**POLICY ADOPTED**

**IN WEEVIL FIGHT**  
Full Discussion by Extension Workers  
CFS.  
Clemson College, May 29.—A

meeting of extension workers held recently at the district offices at Spartaburg, Florence and Aiken. The full discussions of the boll weevil problem were entered into with a view of arriving at a policy by which to fight the boll weevil during the summer months. After full discussions of various phases of the subject, the conferences drew up policies upon which all agree for the present year. In addition to a continuation of the policies and measures advocated, acreage, putting farm on self-supporting basis, soil improvement, proper fertilization, fall plowing (use of stalks, etc.), the following policies were adopted as measures of immediate execution:

1. Rapid, thorough, cultivation (once per week).
2. No late side dressing with ni-

3. Picking of weevils and squares

4. The picking of weevils and squares during June and July provided labor in cheap and cultivation is not sacrificed.
5. Opposition to the use of all other methods and patented devices until they have been tested and endorsed by the college or the delta laboratory, Tallahassee.
6. The use of liquid or sweetened baits and lights available information, to be discouraged rather than otherwise.
7. The use of the calcium arsenate method of poisoning to be recommended as the best method, unless any other method of direct control, but to be undertaken very conservatively with the most intelligent farmers, and to be presented as experimental for the present.
8. The results of the foregoing could hardly be regarded as conclusive.
9. The county agent to have several demonstrations in growing cotton under weevil conditions upon the best of the cotton lands during the latter end of the season, setting forth methods and results obtained.

## TAX ON GASOLINE BRINGS IN MONEY

**April Collections Above Seventy**  
**Thousand**

Columbia.—The South Carolina tax commission announced yesterday that during the month of April a total of \$72,010.04 had been collected on the gasoline tax for South Carolina, this being an increase of a little over \$50,000 for the March collection.

During March, the commission collected \$67,000 and the April collection of \$72,000 brings the total for the two months to \$139,000 approximately. At this rate the collection for the ten months of the year should be around \$69,000.

Some attempts to evade the law have been discovered by the tax commission and considerable effort on the part of a number of dealers to delay the payment of the tax has been noted by the commission. However, the officials have lost all patience and in the words of several natives in the late war they are getting tired of waiting.

**CONTROL METHODS  
SUGGESTED FOR CHEESE  
OR HAM SKIPPERS**

Because of damage by insects chiefly the ham skipper, about \$1,000,000 worth of meat is annually condemned by Federal inspectors. Much greater damage in proportion to the value of meat handled undoubtedly is done by skippers, which are the larvae of the skipper fly, its small abattoirs and on farms where sanitary precautions are not generally observed. In the large meat packing establishments.

This loss, according to the Bureau of Entomology of the United States Department of Agriculture, must

largely be controlled by preventive measures. The larvae hibernate at cold temperatures and it takes a long time to develop. The most important insect enemies, which are useful in the control of some harmful insects, are of little or no use in controlling the harm skipper because most of those which attack the pupae are pests themselves.

Fine wire screens, having at least 30 meshes to the inch, should be used where cured meats are stored. Rooms infested with skippers can be fumigated with cyanide or sulfur dioxide according to directions furnished by the United States Department of Agriculture. Rooms in which cured meats are hung should have cement floors and light-colored walls, either painted or papered. Skippers do not so much hide places for the skipper as they will be eliminated.

The entire life cycle of the skipper is completed in 12 days during warm weather. The eggs hatch in 2 to 3 days and the caterpillars are ready for destruction with any means that will destroy them.

ed. In one ham kept under observation there was a total recorded production of 52,627 skippers during a period of 18 months, and a loss in the weight of the ham of 6 pounds 4 ounces, largely due to the feeding of the skippers.

9. The free use of extension bulletins, 48 farmers bulletin 1262 among farmers.

**CARLOAD OF CHICKENS  
SHIPPED BY TENNILLE**

Tennille, Ga., May 30.—Tennille had her first carload chicken sale Tuesday. About 8000 chickens were shipped to buyers for hogs at 20 cents and fryers 34 cents per pound. This sale demonstrates that Washington County has embarked in a new industry and many cars of chickens will be shipped from here in the future.

