CHILD CULTURE

By M. Adlington Bruce

You want your child, I take it, to grow up brave, energetic, honest, kind, capable and true...

"It is because many parents are not willing to give the necessary thought that the world abounds in 'spoiled children'...

"On the other hand, if rearing by prohibition including nagging, scolding, persistent fault finding is a thoroughly mischievous policy...

"I once knew a girl in a large American city who boasted that she could make her father give her a Packard...

PLANT VELVET BEANS IN CORN

Clemson College, May 27.—The 38 per cent decrease in the wheat crop together with a tremendous shortage of other foods...

"The velvet beans are always required by planting early in the spring, but they interfere less with the growth of corn when planted about one month after the corn...

"Because, let me remind all, child study is by no means the fad some people regard it. It is really a necessity if we are to have efficiently reared children—more than ever...

PRESIDENT WILSON'S PLAN IS ACCEPTED

Wilkesbarre, Pa., May 27.—Declaring that "class legislation" was being done, the miners of the anthracite coal fields...

"Other business transacted by the conference included the fixing of the salary of the president at \$24,000 per annum, with expenses.

HOW FAR WILL PRICES DROP?

This is the entertaining subject under discussion by the Mechanics and Metals National Bank of New York...

"In a word, you want him to have human qualities and many virtues. You do not clearly appreciate that the extent to which he will have these is determined chiefly by the way you rear him...

"There are numerous forces pulling both ways at prices: Tending to pull them down are the shortage of credit, the low price of raw materials...

"When the soy beans is compared with the cowpeas it is more valuable in many ways. It collects more nitrogen from the atmosphere than the cowpeas...

TUESDAY, JUNE 1.

Better marry a heartless man, than one whose heart is so big that one love simply won't fill it.

Receipts for success in marriage: Keep perfectly still, and look pleasant—as the photographer says.

The success of a flirtation, as of any other comedy, depends entirely upon the grace and ease with which you make your exit.

A man's idea of "conversing" with his wife is to preserve that "interested" look while he waits for her to finish speaking, so that he can go back to his newspaper.

The only times when a man makes love with real enthusiasm and abandon are at seventeen, when he doesn't know what he's risking, and at seventy, when it doesn't matter.

About a year ago the editor of The News paid Chester's slaughter pens a visit after which The News published a few facts in connection with the condition of them. We asked "somebody" to take action but if anything was ever done no one ever heard of it. Possibly "somebody" thought The News was trying to run the city—well The News does not care what they thought for that matter. The News felt that it owed the people of Chester some publicity about where their food was coming from and we gave it them.

Anyway, The News knew that when the city officials of Chester arranged the fact that they had employed health officers the slaughter pens were doomed. We have just been waiting—and Saturday Captain Boldridge did a big day's work for the people of Chester when he "clamped down" on the slaughter pens. Captain Boldridge, The News is with you—clean up the town no matter how some people may "holler." Sooner or later they will all be with you.

LEGION OF GREENVILLE OPPOSES WITHDRAWAL.
Greenville, S. C., May 31.—By an overwhelming majority the Greenville post of the American legion tonight voted to instruct its five delegates to the state convention to be held in Spartanburg June 15 to oppose the proposed withdrawal of the South Carolina department from the national organization. The motion was passed only after a heated discussion which lasted two hours and during which the majority of mem-

bers left no doubt as to their stance in opposition to any move toward secession.

While admitting that the national executive committee had gone beyond its authority in demanding a cash bonus of Congress, the members of the local post expressed the opinion that this one matter should not cause a split between this state and the national legion, an effort, believed to be coming from a bolshevik element, to disrupt the American legion was condemned.

