## SAYS POWER TO MONOPOLIES IS PURPOSE OF REPUBLICANS

Washington, May 15.—Senator Simmons asserted in the senate and in private today that the newspapers of the country—especially those that claim to be democratic or independent—are not giving their readers sufficient information on the tariff. He said the press dispatches give no adequate idea of the wickedness in the Fordney-Cummins measure which, he charges, was drawn for trusts and monopolies of this country.

"I hope that the people can be aroused to the iniquities of this measure," said Mr. Simmons, "but they will not be if they just get the Associated and the other press dispatches. After a careful study of the measure I am convinced it is the most dangerous legislation of the kind offered to Congress in many years. The public has not realized just how bad it is. Its real purpose is to give the trusts and monopolies more power. I find that the articles of the monopolies are protected to the minutest detail."

"It amazes me," added Mr. Simmons, "that the democratic newspapers have not taken up this bill and analyzed it for the people, publicity is the only thing that will kill it or modify it."

Senator Simmons explained that his communications indicate that the people back home are beginning to wake to the import of the Fordney-Cummins bill. They see that it is drawn for special interests, and will prove expensive to labor and burdensome to the ultimate consumer.

"The honest industries of this country," declared Mr. Simmons, "are not asking for this legislation. They do not want any such tariff revision. Those who are asking for it are for exploitation. Those who have killed domestic competition are now trying to erect a tariff wall against foreign trade."

The tariff bill has undergone many changes within the last few weeks and most of the amendments have been for the benefit of monopolies. Senator Fordney-Cummins, of New Jersey, a recent recruit to the finance committee, has proven that his influence is greater than that of older members. In a battle with Senator Smith, one of the oldest members of the committee, he won a victory for the makers of dyes and explosives by adding an amendment to place a duty of one cent a pound on dynamite.

COAL SUPPLY GETTING LOW

With Strike Six Weeks Old, Production Is 3,000,000 Tons a Week Less Than in Strike of Last Year—Independent Consumers Becoming Anxious.

Washington, May 15.—With the coal strike six weeks old, tomorrow's total production is 3,000,000 tons a week less than in the strike of three years ago. The operators' expectation that a month's idleness would break the ranks of the union miners has not been realized and storage reserves available to the average consumer are rapidly nearly depleted.

When the strike began on April 1 estimates of the country's reserves ran from 40 to 60 days consumption. Tomorrow is the forty-second day, and while the United States Steel Corporation, with its five million-ton reserve is adequately supplied, the independent consumers are becoming anxious.

## ARRESTS FOLLOW BOMBING IN CHICAGO

Gigantic Movement by Police to Wipe Out Murders and Bombing Growing Out Labor Wars—Two Policemen Killed.

Chicago, May 10.—A gigantic movement in which all the police of the city is employed, was begun today to wipe out murder and bombing growing out of labor wars. More than 200 labor leaders had been arrested tonight and rewards aggregating \$50,000 have been offered for those connected with the slaying of two policemen following the bombing of three buildings early today.

"The slaying of two police officers on duty is the inevitable result of tactics employed by these alleged labor leaders," said Charles Fitzmorris, chief of police. "Now that they want war with the police department they shall have it."

Orders for the arrest of all persons who might be implicated in the crime, was immediately issued. More than 5,000 police were instructed to make arrests.

Among the first prisoners brought in were Timothy Murphy, labor agitator, and a long court record. Fred Mader, president of the building trades council and Conrad Shea, head of the Teamsters' union.

The authorities do not believe either of the three actually threw bombs, but they charge them with leading the mob. Orders for the arrest of all persons who might be implicated in the crime, was immediately issued. More than 5,000 police were instructed to make arrests.

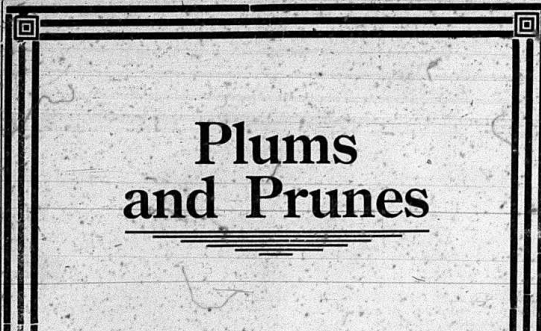

THE CANDLE LIGHT

How far that little candle throws its beams,  
How far, how far,  
How down the long, long years there streams  
Its golden hair!

