OLD CLOTHES

With all the carriages of the world... It is even better than the Overall campaign...

There has already appeared in Paris... But if we wear our old clothes... It is the public, not the profiteer...

The present craze of vulgarity in money spending is a reaction from the spell of thrift and saving... The only thing we can do is to retrace the existing wave of swiftness...

Especially let the wealthy and the well-to-do realize their responsibility... AT \$2 A DOZEN THESE EGGS WERE REGARDED CHEAP

New York, May 18.—The people of Detroit are undaunted by the price of eggs... "For some time," said Mr. Sawyer...

"Following the collision there was the unmistakable odor of good old Scotch... "What's the matter?" asked someone...

"Don't attempt to burn the candle at both ends... "Well, it's this way: I am going to save it until I get home..."

Found—Automobile tire and rim pumped up... E. R. P. D. 2.

THERE'S A LIMIT TO THE PUBLIC PATIENCE

Two remarkable addresses were made to labor bodies in Massachusetts in the last few days...

"Strikes," he said, "are relics of the dark ages... "In former days the employer was able to dictate whatever terms of employment suited him...

After suggesting to them that they were creating conditions which might react to the disadvantages of labor, he asked his hearers if they appreciated that today one-half of the people in America were schooling themselves to economic life...

Then he took at mine, he exclaimed... "There is a limit to public ability to pay and a limit, too, is the public patience."

THE BOLL WEEVIL. Past Has Already Shown Up in Hampton this Year. The boll weevil has already put its appearance in Hampton county in the year 1920...

Don't meet the caller with a frown. Don't smile up to a customer and approach with brisk steps...

Don't rely on price as a sale's argument. Don't make comparisons with other goods of less quality or value...

Don't attempt to burn the candle at both ends. Don't think you are a past master and the customer's "dummy"...

For Sale—Thoroughbred, Duroc Jersey cock, Entitled to Champion... E. R. P. D. 2.

MONEY IN ROADS

THE farmers and business men of Chester County have realized the benefits to be derived from good roads and there are very few people in Chester County today who are not advocates of good roads...

OUR roads must be maintained and it is the duty of every citizen to advocate proper maintenance. Are you doing your duty?

SLOW IN TAKING UP IMPROVED MACHINERY.

Why has the Southern farmer more readily adopted the use of large implements and machinery as a means of reducing labor costs and increasing production?

There are many reasons why the Southern farmer has been slow to take up the use of modern, tractor-like implements...

THINGS WE NEED

There are a great many things we need in these troubled times...

Adapted in our private affairs, we give the unfortunate a passing thought unless they burst forth in "socialistic agitation"...

HIGHER EARNINGS OF THE CITY LABORERS.

Too many children are being reared to be wasters, not makers; spenders, not savers...

TWO ACCUSED SLAYING TO GO ON TRIAL TODAY

Winston-Salem, May 19.—A true bill has been returned by the grand jury against Robert Baity and Spencer McNeill...

SPEAKER WOULDN'T LISTEN

Congressman Byrnes Was Barring the Republican. Speaker Gillett declined, last Friday to permit Representative Byrnes to come to an end today with the adoption of a resolution...

Just as he was nearing the end of his allotted time, Mr. Byrnes asked for five minutes more...

Mr. Byrnes challenged the investigating committee to summon General Pershing and learn from him that the committee might seem to know that we won the war...

Mr. Byrnes was speaking on his resolution, introduced today for appointment of a committee to investigate the whole series of inquiries he charged the Republicans with making...

TOBACCO NOT GOING TO JOIN J. BARLEYCORN IS DEGREE OF ITS MEMBERS

Washington, May 19.—Members of the Tobacco Merchants' Association of the United States in convention here were assured today by President Charles J. Eisenhelfer...

BAPTISTS CLOSE ANNUAL CONVENTION IN WASHINGTON

Washington, May 17.—The thirteenth annual convention of the Southern Baptist church, described as the largest in the history of the church, came to an end today with the adoption of a resolution...

An attack on the national board of censors was stricken from the report before its adoption upon the suggestion of Dr. J. W. Landrum...

Process made in the establishment of the theological seminary for negroes was reported to the convention and the project endorsed by two negro Baptist preachers...

SHOULD BE ON EQUAL FOOTING

The price of farm products will probably never again be reduced to pre-war levels. It is true that the prices of farm products dropped soon after the Civil War...

Living conditions in the country are as attractive as living conditions in the town and cities. The farmer is leaving the farm mainly because the nation refuses to invest in banking or other lines of business...

