Be Sure about your Oils
You will make no mistake if you Entrust the complete operation of your car to the care of the Sinclair group.

1. Sinclair Opaline Motor Oil for the lubrication of your motor. Smooth, economical, clean, perfect lubrication.

The Rocky Mountain legislature recently passed a law raising the automobile speed limit in North Carolina to forty-five miles an hour. Any motorist who does not care to run the risk of being arrested, would keep his speed down to thirty-five miles an hour until July first, at which time he can lawfully sup on the new North State.

For some time Postmaster Myers of the Chester post office has been receiving complaints about the failure of letters placed in the local office reaching their destination. Seven important letters have been lost, some of which had been torn open and thrown away. These letters had been placed in the local office and the fact that they were found outside was evidence that someone was stealing mail from the office. An investigation led to the belief that the thief was reaching into the package box and across a small petition into the letter box. Sunday Postmaster Myers set a trap to catch the thief and as a result James Hooper, fourteen-year-old colored boy, was caught in the act. The boy implicated Timothy Johnson, James Hardin, Waddell-Brown, S.-B. Hooper, and Otis Patton, all colored youths. They were brought in but all denied any connection with the matter whatever. James Hooper was released under bond and exactly what action will be taken in his case left to federal authorities.