O little candle, how your flame so  
Once pierced the gloaming of the coming night,  
And beckoned home my footsteps  
With the light.

GETS LIFE SENTENCE FOR MURDER OF HIS MOTHER

Harsham, Miss., May 12.—Millon Drury, 24 years old, placed on trial here today on a charge of having killed his mother, Mrs. Ada Drury. Convicted, whose charged body was found on a lonely road near here on February, pleaded guilty today and was sentenced to life imprisonment.

The good things of this world have to be planned for, worked for, struggled for. There is no easy road to success. The plums are few—the prunes many.

## WINNING GOOD WILL

By H. A. Haddington Bruce

Well established business houses, as you probably know, account "good will" as among the most real and valuable of their assets. New business houses, if properly managed, endeavor from the outset to make good will a real and valuable asset to themselves.

For, without good will no business house can long endure. With good will it may attain to a prosperity far exceeding its founders' fondest hopes.

First and foremost must be that the gaining of good will is just as important to every individual who has to make his way in the world as it is to business houses. And you are aware that good will can be gained by individuals precisely through, and only through, the methods whereby business houses gain it.

What are those methods? First and foremost must be that the gaining of good will is just as important to every individual who has to make his way in the world as it is to business houses. And you are aware that good will can be gained by individuals precisely through, and only through, the methods whereby business houses gain it.

## POLICEMEN ENGAGE IN PISTOL BATTLE

Williamston Officers May Be Fatally Shot.

Greenville, May 13.—S. S. Hale, chief police, and Ryan Cox, night policeman of Williamston, engaged in a pistol-duel at Williamston this afternoon in Spring park about 7:30 o'clock and both are probably fatally injured as a result of their wounds. Chief Hale sustained a serious wound in the lower abdomen, while Cox is wounded in both the abdomen and throat. They were rushed to the city hospital at Greenville. It was stated by bystanders that the scene of the fight took place near the scene of the fight that Cox carried the chief and went for his gun, but the chief was faster. Both men went down after several shots were fired by each, according to information received here early today.

Chief Hale is 48 years old and a native of South Carolina. He has a wife and four children, while the latter is unmarried.

Furman Considers Severing Athletic Relations With Clemson College.

Greenville, May 12.—As a result of what Furman baseball players and members of the athletic council considered insulting conduct by the Furman-Clemson game on Riggs field at Clemson, Thursday afternoon, the athletic council of Furman university held a meeting this afternoon to consider the matter of severing relations with Clemson college. A statement was received this morning from President R. Riggs by Dr. W. J. McGlothlin, president of Furman university, by telephone and this was considered at the meeting this afternoon but was not given pending receipt of the official copy. The council this afternoon decided to await final action of the athletic council relative to the conduct of their students before deciding upon Furman's course in the future. Dr. McGlothlin said tonight that while he could not commit himself as to future athletic relations with Clemson, unless Furman could obtain a satisfactory assurance of courteous treatment he would certainly favor severing relations.

## EXCURSIONS IN THOUGHT.

Narcissism, Or Self-Love, A Most Common Trait Of The Human Personality.

R. N. Allen, Teacher Of Manual Training.

The word Narcissism, is not found in any of the latest dictionaries. Strange to say, the most recent edition of the New Webster's International Dictionary does not treat the word at all with reference to the meaning which is attributed to it by authoritative psychologists and physicians. The word has its origin from the fact that students of human mind and body have been to observe that there is a period, of which may be termed self-love or self-love in the normal development of the child from infancy to adulthood.

Professor Freud, the pioneer psychoanalyst, points out that there are three dominant periods in the development of the love-life of the individual: first, the autosexual, second, the narcissistic, and third, the object love. It is with the second of these periods that we are concerned. The very life-like features of the young Narcissus caused Freud to see that there must be some human mind and body here is a self-love among the various neuroses which can be consulted for treatment by a strong tendency to self-love or self-love. Few people will admit that they are guilty of egotism, self-love or self-love. The fact remains that they carry themselves by their daily actions.