Are You a Typical American

—continually "on your toes", accomplishing "big things" with true American vigor—quick-witted, keen-eyed—healthy? Americans, as a rule, enjoy good health, which is one of the secrets of their universal success. And good health is often maintained simply by proper attention to details of hygiene, such as strict internal cleanliness. If the food waste is not properly eliminated, poisons are formed which break down vitality and impair your physical energy. Keep these dangerous toxins moving out of your body. Nujol will help you. Nujol works on an entirely new principle. Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system. Nujol thus prevents constipation because it helps Nature maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Nujol is absolutely harmless and pleasant to take. Try it. Nujol is sold by all druggists in sealed bottles only, bearing Nujol Trade Mark. Write Nujol Laboratories, Standard Oil Company (New Jersey), 26 Broadway, New York, for booklet "Thirty Years of Danger".

NOTICE OF ELECTION.

Whereas there has been lodged with the County Board of Education a petition signed by more than one-third of the resident electors and by a like proportion of the resident freeholders over twenty-one years of age, of Edgemoor school district, No. 11, asking that an election be held under Section 1742, of the general school law of South Carolina, for the purpose of voting a special annual tax of four (4) mills, supplementary to the eight (8) mills special now levied in said district, and a special levy twelve (12) mills, to be used for school purposes in said district.

It is, therefore, ordered that said election be held at W. C. Mumery's Store Saturday, June 5th, 1920, from 7 A. M. to 4 P. M., by Dr. J. N. Gaston, J. D. Glass and L. S. Lyle, the trustees of school district, No. 11, as managers.

"At which said election only such electors as return real or personal property for taxation, and who exhibit their tax receipts and registration certificates as required in general elections, shall be allowed to vote."

"Each elector favoring the proposed levy shall cast a ballot containing the word "Yes," printed or written thereon, and each elector opposed to said levy shall cast a ballot containing the word "No," printed or written thereon.

By order of the County Board of Education.

We do not know just when the road between Chester and the Court House will be worked, but we do know that it is "some rough" road to travel. We would almost be willing to wager our last summer's crew had that a rougher, bumpier piece of road cannot be found east of the Rocky mountains. And to think this road is one of the most important leading out from Chester.

We have made a wonderful reduction on all ladies' ready-to-ear. The Rodman-Brown Co.

Increased salaries for postal employees amounting to approximately thirty-three million dollars for the first year, effective July first, were recommended in a report to Congress yesterday by a joint congressional commission.

A matter of concern to many towns is the damage being done to asphalt streets on account of gasoline. Gasoline is one thing that will seriously damage asphalt, having a tendency to soften the asphalt, which causes it to wear badly. The greatest trouble along this line will be experienced around gasoline filling stations which are located on the edge of the sidewalks.

We are showing a complete line of white gardenia and tricotone wash silks. The Rodman-Brown Co.

Patience Art needles, which were demonstrated at Whitt's last week, can be had there. You will be shown how to work them. They work best with Royal Society thread.

Nellie McCollum, colored, said to be about 110 years of age was burned to death about nine o'clock yesterday morning when the house in which she lived caught fire and burned down. She resided in the Leeds community. Coroner Gladden was advised of her death but the circumstances did not warrant his holding an inquest. The coffin was furnished by the county, the old woman being an outside pauper.

80 Boys' and men's popular skull or pompadour caps. 50c at Klatt's.

Two political campaigns are to be waged in the state this year, according to announcements made by the state democratic committee's subcommittee on literature yesterday, one for the state officers and another for senatorial candidates. The state official's campaign will start at Columbia June 22nd. The senatorial

campaign will start at Sumter on June 22nd also. The candidates for state offices are scheduled to be in Chester on August 13th, and congressional and senatorial aspirants west of June 28th.

Quality georgette and crepe de chene, 40 inches wide, new goods, special \$3.98 at Klatt's.

The aviator who arrived in Chester Saturday to give exhibition flights and also to take Chester people up, arrived on schedule time, but did very little business Saturday, it being stated that only one Chesterite "went up" on that day. The aviator's business was considerably better Sunday afternoon, the machine making several flights during the afternoon. The charge was fifteen dollars for fifteen minutes.

Ladies. We have a wonderful assortment of colored voiles and organdies. Come and see them. The Rodman-Brown Co.

