BAGDAD DISAPPOINT.

Potato disease causes very serious losses in England, Ireland and other parts of Europe. This disease has been found in the United States and the government has now a campaign to locate all points where the disease has made its appearance. F. C. Anderson of the department of agriculture is now in Columbia to make a survey of gardens in search of this disease. Rough, spongy outgrowths of varying size are produced on the tubers especially at the eyes. These warU are eight by brown at first, but become black and decay with age. Sometimes all potatoes in different hills are worthless. The disease does not attack the vines or dry ground. Prompt steps should be taken to stamp this disease out wherever found.

RIOT AT OVERLAND PLANT.

Toledo, Ohio, June 3.—Eleven persons were seriously injured, two probably fatally, in a riot at the plant of the Willy Overland Automobile company tonight. This riot was the result of the labor disturbance involving 13,000 workers. The plant opened up a week ago after two weeks' idleness. Discharged soldiers acting as guards at the plant, fired more than 100 shots over the heads of the rioters, finally dispersing them.

Violence started early in the day when a crowd of idle workers stormed cars carrying loyal employes to the plant, smashed the car windows with stones and bricks and pulled workers into the streets, where they were beaten. The situation flamed into a pitched battle tonight when idle workers numbering 5,000, including many women, stormed the entrances of the plant as the employes were leaving, beat them with clubs and felled them with a shower of stones and bricks. Streets in front of the plant were littered with tatters and broken glass.

NECRO RUNS A MUCK.

KILLING POLICEMAN

Four Other Wounded by Shots.

From Alonxo, Young In Memphis.

Memphis, June 13.—Alonzo Young, a negro who ran amuck here today and shot and killed G. Brinkey, a police sergeant, and wounded five other persons was being cared for in a hospital here tonight. Fearful violence, the negro was put on the train here late for Nashville and at Jackson, hearing of a telephone message purporting to be from the chief of police, took the negro off the train to put him in jail. It was discovered that this message was a hoax, and fearing violence, it was decided to take the negro to Nashville and keep him there.

TO CHOOSE NEW GATE AT UNIVERSITY HEAD TODAY

Raleigh, June 16.—Trustees of the University of North Carolina are gathering in Raleigh tonight for the meeting called at noon tomorrow in the office of the governor, ex-officio chairman of the board, to elect a president of the university to succeed the late Dr. E. K. Graham. Of a list of 40 or more candidates, five are expected to be chosen as candidates.

WILSON EXPECTED TO SAIL BEFORE JUNE 25.

Paris, June 15.—President Wilson probably will remain in Paris only three or four days after his return from Belgium next Friday. He will then embark at a French port for the United States.
So Big And Yet So Small!

Seen by itself, Swift & Company is one of the largest manufacturers and distributors of animal food products in the country.

In relation to the total food business of the world, its size diminishes to small proportions.

We handle only about 22 per cent of the total output of the hundreds of packing plants under federal inspection, and roughly about 12 per cent of the total meat supply of the nation.

We handle only about 6 per cent of the total quantity of butter, eggs, and poultry sent to market in the United States.

Our tanneries handle less than 10 per cent of the hides made into leather in the United States.

Our soap factories make less than 10 per cent of the soap output of the nation.

This is done in keen and open competition with every concern handling these products, and at a profit of a fraction of a cent per pound.

In the meat packing industry there is no predominant concern handling a large proportion of the output.

Swift & Company, U. S. A.

Keep Cool

In order to do efficient work one must keep both mind and body cool. If your body is cool there is a great possibility that your mind will be so too.

We have the body cooler in the way of all sizes of electric fans, which can be operated very economical. All day long for less than five cents.

Now Mr. Business Man don't get it into your head that a place of business is the only one which needs a fan. The chances are your wife does, more hard, hot work than you do. Buy her a fan to help make her life more pleasant, and too, she will be more pleasant. You know when a person gets hot they usually get irritable.

A cool breeze for 12 hours for 5 cents.

\[ \text{why} \]

\[ \text{Michelin tires can be priced so moderately} \]

Michelin users, familiar with the unsurpassed quality of Michelin Tires, often ask how it is possible to sell Michelin Tires at prices no higher than ordinary makes.

The answer lies to be found in Michelin's unequalled experiences and in Michelin's watchword "Economical Efficiency.

Michelin has the secret of obtaining the best possible results for the smallest amount of money. Michelin has the secret of obtaining the best possible results for the smallest amount of money. Michelin has the secret of obtaining the best possible results for the smallest amount of money. Michelin has the secret of obtaining the best possible results for the smallest amount of money. Michelin has the secret of obtaining the best possible results for the smallest amount of money.

Hence it is that Michelin Tires and certain other products can be sold at prices no higher than ordinary makes, though they are as much better than the world's quality tires.