The chickens were bought by J. A. Kelly, of Atlanta, and people generally were satisfied with the prices. Chickens, hogs, wheat and corn and lumber shipments, with cotton that will be made, will make Washington County one of the best

**POLICE UNCOVER  
RING OF THIEVES**

theft ring with headquarters in Chi-  
cago, and of which "Con" Shea,  
labor leader now under indictment

**POLICE UNCOVER  
RING OF THIEVES**

Nationwide Drive on Auto-William Smith Arrested in Indianapolis Said to Have Been "Field Agent," Chicago, May 30.—Operations of an alleged nationwide automobile theft ring with headquarters in Chicago, and of which "Con" Shea, labor leader now under indictment for murder in connection with the deaths of two policemen following a labor bombing, is said by the police to be the head, were revealed by the authorities today following the return from St. Louis of officers with William Smith. Smith was arrested as an alleged "field agent of the ring."

for murder in connection with the deaths of two policemen following labor bombing, is said by the police to be the head, were revealed by the authorities today following the return from St. Louis of officers with William Smith. Smith was arrested as an alleged "field agent of the ring."

Assistant State's Attorney Hodgson said today he would question Smith regarding recent bombings and the murder of two policemen for which "Big Tim" Murphy, Fred Mader and several are now under indictment.

According to the police, operations of the alleged automobile theft ring extended into cities of the East and South and resulted in the theft and disposal of more than 300 cars valued at about \$500,000. John Rogers, garage owner, and Claude Buller, arrested yesterday, are said to be alleged leaders of the ring.

Thomas Carey, who signed the bond for the release from jail of Mader and Murphy on condition that they withdraw from all activities in connection with the Chicago building trades-council, said today that union labor here would be investigated in public by a committee of 20 representative citizens and officials. The committee, he said, would consist of aldermen, bankers, judges, members of the clergy and persons "not friendly to union la-

"I want the public to know that we do not intend to appoint a committee that will whitewash this matter," he said. "We are going to get to the bottom of the labor trouble in Chicago."

## HAND MADE WAISTS

See the lovely Hand Made waists' at \$2.50 and \$3.50

# The S. M. Jones Comp'y

## Local and Personal

**The Shingles.** Separator is the cheapest standard separator on the market and the simplest. Guaranteed to skim cream at any speed. The S. M. Jones Co.

Mr. Henry Sanderson will present his piano pupils in public recital at Purdy Presbyterian Sunday School room on Saturday at 12 o'clock. You are invited to attend.

**Drink Delaware Punch,** a non-carbonated drink. Try it. Rev. F. Ray Riddle, of Columbia former pastor of the Presbyterian church at Lowryville, and family have returned to their home after visiting relatives and friends in this section.

We have a sun shade for every car—see them before you buy. Chester Hardware Co., Auto Accessory Dept.

Mr. S. E. Wylie went to Lancaster Wednesday to attend the funeral of Mr. J. R. Thompson.

The Petrolins who recently opened a candy kitchen in one of the new store rooms at Great Falls, Pa., sold out to Pete Bratos, proprietor of the Sanitary Cafe at Great Falls, who states that he will at once begin the installation of fixtures which will give Great Falls one of the finest candy stores in this section of the Carolina. Petrolins operate a store in Chester.

We are Agents for the famous PURINA CHICKEN FEED, and you take no chances in feeding your chickens this feed for it is guaranteed to give you as good or better results than any feed on the market. The S. M. Jones Co.

Mr. L. Leon Thompson was called to Lancaster last Tuesday on account of the serious illness of his father, Mr. J. Robert Thompson, who died early Tuesday morning after an illness of several days. Mr. Thompson was seventy years of age and spent the greater part of his life at Riverdale, in Lancaster county, only recently moving to Lancaster. He is survived by his widow, six sons and three daughters. The funeral services were held at Shiloh A. B. F. church.

Free Shipping Pennsylvania Vacuum Cup and Thermoid Tins at Chester Hardware Co., Auto Accessory Dept.

