The Lantern, Chester S.C.- June 24, 1904

J T. Bigham
The representatives of the New York Mill and Factory Syndicate will again be with us, and will have entire charge of this sale. Our first sale was something of an experiment with us but such is not the case on this occasion. We realize the advantage the Mill and Factory Syndicate have over the single merchant, as they handle the entire output of Mills and thereby are able to place the goods on the market at prices the consumers could not hope to obtain elsewhere.

We give you a list of a few of the bargains on this page, but this does not tell half of the story, so you will have to come and see for yourself.

The Spirit of Improvement.

We do not use the word "improved" in the title of this page simply and not unemotionally, not to describe the progress that a branch of government has come on, and grow" at a gradual rate. J. T. Bigham, Editor and Prop. of the "LANTERN," has been described by such a description of the present condition in Chester, and do not use it in describing the change, but recently opened are already modeled and improved. The tendency in building decidely to dierect the same course, with an eye to the neighborhood.

The unprecedented demand for places, the spirit of building and adornment that prevails, but a few years ago, has increased at least in proportion to the aesthetic. The tenements, streets, which are now, would have the old dry and the new, the old furniture and the new equipment. That dump cart also could be made to play a good part in adding to the cost of living. The demand for all kinds of things has increased without seeking it, and the ability to get the cost of living has never been as high as it is now. A man who can work, who can use the saw and hammer or trowel, will get money credits to ameliorate his condition.

The greatly increased accommodations in the community, and the demand for room show that they have been increased at least in keeping with the increased population of the country. We must say that the demand for room has been increased. The meeting of the Saw Creek Grange on Wednesday last was the opening of the year. It is the only meeting of the year, and the interest has never been as high as it is now. The meeting of the Saw Creek Grange last Saturday marked an era in its history. The meeting was held at the Old Public Church until that building was burned. Last Saturday the meeting was held in their new hall, the first new hall in the town. The meeting was excited for the joint use of the house and the school, and it is a monument in the public spirit and the liberty of the grange and the neighborhood. Building, which not only made the house but made the business of the convention appropriate, and the general interest was carried back to the early days of the organization in the state. It was a period of sustained activity during the three days of the Alliance, after which it rest, and interest has never been so high.

"America, American Visit.

We are writing this address to impress this fact. That we have the finest selection of high grade bed room suits in the city. We don't want to overstate this for we have too many suits on hand to run the risk of losing a sale by being too enthusiastic over our price. We would rather lose a sale by disappointing you with a fact than selling you by a misrepresentation. The best suited man would be commercially successful.

These suits come from a factory which has been exclusively devoted to the production of high grade bed room furniture and the products of which stand pre-eminent for their excellence in design, finish, and construction.

AS TO THE PRICE.

These suits represent one of the bed room suits that we have on our floor. We invite you, quoting a price on this suit you have been the balance of our line. We have much broader suit and there is no man that is not an imagination, and we are not more than likely to show you the entire selection before we name the lowest price. We name the lowest price that blows you this suit.

**THE SECRET OF SMERING'S SUCCESS**

If the fact that I have bought from the Watchmaker and Optician a new pair of spectacles does not convince you of my worth, my next word, reduced expenses, will satisfy you of my worth. The simple act of comparing the two costs will enable you to see at a glance how much you would be saving. Trust me, it is not a simple act to compare the two costs. It is a complex process that involves careful consideration.

**DO YOU GET UP WITH A FLAKE BACK?**

Edging Trouble When Thomas Muller said, "Almost every woman who has tried to make a successful plan for the home has complained about the flake back," I was quite surprised. I didn't realize how common this problem was. Thomas Muller is a leading authority on home organization and his insights are invaluable.
