Dilettas representing the various churches of the county at the meeting of Presbytery which was held with the Oak Grove church in Chester county returned yesterday morning with reports of an interesting meeting and royal entertainment by the good folk of the Rodman community.

C. R. Simmons, formerly proprietor of the Hotel Royal, who is now conducting the Myers Hotel in Chester, was a business visitor in Lancaster Wednesday. Mr. Simmons likes Chester and says that he is having a good business.

Ground was broken and preparations made Tuesday for laying the foundation for E. W. Slaters' new brick block to be located on the southeast corner of City and White streets. Contractor W. S. Langley has the contract and work will proceed as rapidly as material is available.

John Red, Jr., returned from Boston Tuesday, accompanied by his father, John Red, Sr., where he underwent a very tedious operation for removal of an abscess on the brain. The operation apparently affected the nerves of the eyes, nose and heart.

Highway Engineering department of Chester was here the early part of this week. He stated that the road from Richburg to the Catawba river is now being improved by the State.

John Kester is now in charge of the national highway between Charleston and Augusta, Ga. Plans for a new high school building to be erected in Heath Springs have been prepared by Wilson and Robinson, of Columbia, and bids are now being advertised for. It is expected that the contract will be let on May 1 when the trustees will close the present school.

EXCURSIONS IN THOUGHT.

The Little Pin-Picks Of Fate.
R. N. Allen.

During my school days I used to be very much interested in watching a boy who sat near me sticking a pin thru the fleshy part of my wrist. Gathering the thick folds of flesh together in a ball he would stick another brass pin clean thru and proudly say that it caused him no pain.

While studying Hypnotism and kindred mental phenomena I had occasion to learn that when subjects were put into a state of hypnosis, knitting-needles could be thrust thru the fleshparts of the body without causing any inconvenience. However, before this was done the operator had to suggest to the subject that it would cause no pain.

The study of New Thought, Christian Science, and allied varieties of mental healing will fully convince me that the mind has much to do with the body. It is not just a passive organ, but it is the seat of the vital forces that govern the body. It is the seat of the vital forces that govern the body.

In these days we tend to look upon the body as a mere machine, a collection of bones, muscles, and organs. We forget that the body is a living organism, a complex of cells and tissues, each with its own life and function.

But in these days we tend to look upon the body as a mere machine, a collection of bones, muscles, and organs. We forget that the body is a living organism, a complex of cells and tissues, each with its own life and function.

RETURN OF PEACE IN KU KLUX KLAN

Hostilities for Control at End Under Agreement of Emperor Simons and Imperial Wizard Evans Retain Places.

Atlanta, Ga., April 24.—Hostilities for control of the Knights of the Ku Klux Klan ended today with the signing of an armistice between the two factions. William J. Simmons, emperor, and H. W. Evans, imperial wizard, are retained in their posts under the agreement.

The controversy was brought to a close through the efforts of the commission of Klammen, aided, it was said, by independent counsel. At first J. C. Powell and Hollis H. Randolph, non-members of the order, Judge D. E. Thomas, on motion of counsel for both sides, dismissed his objection and dissolved the commission of three which had been directing the affairs of the Klan. This commission was composed of Emperor Simmons, Imperial Wizard Evans and J. M. George, marshal of the municipal court.

The contest originated over the Klammen, the wizard's organization of the Klan, headed by Colonel Simmons along the line of the Klan. According to Fred B. Johnson, who has been acting as chief of staff for Emperor Simmons, the agreement was reached with Dr. Evans called for the imperial wizard to remove his objection to the Klammen aid to give it the right to operate.

Emperor Simmons, on his part, it was declared, agreed to cancel his court action for absolute control of the Klan. Simmons is satisfied that many with Imperial Wizard Evans and both will bend their efforts to establish friendly relations between the factions.

Emperor Simmons, in a statement issued tonight regarding the settlement of the controversy, said his "supreme concern was to have defined my rights and the rights of all other Klans to participate in the organization of Protestant, patriotic white American women."

It was said that no changes in Klan headquarters personnel was contemplated.

INSURANCE SCHEME GETS CONSIDERATION

Inquiry Into Possibility of Offering Protection for Farmers Against Bad Weevil.

Washington, April 24.—A subcommittee of the senate agricultural committee has today begun an inquiry into the advisability of preparing legislation having for its object insurance for the farmer in favor of the farmer against weather conditions and all other agencies capable of impairing and destroying crops.

Senator E. D. Smith of South Carolina, chairman of the subcommittee, and an ardent sponsor of the proposed legislation. He declares that as the government extends its reach into the life of the farmer there is no reason why it should not stand between the farmer and insects and elements which tend to destroy his crops.

The subcommittee today telegraphed Senator Smith to come to Washington as early as possible. The subcommittee is not unanimous in its opinion as to the proposed legislation.

ACREAGE REPORT MADE PRICE DROP

Only 154 Votaries Registered for the Municipal Election to be Held on May First—Will Elect a Mayor and Five Aldermen—Little Interest Shown—Opposition in Only One Ward.

