GREENVILLE MAN GIVES A MILLION FOR CHARITIES

There is on this continent almost every variety of scene that the wide world can furnish. There are mountains which for majesty and grandeur cannot be equaled in any other country; stately rivers, magnificent lakes, boundless woods, mighty waterfalls. In spite of improved highways and cheaper transportation this vast heritage is not appreciated as it ought to be. We are always seeking for those things which are in the clouds, not for those that lie at our feet. It is not that which we hold in our hands or store away that makes up wealth, it is the faculty of fully appreciating and enjoying those things without which the world would be a vast sterile tract devoid of beauty as the Moon with its oceans of ashes and burnt-out craters, which nothing can redeem.

BANKER DROWNS AS CAR TURNS OVER IN RIVER

Florence, April 30.—The “Jews Review” received from its special correspondent at Dillon, S. C., the news that W. L. Buck, prominent banker of Rowland, N. C., and Mullins, S. C., had been drowned when a large closed car which he was driving from Dillon to Rowland plunged through the heavy iron railing of the Little Pee Dee river bridge three miles north of Dillon this afternoon at 4 o'clock. The water completely covered the car and a derrick was used in lifting the car and its lone occupant back on the highway. It was until last week Mr. Buck had served the Bank of Mullins as its president. Yesterday the Farmers and Merchants Bank of Rowland of which Mr. Buck was cashier, closed its doors for investigation by the bank examiner. Mr. Buck is about 41 years of age and is survived by a widow and two children.
SPECIAL NOTICE!

We have just installed an Automobile Wrecking Crane.

ANNOUNCING OUR THIRD ELECTRIC RANGE CAMPAIGN

It is our pleasure to announce to our customers the opening, on Monday, May 4th, of our third Electric Range Campaign. This year's campaign excels all our previous campaigns in every feature—in values, in terms, in variety of ranges, and otherwise.

The line of ranges offered by us during this campaign is not surpassed anywhere in the country—a range suitable for every home.

The special prices during the campaign are for ranges installed—prices are the floor prices of similar ranges in 60 per cent of the cities of the United States.

Terms: $20 cash—balance in 18 monthly, or 25 weekly payments. These terms will enable you to pay for the range you want easily and without inconvenience.

In addition to the extraordinary values and special terms we are going to make an allowance of $10 on any old wood, coal, oil, or gas ranges displaced by electric ranges sold.

Nearly 2,000 customers in the communities served by the South Carolina Public Utilities Company are doing their cooking on electric ranges. This means that 2,000 households have been relieved of stoppage and discomfort that are necessary incidents in the operation of coal, wood, or gas ranges. It means that 2,000 families in these communities are healthier and happier as a result of better-prepared food and less work of the householders.

Every housewife will find that her cooking is more economical. Every housewife will find that there is less waste. Every housewife will find her cooking more palatable. Every housewife will find that her food is better prepared and more sanitary.

Every housewife who has any knowledge of modern electric ranges is ambitious to have one in her home. The prices and terms offered by the Southern Public Utilities Company are so very attractive that no one would be satisfied with anything less. Consumers everywhere are doing their cooking on electric ranges. Every housewife who wants the best in the way of cooking is invited to inspect the complete line of ranges and have her opinions explained to her.

Will Require Settlement of Accounts by 10th of Month

Due to the fact that we must pay cash for our gasoline and also the fact that our dealers' terms are being accelerated, we are doing our cooking on electric ranges. This means that 2,000 households have been relieved of the burden of discomfort and discomfort that are necessary incidents in the operation of coal, wood, and gas ranges. It means that 2,000 families in these communities are healthier and happier as a result of better-prepared and more palatable food.

Every housewife who has any knowledge of modern electric ranges is ambitious to have one in her home. The prices and terms offered by the Southern Public Utilities Company are so very attractive that no one would be satisfied with anything less. Consumers everywhere are doing their cooking on electric ranges. Every housewife who wants the best in the way of cooking is invited to inspect the complete line of ranges and have her opinions explained to her.