**PEANUT OIL MILL
TO HELP FARMERS**
The Carolina Peanut Oil Co. of Columbia, one of the new industries for

the state, is making an effort to assist the farmers in cultivation of peanuts as a side crop, emphasizing the use of a picker to the farmers of Richland county to save the planter the necessity of purchasing a peanut picker. The picker will be sent to each farmer planting as much as ten acres in peanuts. The new peanut oil mill will be ready for operation early this summer. The plant is now being erected on the company's site near the state fair grounds.
Farmers of Richland are being sent a letter on the subject of peanuts, which says:
"Our farmers in Richland county for the past generations have been depending entirely on cotton as a money maker. So did the farmers in Mississippi, Alabama and other states of the cotton belt, but since the boll weevil has put in its appearance in these states the farmers have been planting peanuts. And the farmers where Billy Boll Weevil has been

are in better condition than even before, due to the fact that they did not depend entirely on cotton.
"We do not put out propaganda against cotton. We are not trying to scare the farmers into planting peanuts, but we merely ask that they plant a few acres of the White Spanish peanuts in connection with their regular farm work.
"If you plant a few acres of White Spanish peanuts we would be very glad indeed for you to write us and let us know your acreage. We want this information in order that we may have exactly what to do this fall so that the farmers may be properly taken care of in regard to having their peanuts picked and marketed. It is far more profitable to plant peanuts than our farmers have any idea of. It has been proven in the west that they are a money making crop."
Found—Automobile tire and rim dumped up. Owner wants tire see G. R. Bell. 11 pd.

At the recent meeting of the State Democratic Convention, held in Columbia, Col. A. L. Gaston, of Chester, Col. Leroy Springs, of Lancaster, were selected as delegates to the National Convention from the Fifth District. T. B. Butler, of Chester, and R. E. Wylie, of Lancaster, were selected as alternates.

Mr. S. F. Sistrunk who has been Superintendent of the Swift Fisheries works in Chester for the past few years, has been transferred to the Greensboro, N. C. plant, which is quite a promotion. Mr. Sistrunk and family expect to leave Chester for their new home about June first.

Information from Rock Hill is to the effect that State Highway Engineers are expected there in a few days to make the preliminary survey of the Saluda road, which is the road from Rock Hill to Chester. As it is well known this road has been put in fine shape here, Chester to the York county line and now York county proposes to improve the road from the Chester line to Mecklenburg county. With Fairfield county joining on the south it now begins to look as if we will have an up-to-date highway from Columbia to Charlotte within the next few months.

AT DREAMLAND THEATRE

For the week beginning May 24th, a program is announced for the Dreamland Theatre that cannot be exceeded in any way at any other theater in this country. Special care has been taken to provide bills of unusual appeal—in appeal to all kinds of theater-goers.

For instance on Monday the offering will consist of two very attractive features and will include "The Heart" as well as "High Pockets." Tuesday it will be "Hunting Shadows" in addition to the mirth-provoking "Flat Broke" a Pathé comedy, which is being presented with great success at the famous Capitol Theatre, New York City. On Wednesday the program will be headed by Madam Nazimova, in the Metro production of "The Brat" an Oliver Morosco play which was originally presented on the speaking stage by Maud Fulton and holds the record for long runs in New York, Chicago and San Francisco, where it was presented for more than one hundred performances at the Cort Theatre. In "The Brat" Madam Nazimova runs the gamut of human emotions, and her character is that of a young girl who suffers from the machinations of a set of men and women known to the secret service as counterfeiter and who are a band of kidnapers and blackmailers as well.

It is said that Nazimova takes every advantage offered in this particular as she does more like acting than she did in "War Brides" or "The Green Dragon." She is supported by Charles Bryant and an excellent company. In addition to "The Brat" the Dreamland management will give "Fighting the Buck" and the new Prisms production, "Old Faithful" which itself is an attraction of world wide merit.

Thursday another triple bill will be the offering and it will consist of "The Prisms Agent," a rib-tickling laugh maker, "The Great Nickle Robertson" and the Fox News, showing pictures of the happenings all over the world. The bill for Friday will be announced later, while the program for Saturday is what is termed by the management to be the best given on the Dreamland scene, and it will include the famous "Fatty Arbuckle" and "Busby" feature in their funny comedy "The Garage." This comedy deals with the adventures of two men who are not keepers of a garage and a grocer who does but town constables and the first department as well. It is said to be the funniest thing ever done by these sterling comedians.

The other features will be "The Adventures of Ruth" and "His Musical Soap" a mechanical farce that was built for laughing purposes only. Adv.

The state democratic convention concluded its work yesterday morning shortly after 1 o'clock, after having elected delegates to the national convention, instructed to vote as a unit; and unopposed as to candidates. The convention turned a deaf ear to all pleadings for changing the party rules so as to allow women to participate in the primary this summer in the event the suffrage amendment is ratified, prior to the primary. The convention endorsed the administration of Woodrow Wilson and extolled the achievements of the democrats in highest terms.

