WORK WILL START SOON UPON TUNNEL BENEATH CHANNEL

Only Danger Laid in Geological Formations, Says Expert

London—Intense interest has been aroused by the government's announcement that the long projected tunnel under the Panama Canal is to be constructed.

A commission in Paris which has been discussing this project also is considering the building of a tunnel under the Bosphorus connecting Europe with Asia and one from Gibraltar connecting Europe with Africa.

The English Channel Tunnel Company already has done a vast amount of work in anticipation of the resumption of actual construction of the tunnel in France.

Speaking of the problems of building the tunnel, the engineer in charge said that the only risk lies in the geological formations.

Before the war the quickest service from London to Paris was in six hours and forty-five minutes.

CAN GERMANY BE FORCED TO PAY?

American Doubt Indemnities Bill, C. B. Collected, Balkans and French Insist That Germany Can and Should Have to Pay in Full

Paris, April 11.—While the members of the British and French parliaments are mobilizing for a proposal to pay the full bill, the American representatives on the reparations commission express considerable doubts whether even the account proposed by Germany is sufficient.

They assert they can see the possibility that the ways and means proposed by Germany to pay the bill will grow weaker as the years pass and that Germany may take opportunity in later years to repudiate her obligations.

For this reason the American and other delegates on reparations have proposed a new proposal which they believe will satisfy the British and other requirements for the restoration of the devastated French provinces in the first few years after peace.

The difficulty probably will be met by the French effort to secure the debt countries for the cash value of labor, materials, cattle and other things exacted for the restoration of the nine northern provinces.

Laurens, April 12.—A carload of home grown hogs was shipped from Laurens last night to a dealer in Richmond. This begins what is expected to be a developing industry in this country.

In response to a circular letter sent to the farmers of the country by D. Milner, South Carolina county farm agent for the government, asking them to bring in all surplus hogs and pigs...

One of the most interesting features of the day was the presence of five Poland Chicks brought in by W. S. Hutton of Clinton.

The result of the first attempt at shipping hogs is very gratifying to Mr. Moore and others who take much interest in the proposition.

The nation is confronted not with the question of reconstruction, but rather with the problem of restoration and in some fields only the need of further constructive action.

TUESDAY, APRIL 15.

Be wise—advertise.

Chester is the best town in the Carolina. Chester is not to be outshined by other towns.

There is no use to have a town if you are not going to blow it. Blow Chester, blow.

You can't buy merchandise as cheap as Chester. In Chester, the Carolina. Chester is not to be outshined by other towns in the Carolina.

The government makes no appropriation for advertising. Chester is the best town in the Carolina. Chester is not to be outshined by other towns.

Up and down, in and around, Chester is the best town in the Carolina. Chester is not to be outshined by other towns.

Leake Caraway says this Chester is coming down. We locate respectfully advise that the gentleman is a good observer, even if he is connected with the Charlotte Observer.

Chester leads the WORLD in Guernsey cattle. Just think of it—the world's twenty-five thousand miles from here around back to here.

Mr. John T. Roddy overlooked the fact that many Rock Hill returned soldiers bought their spring eyeglasses in the morning.

Rock Hill people will find the railroad schedule to Chester very convenient from time in the morning and go back in the afternoon. Railroad fare paid on all purchases amounting to \$25.00.

A young Rock Hill citizen, who is now spending some time in Chester, says he does not know whether the Chester bankers are offering or not, but he knows that they charge him 35 cents for a hair cut.

The difference in the price of Rock Hill hair cut and Chester hair cut is ten cents. But the difference in looks is \$210. Why make you won't recognize that boy when he comes home.

TRADE AT HOME

We wish to direct the attention of our readers to a half-page advertisement appearing on the last page of this issue of 'The News' under the caption 'Trade at Home'.

The News has long contended that Chester is one of the best markets of the state, and when people take the time and trouble they find this out.

There are no doubt a number of people in Chester County who buy a considerable amount of merchandise elsewhere thinking they are getting it cheaper than they would if they bought it in Chester. Such, with the few exceptions is not the case and citizens would find out these things if they took time to them.

However, to be perfectly frank, one is not always justified in criticizing a person for buying merchandise in other than their home town.

Here's the way it works. Say you live ten miles from Chester. You get a catalogue from a house in New York, giving a description of a certain article and the price. You like the proposition, order the goods, and the small carrier, delivers them to your door. That's mighty convenient.

Why don't you order those same goods from your home merchant? Simply because you pick up some county paper and find your home merchant hasn't even set an advertisement in it. To get what you want you must come to town and walk your tongue out trying to find what you want, whereas, if your home

merchants would take the trouble to tell you about what they have got for sale, never think of ordering merchandise from the mail order houses.