Let it first be understood that a certain amount of egotism is a necessary part of existence in the world. Individually, personality, and self-respect are all based upon egotism. We can not dispense with a reasonable egotism. But when this egotism is carried to any kind of extreme we have individual forms of self-love or self-love. Some of the chief characteristics of self-love or self-love are the following: A very strong tendency to exhibitionism is narcissistic. Exhibitionism may take such forms as long laughing in company (an unconscious desire to attract attention), wearing very conspicuous clothes or wearing clothes too different from those of other people, or too flashy. Another characteristic of self-love or self-love is a tendency to be a head of other people, a proneness to seek the limelight and to be ahead of other people in the eleven stars of tendency to boast too much concerning one's physical strength.

However, there are some other things which mark the disciple of Narcissus with an indelible tattoo. All actors are classed as narcissists. They seek to express their self-love by bodily exhibition. This is especially true of athletic and gymnastic performers of all kinds. Athletes of all kinds are classed in this category because of their unconscious pride in physical prowess. All professional wrestlers and boxers, whose rule is the cult of the body, are worshippers of the self.

Another very common class of narcissists which has recently received much attention from psychologists and physicians is that class which makes fine friends and with terrible malice (and masculine Beau Brummels as well) who are constantly using the mirror to adorn and admire themselves in unbecomingly devoted of Narcissus. The worship of the body is natural and self-love to be in excellent health. This road has been in bad condition for several years and travel over it has been made very difficult. This road will give the town a grade-kid to Greenville county and city.

TUESDAY, MAY 16.

### MEETING YESTERDAY.

Citizens Gather at Court House to  
Discuss the Working of Roads,  
etc.

In accordance with the resolution  
passed at the recent Democratic  
Convention, a mass meeting was  
held at the Court House yesterday  
morning to discuss the working of  
roads, etc. About one hundred citi-  
zens from various sections of the  
county were present for the meet-  
ing, which was called by Mr. J. M.  
Wooten, chairman of the County  
Board of Directors.

Mr. J. B. Westbrook, at the so-  
licitation of Mr. Wooten, called the  
meeting to order, stating in detail  
the object of same. Upon motion of  
Mr. J. M. Wooten, Mr. Westbrook  
was selected as chairman of the meeting.  
On motion of Mr. Jas. S. McKeown,  
Mr. W. W. Pegram was selected as  
secretary, and the meeting was  
then opened for discussion.

Mr. W. Holmes Hardin called up  
on the board for a detailed list of  
expenditures, etc.

Mr. H. H. Kester, county engineer,  
gave in detail the balance on  
the credit of each township, and  
stated that it was less than last year.  
He also stated that the appropriations  
for the maintenance of town-  
ship roads in the county had been  
cut approximately \$8,000 this year,  
and that out of eight trucks now  
on hand, only two of them were now in  
operation, the other six being in  
need of tires. He stated that last  
year the appropriation for bridges in  
the county was \$4,000 and that  
it was necessary that around \$7,900  
be spent in repairing them, thus  
causing an over-expenditure on this  
item of about \$3,900. He also gave a

list of the various roads in the county  
which are under the supervision  
of the State Highway Department,  
amounting to 53.3 miles. These roads  
are maintained by money which  
comes from the state highway de-  
partment and is spent under their  
supervision. A statement of the ex-  
penditures are sent the highway de-  
partment each month and the de-  
partment remits to cover. Fifty dol-  
lars of Mr. Kester's salary is paid  
by the highway department. The money  
collected from the various auto-  
mobile owners and eighty per cent  
of the amount collected in each  
county is returned to that county  
for the maintenance of the state sys-  
tem of roads. This money however,  
is spent under the supervision of the  
highway department and must be  
spent on the roads designated by  
them, local authorities having noth-  
ing to do with the roads on which it  
shall be expended.

It was also brought out that the  
Federal government road funds and  
state funds must be secured and  
spent in accordance with federal  
laws and the local authorities cannot  
dictate as to how it shall be spent.  
A number of people present were  
of the opinion that the automobile li-  
cense tax should be returned to each  
county and that the county should  
be privileged to spend it as they  
saw fit. This however, is govern-  
ed by state laws and local au-  
thorities cannot deviate from the law.

Mr. Wooten said of working roads  
by contract in the various townships  
but when it was suggested that spec-  
ifications be drawn for particular  
roads and a contract let according  
to specifications to the lowest re-  
sponsible bidder, the suggestion did  
not seem to be taken very well. It  
was suggested that each township  
have a committee of three to meet  
with the board and arrange with  
the board for the working of roads  
by contract or by the day as the  
representatives saw fit, and that  
they then report back to the board.  
Mr. Westbrook was appointed to se-  
lect the various citizens from the  
townships and stated that he would  
do so on an early date.

