FIRES FIGHT OVER LIQUOR IS EXPECTED

Democrats See Stormy Weather For Dry—Prohibitionists Expect Beer Talk to Be Brought to Convention Floor.

San Francisco, June 25.—With the opening of the Democratic National Convention a week away, a stir of activity was noticeable about hotel headquarters today, in addition to the preliminary work at the auditorium, where the delegates will gather.

It took the form of informal discussion between national committee members and State leaders already on the ground, devoted chiefly to anticipated struggles with platform building. There was virtually no talk as to presidential candidates. A plain intimation ran through a large of platform talk that proposals to modify the federal prohibition enforcement act were expected by some of the democratic way born to stir honors with, if not to eclipse the league of nations issue.

Nobody had said a word of statement to make nor would anybody talk for publication. Some of the men who will have a hand in shaping the party's declaration of principles, however, talked much privately of a popular demand that the question of States' rights should apply to beer restrictions.

Taken in connection with the announced purpose of William J. Bryan to resist any weakening of prohibition enforcement, the talk was brought to the surface the feeling of prominent Democrats already here that a fierce battle on the point in the resolutions committee, and coming to be avoided. They believed also that ultimately the question would be fought out on the convention floor.

Discussions of the blank apparently awaited the arrival of Senator Glass, of Virginia, dated to head the resolutions committee, and coming direct from a conference with President Wilson. The contest over the league issue already has been sharply defined in the conflicting views of the President and Mr. Bryan.

The name of Senator Walsh, of Montana, was injected into the discussion today of the probable permanent chairman of the convention. The Montana Senator was mentioned by a number of leaders in a tentative way, although others said they believed Secretary Colby, of the State Department, would be the man urged by administration forces, despite his statement that he was not a candidate for the post.

No delegations have put in an appearance yet except for a State leader. There are three delegates from the State of New York, and one from the State of New Jersey.

MAY FLOAT LUSTINIA

Three Interests Now Plan to Raise Great Ship.

Paris, June 10.—If the refloating of the Lustinia proves successful it will result in the building of a \$150,000,000 between a French salvaging company, the British Government and the Cunard line, according to an announcement made here by the directors of the steamship line. Although extensive preparations are being made for the venture, the Cunard company does not expect any gains, pointing out that the size of the vessel and the depth to be overcome will make the operation the costliest in the history of the world. Nevertheless, the wealth of jewelry, gold and silver bars known to have gone down with the ship offers an unprecedented inducement to the salvaging company.

Experts have decided that it will be necessary to cut the vessel into five portions, exclude the water pressure and then bring the sections to the surface. It is estimated that at least a year will be required for the work. If successful, the large, old vessel raised heretofore by this system had a tonnage of only 8,000.

The French navy officials were interested, for, if successful, the government may consider seriously the project for the refloating of many valuable ships sunk in shallow water by submarines.

THE DIVINE COMMAND TO WORK

(Manufacturers Record, Baltimore, Md.)

Every man is under a Divine command to work, with no Divine permission to loaf. "Six days shall thou labor on all thy work" is the voice of Almighty God, and the day when it was uttered, all the way through the Old Testament and the New, there rings the cry of work.

"In the sweat of thy face shalt thou eat bread."

Under this Divine command no man can escape his duty to work with out violating God's law.

The loafer, whether he be rich or poor, is violating one of the fundamental laws of creation and is living contrary to the teachings of the Bible. Every man must work, not grudgingly, not as though work were a curse, but with his heart full of thanksgiving that he has the privilege of working. It has been well said, "Thank God every morning when you get up that you have something to do."

Nobody had said a word of statement to make nor would anybody talk for publication. Some of the men who will have a hand in shaping the party's declaration of principles, however, talked much privately of a popular demand that the question of States' rights should apply to beer restrictions.

Taken in connection with the announced purpose of William J. Bryan to resist any weakening of prohibition enforcement, the talk was brought to the surface the feeling of prominent Democrats already here that a fierce battle on the point in the resolutions committee, and coming to be avoided. They believed also that ultimately the question would be fought out on the convention floor.

The French navy officials were interested, for, if successful, the government may consider seriously the project for the refloating of many valuable ships sunk in shallow water by submarines.