The city registration books for the registering of votaries to participate in the municipal election to be held on Tuesday May first, closed last Saturday afternoon at four o'clock, and show that only 124 citizens registered for the election.

At this election a Mayor and five aldermen are to be elected for the ensuing two years. At present there is only one candidate out for the office of Mayor, which position will pay \$400 per year. For the past several years the Mayor has been serving without compensation but council and citizens realizing that this was asking too much of a man, resolved to offer an ordinance providing for the salary as above mentioned.

So far there is only opposition for Alderman in Ward 3, the candidate of that ward being Messrs. O. A. Lee, present alderman, and Alex. Frazer, who has formerly served in that office.

The list of those who registered in the various Wards are as follows: Ward 1—H. Samuels, W. W. Peagram, C. W. Weir, Robert S. Gentry, E. Adams, R. E. Sims, J. A. Barron, C. C. Edwards, A. M. McCullum, G. W. Byars, G. DeWitt Ald, L. B. Dawson, Rev. J. W. Gentry, H. W. Anderson, M. G. D. Auld, M. R. Clark, J. W. Hood, M. H. White, J. E. Dunbar, W. C. White, J. H. Hamilton, Mrs. W. C. White, Mrs. M. H. White, Dr. White, Miss Agnes R. Douglas, W. A. McBrayer, Mrs. J. H. Hamilton, W. E. Sanders, W. A. Lee—31.

WANTS PROBE OF YOUTH'S DEATH

Claim Florida Boy Killed in Michigan Reformatory, Attorney General Will be Asked to Make Investigation of the Charges.

Orlando, Fla., April 23.—The state of Michigan, through its attorney general, will be asked tomorrow to investigate the death of Frank Patterson, 21, a native of Florida, who died of injuries he received in the Michigan state reformatory in Tawas Mich., April 12, last, it was announced today by Attorney G. A. Boyer, representing Patterson's family after an official examination of the body had been made in the presence of Assistant State's Attorney John C. Jones.

Dr. R. Chappell, a physician who examined Patterson's body, said he found five places where Patterson had been struck on the head. He expressed the belief that the blows must have been inflicted with a club, which had caused concussion of the brain, led to the boy's death.

Assistant State's Attorney Jones said he considered it significant that the brain was removed before the body was shipped to Orlando. He added that while the case will be in the hands of the Patterson family, he hoped a "thorough investigation of the case would be conducted."

The attorney general of Michigan will be formally requested to start an official investigation tomorrow morning, Mr. Boyer said, adding he will telegraph details to the Michigan attorney general.

"My only interest is seeing justice done. I feel that this boy was wrongfully killed to death," Mr. Boyer said, adding "that he was left without the night after he was beaten without medical attention and that some one must be responsible for what seems to have been the grossest negligence where a human life was concerned."

The South Carolina Board of Tax Appeals on Wednesday afternoon suspended until September first the tax against moving picture theatres, as one phase of the luxury and sales tax.

The board also adopted a resolution to the effect that provision of the tax act which taxes candies be construed as not applying to individual factory wrapped packages received for appeal of the motion picture. This means that candy, even though the price is 80 cents a pound or more, when sold in factory packages priced at 10 cents or less, shall not be taxed.

GEORGIA MAKING BUTTER ON LARGE SCALE

Made More Butter in Month of January Than in Year of 1922—At Present Shipping To Six Other States.

Atlanta, Ga.—Georgia has turned over a new leaf on the butter question and has gone in for making her own butter in a big scale. The State, which once imported millions of pounds of butter annually, is now producing a State that is shipping butter in large quantities, according to the state agricultural department.

If it is true, as the Georgia Department of Agriculture has announced, that in January of this year there was made in the State during the year 1922, six states high scoring butters from 10,000,000 pounds of butter from other states.

Many sections of the State are today making butter in the local creameries to supply local needs, besides shipping butter to other parts of the state and to neighboring states, according to the agricultural department of the A. B. and A. railroad. Agents of this railroad which advocated the establishment of creameries at a number of South Georgia points report that activity in the dairy industry.

As with the "golf fanatic," so with all who surround themselves helplessly with any form of physical exercise.

They may insist that the fatigue this occasion is only a "healthy tiredness." But it is noticeable that it disinclines them for creative thinking and makes work more rather than less of an effort for them.

Cases are not unknown in which physical culture, unwisely pursued, has been seriously harmful to the health itself. The "athlete's heart" is not a fragment of the imagination.

A little walking every day, an occasional game of golf, tennis, or other outdoor sport will most assuredly help to bodily and to mental fitness.

It effects a heightening, not an impairing, of working ability. And this it will continue to effect so long as interest in exercise and in physical culture is held subordinate to other and more important life interests.

The Miracle Worker For The Housekeeper

Wouldn't it be fine if you could cook a real nice dinner and go calling, or shopping, or to the movies, or to a baseball game at the same time?