PRICE CUTTING WAVE CONTINUES

Reductions in Wearing Apparel Sweeping Country Merchants' Interests Extend Their Campaign for Deflation of Credits.

Chicago, May 19.—The wave of price cutting in wearing apparel continued today to sweep the country, merchants in many cities and towns announcing reductions in men's and women's clothing, shoes, hats and other articles. While some merchants said the reductions could not be maintained if present stocks were exhausted, others declared the price cut were logical outcome of break in the western market, a backward season and a large stock on hand.

Owners of department stores in scores of cities and towns today announced price reductions. In men's and women's apparel ranging from 20 to 50 per cent, while in some places shoes and other articles were cut.

While the movement, which assumed nation-wide proportions yesterday, continued to spread, banking interests in New York today extended their campaign of deflation of credits and high commodity prices, carrying out their pledge to force liquidation by the banks in the wholesale dry goods and general merchandise districts was said to be responsible for the wave of price cutting in the retail trade.

Banks were reported to have notified importers and dealers in luxuries, articles of apparel and manufactures of only moderate financial accommodations could be extended now.

The price cuts largely were confined to wearing apparel, but a spread of the movement to other lines was indicated by the action of Omaha dentists in reducing the price of dental work.

SILK GOODS TAKE TUMBLE.
 Indianapolis, May 19.—Silk shirts and suits for men are the first articles of clothing to suffer radical price reductions in Indiana and several of the leading merchants of this city are offering men's furnishings today at from 20 to 30 per cent below former prices. One reliable establishment is offering silk shirts for men at \$4.95, or almost half their former price. Ready-to-wear clothing for women and children also are offered at greatly reduced prices.
 The leading store at Terre Haute is offering all men's and boy's garments and shoes at a reduction of 20 per cent.

DEMOCRATS OF GEORGIA
"SPLIT IN TWO" FACTIONS
 Atlanta, May 19.—Georgia democrats split into two factions at the close of the state democratic convention here early today, the majority refusing to endorse President Wilson's administration and electing unattached delegates to San Francisco and the other endorsing the administration and electing delegates pledged to support Attorney General A. Mitchell Palmer for president.
 Action of the convention itself was

made possible by a combination of the supporters of United States Senator Hoke Smith and Thomas E. Watson, who with Mr. Palmer ran in the presidential preference primary. After this body had adjourned the Palmer delegates held a meeting of their own and chose their delegates to San Francisco. The question of Georgia's stand this was put before national convention.

MICHIGAN DEMOCRATS
FOR WILSON AND LEAGUE
 Grand Rapids, Mich., May 19.—Support of the league of nations covenant and the Versailles treaty without amendment, and "unaffiliated" support of President Wilson, who has given all but life itself in the service of his country and the world, were included in resolutions adopted by the Michigan state democratic convention here today.
 Thirty unattached delegates to the San Francisco convention were selected, four by the convention and 26 by district caucuses.

Destruction Versus Construction.
 Here are two new items which appeared in the daily press the same day.
 At the brilliant art light is formed by bringing together two highly electrified points, so if you will juxtapose these two items they will shed a dazzling illumination throughout your mind, for they are highly charged with significance. To use Schiller's phrase they are lightning bolts, which means there is a lot in them.

Item 1. Secretary of the Navy Daniels at an executive session of the senate navy affairs committee urged sufficient appropriations to launch a naval buildings program on the Pacific coast so as to meet the warlike preparations which the Japanese are making.
 Japan is said to be heavily fortifying the Caroline, Mariana and Marshall islands, recently got from Germany. On one of these she is preparing a veritable Gibraltar. She is also increasing her fighting ships and airplanes.
 To meet this menace we are asked to appropriate \$10,000,000 as a starter toward improving the naval base at San Francisco, creating a submarine base at Los Angeles, fortifying Guam and Honolulu and obtaining our gun and whetting our sickle-knives generally.

Look, as Hamlet said, on this picture and then on.
 Item 2. The same day is reported a meeting of business men, scientists, publicists and the governors of four states (Stephens of California, Frazier of Arizona, Davis of Idaho and Banerberg of Utah) at Los Angeles, to consider one of the most gigantic engineering problems ever conceived. The reclamation of the Colorado river basin.

"That means to change a large portion of the earth's surface from desert to garden."
 The development (by dams) of 600,000,000 horse power to use for factories, railroads and the like, thus saving 100,000,000 tons of coal a year, and possibly as much fuel oil, thus being a step toward solving the problem that we are to do when the oil gives out.

"It means giving labor and homeland, to thousands."
 It means adding tons to the world's food supply.
 It means carrying out the original will of the Creator who put man on the earth to till and tend it.
 It means construction, cooperation, another advance toward the millennium.