MORE DEFECTIVES UNDER PROHIBITION

Number of Jail Inmates, However, Largely Decreased Under New Era of Dryness.

Chicago, June 22.—While under prohibition, the number of jail inmates has decreased 25 per cent, and jail costs have been reduced in the country by half a million dollars since July 1, 1919, when prohibition first went into effect, there is a reported increase in the number of defectives. Burdett G. Lewis, Commissioner of Institutions and Agencies for New Jersey, declared here today.

Mr. Lewis was the chief speaker at a joint meeting of the American Association of Public Officials of Charity and Correction and the National Conference on Education of Backward Children.

Mr. Lewis quoted statements from physicians to the effect that the increase in defectives was due to the decrease in still born children and that this decrease was due to shutting out of alcohol.

"It seems reasonable to assume," said Mr. Lewis, "that the increase of idiosyncrasy due to the decrease of still born children, who are of the defective in the use of alcohol by expectant mothers are born alive, and that as formerly. Of course this adds to the number of defectives to be cared for at public expense."

GEORGIA HASN'T ANY MONEY TO PAY SOLONS

Atlanta, Ga., June 19.—For the first time in the history of Georgia, there are not sufficient funds in the state treasury to pay the expenses of the approaching legislature and hereafter, the state must take up the next few weeks to pay the actual expenses of operating the state government, according to figures obtained from the capital.

The condition of the state treasury has not been known generally and officials interested in the situation are now working on plans for finance. The legislature, which is scheduled to meet Monday in the office of the governor and investigate conditions with a view toward making some kind of compromise with the legislature. It will cost \$115,000 to run the legislature for fifty days.

It has been suggested by some state officials that the legislature make provision for borrowing a million dollars of the automobile loan money held in the treasury. The state has no money left, however, and is tied up by litigation attacking the appropriations feature of the state highway law and the motor vehicle law.

CHARGED WITH FORGERY

Gaffney, June 16.—A young man was arrested in Gaffney yesterday on the charge of having forged the name of the Victor Cotton Oil Company.

The employee of the rich man who loafs because he feels that his wealth gives him the opportunity of doing it, is in this hour of world need not be rebuked by the command of God, but he is rebuking the world of productive potentialities which he makes no avail to his fellowmen.

The command to love God and to love our fellowman is no stronger than the command to work. He who fails to work to the utmost of his ability can lay no claim to be a follower of or an imitator of the Son of God, who labored morning, noon and night, or of the Great Teacher, who labored the Divine command that men should work six days in the week and rest on the Sabbath, and through the sweat of their brows eat their food.

In his schools and churches, in family life and on the public platform, if by this nation's leaders these eternal truths be regarded as the truth, is a vampire, sucking the nation's blood. The loafing rich man and the loafing work-shirking poor man would starve themselves and two billion people, one at Austin, Texas, and the other at Nashville.

WORLD COTTON MILL PROFITS TOO BIG

The directors of the Inman Cotton Mills, Spartanburg county, South Carolina, have recommended a stock dividend of 300 per cent, 300 per cent to be in common stock and 100 per cent preferred stock, and the stockholders have been called to ratify the action of the directors.

Stock dividends of from 200 to 300 per cent have been entirely too frequent. No legitimate business is entitled to make such profits. Some where there is injustice to the public. We know that the reply of the cotton mill people is that the shortage of cotton goods throughout the world is so great that American mills are merely following the lead of English and New England mills. It is true, too, that English mill stocks have been selling on a basis at from ten to fifteen times the par value.

One large mill owner in England recently said that the cotton industry of the world is a pittance for their staple as compared with the cotton industry of the world. The cotton producers have been paid a pittance for their staple as compared with the cotton industry of the world.

It is probable that no single industry in the world's history ever yielded over a period of two or three years such enormous profits. The cotton industry of the world has come to the cotton mills of the world, unless it be, perchance, the profit made by Carnegie and his associates in the sale of steel. The cotton industry of the world has come to the cotton mills of the world, unless it be, perchance, the profit made by Carnegie and his associates in the sale of steel.

The stockholders of these mills, of course, are greatly rejoiced, but are they taking into consideration the fact that these profits belong to the world? The cotton industry of the world has come to the cotton mills of the world, unless it be, perchance, the profit made by Carnegie and his associates in the sale of steel.