Well, you can do that very thing. There are thousands of housewives who are doing it every day. This has been made possible by the perfection of the electric range, which will cook a meal exactly right during your absence, and have the meal piping hot and ready to serve at any time you may beforehand determine.

The electric range is the most perfect, most efficient and most wonderful cooking appliance ever invented or produced. It removes all elements of uncertainty from cooking. The temperatures are under absolute control and the same results can be secured every time by following the recipe. It is not only the most efficient cooking appliance ever produced, but its time-saving, labor-saving, drudgery-eliminating features make it altogether the most desirable cooking appliance possible for use under any and all circumstances. In addition to all of its other advantages it is economical in operation.

The special prices and special terms being offered during our electric range campaign, April 2-May 12, 1923, this wonderful appliance within the reach of every wide awake and up-to-date housewife. Our sales force is going to be rushed beyond its capacity during the latter part of this campaign. We therefore urge you to visit our display room at your earliest convenience in order to investigate carefully and thoroughly this miracle-working appliance.

Although several months have passed since the Mill township voted a bond issue of \$75,000 which will build a hard-surface road from Catawba river bridge to the northern limits of town and to improve other roads of the community, there is just now visible evidence that the hard-surface road soon will be started. The work has been delayed by the high prices of material and the uncertainty of federal aid. Monday afternoon the contractor went to the grading began work on a few hundred yards from the river bridge and for several days the machinery of the paving contractor has been arriving at the depot. It will be completed within three months. Then work will be begun, presumably by the same contractor, on Main and Tom Hill streets.

A \$300,000 school bond issue was defeated by a large majority in the City of Sumner this week. Those opposed to the issue stated that the amount was too large and would increase taxes too much, they also being more than the people could afford to pay.

Lieut. Dorgan H. Arthur, a native of Union, S. C., was lately killed last Tuesday at Langley Field, at Newport News, Va., when his airplane went into a nose dive about 300 feet from the ground. The young aviator was well known as Lieut. Arthur, and Mr. Alex Olyphant, of Chester, were boys together and both enlisted in the World War.

The spring communion service of the Fort Mill Presbyterian church will be observed on the second Sunday in May. The Rev. W. A. Hatten of Gaffney, former pastor of the church, will preach the communion sermon and the congregation is anticipating with pleasure the prospect of again hearing him. Fort Mill Times.

A Lovely Reception.

(Written for the News)

Wednesday evening after the Laobon-Ligon wedding, an elaborate reception was held at the home of Mrs. George Addison Wall, on Lancaster street. Receiving with Mr. and Mrs. Wall were Mr. and Mrs. Ligon and the entire bridal party. The guests included only the bridal party and immediate family. Mrs. Wall was lovely in black tulle and lace. Receiving at the front door were Misses Emily Stokes and Miss Lola Hardin, with Mrs. W. H. Lowrance and Miss Marie Walsh introduced the guests to the receiving line. Mrs. Clara Killian presided at the bride's register. Mr. George D. Wall and Miss Cora Hardin invited the guests to the dining room which was beautifully decorated in pink. The centerpiece on the table was a huge bowl of pink roses and ferns, with pink candles arranged around it. Cream and cake and mints were served, with the color scheme of pink being carried out in these details.

THE UNIVERSAL CAR

ANNOUNCEMENT

of Interest to

MILLIONS of FAMILIES

"I will build a car for the multitude"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over, Five Dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

"Our Family Medicine"
I WILL WRITE you in regard to Black-Draught liver medicine, as I have been using it more than 10 years, and a letter from Mr. S. F. Mints, of R. F. D. 2, Legend, N. C., "I keep it in my home all the time, for it is mostly pure vegetable remedy, and begins to feel feverish or sluggish with trouble from the liver or stomach, we take a dose of Theford's Black-Draught and the trouble is soon over. I mostly buy a dollar package at a time, and it has saved me many a bill."
Theford's Black-Draught is a purely vegetable remedy, acting on the liver, stomach and bowels. It is made from selected herbs and roots, and contains no calomel or other mineral drugs.
It has been found of great value in indigestion, stomach trouble, sick headache, constipation, and lazy liver, helping to relieve the symptoms caused by these conditions, and to put the digestive system into proper working order.
Get a package of Black-Draught liver medicine from your druggist or dealer, today. Be sure to get the genuine—Theford's.

As the wheels turn so progress is measured

WHEN man invented the wheel he straightened his back and lengthened his stride. Wheels milled his grain. Wheels helped him to lift burdens. Wheels moved him from place to place. But with wheels came friction and the need for lubrication.

Friction holds back; lubrication urges forward. Today millions of motor-cars, trucks, tractors and launches would be dead machines without a lubricant such as Polarine, the "Standard" oil for motor lubrication. Polarine is made from crude petroleum specially selected for its yield of lubricating stock. It lifts the load from delicate bearings, freeing power for the work to be done. Let Polarine protect your investment in automobiles from the attacks of friction.
