TUESDAY, JUNE 19.

Every day, in every way, Chester is getting cleaner and brighter. You tell 'em Gregory, you've got the Gill.

Reports reaching the office of the State Board of Health during the year 1921 from Chester state that there were four cases of malaria in Chester that year. Will Hays had charge of the "U. S. Postal" department that year which probably accounts for some of the reports going "astray."

The News tries to the point of interest and makes the motion that plain old Gill Gregory be sent off about the first of December and have a "Dr." attend to him. The psychological effect will doubtless do a number of our esteemed citizens much good.

Think of it. A South Carolinian, H. V. Bray, Mayor of Beaufort, has been sentenced to serve one year in the federal prison at Atlanta for striking a federal tax examiner. We know nothing of the particulars of the case, but it is stated that Mr. Bray struck the tax examiner because he felt he had insulted himself and family.

The government has some nice fellows for tax examiners and then it has some "smart" ones who speak to men as if they thought they were dogs. It is probable that Mr. Bray ran into one of the "smart" ones who insulted him and now, that he struck a federal pet he is not allowed to pay a fine but is being sent to the Federal prison.

Things have come to a pretty pass when a real American citizen cannot defend his name when insulted by a common cur because he does not know our happy home has a federal badge tacked onto his rod suspenders.

Extravagances in government growing out of excessive taxes were condemned and a proper division of taxation between the state and federal states was recommended by Frank O. Lowden, former governor of Illinois, addressing the National Association of Credit Men in Atlantic City recently. He declared that taxation is increasing faster than wealth in this country and to check the extravagance of all governments it would be desirable that municipalities and states provide their own revenues for their own needs and leave to the federal government the task of providing for genuinely national requirements.

The News heartily agrees with the Yorkville Equivocaler in what it has to say with reference to Federal aid in educational purposes. The editorial from The Equivocaler does not want any Federal aid for educational purposes unless such aid is apportioned among the states unequally. That will never happen. The people who are behind the Federal aid proposition are advocating the same mainly for the purpose of getting our schools under Federal control. The idea, is for the national government to supplement the institutions of the state government with the understanding that the national government administrator is all. We are probably not getting along as well in educational matters as we would like; but we are getting along much better than we were with more money, directed by state administrators who would seek to guide our principles and sentiments from motives that are rather sinister than can be shown in many other sections of the country."

COLLEGE OF CHARLESTON.

IF IT FITS.

When two or three superstitious get together all sorts of subjects of conversation are laid aside while they discuss ways to reduce.

Fashions may lower the skirts but can't keep them down when a poor little innocent mouse appears on the scene.

One reason why some girls have become suddenly crabs is because their fathers were not financially able to support them in law.

Nothing can make a distant relative out of a close one any quicker than asking him to lend you money.

You will find many a man who has the big head has to pay a tax and a half size hat.

Most of the men who are tried in our criminal courts are more interested in getting an acquittal than they are in getting justice.

Every man has a right to criticize his wife, and he is free to exercise his right if he doesn't mind the odds of the drug in a hospital.

In the old days if the horse got the bit in his teeth the girl might have grabbed her skirt when an old biddy began taking the corner on two wheels but it isn't fair of a smash up that explains the hugging couples do in open motor cars driving through public streets. It's just a case of no brains.

We hope no one will suggest a long distance talk him to. It is no wonder, for, for they can talk in their sleep just as easily as they can while they are awake.

We doubt if a fellow ever is treated so good and hard as a successful man. —Albionville Times.

Swim Easy Pool will be open on Tuesday, Thursday, Friday and Saturday afternoons from 3 o'clock P. M. Prices 10 cents.

W. O. GUY.

J. C. Tennant will be in charge.

RABBIT SCHEDULE

The following is the schedule of the games to be played by the Palmetto League, as varied as a second meeting of the officials. There may be some minor changes during the season but this schedule will probably be carried out.

First Half.
June 19-20—York at Rock Hill in Chester at Union.

June 22-23—Rock Hill in York; Union in Chester.

June 25-26—Chester in Rock Hill; Union in Chester.

June 27-28—Rock Hill in Union; York in Chester.

June 29-30—Union in Rock Hill; Chester in York.

July 2-3—Rock Hill in Chester; York in Union.