The cotton industry of the world has come to the cotton mills of the world, unless it be, perchance, the profit made by Carnegie and his associates in the sale of steel.

The cotton industry of the world has come to the cotton mills of the world, unless it be, perchance, the profit made by Carnegie and his associates in the sale of steel.

The cotton industry of the world has come to the cotton mills of the world, unless it be, perchance, the profit made by Carnegie and his associates in the sale of steel.

ALL LENDING HAND IN REBUILDING TOWN

Work in City Already Well Under Way.

Los Angeles, June 22.—The work of rebuilding the business section of the city, which suffered most from the series of earthquakes, was well under way today, practically the entire population of 2,000 taking part in an emergency ordinance providing for a special committee to take charge of the situation and condemn any building found to be unsafe.

Arthur Corey, city engineer of Inglewood, the damage there, probably would exceed \$100,000. Losses in Los Angeles and other parts were estimated at \$25,000.

The Los Angeles Railway corporation was halted for half an hour beginning about 10:30 a. m. officially of the city of Los Angeles today the delay was due to an earthquake shock which temporarily crippled a power plant at Juniper Lake, 70 miles from Los Angeles.

Officials said they had another message that the plant had a slight breakdown, but that the cause was not stated to be an earthquake.

TEXAS FARM BOYS WILL LITOUR BIG FARM AREAS NEXT MONTH

A special train bearing 150 or more Texas farm boys will start on a competitive selection tour of the best agricultural regions of the Central, Western and Southern States.

The tour, which will be both educational and investigational, will be under the joint direction of the Extension office of the Texas Agricultural Experiment Station and the Texas Chamber of Commerce.

The purpose of the tour is to give the boys an opportunity to study practical farming, including the best methods of the most successful farming areas of the United States. It will be an opportunity to study practical farming, including the best methods of the most successful farming areas of the United States.

The boys' minds high standards and right ideals of country life. They will have an opportunity to study practical farming, including the best methods of the most successful farming areas of the United States.

PROGRAM OF CONVENTION TOPIC OF DISCUSSION

San Francisco, June 23.—Representatives of the various aspirants for the democratic presidential nomination probably will be asked to get together on a program before the convention opens to determine in advance whether the platform shall be adopted before or after nomination.

Democratic convention in the past have differed in this regard. Some campaign managers profess to see factional advantages in the arrangement of the order of procedure. It was said, Chairman Cummings, of the national committee, however, is hopeful that an agreement can be reached which will expedite the convention's work.

With a fight over expression of the party's attitude on the Volstead prohibition enforcement act generally expected to be carried to the floor of the convention, it was pointed out that the resolutions committee would probably be tied for some time in reaching its conclusions. During the period, if adoption of the platform is to precede the election of officers, the resolutions committee will be expected to fix the order of business.

BRYAN FORECASTS THE ISSUES IN CONVENTION

Lincoln, Neb., June 23.—Prediction that the democratic national convention at San Francisco will witness fights over the peace treaty, the prohibition enforcement act, and the tariff, in an article by William J. Bryan in his newspaper, The Commoner.

"The chances are in favor of ratification of the peace treaty with reservations, and are against the prohibition and the saloon," Mr. Bryan declared.

"The overwhelming opposition to the ratification of the peace treaty without reservations is shown by the vote at the primaries," he asserts.

The article also says the democratic platform is certain to declare against universal compulsory military training, that the convention will have to deal with the subject of prohibition, and that the democratic party will "insist upon the toilers' right to equal treatment," and that woman suffrage will be endorsed.

TROOPS GUARD JURY AS IT PROCEEDS

Williamson, W. Va., June 22.—Officers and troops of the state constabulary today were on guard at the Mingo county courthouse, in which a grand jury opened an investigation of the recent shooting at Matewan, during which ten persons were killed.

According to county officials 200 witnesses will be examined before the jury reports to Judge Nathan of the county court. In his charge to the jury late today, Judge Damon instructed that every phase of the shooting be investigated, including the evidence of coal miners from company houses; charges of murder and conspiracy to murder; the alleged offer of bribes to municipal and county officials; that evictions of miners could be accomplished; and robbery of the bodies of the dead.