We take this opportunity to call the attention of our readers to the fact that 'The News' carries advertisements of a number of local firms—firms that are anxious to deal in the open market, and who find mercantile establishments of this class you can rest assured that they have something to offer and appreciate your business, else they would never go to the expense of advertising.

An enthusiastic meeting of the Chester County chapter of the Women's Committee, presided and introduced the speakers.

The first speaker was Mrs. E. M. of Columbia, S. C., a representative of State Victory Loan Speaker's Bureau. She made an excellent speech on the Thanksgiving Voucher that has been won and the debt of honor that this nation has to pay.

Mrs. J. Clarence Cross, Chester County chairman of the Women's Committee, presided, and introduced the speakers.

And They Do Say!

And too, there are folks who say they had rather pay 5 or 10 per cent. more for their goods and live in a town like Rock Hill than live in some of those surrounding towns.

Chester's motto: "If you don't like our town, MOVE."

Some of Them Walking With Us!

Rock Hill merchants may be profiting—but we note that very few of them live in mansions or ride around in high priced automobiles.

Our observation is that some of them who have been in business here a long time, are still in the same class with the newspaper man—walking—Rock Hill Recorder.

RENTS IN CHESTER.

In an editorial on reference to the price Rock Hill and those in Chester, the Rock Hill Record yesterday, has the following to say in part:

'Chester has benefited by Mr. Roddy as one place where the same goods can be bought at lower prices. That is hardly a fair comparison. Chester is not in Rock Hill class. Rents in Chester are very much lower than in Rock Hill—

Death of Mr. R. W. Crowder.

Many friends of Chester and Chester county were grieved Sunday afternoon by the death of Mr. R. W. Crowder, which occurred in Charleston after a very brief illness, following a stroke of paralysis Friday. Mr. Crowder was in Chester to see his family only a few days ago and was apparently in the best of health.

Mr. Crowder was a native of Fairfield county and was in his fifty-first year. He has been a resident of Chester for a number of years and for several years was engaged in the livery business in Chester. During his residence in this city he has made many warm friends by his honesty and integrity. A Chester merchant in speaking of him said, "He was one of my best customers for many years and was absolutely honest in every transaction."

Mr. Crowder is survived by his widow and the following children: Mrs. C. D. Dickerson, Miss Olan and Lottie Crowder, and Masters James and William Crowder. He is also survived by three brothers and two sisters: Messrs. J. U., D. W., and B. F. Crowder, of Shelton, and Mrs. McLean of Blain, and Mrs. Jenkins, of Monticello.

The funeral services were conducted at the First Baptist church, this morning at eleven o'clock by Rev. L. M. White, followed by interment in Evergreen cemetery.

The theme Monday night was "The Preparation of the Church for its Work" and was based upon the cleansing of the temple on Monday before the crucifixion. The text was, "Know ye not that ye are the temple of God and that the Spirit of God dwelleth in you? If any man defile the temple of God, him shall God destroy, for the temple of God is holy, which temple ye see." All are cordially invited to these services.

READ WHAT MR. FAIREY SAYS. These days when everybody's time is very valuable and even the moments mean dollars to everyone, it is worthy of mention when prominent business men talk like Mr. T. A. Fairey, of Wintonsboro, S. C. who recently was a prominent citizen and farmer of Chester, called in to see us and said: "I need your suits for selling me two Hart Schaffner & Marx suits, and overcoat; this quality has no superior to any other makes of other clothing on hand. In the future Hart Schaffner & Marx clothes for mine." Mr. Fairey we thank you. The Rodman-Brown Co., "The Home of Hart Schaffner & Marx Clothes."

The many friends of Mr. J. D. Taylor will be glad to learn that he has decided to remain in the race as a candidate for Alderman from Ward-2.

TRADE IN CHESTER

The following article written by Mr. John T. Roddey, one of Rock Hill's most prominent and progressive citizens, appeared in the Rock Hill Record of last Thursday.

To the Editor of The Record:
 Are the people of Rock Hill profiteering?
 Is the Merchants Association "one of the worst things that ever happened to Rock Hill?"
 Would it be either politic or profitable for the newspapers or the Chamber of Commerce to look into Rock Hill prices?
 Is the town being improved by such?
 These questions are being asked me practically every day. A cotton mill man told me he had never seen so many Sears, Roebuck & Co., catalogues.
 One of the largest farmers in the county told me "it would break me up if I had to buy my stuff in Rock Hill."
 Another large farmer with a plantation within two miles of Rock Hill and a resident and taxpayer of the town, sent his two-horse wagon to Chester and bought a lot of goods, between \$125 and \$175, at a saving of 15 per cent to 33 per cent.
 Individually, I ran out of a certain article and had to have it by the next morning. They cost \$4.80. The price I hadn't considered, but, as I could not get it here, I phoned to CHESTER. It came up on the afternoon train for \$3.60. A few days later I phoned CHESTER on a purchase of \$25.00. I saved \$5.00. The first time I phoned was practically accidental, the next purchase was deliberate.
 A farmer sold 25 bales of cotton in Rock Hill, brought up in five wagons. When he had his cotton weighed he told his hands, "you boys go on home." I said, "Aren't you going to buy anything to take back on your empty wagons?" He said, "No, I sent those wagons to CHESTER this morning to buy what I needed."
 A man told me he could buy goods at most any of these country stores at 15 per cent to 20 per cent cheaper than he could in Rock Hill.
 Just as sure as two and two are four, such a condition will react on the town.
 As long as the negroes and people generally had so much money, they would pay just any old price, but conditions may not always be such.