July 4-5 (Two Games on Fourth) York in Rock Hill; Union in Chester.

July 6-7—Rock Hill in Union; Chester in York.

July 10-11—Chester in Rock Hill; York in Union.

July 11-12—Rock Hill in York; York in Chester.

July 13-14—Rock Hill in York; Chester in Union.

Second Half.
July 15-16—Rock Hill in Chester; York in Union.

July 18-19—York in Rock Hill; Chester in Union.

July 20-21—Rock Hill in Union; Chester in York.

July 23-24—Union in Rock Hill; York in Chester.

July 25-26—Rock Hill in York; York in Chester.

July 27-28—Chester in Rock Hill; York in Union.

July 30-31—Rock Hill in Union; Chester in York.

August 1-2—Union in Rock Hill; York in Chester.

August 3-4—Rock Hill in York; York in Chester.

August 6-7—Chester in Rock Hill; York in Union.

August 9-9—Rock Hill in Chester; York in Union.

August 10-11—York in Rock Hill; Chester in Union.

August 13-14—Rock Hill in Union; York in Chester.

August 14-15—Union in Rock Hill; Chester in York.

August 16-17—Rock Hill in Chester; York in Union.

August 18-19—Chester in Rock Hill; York in Union.

August 20-21—Rock Hill in York; Chester in Union.

GEORGIA OFFICERS SEARCH FOR NEGRO

White Women Attacked in Afternoon at Home in Suburb of Savannah.

Savannah, June 18.—Officers with bloodhounds are searching the western section of Chatham county tonight for a negro, who attacked and killed a white woman in the suburbs this afternoon.

The negro appeared at the house of the woman and asked for water. The woman showed him the pump in the yard and returned to her baby in the house. In a few moments the negro appeared in the room and began to attack the woman. She screamed, struck her on the head with a sad iron. Neighbors who thought they had heard screams arrived at the house and disappeared in the bushes. The man hunt has been since 4 o'clock and two rounds were required to hunt for him. At 11 o'clock no report had been made at police headquarters by the officers.

WOMAN KILLS DAUGHTERS AFTER WOUNDING HUSBAND

Owensboro, Ky., June 18.—After having attacked and seriously wounded her husband, Mrs. Cleveland Daugherty killed her two daughters, three and five years old with a razor and drank poison at her home near Glenfield, in Brackenridge county, according to reports received here. She will recover.

Mrs. Daugherty, apparently having become suddenly crazed, first attacked her husband with a razor. He was slashed in the neck, but escaped in disarming. His wife and children were in the home of a neighbor for help, according to details of the tragedy received here.

The woman ordered a second razor and killed the children and when her husband returned was found to be suffering from effects of poison.

Mrs. Daugherty, who was 21 years old but had been married for six years, was unopposed at her home tonight and without medical attention, it was said. Daugherty's father and the home is an isolated section.

BIG POULTRY INDUSTRY FOR LAURENS COUNTY

Laurens county farmers have been shipping their carloads of chickens to northern markets and now they are to have something to take the place of the high old chickens and the more or less delectable that have gone into salads, pot pies and for "Yankee" delicatessen shops. Mr. Burdick, writing in the Columbia State, tells the story as follows:

Laurens is to have a chicken plant, the first of its kind in the world. To be operated on the plan of the creameries that were established in this state a few years ago, on the co-operative plan, the plant is to be established at once on the old Kennedy place about four miles from town, on the Princeton road, by W. Burdick, of Quakertown, Pa.

Mr. Burdick became interested in Laurens through Mr. Martin, a North Carolina man living in the north. He has made two trips to Laurens and is satisfied that this is the place that will be best suited for his plant. He will have 3,000 white Leghorn layers and breeders. He will endeavor to get his broilers and fryers on the market two or three weeks ahead of the eastern breeders and in this way get a premium for his chickens. He sold 700 this spring at 60 cents a pound by beating the early market. His plant will consist at first of eight breeders and runs, each 100 feet by 20 feet. These will have concrete walls and a concrete floor. His incubator will have a capacity of 8,000 eggs. He will collect eggs locally for the market, but he will start his plant with his special strain of white Leghorn chicks.

