Tunnel Through The Rockies

The construction of a tunnel through the Rocky Mountains is on the point of being completed. This tunnel will provide a direct route for travel and trade between the eastern and western United States, significantly reducing travel time and costs. The engineering feat required the collaboration of teams from various disciplines, including geologists, engineers, and architects, to overcome the challenges posed by the rugged terrain and vast scale of the project. The tunnel, when completed, will be a testament to human ingenuity and a symbol of the continent's interconnectedness.

COOKING

Pre-Seasoned Savoy, of the Pat
ton & Company, is cooked
simply by boiling a little wa-
ter, adding a little pepper and
salt, and serving at once.

Baking does not improve the
crust. The crust of a pie is
best at the time of making.

DOMESTIC

Tuition of a parson is not
considered a business. In ter-
restrial affairs, it is in the
business of a clergyman to
minister to the spiritual needs
of his flock.

FARMING

A cornfield is a record of
what has happened during the
spring. The field is the best
book from which to draw con-
clusions about the weather of
the season.

LAW

It is not enough to under-
stand the law. One must also
be able to apply it.

MEDICINE

It is not necessary to know
all the plants. One must know
the use of each.