Mr. John Walker, who is a patient at the Pryor Hospital, is reported as improving.

**NOTICE**—Look for the goat in the window!—G. R. Ball says it pays to have four shoes repaired. He says that he has lowered the prices. G. R. Ball says he appreciates his many friends that patronize him. He also goes to say that he guarantees all his work, uses the best leather that can be bought today for any money, and will do the work cheaper than any other shoemaker in Chester. G. R. Ball is located opposite Rodman Brown Co.'s. G. R. Ball calls and delivers shoes anywhere, any place, any time. For quick service phone 328. G. R. Ball, fine shoe repairing. All work guaranteed.

For Your Health's Sake drink Red Rock Ginger Ale.

At the district meeting of the co-operative marketing association held in Rock Hill last Friday, Dr. J. R. Johnson, of Rock Hill, and Mr. E. G. Olson, of Lancaster, were elected to the State Board. There were twenty-nine delegates present from the various counties in the Fifth district.

Mr. Ina Hemphill has returned to the city after a visit of several days in Charleston.

If you are considering buying a separator don't fail to see the Shingles before buying. We will be glad to show it to you. The S. M. Jones Co.

Mr. Charlie Walker who has been a supervisor of the local forest for several months, has resigned and has accepted a position with the Carolina Contracting Company, which has a large road contract in Gaston county.

A white woman who lives on the outskirts of town was on yesterday placed under a bond of \$100, charged with disorderly conduct and carrying concealed weapons.

For Sale—One 3-4 Ton Truck Run-Style—Chester Laundry, W.

Mr. A. V. Harrell, vice-president of the Southern Public Utilities Company with offices in Charlotte, spent Wednesday in Chester on business.

Mr. R. L. Crook has bought a lot on the corner of York street and Hampton street from Mr. Alex. Perdue.

When You Want a Drink of Ale, drink Red Rock—The Doctors say so. Mr. and Mrs. C. N. Griffith, Mrs. Lizzie Sue Daniels and Miss Lena Daniels, of Athens, Ga., have returned to their homes after visiting Mr. and Mrs. W. A. McBrayer, on Hemp Hill Avenue.

Mr. Wm. A. Orr and son, William, of Gibson, N. C., have returned home after a visit to the former's parents, Mr. and Mrs. Geo. W. Ferguson.

The many friends of Mr. and Mrs. J. Marvin Paez will regret to learn of the death of their infant daughter on last Sunday, May 28. The little one was laid to rest in Mount Hope graveyard on Sunday at 6 o'clock. The grave was covered with beautiful flowers. Mrs. Paez is feeling as well as could be expected. She was before marriage Miss Bessie Nichols of Edmonson, Rock Hill Record.

Hon. W. A. Fraser, sovereign commander of the Woodmen of the World, and the officers constituting the sovereign executive council, will be in Spartanburg Friday, July 7, and the effort is being made to have a large number of Woodmen from all sections of South Carolina meet there for a big Woodmen rally. The sovereign council will at that time be on a tour of inspection of the proposed sites of the Woodmen of the World headquarters home, which will cost around one million dollars. The site at Tryon will be visited on this trip.

Dr. Robt. E. Abell returned this morning from Baltimore where he has been for a few days.

A meeting will be held in the Purdy Presbyterian Sunday school room this evening at eight o'clock for the purpose of organizing a Men's Evangelistic Club in Chester. A delegation from the Rock Hill and Columbia clubs will be present. Supper will be served and it is expected that about seventy-five will be present.

A number of Chester friends and acquaintances of Mr. W. L. Stanley, former general attorney for the Seaboard Air Line Railway, will be interested in the announcement that he has been appointed as Vice-President of the above mentioned railroad and will have his office in Atlanta, Georgia. Mr. Stanley will be in charge of public relations.

The members of the City Club will give a vaudeville at the Chester Opera House tonight, notation of which was made in the last issue of The News. The boys are hoping that the people of Chester will come out and not only see a good show but help them with a worthy cause.