There is already a "home talent" enterprise of this kind in Laurens, the plant of Ben. Ryan, Tillman Todd, of Burkeville Station, has a chicken farm of White Leghorns. It is a beautiful sight. Mr. Todd, a veteran of the war with Germany, started his ranch with 150 hens. He expects to have 1,000 next year. He has two incubators, one 600 chicks at a hatch. He carefully culls the flocks, and sells the cockers and the unimpaired pullets. Next year he will have quite a splendid chicken ranch. He finds a ready market for the culled. Dining car, eastern hotels and others are also in the market for a steady supply of chickens.

TURKEY CREEK DRAINAGE.

Treasurer Neil is engaged in writing existing drainage against the delinquent property holders in the Turkey Creek drainage district with which to pay interest on bonds issued for the purpose of ditching the creek a few years ago.

The total bond issue for the ditching done on Turkey Creek, \$135,000, and Chester county \$135,000, and the principal to be taken care of each year and the whole of six per cent, semi-annually, until paid.

The first installment on the principal, of about \$11,000 was due and payable on January 1, 1923 but that installment has not yet been paid because the collections up to January 1 were not sufficient.

Up to January 1, the interest on the bonds, paid by authority of the legislature, was paid out of a surplus left over from the last year. After the entire work had been paid for, but this surplus having been exhausted on January 1, it was necessary to lay to the taxpayers.

All the delinquents, who paid the interest due on January 1, amounting to \$2,450 and also the interest that had accrued because of the delinquency, took up a part of the \$11,000 bonds payable on January 1, but not enough to take them all up, and he had no authority to pay more than the amount, he paid nothing. As he saw it there was no other way to manage.

In all the treasurer should have had approximately \$18,400 on January 1 to take care of the first installment of the principal and the interest due up to July 1; but as a matter of fact he had approximately only \$10,000, leaving approximately \$8,400 to be provided for.

All the delinquents are supposed to be handled through the treasurer of York county. Those persons living in that portion of the county who are supposed to pay to the treasurer of Chester county, who passes the collections on, York county.

Those persons living in that portion of the county who are supposed to pay directly to the treasurer of York county.

The aggregate amount of delinquent taxes is about the same in Chester as in York, approximately \$4,400 in each county.—Yorkville Equivocaler.

No. 666

This is a prescription prepared especially for the use of the patient who is suffering from a headache, or a cold, or a fever, or a sore throat, or a cough, or a croup, or a whooping cough, or a diphtheria, or a scarlet fever, or a measles, or a mumps, or a smallpox, or a cholera, or a typhoid fever, or a dysentery, or a malaria, or a yellow fever, or a plague, or a bubonic plague, or a Local and Personal

Mr. D. M. Nison, manager of the Greenwood baseball team, spent the week-end in Chester. Prof. Nison is at the top of the list along with Abbeville, each team having a percentage of .750. Prof. Nison's team has four games each week.

Now is the Time to put Nitrate of Soda on your cotton. If you want to beat Mr. Boll Weevil, you will have to put Nitrate of Soda on your cotton so as to mature 'your crop in July. Under existing conditions it is necessary to make a big crop and it takes 200 to 250 lbs. We have it. Prices right. Joseph Wylie & Company, 411.

Last Thursday night the city council of Greenwood ratified a general business license. A meeting to protest against the measure was called by the business men and merchants of the town, they claiming that the license is class legislation and that they are already overburdened with various taxes. The levy for the City of Greenwood is now fifteen mills.

Aluminum Pails are here. Bring your own covers and yours. Chester Hardware Co.

A. R. McElhenny, of the Bethesda section, had the misfortune of losing his entire household goods last night when the house in which he was living was burned to the ground. The family had just gone to church when the house caught fire, and it was totally destroyed. The loss is estimated at \$10,000. He and his family are insured by the Bethesda Fire Insurance Co. of Baltimore.

Miss Anna Sparks, of Rock Hill, has accepted a position as community worker for the Baldwin Mills in Chester, and has assumed her new duties. Miss Sparks recently graduated in social service in Richmond, Va.

Are You Satisfied with your present arrangement of cooking? See and about an Electric Range. S. P. U. Co. Phone 50.

Mrs. J. Barron Sloch was returned to her home in Rock Hill after spending several days in Chester with Miss Dolly Triplett.