**SAVE FUEL · TIME

BY WIRE**

What

a world of service can be had from an electric wire.

Just think of the many different kinds of help you can get from a lamp socket, base board or wall outlet.

Housework, in the planning—the directing—is a joy to a pleasure to any woman. The hard, discouraging part is the physical effort—the work, the drudgery.

What woman would continue to wear out her mind and body on mental drudgery and monotonous routine if she knew that Electricity would relieve her of all this disagreeable part of house keeping?

But many women still think that Electrical helps are expensive luxuries—only for those who have great means.

THAT IDEA IS ENTIRELY FALSE.

Electricity is so capable of being divided into "small parts" and so dependable that it can be applied to the smallest as well as to the "big" home needs—even to those of the individual.

And in every instance a saving is accomplished—A SAVING THAT IS FAR BEYOND, AND MANY TIMES REPAYS THE COST.

Once women fully appreciate this they they will do nothing by physical labor they can turn over to Electricity.

Let us help you work out your problem—apply Electric helps to your individual needs. No obligations on your part.

No cost will be incurred in asking us for assistance.

WOMEN PRAISE STELLA-VITAE

We want every afflicted woman to try at least one bottle of Stella-Vitae on our plan, or we guarantee to return the money paid for it if it does not benefit.

If you doubt our word that it will relieve the distressing aches, pains and miseries peculiar to the diseases of women, read the testimony of those women who have tried it and are glad to tell of what it has done for them. The only interest they have in the matter is that which every woman feels is being to relieve the sufferings of other women. You can believe them.

Mrs. J. B. Lee, Millstead, Ga., had a severe complaint for years. Three bottles of Stella-Vitae cured her and she said, "and indeed, I can certainly thank you for this great benefit." Mrs. Paralee Frazer, Longview, Tex., expressed her appreciation of Stella-Vitae in these words: "I cannot say enough for this wonderful medicine. I had taken other famous medicines for two years with no good results. I am truly grateful for the good Stella-Vitae has done me." Mrs. Sandy Withers, of Greer, S. C., said, "It is a terrible sufferer from female trouble—and only a woman knows what that means! Her condition caused her mind. The Greenhorn doctors pronounced her incurable. This compound, I am glad to say, has cured me. It improves her personal appearance."

All dealers sell Stella-Vitae, and are authorized to return the money paid for the first bottle if it does not benefit.

FACULTY SELECTED FOR SUMMER SCHOOL

Rock Hill, April 13.—President Johnson has about completed the faculty for the summer school at Winthrop College, which will open on June 17 and continue till July 25. The fact that the school has a faculty of distinguished teachers and lecturers, makes it unnecessary for the teachers of South Carolina to go beyond the bounds of their own State for summer work. Applications are now open to the faculty.

There will be many teachers present from neighboring States. Prof. Scott Murray, for many years head of the department of Latin at Morehead University, will hold the chair of Latin at Winthrop this summer.

Professor Thomson, Dean Kinard, Superintendent Maginnis and Prof. John F. Thomason are offering courses in education.

Dr. Steger, formerly professor of English at Hollins; Dr. Edmonds of Samters; J. C. Daniel of Darlington and Mrs. Grant will be in the department of English.

Dr. Wainmley of Winthrop and Dr. Wallace of Wolfenbutek will be in the department of history.

Professor Colver of Winthrop and Superintendent Brooker of Florence are offering some new courses in mathematics.

Prof. C. A. Granger of the Citadel is a new member of the faculty, offering courses in French and Spanish.

Supr. Frank Evans of Spartanburg is offering a new course, in general science.

Dr. Roy Z. Thomas has increased the number of courses in chemistry.

George W. Coggin, well known for the development of manual training in the schools at Easley and now connected with Clemson College, will offer new and practical courses in manual training.

One of the most significant additions in courses is that by Miss Will Lou Gray for teachers of literature.

All who have heard him on former occasions will be delighted to know that Dr. Charles Alphonso Smith is coming. Among those who have never been at Winthrop before are Prof. Edwin Mann, author and teacher of English at Vanderbilt University; Prof. H. Kilpatrick of the department of education, Columbia University, New York; and Prof. W. C. Bagley, author and teacher of the same university.