Parties from Landsford township  
asked about the bond issue, money  
which is to be spent in townships  
and were told that it would have to  
be spent on the roads as specified by  
the law and that it could not be  
spent on any other roads under the law.

There was considerable complaint  
from various sections as to the con-  
dition of cross country roads and it

was brought out that the county on-  
ly has approximately \$120 per mile  
to build and maintain cross country  
roads and it is generally known that  
it cannot be built and maintained the  
year round for this amount.  
However, there are many bad places  
in various sections of the county  
which should be repaired and ad-  
ditionally each section feels that its  
roads should receive attention.

A number of people complained of  
the time killed by working gangs  
and Mr. Kester stated that he would  
appreciate the co-operation of the  
citizens in informing him of any  
derelict of duty by gangs since it  
was impossible for him to be with  
them all at the same time.  
The meeting was held without  
friction and it is felt that considerable  
work will result from it.  
The meeting adjourned at 1:30  
o'clock.

### FUNNY FOLKS

There are lots of funny folks in  
this old world and a whole lot of  
them are in the mercantile business  
—or rather many of them are try-  
ing to get in the mercantile busi-  
ness.

There are lots of merchants who  
will go fishing and sit on the banks  
of a river for hours and never get  
a bite, to say nothing of even seeing  
a fish. They come home fuming  
about the bad luck and they say it  
was not a good day for fish but they  
will go back just after the next  
rain, when things will be right and  
fish some more. Well, that is the  
right thing to do. If the fish don't  
come at first go back and fish some  
more. If you keep it up you will cer-  
tainly catch some fish.

These same fishermen merchants  
will run an advertisement in a news-  
paper and unless everybody within  
a radius of 5,000 miles comes in  
and looks up to take it for granted  
that there is no such thing as ad-  
vertising and be henceforth resolved  
that he will never spend another  
cent for advertising.

If these kind of merchants used  
the same logic in opening their  
stores as they do with their adver-  
tising, the first real bad day they  
had they would not open up the  
next morning and in acting so they  
would go out of business just be-  
cause on one particular day they did  
not have any business.

Anyway, the right way to make  
a business pay is to keep overstock-  
ing it, and that is the way to make  
your advertising pay—keep at it.  
Respect to set aside a certain per-  
cent of your sales for advertising  
and then resolve to carry out the  
resolution, and do it.

Will it pay? Ask John Wannamaker,  
he knows all about it.

### LITTLE BOY DIES AS RESULT DRINK DISINFECTANT

James Huey, two year old son of  
Mr. and Mrs. P. B. Byars, of the  
Wynold village, died this afternoon  
at the home of Mr. and Mrs. H. E.  
Stutta.

Last Wednesday Mrs. Byars was  
engaged in house cleaning and when  
she left a bottle of disinfectant on  
the floor for a moment, the little  
fellow chanced into the room and  
thinking it Coca-Cola, drank a por-  
tion of the disinfectant before his  
mother could grab the bottle.

Physicians were hurriedly sum-  
moned and ametics employed to re-  
move the poison from his system.  
His throat became affected, however,  
and he steadily grew worse, until  
the end came—Rock Hill Herald.

### CURRENT OBSERVATIONS BY THE NEWSPAPERS

Prosperity travels on good roads.  
North Carolina is spending fifty mil-  
lions of dollars on good roads. The  
end of 1922 is to see 1,000 miles of  
new roads built or building. Since  
1921. The effect is obvious. North  
Carolina, rich as she is in wonder  
works, is going forward on a bigger  
scale, at a faster speed. That puts  
upon you the individual citizen, an

obligation. You, too, have got to go  
faster and grow bigger. If you fail  
to take advantage of prosperity's  
friendly sweep, another will usurp  
your place. Opportunity passed up  
passes on to somebody else. While  
being built, land values in  
prosperous and prosperous bring to  
your community a score of improve-  
ments, you can not afford to stand  
still. You've got to hold the pace!