Mrs. Mary Smith Delaney, of Chester, died at one of the local hospitals last Tuesday evening after an illness of some time, at the age of forty-seven years. The funeral services were held at Green Briar Methodist church Wednesday afternoon, followed by burial in the church graveyard. Mrs. Delaney was a devoted member of the Methodist Church and was a native of the eastern section of Chester county. Mrs. Delaney is survived by her husband, S. G. Delaney, and two sons, J. C. Delaney, and S. G. Delaney, Jr., both of Chester. She is also survived by four sisters: Mrs. J. G. Backstrum and Mrs. Joseph Stroud, of the Mt. Prospect neighborhood; Mrs. R. B. Massey, of Kemas, Texas; and Mrs. Jane Gayden, of Chester; and four brothers, John and Heath Caldwell, of Great Falls; R. L. Caldwell, of Columbia, and W. H. Caldwell, of Chester.

At The Churches

Sunday, June 4, 1922.

The subject of the sermon will be: "Whoever shall eat this bread, or drink this cup of the Lord unworthily, shall be guilty of the body and blood of the Lord." (First Corinthians 11:27). The public always welcome.

Hassler Shock Absorbers will make that Ford ride better and last longer. Chester Hardware Co., Auto Accessory Dept.

The many friends of Mrs. W. A. Haffner, wife of Rev. W. A. Haffner, of Gaffney, learned with sorrow of her death which occurred at the home in Gaffney last Tuesday night. The remains were carried to Winnsboro yesterday where the interment was made. Many friends of the deceased from Gaffney and also from Chester, accompanied the remains to Winnsboro.

Make Your Chickens a paying proposition by feeding them FURK NA FEED, both from a laying standpoint and growing chicks as well. The S. M. Jones Co.

RESOLUTIONS PASSED. Women's Missionary Union of Chester. Pass Resolutions—Want a Committee to Visit the County Jail to see Women Confined There.

The News is in receipt of the following resolutions: WHEREAS, It has been called to attention of The Women's Missionary Union, of Chester, S. C., in regular meeting assembled, on this the 30th day of May, 1922, that certain women are being held in the County Jail on the charge of violating the White Slave Act, now be it RESOLVED, First: That the proper authorities be requested to permit a committee from this Union to visit the County Jail at some time on Sunday afternoon, and that at some time on a week day each week a committee be granted the privilege of visiting the prisoners. Second: That the status of the two women now in jail on charge of violating the White Slave Act be investigated. And that when the case comes to trial, evidence to disclose and convict unknown men who are partners in the crime be secured. That a jury of women be secured, or that men whose past records will not entitle them to exposing the men in the case be requested.

Signed, Mrs. J. H. McClure, Pres. Miss Annie Corbitt, Secy.

The following committee was appointed by the President to carry out the aforesaid resolutions and to represent the Missionary Union in the matter: Mrs. J. C. Roper, Chairman, Mrs. T. M. Douglas, Mrs. Frank Whitlock, Miss Vangie Wylie, Mrs. C. M. Baker, Secy.

The News is glad to note that the good women of Chester are showing an increasing interest in the welfare of the women in the enforcement of the law. The News feels sure that our officers will appreciate any help that the people of Chester may give in the way of assisting them in the enforcement of the law.

However, The News takes this opportunity of informing the women that when they begin to investigate violations of the law that they are going to find what hard propositions our officers are up against, not only in Chester county, but throughout the State and the entire country.

There are "bawdy houses" in and around Chester; liquor is being brought into and around Chester and being peddled in fruit jars. Our officers know these things and to the personal knowledge of The News they have been going night and day using every effort they have to catch the law violators, but there is quite a difference between knowing a thing and proving it when it comes to the letter of the law. The Sheriff of Chester county and the Chief of Police of the City of Chester can point out a house of disrepute within a mile of the Court House, one that they know is a house of disrepute, but they cannot prove it, and if they were to arrest the parties and take them into court, they would be laughed at when they put up their testimony to prove it.

As to the two women in jail, The News is glad to see that some public interest is being taken in this matter, but it herewith makes the prediction that sufficient evidence will never be secured which will convict the women of violating any law. The officers doubtless know that these women and the two men also, have violated the laws of the State but The News doubts seriously as to whether they will be able to prove it or not.

