The Law of Economy

An apple bounced off Newton's head and inspired him to evolve the Theory of Gravity. The apple, therefore, comes to us as a force, a less forcefully—the inside workings of the Laws of Economy.

As sure as the apple hit Newton, the advertisements have a personal message of economy for you.

Merchants tell you of their bargains through advertisements.

Almost every new opportunity is offered through an advertisement.

Practically every unusual buy is advertised.

You save time and trouble by choosing what you want from the advertisements instead of hunting all over town.

You save money by keeping up with every opportunity to get full value in buying.

A FEW FLY FACTS:

To rid a town of flies, everybody must do his bit.

There are many kinds of flies—ALL HARMFUL.

Flies breed in filth, feed on it, live in it, contaminate everything they lay their hairy little legs on.

The time to begin a campaign against flies is before any have been seen in March or in April of each year.

A pair of flies born in April may give origin to millions by August. Do not let those millions come into existence.

Keep the first pair from breeding.

Strict cleanliness and immediate destruction of all filth are the best measures against flies.