Miss Ola Aycock and Mr. Palmer M. Moore were married last Thursday evening at eight o'clock in the Methodist Presbyterian church, ten miles west of Rock Hill. Mrs. Perry Carter, of Chester, was dame of honor. Mr. and Mrs. S. C. Carter, of Chester, were among those attending the wedding. Mrs. Moore is a graduate of Winthrop College and has been teaching in the schools of the state for the past few years. Mr. Moore is a graduate of the Presbyterian College of South Carolina. After a trip North the young couple will be at home at Lowville.

Bon Clarkson hotel, near Flat Rock, owned and controlled by the Associated Reformed - Presbyterians church, had its formal opening last Saturday. A series of conferences is scheduled to be held at Bon Clarkson this summer. Bon Clarkson is located on Highland Road, three miles from Rock Hill, and one mile from Flat Rock station. It is composed of 65 acres of a section of the most beautiful land of the Blue Ridge country.

Dr. D. M. Douglas, president of the Presbyterian College at Clinton, spent yesterday and Sunday in Chester with his brother, Mr. R. L. Douglas. Dr. Douglas preached the commencement sermon at Blackstock Sunday.

When You Buy an electric refrigerator, buy a Royal and get service. "Service follows the appliance when sold by the S. P. U. Co."

Mr. J. Hope Bigham, of Sharon, who was formerly in Chester with The Chester Drug Company, was among those who graduated last week from the pharmacy department of the South Carolina Medical College, Charleston.

Rev. F. Ray Riddle, of Columbia, former pastor of the Presbyterian church at Lowville, assumed the pastorate of the Sharon Presbyterian church in Columbia Sunday, preaching his first sermon. Mr. and Mrs. Riddle will move to the manse of the Sharon church soon. They are now living on College street, in Columbia.

Extra Special now on \$15 Palm Beach and English Mohair Suits, your choice \$10.00 Come look 'em over. The J. T. Collins' Dept. Store

Miss Lucy Cox, of Winston-Salem, N. C., is the guest of Mrs. Vance Higgins, on Saluda street.

Mayor Bray, of Beaufort, S. C., who was recently sentenced to a year and a day in the federal prison because he struck a federal tax examiner when the officer insulted him and his family, is a son of Mr. V. Bray, of Chester. Mayor Bray is one of Beaufort's most prominent citizens and when he left Beaufort to report to the federal commission a large number of the citizens, many of whom were ministers, went to the station to bid him farewell and to promise him that they would be on hand to meet him when he returned. From press dispatches it appears that the citizens of Beaufort are very indignant over the matter.

Mrs. J. M. Robinson will leave tomorrow morning for the mountains to spend several weeks.

Circuit Judge A. W. Wise has received the money from the State Republicans with which to pay the old negroes who were allowed pensions by the last legislature, which was understood, amounts to about \$700 each.

Mrs. R. N. Walpole, of Lancaster, is at the home of her sister, Mrs. L. E. Brown on York street. Mrs. Walpole will enter the Pryor Hospital tomorrow for an operation.

A surprise marriage yesterday was that of Miss Levene Davis, of Chester, and Mr. L. F. Lanford, of Spartanburg. Mrs. Lanford is a daughter of Mr. Dan Davis and is a very popular young woman. Mrs. Lanford holds a responsible position with the Spartanburg Ice and Fuel Company.

Mrs. R. T. Cloud, of New Brookland, S. C., is visiting relatives in Chester.

Mr. John F. Cloud, of Charlotte, spent Sunday in Chester with relatives, and also attended the Brown meeting.

Miss Mary Lee of Chester, who has been in the office of The Chester Hardware Company for some time, and Mr. Ross A. Ferguson, of Sharon, were married last Sunday. The young couple will make their home in Sharon.

Mr. H. L. Schlosburg, of Camden, underwent an operation at the John Hopkins Hospital, in Baltimore, yesterday morning. Mr. Schlosburg was enroute to Northern markets when he became ill and had to enter the hospital.

The annual Epworth league assembly of the Upper South Carolina conference, which was held during the past week in Greenwood, was the largest and most successful of any yet held in the upper conferences, officers of the league. Mr. R. W. Hardin, of Chester, was elected secretary of the Rock Hill district at the conference.