POLICE FIND POISON AND WEAPONS IN RAID

New York, June 22.—Cocaine, morphine and heroin worth \$250,000 and two revolvers, a sword and a club were confiscated by the police in raids today on two dwellings in Brooklyn where three men, Giovanni Mauro, his son, Louis, and John Louis, Giuseppe Gonzales, were arrested charged with having drugs in their possession.

Louis Mauro, according to the police admitted having been a distributor of drugs, which he said, were purchased from crews of competing labor unions.

CUBAN LAWMAKERS STAGE FAMILY RIOT

Sitting of House Summarily Suspended Because of Serious Disorder.

Havana, June 22.—Bleeding scenes occurred at the House of Representatives today when the sitting of the House was summarily suspended because of disorder, said to have been caused by members of the Liberal party. The House has been unable to convene for several weeks, because of ill health to have been a "legislative" strike on the part of the Liberal party. The House has been unable to convene for several weeks, because of ill health to have been a "legislative" strike on the part of the Liberal party.

So hostile became the attitude of the crowd when Representatives, declared have been mistaken for Senator Argon, according to accounts filed here tonight, drew a revolver and fired several shots into the air. The police then dispersed the crowd without further trouble.

LOW NECK AND NO SLEEVE DRESSES TO BE BARRED

Frederick City, Md., June 22.—Low neck and sleeveless gowns worn by a crowd from Rock Creek in the future. This announcement was made by Miss Helen Price, dean, in a letter just sent to the mothers and guardians of all students at the college has an enrollment of about 300 young women and is one of the largest in the country.

Miss Price's letter urged the cooperation of all mothers and guardians in enforcing greater simplicity and modesty in the dress of students, especially evening gowns. The college authorities feel justified in asking for greater simplicity and modesty in the dress of students, especially evening gowns. The college authorities feel justified in asking for greater simplicity and modesty in the dress of students, especially evening gowns.

FIRST WEEK OF SUMMER SCHOOL AT WINTHROP

Rock Hill, June 23.—Winthrop college has closed the first week of the largest and most satisfactory summer school in its experience of 11 years. Including the women from rural communities and the girls of the home demonstration clubs, who attended courses from June 4 to 11, the enrollment of the summer has passed the 1,100 mark.

Johnston has found it necessary to open the fourth dormitory to take care of the teachers who have come in.

A great deal of interest is being shown in the social service courses early today by Mrs. J. M. Potwin, director of community work, Saxon and Chesnes Mills, Spartanburg, S. C.

NEW STRIKE STARTS

Baltimore, June 23.—Baltimore was hit by the new railroad strike today by Mr. J. M. Potwin, director of community work, Saxon and Chesnes Mills, Spartanburg, S. C.

Official of the Pennsylvania railroad said that half of their crews are out.

Expert Lecturer to Tell How to Get Best Results.

One of the best things along educational lines that has come to our notice recently, which has secured a great deal of commendable publicity from newspapers and letters of endorsement from Business Organizations in the largest cities, is the lecture and moving pictures on Retail Merchandising that is being sent out by The National Cash Register Co., of Dayton, Ohio. The Chamber of Commerce has been able to secure this entertainment for the benefit of the merchants and clerks of Chester and will be presented at Opera House Tuesday evening July 6th at 8 o'clock.

The title of the pictures is "The Tryables of a Merchant and How to Stop Them." The featured film was made by the Essanay Company, at great expense, and is pronounced one of the covering pieces of work ever produced, dealing retail merchandising.

The wide-awake business man to-day is eager to keep pace with the latest ideas of stocking and better ideas in merchandising and these pictures and lecture come to our city at an opportune time. The lecture covers: Retail; failure of the customer store organization; newspaper advertising; window display; clerks' efficiency; selling methods; credit business; delivery problems; and system in retail business.

Any one of these subjects would be of great interest to the merchants and clerks and the one in particular which should receive favorable consideration from the business man to-day is the value of newspaper advertising—judiciously and constantly used. The lecturer will give some useful hints along these lines, as well as other phases of efficiency methods that will be helpful to the merchant and clerk.

There will also be a run a humorous cartoon and altogether the program will be one of the most pleasant and enjoyable ever offered to our business men.

There will be no charge for admission.