Mr. T. C. O'Donnell has accepted a position with The National Exchange Bank. Owing to such an increase in business this bank will soon have to put in three windows for the benefit of its customers.

Mr. W. E. Haflner, of Greenville, Texas, is visiting friends and relatives in Chester.

Big Display of new silk, voile, organdy, crepe de chene and georgette dresses just arrived at Klatt's.

Mrs. Jennie Groeschel, of Atlanta, Ga., spent yesterday in Chester, en route to Charlotte where she will be joined by her daughter, Miss Mae Groeschel, who will accompany her to New York on a visit to relatives.

In conversation with a reporter for The News this morning, Mr. Walter Simpson stated that he had just received a letter from his son, Mr. Gary Simpson, who is still in the U. S. Navy, being on the U. S. S. Pittsburgh, stating that he was at Constantinople, Turkey, and from there would enter the Black Sea. This would enter the Black Sea. This information was made up of all kinds of people. He also stated that Venice, Italy was the best place they had found since leaving America.

Mr. W. R. Conrad, a Confederate veteran, died at his home in Chester Sunday afternoon, age seventy-four years. Mr. Conrad was a native of the McDonoughville community and had many close friends in Chester and throughout the county. He was a faithful member of the Presbyterian church. The interment was made in Zion graveyard at Lowerville yesterday morning, the services being conducted by Rev. P. H. Riddle, and attended by a large concourse of friends and relatives. Mr. Conrad is survived by his widow and one son, Mr. John Conrad, of McDonoughville; and a brother, Mr. J. A. Conrad, of McDonoughville, and two sisters, Mrs. Sam Barriss, of McDonoughville, and Mrs. Alex Gladden, of Oklahoma.

ROCK INSIDE COTTON BROUGHT NEGRO \$35

York, S. C., April 31.—A 97-pound rock packed inside a bale of cotton brought Alexander Wilson, negro of the White Hill section, about \$35 when sold last fall to a York dealer. The buyer but this new method of converting useless granite into coin of the realm has disgraced the York market. Wilson was arrested in Charlotte, where he was employed at a hotel, a few days ago and brought to York to explain just why he thought a rock should be worth 35 cents a pound to spinners. His view on the subject, however, have not yet been made public. The well-known farmer, went on his bond for \$200 and trial of the case was deferred.

The Chester County Letter Carriers Association which met at the Court House yesterday elected the following officers for the ensuing year: Jno. C. Moore, President; Thos. J. Robbins, Vice President; and W. S. Dunham, Secretary and Treasurer. The following were chosen delegates to the State Convention at Sumter in July: Jno. C. Moore, Thomas Cahart and C. B. Jarman, alternates—W. H. Ragdale and M. W. Roddey.

The Courser house and three acres of land on Brawley street has been bought by Dr. R. H. McFadden from Mrs. D. H. Drizin. Dr. McFadden now owns the entire property on the north side of Brawley street between the two railroads and expects to develop the same in the near future. The street has the making of one of the prettiest streets in Chester.

The Chester Free Library was opened to the public today. The library contains approximately 1,500 volumes. The library committee is as follows: Mrs. John G. White, chairman; Miss Mary Sledge, H. S. Adams, A. L. Gaston and C. R. Edwards.

From appearances there will be a small number of voters casting their ballots at the election being held at the Court House today, as the issue of \$10,000 in bonds for the improvement of schools in Chester and the increase of the special levy from nine mills to fourteen mills to provide additional revenue. The poll close at four o'clock.

James Benson, colored, who died Friday at his home on the York road, was buried Sunday, the funeral services being held at the Methodist Episcopal A. M. E. Zion church on upper York street. Benson was one of Chester's best colored citizens and had the respect and esteem of both white and colored people and will be missed by both.

RAILWAY CLERKS REFUSE TO WORK

Movement of Freight Hampered in South.