The fire department was called out yesterday morning at four o'clock to answer a call on Pinckney street. A house belonging to Mr. John A. Hood, and occupied by Mr. Frank Grant being on fire. The house was a mass of flames when the department arrived and a considerable part of the efforts of the company was used in keeping the flames from reaching neighboring houses. Mr. Grant's family was away at the time and the house was occupied by he and Mr. Sullivan. They are at a loss to account for the conflagration as no fires had been in the house for several days. Two trunks of wearing apparel was all that was saved, the furniture being almost a complete loss.

Of interest to a large circle of friends was the marriage of Miss Sarah Carroll and Mr. W. Angus Lee, which was solemnized at the bride's home on Walnut street Saturday afternoon at four o'clock, the ceremony being performed by Rev. W. G. Moore, pastor of the First Baptist church. Mrs. Lee is a daughter of Mr. J. L. Carroll and is one of Chester's most popular young women. She has been connected with the E. E. Cloud Company for some time in the dressmaking department. Mr. Lee is a Chester boy and holds a responsible position in the local freight office of the Seaboard Air Line Railway. The young couple have gone on a bridal trip to the mountains of Western North Carolina.

County Agent W. P. Howell and Master Foster Truesdale left this morning by automobile for Greenville and Spartanburg. Mr. Howell will be joined at Spartanburg by Mr. G. C. Guchman, specialist in the dairy division of the extension service, and they will purchase a number of pure bred Jersey calves for Lancaster farmers. Foster Truesdale is a Chester boy who won the state prize in peanut club work last year and is the honor guest at a banquet to be given tomorrow night at Greenville by the chamber of commerce of that city—Lancaster Citizens.

The sale of the bonds for improving the roads of Fairfield county will probably be delayed for some time. Information in regard to the bonds and condition of the county had been prepared and was in the hands of the bond attorneys. They, however, discovered an insolvency in the act in regard to the time for which the loan was to run, and returned the case, stating that further investigations are useless until that matter is cleared up. On account of this oversight when the bill was drawn, the road improvements may be delayed indefinitely. In order to expedite the clearing of this insolvency a "friendly" suit will be started by the county against the bond commissioners and the purchasers of the bonds—Winaboth News & Herald.

Baseball Gets Going. The Palmetto Baseball League, which consists of Union, Chester, York, Rock Hill, started their games yesterday with Chester in Union and York in Rock Hill.

Chester defeated Union by a score of 7 to 1. The home team, Chester, Henry and Hood, Union, Blakey, Smith and Frost. Henry for Chester struck out nine and gave up a number of Chester fans went to Union for the game and a good game. Chester plays Union again in Union this afternoon.

Tomorrow and Thursday Chester will meet Rock Hill in Chester.

Rock Hill defeated York by a score of 8 to 7. The home team, York, consisted of the last half of the ninth inning when Rock Hill rallied and put over the winning score.

HOUGH-MATTOX

Miss Jane Hough, eldest daughter of Mr. and Mrs. John Hough, of Chester, was united in marriage yesterday afternoon to Mr. H. E. Mattox, at the home of the bride's parents on Wile street, Rev. William C. Moore, pastor of the First Baptist church officiating.

Mrs. Mattox is a graduate of Winthrop College and the past year taught in the city schools of Abbeville. She is an accomplished young woman and has many warm friends in the Carolina. Mr. Mattox was formerly connected with the Swift local packing plant in Chester but several months ago was transferred to Roanoke, Virginia.

The young couple left after the ceremony for the mountains of North Carolina and after returning via Chester will go to Roanoke to make their home.

Mr. Angus H. Macaulay, of Columbia, passed through Chester Saturday enroute to Philadelphia on business.

The John Brown tabernacle has been sold to the King Lumber Company, who have the contract to build the new graded school in Chester, for \$750 as it stands on the ground. The amount received for the tabernacle is about \$400 short of the amount expected. The gifts to Dr. Brown have so far totaled almost \$5,000.

Mr. W. C. White left this morning with his family for Montreal. Mr. White will leave his family at Montreal for the summer he returning tomorrow.

Mr. Tom Barrett had the misfortune to burn two of his fingers a few days ago while working on a cable for the local telephone company.

