the road tax, the school tax and all special taxes reach him indirectly, but nothing ever happened before like the laying of a tax of 25 cents on any other item on his taxable bale. The day is likely to come, however, when he will feel like blessing the Legislature that placed it on him. Just as he long ago gave his blessing to the legislator who saved him the expense of fence building and maintenance, and to the Legislature that laid the first good road tax on him."

It is the general opinion that the reassessing of city personal property is going to put several thousand dollars per year into the city treasury. It is generally talked that many people in Chester have their personal property returned too low and it is this that the assessors will correct. Those who have returned their property too low are given the opportunity to correct same. In fact it is done and that people are making corrections rather than to have the assessors do same.

Elsewhere in this issue appears an article by "Citizen" with reference to the health department of the city government. "Citizen" advances some excellent ideas, we think, and we hope the committee will seriously consider same in making their recommendations.

Stella-Vitae
THE GUARANTEED TONIC FOR WOMEN
 Stella-Vitae has been in successful use in the treatment of those diseases peculiar to women for more than a third of a century.
 For twenty years it has been sold under a patent, and its benefits to women are well known. It has been recommended for and every class of women has been satisfied. Thousands of letters from satisfied women testify to its benefits. Stella-Vitae and telling of benefits to suffering women has been received.
 Mrs. E. P. Daniels, of Mill Springs, N. C., writes: "I was in a most wretched condition; had palpitation of the heart and would swell and break in a most distressing way. When I began using Stella-Vitae I weighed 135 pounds. Now I weigh 135. I am more thankful than I can express to you for the great good this wonderful medicine has done me."
 Mr. Russell was so pleased with the results of the "change," and her sincere gratitude for the blessed relief will be understood and is proved by every woman who reads her letter.
 Stella-Vitae has given a boon to suffering women, to young girls approaching their first period, to women approaching the menopause, to children, to women approaching the "change of life." Stella-Vitae strengthens the female organs and promotes regularity in the monthly flow.
 No risk of loss is taken by any suffering woman who tries Stella-Vitae on our guarantee of the "Stella-Vitae" will return your money if it does not benefit you. Don't put off a trial.

CHESTER'S HEALTH.
 Citizen Thinks It Would Be Better to Keep Well—Makes Suggestion for Change.
 I notice the committee appointed by the citizens at the mass meeting last Monday afternoon state that they would be glad to receive suggestions from the public, so am taking this opportunity to offer one.
 We have all heard of Hartsville, S. C. It is known as the "Hogess Town." Hartsville has a RE health officer. A man who has made a study of sanitation and who knows how to get results.
 Why can't Chester follow the example set by Hartsville? Of course an experienced health officer would cost more than by ordinary health officer, but I feel well as a number of other citizens, I think Chester has 150 many policemen, so why not use some police money for health purposes?
 Chester pays something like fifty cents per capita population to keep well, and I would judge that we spend \$2.00 per capita to get well. Seems to me the sensible thing to do would be to spend more to keep well and less to get well.
 Citizen.

SHERMAN ATTACK
IN EARLY HOURS
 Washington, March 3.—Newspaper descriptions of the great question of President Wilson to members of the Democratic national committee, saying that the president had bitterly attacked Sherman, opposing the change of national constitution, were the subject of an address by Senator Sherman of Illinois, Republican, early this morning in the senate.
 The public reports read by the senator said the president had referred to the senator as having "piggy banks" and that he had declared they should be nailed on cabinets as signs of heaven but pointing in the opposite direction.
 Declaring that the account that appeared in the press as saying that the words of Wilson's speech were "nothing but knots to keep their heads from unweaving," the Illinois senator said:
 "The language is classic. He has added another matchless stroke to those with which he has enriched our American political literature."
 Senator Sherman spoke at great length and his humorous comment and scathing sarcasm caused senators and spectators alike to rock with laughter.

The Charlotte
SUNSHINE HOURS DURING DECEMBER BELOW AVERAGE
 Only 125 Hours Did Sun Show Face Out of 305 Hours of Opportunity.
 An unusual number of cloudy hours were recorded during the month of December, remarked O. Otto, "the weather man," yesterday afternoon, as the forecaster said in talking with him regarding the coming of the new year.
 "For the month of December, ending today there was a possible of 305 hours of sunshine. That is, there was this number of hours when the sun would have shown his face in Charlotte, but for the interference of clouds," went on the weather man.
 "As winter approaches the number of hours of light decreases materially, anyway. For instance, in the middle of the summer, the number of hours in the 24 in which artificial light is necessary is very small. In fact this number falls to 2.55. It steadily increases with July 2.66, August 2.14, September 4 hours, October 4.25, November shows 6.18 and December normally the number of hours a day of artificial illumination is necessary for the average household or business in C.S. This calculation is based on eight hours for sleep.
 "Now this month that number has been materially increased owing to the cloudy days. There have been but 125 hours of sun light during the whole month. There have been 180 cloudy days. The first day of sun was December 11, likewise 12, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31. The days before Christmas however and today, December 29, 30, 31, Christmas day and others showed only a short period when the sun shone.
 "December is one of those months of which we speak as having a dearth of sun light.
 "Many of these cloudy days did go by fairly, but they were 'dark.'
 "January, Mr. Otto also called attention to, is a month of short sun light. There are only 125 hours of sun light during a year. In this month there is an average of 6.18 hours of sun light during the month. This is necessary."