HARDWARE DEALERS CITED TO ANSWER

Southern Association and Several of its Members Summoned by Federal Trade Commission.

Washington, June 23.—The federal trade commission today cited the Southern Hardware Jobbers' association with headquarters at Atlanta, and several of its members, to answer complaints of unfair competition made by certain retail dealers of Georgia. The complainants alleged that they were prevented by the association from purchasing supplies of hardware in wholesale quantity after they had formed a cooperative purchasing committee.

Those cited with the association were Beck and Gregg Hardware company, Dins-Davis Hardware company, Crimley-Sharp Hardware company, King Hardware company, George E. King and John Donnan, all of Atlanta. Forty days are given for the filing of answers.

The Southern Hardware Jobbers' association is a voluntary association of about 350 wholesale hardware dealers. George E. King and John Dona are, respectively, the association's president and secretary. The other respondents were selected as being fairly representative of the entire membership, the commission's statement said.

BANK DEPOSITORS ROUSED BY CHECK ACCOUNT CHARGE

Wilmington, Del., June 17.—The plan of a combination of banks here to make all depositors whose deposits do not total \$200 and upward monthly to pay \$1 each on the first of the checking service given, has aroused a storm of protest among the smaller depositors.

The banks say it costs \$15 yearly to meet the expense of a check account and that the action taken is justified. They are following a resolution adopted by the Clearing House Association a few weeks ago. As all of the banks are in the combination there is nothing for the small depositor to do but withdraw his account or pay the \$1 monthly.

Many say they will in the future be their own banks, while others are trying to arrange for small checking accounts in Philadelphia institutions. At the meantime the banks, secure in their position, are standing pat.

Big Silk and Voile Dress Sale at Kluttz's

Several big Dress Manufacturers in New York city due to unsettled business conditions there attributed to the great wave of price reductions existing there have sent Kluttz Department Store some excellent Silk and Voile and Organdy Dresses that we can offer at a great reduction to the people.

SEVERAL MEMBERS OF GIMBEL FIRM ARRESTED

Placed Under Bond by Department of Justice Agents, Charged With Profiteering.

New York, June 19.—The arrest here today of Frederick C. Gimbel and several of his brothers, which operates large department stores in several cities, and a merchandise manager and clothing buyer of the establishment, will be followed by similar action against a number of other alleged profiteering departments of importance. It was stated at department of justice "flying squad" headquarters here tonight.

Other department stores as large as Gimbel's already are under investigation and federal warrants will be requested as soon as inquiries are completed to allow agents to file charges of profiteering. Special Agent in Charge, who conducted the investigation of the Gimbel firm here, stated. He predicted that these additional warrants would be forthcoming at an early date.

Mr. Gimbel, Merchandise Manager, J. J. Dowdell, and Clothing Buyer, C. D. Siewer, who were arrested in the Gimbel brothers case today, were released in \$1,000 bail each by United States Commissioner Hiltchcock. After they had pleaded innocent to charges of profiteering on four specific counts alleging profits of 90 to 275 per cent in clothing. Their preliminary examinations were set for July 6.

Advantages of an "Agricultural Excursion"

Another good thing to consider in June is the practicability of getting the farmers of your locality to go on an "agricultural excursion" (by automobile to visit some noted farm of farm community).

Usually the county agent takes the lead in getting up an excursion of this kind, but he will be more inclined to go into it if several farmers will suggest to him beforehand that they would like to see the idea carried out.

What sort of trip to take will depend on what the farmers of your county or locality are interested in. We know one case in which a group of farmers visited a noted agricultural community. A famous stock farm became the object-point of another group of like-minded searchers for farm knowledge. A famous seed-breeding farm. In another case, farmers visited a county which has become a leader in dairy and creamery work. Still another popular and useful form of excursion is found in the case of farmers in sections near the bulk market who go on a trip to counties that have had several years' experience in successfully combating the pest.

No matter what sort of agricultural excursion you decide to take, however, we hope you will not fail to get a group of neighbors to join you in attending the annual sale meeting of farmers at your agricultural college. You owe it to yourself to get this sort of yearly contact with the best farmers and farm leaders from all parts of your state, and with leaders of agricultural thought and progress from all parts of the Union.