Land on the Durham-Chapel Hill  
road has increased 400 per cent  
in sale value within the past  
few months. This fact, says an edi-  
torial in The Greensboro News, has  
demonstrated to the Durham County  
people "what they and everybody  
else in the State whose lands go  
enhance the sale value and the value  
for use of land lying contiguous to  
them." This, however, is but the  
beginning. A State whose lands go  
at that phenomenal rate when  
tapped by good roads is bound to  
find the imagination of its residents  
She calls to their ambition. She  
offers immense rewards to their  
industry and enterprise. She makes  
herself a hostess to those who are in  
search of opportunity. She brings  
into her borders the strongest arm  
and the best brains of the American  
people.

You, however, are on the ground.  
You have the first call on the new  
Asheville Citizen.

Save the surface and you save all!

### There Are Thousands

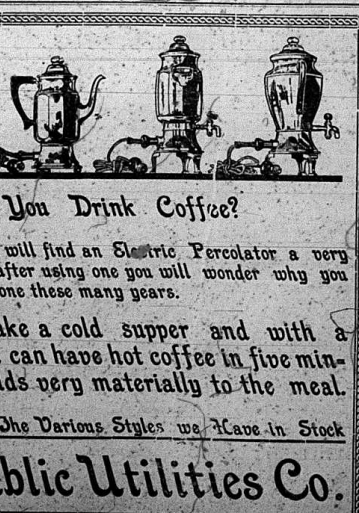

Of makes of typewriter ribbons. Some of them are very good; some of them are a nuisance; and a few of them are real typewriter ribbons. If you want the best typewriter ribbon made you will find it at the Chester News.

Try just one and if it is not the best ribbon you have ever used we will make you a present of an Eskimo pie.

They do not cost any more than the ordinary ribbon and they last five times as long, to say nothing of the real satisfaction you get in using them.

wealth and the bigger opportunities that come in on the magic ribbon of the good road. Take a look, therefore, at what is happening in the Old North State. Look with the seeing eye. North Carolina already boasts large in the gallery of States certain to do bigger and bigger things as the years go by. Her progressiveness of the last 20 years has been a lamp to light up brilliantly the riches in her soil, mines, forests and manufactures. This program of 1,000 miles of new good roads within twelve months in her guarantee to the world that all men are to be given ready access to those riches. Thus assured, they will come. They will come in hundreds and thousands. And they already come.

And, coming, they set a swifter pace. Get your consciousness full of that! You go now against the rivalry of your fellow Tar Heels and that of the newcomers. More money is in your lands; more money is to be made; there are more ways of making it. You walk today shoulder to shoulder with achievement, hand-in-glove with opportunity. You are in the midst of a current that pulls you up and forward. Go with it. Hold the pace. Catch on in this State-wide rush toward development, growth and greater wealth.—The Asheville Citizen.

## Do You Drink Coffee?

If you do you will find an Electric Percolator a very useful article and after using one you will wonder why you have done without one these many years.

You can take a cold supper and with a Percolator you can have hot coffee in five minutes. This adds very materially to the meal.

It is noticed that in reports from Columbia and other places, that the sum apportioned was not a large amount for one, but a small amount from everyone.

Of interest to Chester people is the announcement that the Associate Reform Presbyterian Synod will meet in Chester next spring.

The Woodrow Wilson Fund.

The canvass for the Woodrow Wilson Endowment Fund will continue until Chester's quota of \$160 has been raised. Reports from the different sub-committees were turned in Saturday and the total was far in excess of the appropriation. It is noticed that in reports from Columbia and other places, that the sum apportioned was not a large amount for one, but a small amount from everyone.

It is a privilege to feel that we are asked to have a part in the great Woodrow Wilson Memorial Foundation.

In his lecture Friday evening Governor Brown said that Woodrow Wilson combined the patriotism of a Washington, the character of a Hamilton, the courage of a Jackson, a Cleveland, and a Roosevelt, the sweet charity of a Lincoln and McKinley and the judicial temperament of a Taft. We all want a part in honoring a man combining such qualities.

If you miss seeing a canvasser, send your gift to the chairman of the Foundation Fund, Mrs. J. E. Carson.

WELL KNOWN FARMER DIES NEAR YORK.

York, May 12.—Mason Stowe, about 60 years of age, one of the best known farmers of western York, died at his home of a sudden, the result of a heart attack, yesterday afternoon. He had been in declining health for a long time, suffering from Bright's disease and complications, and his death was not unexpected. The interment took place today at the family burying place.

A man of wide acquaintance and genial disposition, Mr. Stowe's death brings deep regret to a wide circle of friends. He was a noted singer and had conducted singing schools in practically every community of western York. He was a member of the Presbyterian denomination and always took an active interest in church affairs.

