This Article is brought to you for free and open access by the Winthrop University McNair Scholars Program at Digital Commons @ Winthrop University. It has been accepted for inclusion in The Winthrop McNair Research Bulletin by an authorized editor of Digital Commons @ Winthrop University. For more information, please contact bramed@winthrop.edu.

The Winthrop McNair Scholars Program prepares first generation, low-income, and underrepresented undergraduates to be successful in PhD programs through a variety of resources and supports including research experience, workshops, graduate admissions assistance, test preparation and travel to present research and explore graduate programs. The program began in fall 2009 with its first federal grant.

Winthrop's program is funded through 2018 by a renewable TRiO grant from the U.S. Department of Education (PR/Award No.: P217A130111). \$226,600 in federal funding is provided each year to help 30 eligible, outstanding students complete research and prepare for graduate study. This year, federal funds represent approximately 72% of program costs. Winthrop and the Winthrop Foundation will contribute the remaining 28% of the budget with over \$85,000 in cash and in-kind matches.

Each year, the twelve-member Winthrop McNair Advisory Board selects new Scholars through a highly competitive application and interview process. All Winthrop McNair Scholars complete an intensive summer research internship in their first year. Several Winthrop Scholars have earned awards for their research and several Scholars' work has been published or is in preparation for or under review for publication.

Winthrop's program is successful because of the excellent work and persistence of our Scholars; expertise of our Mentors; dedication of our staff; support from our Dean; funding from the U.S. Department of Education, our institution, and foundation; and guidance from our Advisory Board.

2016-17 Winthrop McNair Advisory Board Members

- **Dr. Adolphus Belk** - Professor, Political Science
- **Dr. Tyrone Ceaser** - Assistant Professor, Exercise Science
- **Dr. Heather Evans-Anderson**, Associate Professor, Biology