The News would also like to see the women of South Carolina, who will this year be given their first opportunity of voting for State officers, demand a law in South Carolina which would make every man convicted of selling or making liquor be required to serve a sentence on the chain gang instead of being allowed to pay a "measly" fine. Women of Chester county, demand such a law passed in South Carolina and then you will realize that you have attempted a real proposition. Women of Chester, demand that those who violate the laws be required to stand trial instead of being allowed to make compromises, and you will realize that you are up against another proposition.

GREAT FALLS SCHOOLS. Graduating Exercises to Be Held Friday Night—Eight Graduates—Public Cordially Invited.

Great Falls, S. C.—The regular graduating exercises of the Great Falls High School will be held in the school auditorium on the evening of Friday, June 15th. Besides the regular class day exercises consisting of papers by the members of the class, there will be an address to the class by Rev. Mr. Martin, pastor of the First Baptist church of Florence, S. C. There are eight graduates from the eleventh grade; three boys, Thompson Jackson, Robert Jordan, and Oscar Funderburk; and five girls, Faye Funderburk, Marie Limmer, Emma Anderson, Kathleen Holis, and Kate Johnston.

There will be three other nights of entertainment coming before graduation night. On Thursday night, June 14, the intermediate grades will give a play, "The Princess Who Never Laughs." On Friday night, June 15th, there will be a recital by Miss Bigger Beamguard's music pupils. On Thursday night, June 14th the High School grades will give a play entitled, "After The Game." Much time and effort are being spent by the teachers and pupils in preparation for these entertainments. The public is cordially invited to attend each of them. There will be no charge for admission.

# NEW SWEET POTATO BULLETIN

Clemson College, "South Carolina now produces annually approximately 10,000,000 bushels of sweet potatoes, or in the neighborhood of 10 per cent of the total annual production of the potato producing states of the United States, but South Carolina puts on the commercial markets rather less than 10 per cent of her production," according to Extension Bulletin 62, "The Sweet Potato Industry," just issued by the Extension Service of Clemson College to help promote the safe development of the sweet potato industry in this State.

The publication was prepared by Geo. P. Hoffman, Extension Horticulturist, and A. E. Schilleter, Assistant Horticulturist, and contains full discussion of various phases of growing, harvesting, curing, and selling sweet potatoes, besides bills of materials for curing houses of various sizes. Nine illustrations help to make the text more effective.

The keynote of the bulletin may be found in the following brief passage from the introduction: "Few crops are so well adapted to South Carolina soil and can be so easily worked into the present farming system as the Southern sweet potato. However, the methods of growing, harvesting, curing, and marketing as practiced in former years are not acceptable in commercializing and stabilizing sweet potato growing as an industry. The commercial markets are accepting only the highest quality product from the storage houses and green or summer shipments. Hence, growers and prospective growers must realize the vital importance of quality production, together with the necessity of marketing locally and feeding to livestock the surplus."

The new bulletin is free upon request.

# HOW TO PRODUCE A GOOD QUALITY OF CREAM

Clemson College, May—One of the things which should receive first consideration in dairy farming is the production of a high quality of milk or cream is cleanliness, with special reference to clean barns, clean milking practices, and clean utensils, says M. R. Tolstrup, Associate Professor of Dairying.

Clean Barns.—It is very essential that the barn be kept clean. The manure should be removed at least once each day. Cobwebs and dust should not be allowed to accumulate. Whitewashing the interior of the barn at least once a year is a cheap means of improving the appearance and sanitary conditions. There should be plenty of fresh air and flies should be kept out as nearly as possible. Some people have actually screened their barns against flies and found it to be a paying proposition. The cost of screening the barn is more than paid for by the increased production. When the cows are freed from flies they can devote all

their energy to production, which is otherwise materially decreased by the excitement and worry caused by flies. If screening can not be done, spraying with safe cheap fly repellent should precede the milking process whenever possible in order to make it more comfortable for both the milkmaid and the animal. Care should be taken, however, not to get any of the spray into the milk because of the disagreeable odor and taste it will impart.