Chester friends of Miss Roberta Peay will be interested in learning that she will be among those who will graduate tomorrow evening at the Palmer School of Chiropractic, at Davenport, Iowa. Miss Peay has not as yet decided where she will locate for the practice of her profession.

To Meet June 21.

The York District Christian Endeavor Convention will convene at the Ebenezer Presbyterian Church in Rock Hill, on Thursday, June 21 and be in session two days. Miss Violet Anderson, of McConellsville, will preside. The opening will be delivered by Dr. W. H. Frazer, President of Queen's College, Charlotte, celebrated humorist and successful speaker. Mr. Charles F. C. of South Carolina will speak during the first day. The addresses at night will be given by Rev. D. B. Green, of Albemarle, N. C., and Rev. C. C. Wilson.

On the second day, Rev. B. F. Franklin, of Pleasant Grove, Dr. F. Shepperson, of Chester, Dr. F. W. Ogden, and others will be on the program. Mr. Arthur Flannagan, of Bowling Green, State President is expected to be present during the whole convention. Mr. Moll is to be the song leader. Other interesting matters will feature the convention. All young people and all interested persons are invited to attend all of these services.

Will Try Florida Plan.

The Florida plan of weevil control to pull off every square on the cotton after the weevils have about finished coming from hibernation and then poison the cotton. This method has been worked in Florida and while there are but few people who think that this plan will work in this section, still there are a few who have studied the plan who are beginning to think that this is the best plan after all.

Capt. W. C. White will try out the Florida plan on a small scale this year. A representative from the S. A. L. Ry. will be here next Monday, June 25th, to direct the work of pulling off the squares and the poisoning. This man who will direct the work has had experience with the Florida method of weevil control. All people interested are asked to let Henry Pack, Peden Bridge Road, next Monday, June 25th, to see the demonstration carried out. See the demonstration in the detail work of the plan may get some by communicating with the county agent Mr. A. D. Robertson, Hamlet, N. C.

H. E. Sanders, County Agent.

Baseball Gets Going.

The Palmetto Baseball League, which consists of Union, Chester, York, Rock Hill, started their games yesterday with Chester in Union and York in Rock Hill.

Chester defeated Union by a score of 7 to 1. The home team, Chester, Henry and Hood, Union, Blakey, Smith and Frost. Henry for Chester struck out nine and gave up a number of Chester fans went to Union for the game and a good game. Chester plays Union again in Union this afternoon.

Tomorrow and Thursday Chester will meet Rock Hill in Chester.

Rock Hill defeated York by a score of 8 to 7. The home team, York, consisted of the last half of the ninth inning when Rock Hill rallied and put over the winning score.

Brown Meeting Closes Tonight.

The John E. Brown revival meeting, which has been going on in Chester for the past three weeks, comes to a close tonight and Rev. Brown and party will leave immediately after the meeting for Gastonia where they will catch a Southern train.

The services tonight will commence at seven o'clock instead of 7:45 in order that Mr. Brown and party can make the connection at Gastonia.

The largest crowds yet attending the meeting were those of Sunday morning, afternoon and evening. The sermon Sunday afternoon was to men and the big tabernacle was almost full. Hundreds of people went up Sunday and gave their hand to Rev. Brown and entered the "inquiry room."

Bethel Presbytery held a called meeting at the First Presbyterian church in Rock Hill last Friday morning. Revs. E. E. Gillespie, D. D. James Russell, J. J. Brown, H. W. Wardlaw, F. W. Gidney, D. D. J. C. Bailey, and Rolling Elder G. H. O'Leary were present. Rev. F. Ray Riddle, who has been superintendent of Home Missions for the Synod of South Carolina for the past few years, recently resigned this position and accepted a call to the Shandon Presbyterian church, Columbia, S. C. He was granted a letter of dismission to Congregate Presbytery. Rev. G. B. Thompson had been called to the Presbyterian church at Great Falls. He has already begun work there. He has been pastor at Waxhaw, N. C.

The Winthrop nearly summer school began this morning. It is expected that approximately 2,000 will attend this year.

Miss May Cornwell, of Raleigh, N. C., is visiting relatives in Chester.