Survived his wife, Mrs. Emma Whitelaw Stowe, and the following children: Zebulon Stowe, Thomas S. Stowe, Bruce Stowe, Joseph Stowe, Mrs. O. H. Dickson, Mrs. John Davidson, Mrs. Samuel Beagrand and Miss Margaret Stowe, all of whom live near York.

A number of people are selling cotton on the recent advance. Yesterday and today the local buyers are paying twenty cents. A goodly number placed their cotton on the market this morning.

HISTORICAL EVENT.

South American Tour of The American College of Surgeons. A Historical Event.

The American College of Surgeons have just issued the history of a South American Tour, dated for February, March and April, 1923.

Several meetings have been arranged by the Chamber of Commerce for Mr. H. S. Mobley, who will be in this county on May 24th, 25th and 26th, to discuss dairying and dairy cattle. This is a follow-up campaign in connection with the opening of the Community Creamery here. Mr. Mobley is connected with the educational division of the International Harvester Company. He was national chairman at Washington of the Farmers' organizations and legislative committee during the discussion and adoption of such laws as the Farm Loan Bank, Parcel Post and Smith-Lever Bill. He is a practical southern farmer of many years experience who sees things from the farmers' viewpoint, a leader among community builders.

He will be in this section May 24th, 25th and 26th and meetings have been arranged as follows:

Wednesday, May 24th, Armenia at 10:30 A. M. Walter Simpson, chairman; York at 4:00 P. M. John B. Farmer, chairman.

Thursday, May 25th, Catawba Junction, at 10:30 A. M., J. W. Furman, chairman; Edgemoor at 4:00 P. M., J. D. Glass, chairman.

Friday, May 26th, at Blackstock 10:30 A. M. Alex McDonald, chairman; Knoxville at 4 P. M., E. W. Gibson, chairman.

STILL AND MAN SEIZED IN LANCASTER COUNTY.

Lancaster, May 12.—Shirley John Hunter and his deputies, H. A. Montgomery and H. W. Bell, made a raid on the plantation of G. W. Farnell, in the Pleasant Valley section of the county, yesterday, and seized a 25-gallon capacity still and destroyed 100 gallons of wash. Farnell was arrested and taken before Magistrate W. T. Williams and in default of bond was sent to jail. The still was brought to the sheriff's office. It was a crude affair, being made out of two galvanized wash tubs welded together, the warm water from a brass nozzle from a fire hose connected to several joints of iron pipe. Preparations for a run was being made when the still was seized.

Several meetings have been arranged by the Chamber of Commerce for Mr. H. S. Mobley, who will be in this county on May 24th, 25th and 26th, to discuss dairying and dairy cattle. This is a follow-up campaign in connection with the opening of the Community Creamery here. Mr. Mobley is connected with the educational division of the International Harvester Company. He was national chairman at Washington of the Farmers' organizations and legislative committee during the discussion and adoption of such laws as the Farm Loan Bank, Parcel Post and Smith-Lever Bill. He is a practical southern farmer of many years experience who sees things from the farmers' viewpoint, a leader among community builders.

He will be in this section May 24th, 25th and 26th and meetings have been arranged as follows:

Wednesday, May 24th, Armenia at 10:30 A. M. Walter Simpson, chairman; York at 4:00 P. M. John B. Farmer, chairman.

Thursday, May 25th, Catawba Junction, at 10:30 A. M., J. W. Furman, chairman; Edgemoor at 4:00 P. M., J. D. Glass, chairman.

Friday, May 26th, at Blackstock 10:30 A. M. Alex McDonald, chairman; Knoxville at 4 P. M., E. W. Gibson, chairman.

STILL AND MAN SEIZED IN LANCASTER COUNTY.

Lancaster, May 12.—Shirley John Hunter and his deputies, H. A. Montgomery and H. W. Bell, made a raid on the plantation of G. W. Farnell, in the Pleasant Valley section of the county, yesterday, and seized a 25-gallon capacity still and destroyed 100 gallons of wash. Farnell was arrested and taken before Magistrate W. T. Williams and in default of bond was sent to jail. The still was brought to the sheriff's office. It was a crude affair, being made out of two galvanized wash tubs welded together, the warm water from a brass nozzle from a fire hose connected to several joints of iron pipe. Preparations for a run was being made when the still was seized.