Compare item one—gigantic, horrible waste—utterly useless if we had sense enough to join the nations of the world in a pact of general disarmament.
CENTRAL OF GEORGIA
CLERKS ON STRIKE FOR MORE PAY, NEW CONTRACT
 Atlanta, Ga., May 19.—Union clerks in the freight office of the Central of Georgia railroad company were out today in half a dozen cities and towns in Georgia, to enforce demands for a new contract and more pay.
 Members of the union quit work in Atlanta, Macon, Savannah, Columbus, Americus and Fort Valley yesterday, those at Griffin already having gone out. Their leaders asserted officials of the road had refused a conference demanded by the men May 14.
 Railroad officials declared the question of wages was before the federal railroad labor board in Chicago.
 Receiving of freight was badly hampered at the start of the walkout, but later officials claimed to be handling it in fair shape in most places and said they expected to get back almost to normal before tonight. About 350 men in all were out, according to press dispatches, which said that in some towns a few other employes had walked out with the clerks.

SENATOR THOMAS HEARD
IN PATCHED CLOTHES
 Washington, May 19.—Frankly confiding to his colleagues that the "bad" patched" Senator Thomas, democrat of Colorado, joining today in another senate broadside on profiteers, declared the people themselves, and legislation, must break the sweeping wave of high prices.
 The attack on profiteers was opened by Senator Kenyon, republican of Iowa, who urged, on criminal and criminal punishment for the offenders. Corporations principally and retailers were held up as prime profiteers. Some of these were characterized by the Iowa senator as robbers and traitors.
 "I want a shift toward the railing and the crowd in the gallery leaning forward to hear Senator Thomas' appeal for a return of the old-time prices."
 "I have on a suit of clothes four years old, somewhat patched, but still serviceable," he said, "as he stroked the sleeves of his coat, "and I cannot afford to buy a new suit. I do not propose to buy any more clothes until prices go down to a reasonable level. If I subject myself to damage by arrest for not wearing enough clothes on the streets of Washington, I am willing to go on corned beef hash and it corned beef hash. I will go without meat to bring down costs."
 Senator Thomas said he was not defending profiteers, that he believed they should be rigorously punished, but that he did not believe the ex-

ORIGIN OF BASEBALL
Commission in 1907 Decided That Game Fused on Sumner Devised Game.

The much-debated question of where the real game of baseball originated and who contrived the first practical scheme for playing the sport was settled for all time in 1907 by a commission consisting of A. G. Mills of New York, a well-known player before and during the Civil War, and the third president of the National League; the late Arthur P. Gougeon, one-time United States senator from Maryland; the Hon. Morgan G. Bulkeley former governor of and later United States senator from Connecticut; and the first president of the National League; George Wright, of Boston, and Alfred J. Reach, of Philadelphia, two of the most famous ball players of the old days. N. E. Young, of Washington, veteran player, first secretary and fourth president of the National League, of the late James E. Sullivan, of New York, the most famous executive who ever headed the Amateur Athletic Union, and several other gentlemen, after examining all procurable data, decided, first, that baseball had its origin in the English, and second, that the first practical scheme for playing the game was devised by Abner Doubleday at Cooperstown, N. Y., in 1839. Doubleday later was graduated from West Point, entered the regular army as captain of artillery and sighted the first fire on the Peninsula in the war between the states. The close of the war he was commissioned a major general.
 Next in order comes the first regularly organized baseball club, the famous old Knickerbockers of New York, about whose accomplishments there was much of the "romantic" for many years. Doubleday, a professional, said the cornerstone of presently organized baseball, the greatest sport in the world, was laid by the Knickerbockers of 1842 have not been handed down in pictures, but stories of the games which appeared in the olden prints carry more than a hint of silk stockings, silver buckles and immaculate knee breeches, with hats beautifully white cockades.
 It is probable that they did not stage much of the game of baseball compared with the sport as played today. Doubleday later was graduated from West Point, entered the regular army as captain of artillery and sighted the first fire on the Peninsula in the war between the states. The close of the war he was commissioned a major general.

Battery Dependability
 The war proved conclusively the great importance of the motor car. It also proved the importance of the starting and lighting battery. On a vast number of cars used by American officers in the field of operations the

"Exide" Starting & Lighting Battery
 was used as the power supply for automobile starting and lighting.

The "Exide" will serve you just as faithfully as it served the United States Government in time of war. Made by the largest maker of storage batteries in the world, the "Exide" Battery represents the last word in storage battery design and manufacture. The "Exide" costs most to make, but least to use. Come in and let us show you why the "Exide" that is made to meet the specific demands of your starting and lighting is the right battery for your car.

STOMACH TROUBLE
 Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I could be satisfactorily. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard
