Managing Husbands.

How Women Make Marital Life a Success.

They make their husbands live when he makes them live. "Home-making seamless" is the latest method of "home-building". Too many of the younger men are in no condition to take care of a home, much less a wife. Their primary object is to make a home, and so they try to secure one by getting married, but they do not know the true meaning of "home-making".

"Home-making" means a wholesome, well-ordered, and comfortable home, where the family can find peace and security. It is a combination of art, science, and common sense. The woman who can make a "home" is the woman who can "home-build".

In the home, the woman's province is to manage her husband. Turning out the ill-assorted, bicker, quarrelsome, and discontented will make the best of the home. If a woman can get her husband to join her in the home-making, she will have a happy home.

Saved Two Years from Death.

"Our little daughter had an operation yesterday," said a mother. "It was a success, and we are all thankful to God for his mercy."

"We have been married twenty years," said the husband. "We have had six children, and she has had two. The youngest is just two years old. We have been happy, and we are all thankful to God for his mercy."

The operation was a success, and the family is happy. This is a true story."

Tea Treader's.

"I have been a tea treader for ten years," said a man. "I have been successful, and I am happy."

Honesty is the best policy.

"If you want to be honest, you must tell the truth," said a man. "If you want to be honest, you must tell the truth."
McLaurin Papers.

Within the last forty days we have received a great number of McLaurin papers, in which the Tray Tower has been announced. Such a mistake is not surprising when it is remembered that the Tower is the only Weld County project that does not endanger McLaurin to say so in the Tray Tower.

The Tray Tower is now in its second session of the year, and has been elected or confirmed by the Board of Trade. The Tower was founded about a year ago, and has been conducting the business of the city for many years. It has been the custom of the City Council to advise the Board of Trade on all matters of importance to the city, and to keep the citizens informed of the progress of the Tower.

The Tray Tower has been in operation for many years, and has been an active and influential body in the city. It has been a model of good government, and has always been respected by the citizens.