The South Carolina Cotton Growers' Cooperative Association has within the past ten days made some very large sales of cotton to Germany, it is stated. Officials of the association when asked for a statement said that the sales had been made and that "a splendid price had been secured for the cotton" but declined to give the exact number of bales sold or the definite price received. The association sold some cotton to German interests some two months ago and its relations with them were so satisfactory the officials said that much larger sales have recently been made. Officials of the association said that the export demand was increasing very rapidly.

Mr. and Mrs. Alex Tennant, of Charlotte, spent Sunday in Chester with friends.

EXECUTOR'S NOTICE.

Estate Pinkston Nail, Deceased. All persons holding claims against the Estate of Pinkston Nail, deceased, are hereby required to present the same properly proven for payment to the undersigned at his store in Chester, S. C., or to S. E. McFadden, his Attorney. Likewise all persons indebted to the Estate of Pinkston Nail, deceased, are hereby required to pay their said debts either to the undersigned or his said Attorney. Failure to present said claims for payment within twelve months from this date will be paid in bar of such payment.

F. M. NAIL, Executor, Pinkston Nail, Deceased.

SUCCESS

Success in life depends upon energy and decision. He who fails at the steep grade may never reach the top. He who is turned aside by seemingly impassable barriers will not reach the goal of his ambition. If we would succeed in life we must make up our minds to prepare ourselves for the line of work we intend to do, and then we must make a beginning; not at the top, but at the bottom, absorbing every fundamental principle which, as we progress, will be of inestimable value in the pursuit of our chosen work or profession. There is not a life of activity taken up by humans that does not have more or less obstruction along its pathway. These obstacles may be overcome by perseverance, and every one of them successfully passed gives us strength to overcome the next. He who turns back because the way is rough or because there are barriers in the way that he does not care to put forth the effort to pass, will never succeed. Grit, determination, perseverance and the will to go ahead, set promptly and decide quickly, are necessary elements to success. Failure in first attempts should mean nothing to the man who desires to reach the heights in his chosen work. Failure to pass lightly and quickly over the obstacles in life's pathway should not discourage anyone. There is no royal road to success. The way is hard, yet the reward of diligence and perseverance is well worth the effort. If we could have knowledge of the

career of any one or more of the great ones whose names have been carved in the hall of fame we would realize the price of success. We would see many of these men and women, born of parents of stirring qualities, yet surrounded by conditions of poverty that rendered it impossible for them to help their children in the manner they would desire. We have seen those boys and girls struggling to better their conditions. We have seen them step through school and college, working for meagre salaries, determined to win, and we have seen them also step by step up the heights they aimed to climb. Few of our presidents came into this life surrounded with wealth. Few men who are directing the great industries of this country were the sons of wealthy parents. Few of our great men in any of the activities of life were born of wealthy parents. They were poor boys who possessed ambition and the strength of character to stick to the task, and, overcoming all obstacles, keep to the path that leads to greatness. The young man who is looking for an easy time in this life may find it, but he will never stand at the head of the line in any trade or profession. The price of success is work, hard and persistent work; work that is not turned aside by obstacles, however great, but work that is stimulated by determination to let nothing stand in the way of achievement.—Selected.

THE DEWBERRY.

This is the dewberry season in the Sandhills and nearby is now growing on the bushes where but a few years ago all was barren waste. The Moore County News devotes a couple of local matter to the happy conditions now existing in that section and an editorial page to facilitation on the new prospects. There is the story of Bligren, who came to the desert country from New Jersey, and who was the pioneer in the industry. He had started on peaches, but came to the conclusion that he could do something better, and in a short time the "country" was bearing of the Lucerne dewberry. This is the story of Bligren, who came to the desert country from New Jersey, and who was the pioneer in the industry. He had started on peaches, but came to the conclusion that he could do something better, and in a short time the "country" was bearing of the Lucerne dewberry. This is the story of Bligren, who came to the desert country from New Jersey, and who was the pioneer in the industry. He had started on peaches, but came to the conclusion that he could do something better, and in a short time the "country" was bearing of the Lucerne dewberry.

TOO MANY MIDDLEMEN.