Merchandise At Cost
 Owing to the fact that I was forced to be away from my place of business for about two months on account of illness, I find that I have accumulated a large stock of dry goods and notions.
 I need the money which I have in these goods and I will also need the space for other goods and in view of this fact I will offer several thousand dollars worth of merchandise AT COST.
 Ordinarily we could not make such an offer but under the circumstances, mentioned above, we consider it the best thing to do and we want it distinctly understood that these goods will be SOLD AT COST.

The committee appointed by the citizens at the mass meeting last Monday afternoon to investigate the finances, etc., of the City of Chester, and to recommend what steps should

be taken to better the city, had their first meeting last Wednesday evening. Mr. T. H. White was selected as chairman, and Mr. James H. Glenn as secretary. The committee states that they have nothing yet to offer for publication but as soon as they get everything together, so to speak, that they will put their ideas and recommendations before the people. Those who desire to offer any suggestions are requested to present same to the committee.

Any Article you may need will be found in the list of Midland Pencil Tableware, to be seen at Chester Hardware Co.

Messrs. Geo. R. Davidson, H. R. Adams and S. L. Canale have been appointed by Major Davidson to look over the personal property returns of the taxpayers of Chester and to set the returns on an equitable basis. It will also be the duty of these gentlemen to put property on the tax books which is not now returned. Persons who are property owners who have evaded paying of taxes will be expected to pay for those years they have failed to make any returns. We do not intend to state that parties who have returned their property too low are given the opportunity to correct same before the assessors mentioned above begin to go over the books, which they expect to do in the next few days.

Dr. R. H. McFadden went to Lockhart yesterday to see Mr. W. R. Marion, cotton statistician for Chester county, who was taken ill while in that section getting cotton statistics. While Mr. Marion is not considered as dangerously ill he was unable to make the trip home.

Notice has been given by the South Carolina Railroad Commission that a hearing will be given at Lancaster Thursday, March 12th, with reference to 40 complaints about the present

schedule of the Lancaster & Chester Railway. It will be recalled that an effort has been made to have the hearing at some point on the line, but just why the commission selected Lancaster is not known here. Chester will probably have a delegation present at the hearing.

Many Chester friends will be glad to learn that Dr. W. L. Davidson, who offered his services to Uncle Sam at the outbreak of war, has again been promoted and is now Major. Major Davidson entered the service as a lieutenant and after a few months, training in the States was promoted to a Captaincy.

Mr. Harvey McDaniel had a very exciting experience Wednesday afternoon during the storm. Mr. McDaniel was driving a mule when it was struck by the storm which threw the mule, buggy and driver into a nearby cotton field. Fortunately Mr. McDaniel and his mule suffered any injury.

Considerable damage was done to various sections of the country Monday afternoon during the storm. Mr. Alfiey Bros., at Evans, lost their cow barn and also one cow killed. A fence owned by Mr. James McDaniel in this section, was also blown away. Considerably a number of houses were unroofed and otherwise damaged in the Habelville section. Parties living near Ore and Knox Station also suffered by the storm. A colored church and also a hall at McShure were blown down and Mr. T. K. Key of that section had a mule killed.

LIVER DIDN'T AGT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fits. I was constipated, my liver didn't act. My digestion was bad, and it took a little to upset me. My appetite was little, I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the heart trouble was relieved. I feel better now than I have for many years."

Dose of Black-Draught

Seventy years of successful use has made Theodore's Black-Draught a standard household remedy. Every member of every family, at times, needs the help that Black-Draught can give in clearing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, like a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose.

Who Benefits by High Prices?

You feel that retail meat prices are too high.

Your retailer says he has to pay higher prices to the packers.

Swift & Company prove that out of every dollar the retailer pays to the packers for meat, 2 cents is for packers' profit, 13 cents is for operating expenses, and 85 cents goes to the stock raiser; and that the prices of live stock and meat move up and down together.

The live-stock raiser points to rising costs of raising live stock.

Labor reminds us that higher wages must go hand in hand with the new cost of living.

No one, apparently, is responsible. No one, apparently, is benefited by higher prices and higher income.

We are all living on a high-priced scale. One trouble is, that the number of dollars has multiplied faster than the quantity of goods, so that each dollar buys less than formerly.