BOSS QUILTS TO GET PAY RECEIVED BY LABORERS

Hackettstown, N. J., June 21.—Because laborers he employed in street work are making more than the \$100 a month paid him for directing the work, John Achley has presented his resignation as street commissioner to the Hackettstown council. In an emergency the council increased the pay for unskilled labor, but overlooked an increase in pay for the man who had to superintend the work.

Achley decided it would be more profitable to quit and seek a job by the day in his own department.

The street chairman has met with a liberal response from the people of Chester in their efforts to collect white while books for the library. The Chester Free Library now has a good variety, as well as a good selection of books. Miss Poston, the librarian, is at the library every afternoon and will be glad to help you select an interesting book. About twenty-five of the best current periodicals have been subscribed and most of the June magazines are at the library where you are invited to read them. The library service is free to everyone in Chester.

EMBARGO ON FREIGHT.

Baltimore, June 20.—C. W. Gallaway vice president in charge of maintenance and operations of the Baltimore and Ohio railroad, announced tonight that there was an absolute embargo on all freight of every description to all points east of Cumberland, Md.

"Pennsylvania railroad officials here announced the same embargo except as to human foodstuffs and coal for public utilities and hospitals also applies on their line."

TREASURER.

I am a candidate for re-nomination as County Treasurer, subject to the Democratic primary, and will appreciate all support that may be given me.

TERRIFIC HAIL STORM SWEEPS LENOX COUNTY

Kinston, N. C., June 23.—A hail storm over a part of Lenox county this evening did damage running to hundreds of thousands of dollars. Some plantations, practically every acre of tobacco was stripped or broken by stones, some of which were as large as guinea eggs.

On a single plantation in the Falling Creek section, the damage was \$100,000.

One estimate for the county placed the damage at not less than a million. Persons caught in the storm in automobiles said it was the most terrific they ever witnessed.

On a stretch of country miles wide and long there is utterly ruin in the field. Stones exhibited here at 9 o'clock were, hours old but still as large as walnuts in spite of the high temperature.

A number of citizens of Landford township, and legal representatives, appeared before Judge Ernest Moore, in Lancaster, Wednesday with reference to the expenditure of money by the Highway Commission in Landford township. Those representing Landford township claimed that their proportion of the bond, money had not been spent in their township and they asked for an injunction against the commission. It was shown that the commission was without any funds with which to do any more work in Landford township and in consequence thereof there was no grounds upon which to issue an injunction. As the News understands the matter the balance of the money in the hands of the commission will be spent in Hallsville township.

Lenox County Farmers Warehouse certificate number 463 for one bale of cotton. This is to notify all parties not to buy or trade for above mentioned certificate. Joe Wylie.

Keep-Kool

The National Service

IN a KEEP-KOOL Suit a fellow can feel delightfully comfortable the length and breadth of a hot summer day.

CHESTER LAUNDRY

W. P. STROUD, Prop.

THIEF GETS 16 YEARS.

New York, June 22.—James E. Foye, former hotel clerk who was convicted last week of the theft of \$350,000 worth of jewels from Mrs. Regina V. G. Milner, a wealthy widow of Richmond, Va., who was residing at the Hotel Biltmore, in May 1919, was sentenced today to fifteen years in Sing Sing.

Foye has had considerable time in which to recover \$25,000 worth of the jewels still missing, but has not done so, the judge said in sentencing him.

CLERK OF COURT.

I offer myself as a candidate for re-nomination for the office of Clerk of Court, subject to the Democratic primary, and promise, if re-elected, to serve you faithfully as in the past.

SHERIFF.

I hereby announce myself a candidate for re-nomination to the office of Sheriff, subject to the rules and regulations of the Democratic party, and pledge myself to abide by the results of the primary.

D. GOBER ANDERSON.

ABOUT HUSBANDS AND WIVES

In a series of stories written by Jean Pierre Perard, designated the most married man in the world, because he has 23 times had blushing brides to the altar, are many things illuminating to men and women.

Two of the stories discuss men and women who make the best husbands and wives. In his own words: "Consideration for his wife's feelings is the good husband's middle name. He doesn't have her out in public. In fact he doesn't have her out at all, but if something goes wrong or he thinks he isn't getting a square deal somewhere, he has it out with her and gets it off his chest. He doesn't go about with a grooch bottled up."