Clean Milking Practices.—Cleanliness in milking should be exercised at all times. Before milking begins,

the cow's udder and flanks should be wiped off, preferably with a damp cloth, in order to prevent particles of straw or loose hair getting into the milk. The milk should always be kept in clean hands. It is a filthy habit, to say the least, to milk with wet hands, and it is a mistaken idea that milking with wet hands makes milking easier. As a matter of fact, in cool weather not only is it hard on the milk but it also has a tendency to cause the cow's teats to become sore. It is well to strain the milk immediately through a clean cloth or preferably through a fine mesh gauze strainer to remove possibly loose particles of feed, hair and flies whenever such have entered the pail.

Clean Utensils.—All utensils which come in contact with milk and cream should be kept clean at all times. It is well to use pails with a partly covered top because this keeps out fifty per cent of the dirt and other impurities which should otherwise get into the milk. Milk pails and other utensils should be free so far as possible from crevices where dirt may lodge and be hard to remove. Cream separators and other dairy

## There Are Thousands

Of makes of typewriter ribbons. Some of them are very good; some of them are a nuisance; and a few of them are real typewriter ribbons. If you want the best typewriter ribbon made you will find it at the Chester News.

Try just one and if it is not the best ribbon you have ever used we will make you a present of an Eskimo pie.

They do not cost any more than the ordinary ribbon and they last five times as long, to say nothing of the real satisfaction you get in using them.

utensils should always be "cleaned" properly immediately after use. This practice not only improves the quality of the milk and cream, but makes the work easier and the utensils last longer. Furthermore, there will be less loss of butter fat in the milk will not spoil so quickly. The washing can best be done by first rinsing the utensils in cold water and then washing in hot water containing grease-eating powders. This should be followed by rinsing in scalding water, after which they should be placed in the sun to dry.

PRISONS ARE FILLED UP.

Federal Officials Worried Over Housing of Law Breakers.

The fact that the federal prisons throughout the country are virtually full to capacity is causing considerable worry at Washington. As a result of this condition the federal government is faced with a housing problem for offenders against federal statutes. It has been found that the wave of crime continues at the pitch it has maintained more or less steadily for many months, there will be no place to put the convicted law breakers.

Years ago it was found that solitary confinement was a barbarous thing, often leading to mental deterioration, even to insanity. In prisons nowadays attention is given to exercise and work with which to occupy the minds of the prisoners. Baseball and open air sports have their place in the schedules of active times of men, if not all, institutions of this kind.

Ever since selling liquor became illegal in the United States, prohibitionists and those holding the oppo-

## Wrigley's

For rosy cheeks, happy smiles, white teeth, good appetites and digestions.

Its benefits are as GREAT as its cost is SMALL!

It satisfies the desire for sweets, and is beneficial, too.

## Was Very Weak

"After the birth of my baby I had a back-ache," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took... medicine, but I didn't get any better. I was completely and very weak, giving more and worse. I used for Cardui."

## TAKE CARDUI

### The Woman's Tonic

"I found after two bottles of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and... I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly trouble. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.

## What Does It Cost to Stop Advertising?

ITS NOT WHAT IT COSTS TO GET IN THE NEWS—BUT WHAT IT COSTS YOU TO STAY OUT.

You remember James Pyle's Pearl-line. It had been advertised regularly from 1873 to 1907.

Then the trustees of the estate saw a brilliant chance to save money.

They cut out advertising.

Sales dropped like a clap hammer—profits went where soapbuds and bubbles go. In 1914 Pearl-line, like Jess Willard, tried to come back. But it was too late. The business was sold at a price which is said to have covered barely the value of the machinery and inventory.

Moral: A business will grow as long as it advertises.

A salesforce will thrive as long as it TRIES.

You can't make progress against the current unless you keep rowing. But the harder you row, the faster you go.

How much will The News' readers spend in your store?

Doesn't the answer to that question depend upon you?

Advertise—means to sell.

Not to advertise usually means to starve.