Atlanta, May 31.—The strike of railway clerks on half dozen railroads in the Southeast continued in effect today, with movement of freight badly hampered at many points. Reports from Montgomery and Savannah that there had been additional to the ranks of the strikers but from DeKalb and DeKalb, Ala., and Albany and Millen, Ga., come reports that the clerks there had returned to work. Dispatches from Montgomery to the effect that E. H. Fitzgerald, president of the clerks union had sent a message from Cincinnati calling off the sympathetic strike on the Atlantic Coast Line railway, could not be confirmed here.

All roads entering Atlanta except the Seaboard Air Line railway are affected by the strike which began several weeks ago on the Central of Georgia. The latter, which has been filling the places of the absent clerks reported today that more new employees had been hired and today its offices here than were needed. The Seaboard however, announced it could receive no freight today because of accumulation of freight on other lines, but it was expected to get back to normal tomorrow. Thousands of dollars worth of freight is held up here by the strike, according to local business men.

The clerks on the Central went out claiming the road refused them a conference regarding wages and a new contract. Officials of the road asserted the walkout was not authorized by the national union officers. Members of the union here said since here today but nothing was announced.

THREE HURT IN DUAL ON TRAIN

Monroe Traveling Men Empty Guns at Each Other. Two Other Passengers Are Injured. Victim of One Man Involved in Row.

Monroe, N. C., May 30.—In a shooting affray which occurred in the day coach of Seaboard train No. 20 here this evening at 6 o'clock, Carl Medlin received three wounds, one in the face, one in the shoulder and one in the side; H. M. Treadaway, of this a passenger on the train, was shot through the leg, and another passenger was wounded in the foot while traveling salesman, living here, participated in the shooting.

The other victims were innocent bystanders. The shooting was the continuation of trouble which started last night at the home of Medlin's sister, it is said.

The version of the affray which most of the witnesses seem to corroborate, is that Kendall was here last night and got into some trouble with other members of Medlin's family. He went early this morning to the home of his father at Indian Trail and he with his father were on train No. 20 going to some point in eastern North Carolina. Medlin boarded the train here and when he saw young Kendall drew a pistol from his pocket and fired five or six times directly at him.

As quickly as possible Kendall returned the fire and in the shooting the other two passengers were hit. No one seems able to say by which gun.

When Kendall's gun was emptied he ran from the car and he has not yet been apprehended. It cannot be ascertained whether he was hit. Medlin walked from the train and reloaded his gun. Officers arrived and took him in charge, bringing him up to a doctor's office where his wounds were dressed. He is right painfully hurt, but not dangerously so. The whole affair occupied but a few seconds while the train was standing on the yard here and anything like a coherent report is difficult to get.

PLAN TRIP AROUND HARBOR

Representative Whaley Makes Preparations for Visitors.

Washington, May 28.—Representative R. S. Whaley has secured permission from the Navy Department for the convention of United Commercial Travelers of North and South Carolina, which is to meet at Charleston June 10 to 12, to go around the harbor and up to the Navy Yard on one of the patrol yachts, at the discretion of the commandant of the Sixth Naval District. These yachts will come from all parts of the Carolinas and many of them from the interior, and they will enjoy the opportunity of viewing Charleston's harbor and the Navy Yard in this most advantageous and agreeable way, it is believed.

CROP REPORT SHOWS COTTON CONDITION BAD

Columbia, May 28.—The crop report issued by the American Cotton Association from its headquarters in this city today gives the condition of cotton on May 25 as 67.2. The report declares that the weather has been extremely unfavorable over most of the belt until the middle of May, so that the crop is from four to five weeks late, the preparation very poor and the stands badly broken.

"This," says the report, "under present insect conditions and the great shortage of labor is an extremely serious feature and will probably more largely reduce the production than similar conditions have ever reduced it in the past."

Concerning acreage, the report says: "Acreage shows a small decrease compared with last year. However, there was an acreage abandonment last season as shown by the government over 6 per cent. Under existing conditions almost an inevitable certainty that the acreage abandonment will exceed all previous records on account of the high prices for food products and the absolute certainty that the world is feeling a great shortage in food. The producers are urged to give careful heed to the loss they face from abandoned cotton acreage and are accepting the recommendations of the American Cotton Association to replant their acreage on which there are poor stands of cotton and probability of abandonment in food crops and are intensifying their efforts to increase production on the remaining part of their acreage."