We imagine conclusions that several hundred thousand retail merchants of the United States would be better off as bricklayers, blacksmiths or plasterers will not be surprising. The statement was made by Roger W. Babson in the news columns of The Record, the other day, and so far as we have seen there has been no rejoinder by the retailers. Mr. Babson is an economic writer of wide information and his conclusions are usually conservative and timely. This is the big reason The Record and other leading newspapers of the nation print his articles. Mr. Babson figures that there are 1,500,000 retailers in the country, and that 100,000 of them are doing a profitable business. Some 400,000 more are making a fair living, but a round million others are merely struggling along. Figures by the trade experts are agreed that a large proportion of retailers are operating at a loss, while thousands of others who are not operating at a loss are merely getting along with a wage and small day wages at that. The retailers of the country might well be said to bear the same relation to the country's industries as the private soldier bears to the army. The prosperity of the country is ultimately dependent upon the efficiency and prosperity of the retailers. Some say that there are a million too many retailers and the solution is to eliminate several hundred thousand of them. The solution lies, not in eliminating a million retailers, but in showing them how they can work efficiently and how they can be of the greatest possible service. This is the great task facing American business men today. One need not travel more than 100 miles from Columbia to prove up the correctness of Mr. Babson's statements relative to trying the fate of the retail business. Way side smart men will waste their lives minding a 2x4 "store", and making less than a janitor makes in passing paper, but any reader of this newspaper could probably count a dozen or more of his acquaintances who are traveling that unsafe road. Certainly the business of the nation owes it to themselves to untangle the business hall of yarn. And while we are about it we may as well say that it is disastrously tangled all along the industrial loop. There are too many miners, we hear, but that fact doesn't seem to assure us enough coal to run the country's factory and the school each winter. Just now we are told that there is a big shortage of bricklayers. Broken down to concrete statements, following this public announcement, the president of the international bricklayers' union pledges his organization to co-operate fully with those who seek to establish apprentice schools to alleviate the shortage of building artisans. He declares his organization has never sought to restrict the numbers who enter the craft and charges the contractors with a large measure of responsibility for the existing shortage because of their unwillingness to employ any but the most skillful workers. From any angle, it appears that both the old apprentice system and the economic industrial system have broken down. We hope Mr. Babson and the other business leaders and publicity factors will not throw up the sponge until they have cleared the water considerably at least—Columbia Record.

Specialist and President. The specialist tells who won the prize. The specialist tells who won the prize. The specialist tells who won the prize.

WRIGLEY'S

Pains Were Terrific

Read how Mrs. Albert Gregory, of Chicago, Ill., got rid of her "dreadful" pains. "My pains were terrible, bearing-down pains were actually so severe I could not stand the pressure of my hands on my stomach. I simply felt as if life was no longer mine. One evening, while my husband was working, I was alone in the house, and I went straight for some Cardui for me to try."

For rosy cheeks, happy smiles, white teeth, good appetites and digestions.

Its benefits are as GREAT as its cost is SMALL!

TAKE CARDUI

The Woman's Tonic

"I took it faithfully and the results were immediate," adds Mrs. Gregory. "I continued to get better, all my life left me, and I went through... with no further trouble. My baby was fat and healthy, and I was able to do my work. I was 41 years old, but I felt like a new person. All I owe to Cardui. For many years Cardui has been found helpful in building up the system when run down by disorders peculiar to women."

Take Cardui

DANDRUFF

Dandruff is a skin disease, it is not a hair disease. It is caused by a fungus which grows on the scalp. It causes itching, redness, and scaling of the scalp. It is a common disease, and it can be cured by using Dandruff.

HUNT'S Soap

Hunt's Soap is a pure, white, and soft soap. It is made from the best materials, and it is the most economical soap you can buy. It is the best soap for the face, for the hands, and for the body.

"Built Me Up"

"I USED CARDUI for years and it did me more good than any medicine I ever used," writes Mrs. M. C. Ragdale, of Fort Towson, Okla.: "I used to suffer with my monthly trouble that weakened me until I was a mere shadow, nervous, and could not sleep. I did not feel like I could live. It seemed that nothing helped me till I heard of Cardui and began to use it. It

strengthened me and, as I was recommended to do, it regulated and built me up till I was like another woman. I felt weak, run-down and feel that you need a tonic, take Cardui, the woman's tonic. The tonic about which you have always heard, the tonic that helps weak women regain their strength. Cardui acts on the woman's system and helps relieve pain and discomfort due to female ailments. Try Cardui, today, for your trouble."