He doesn't keep a strange hold on the purse strings or dole out the shakels as if he was sitting in a con- tinuous game of penny ante, but neither does he throw the clutch and hit on all twelve cylinders.

When you come to face the facts in the case of the "good" husband, he is the one who heeds the advice of the Good Book and doesn't let his right hand know what the other does—or worse to that effect.

The women who make the best wives are the ones who see to a man's comfort without making any fuss about it. They're the ones who take an interest in their husband's com- ings and goings without keeping tab on him till he feels as if he were in jail and she's the keeper.

They are strong minded enough to keep husband in the straight and narrow path, but they refrain from pushing him too far or too fast. To sum it up the women who make the best wives are the ones who regard marriage as an occupation or a profession. —New York Mail.

LUMBER AND BRICK CUT SHARPLY IN PITTSBURGH

Pittsburgh, June 18.—Lumber, brick and tile industries of the Pittsburgh district have joined in sharp- ly reducing prices. Indication yes- terday were that further reductions will be made.

According to a conservative au- thority it will not be long before lumber and all clay products enter- ing into construction work will be as cheap as before the war.

Radical reductions are reported by lumber manufacturers principally in those materials popular in home building.

Cuts made by the clay product manufacturers have not been so pro- nounced, but it is predicted within the next thirty days further reduc- tions will be announced.

And common bricks and back- up tile, that have been in big demand lately by home builders and used extensively in plant and office building work, are much cheaper than they were quoted sixty days ago.

Notice Of Drawing Petit Jury.

In compliance with an act of the General Assembly of the State of South Carolina, approved the 7th day of February, A. D. 1902, we the Jury Commissioners of Chester coun- ty, in the said State do hereby give notice that on Thursday, June 20th, 1920, at 10:30 o'clock A. M. in the office of the Clerk of Court of Com- mon Pleas and General Sessions at Chester, S. C., we will draw the fol- lowing jurors, to wit:

Thirty-six (36) petit jurors to serve during the first week of the Summer Term of Circuit Court.

A. C. FIDELL, Auditor.
A. T. HENRY, Treasurer.
J. E. CORNWELL, C. C. Pleas.

TODAY is your opportunity to place your order for delivery of a Buick Valve-in-Head motor car to- morrow, next week, or longer delay may cause your waiting thirty, sixty or ninety days in securing delivery. Buick demands are increasing steadily each day—and present purchasing is advised as a protection in future motor car delivery. It is a vital and im- portant subject that demands the im- mediate consideration of motor car purchasers, for Buick dealers already are receiving hundreds of orders for the summer and fall months.

Should you prefer earlier delivery, take advantage of to-day's opportu- nity in placing your order.

LIVER DIDN'T ACT

DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Drageat.

Madisonville, Ky.—Mrs. Cynthia Higinbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My ap- petite was gone. I was very weak. I decided I would give Black- Drageat a thorough trial as I knew it was highly recommended for liver trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the same trouble was once ridged with a few doses of Black-Drageat."

Many years of successful use has made Black-Drageat a standard household remedy. Every member of every family, at times, needs the help that Black-Drageat can give in clearing the system and relieving the trouble that comes from constipation, indigestion, liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Drageat. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Prices are a package—One only. All druggists.

"Handsome is as Handsome Does"

An old adage as true today as in all the past ages.

No car offers cleaner lines, more truly dignified gracefulness or deeper lustre of finish than does the Cleveland Six. But these quali- ties would be but a surface, were it not for what is beneath them.

The exclusive Cleveland motor, the most highly developed of the powerful over-head type, gives a character of performance in flexibility of power and speed, and in dependability and endurance, that surpasses other light cars.

The sturdiness of its chassis con- struction, the ease of its control, the soft cushioning of its low under- spring construction, the certainty of its brakes—all these qualities add to the comfort and safety of its per- formance on any kind of roadway, on the steepest hills and in crowded traffic.

Take a Real Ride in the Cleveland, and You will know What a Good Car it is.

Touring Car (Five Passengers)	\$1485	Runabout (Three Passengers)	\$1485
Sedan (Five Passengers)	\$1395	Coupe (Four Passengers)	\$1395