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING

The experience of Mr. E. J. Tomalik, 1628 Rose street, La Crosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief.

"This winter I was taken with Grip and was in awful shape. My doctor advised me to take FE-RU-NA. By the time I had used three-fourths of a bottle, the coughing was gone, also that terrible feeling. I am on my second bottle. Hereafter, FE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose.

"For any disease due to catarrh of catarrhal conditions, FE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach, trouble, constipation, rheumatism, pains in the back, side and loins, flatulence, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which FE-RU-NA is especially recommended.

FE-RU-NA can be purchased anywhere in either tablet or liquid form.

CO-OPERATION OF THE RACES IN EFFORTS TO SOLVE PROBLEMS URGED

Speakers Heard at Opening Session of Negro Advancement Association Meeting in Atlanta.

Atlanta, May 30.—Efforts for co-operation of the races in efforts to solve the problems before them was voiced by speakers at the opening session here today of the national association for the Advancement of Colored People. The organization is meeting in the south for the first time in its history.

The sessions will be held in Bethel church, one of the leading institutions of the race in this city, and today's audience was composed almost overwhelmingly of negroes.

Moorfield Storey, president of the national organization, was unable to attend, and Arthur B. Spingarn, vice president, presided at the opening session, reading an address from Mr. Storey. Governor Doremy also was absent, being called from the city. The speakers included Mayor Key, Rev. M. A. Jones and J. W. Johnson, general secretary of a national organization.

"The problems of the south," declared Mr. Storey in his address, "is to carry on within her body two separate races equal in civil and political rights and nearly equal in numbers. She must carry these races in peace, for divided means ruin. She must carry them separately, for assimilation means debasement. She must carry them in equal justice, for to this is pledged in honor and in gratitude. She must marry them, even to the end, for in human probability she never will be quite of either."

The five principal demands of the national association for the advancement of colored people were set forth by James H. Johnson, a negro leader, as:

Guaranty of safety of life by the abolition of lynching.

Demand for equal educational and industrial opportunities.

Demand of the ballot under the same qualifications as for others.

Abolition of segregation.

Abolishment of the "Jim Crow" acts.

TRIES TO KILL SELF

Girl in Greenville Uses Silk Stocking and Fall.

Greenville, May 30.—Silk stockings may be very good for ornamental purposes but as the means to suicide they are worth little.

A 22 year old girl, dressed neatly and placed in the city jail on a charge of having become intoxicated in a local hotel, attempted to hang herself with her silk hose in her cell here. The stocking stretched under her weight and permitted her feet to bear a good portion of her weight on the floor. In that condition the police found her and talked her out of the idea of leaving the cruel world behind just now.

LIVER DIDN'T ACT

DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

"Manchester, Ky.—Mrs. Cynthia Fugittobham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago my stomach was all out of fix. It was constipated, my liver didn't act, my digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for such trouble. I began taking it. I felt better after the first dose. My appetite improved and I became stronger. My bowels acted naturally and the last trouble was soon rectified with a few doses of Black-Draught."

"Seventy years of successful use has made Theodor's Black-Draught a standard household remedy. Every member of every family, at times, need the help that Black-Draught can give in cleaning the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. Ten cures have well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package. Get your best of dose All druggists."

Battery Dependability

The war proved conclusively the great importance of the starting and lighting battery. On a vast number of cars used by American officers in the field of operations the

"Exide" Starting & Lighting Battery

was used as the power supply for automobile starting and lighting.

"The Exide" will serve you just as faithfully as it served the United States Government in time of war. Made by the largest maker of storage batteries in the world, the "Exide" Battery represents the last word in storage battery design and manufacture. The "Exide" costs most to make, but least to use. Come in and let us show you why the "Exide" that is made to meet the specific demands of your starting and lighting is the right battery for your car.
