REMNANT OF THE GREAT CATAWBA INDIAN TRIBE

Once Powerful Indian Tribe Now Divided to Less Than Hundred... Their power and prestige long but their colorful history still fresh in their minds...

Few persons realize that the prominent part the Catawba Indian nation has played in the affairs of this section of the country since the earliest settlement...

It is certain that the Catawbas when the white man first came to this Carolina, formed one of the most powerful of the southern tribes in the South...

From earliest times the Catawbas were friendly to the colonists in the French and Indian war...

Between the States, many of the Catawbas fought with the Confederate forces. At Fort Mifflin a monument has been erected in memory of the Catawbas who fought so valiantly with the Confederate forces...

Originally the word Buccanener meant one who dried and smoked his own meat...

At the present time the Catawba Indians are segregated on 658 acres of the rough land in York County...

YOUTHFUL WIVES AID AGED MEN

Repetitive Conviction of a Home, Car and Money... Charles DeLaurier that he 70-year-old husband failed to keep his courtship promises...

After the marriage, she avers, he took her to a dilapidated old house 20 miles from Camden...

She then went to Florida, it is shown in the pleading, where he approached her, implore her to return to him and renew old before-marriage promises...

Instead, she says, she was taken to a rooming house on North Caldwell street and was kept in the promised place and was even denied money for the necessities of life...

Both litigants live in Charlotte, where they are living separately. It is alleged that the defendant in the case will take its place on the court calendar and be tried in its regular session...

There are now about 140 Catawbas in the tribe all told aged only about 60 in on the reservation...

At the present time the Catawba Indians are segregated on 658 acres of the rough land in York County...

THE VALUE OF A BOOST

A Boston capitalist once met a man from a small city some miles away and soon found that he was thoroughly convinced that his town was the best on earth. The capitalist investigated, and a capitalist wired the home newspaper:
 "Just met one of your boosters. He said that if your city is anything like him, I want to know about it."
 This led to an arrangement to be of mutual benefit to the capitalist and the city as well.

It merely shows that a community will advance only when it is composed of boosters instead of those who pull back in the harvest.
 Every resident of Chester can be a real asset by saying something good about Chester every time they are away from home.
 You never know when your words may fall on fertile soil. If you are not enthusiastic about the advantages here, you can not expect one living elsewhere to be. We must have a wholesome enthusiasm for the whole community and the opportunities it offers. We should be induced to look for the best before we are offered a beautiful growth and industrial development.

The white race possesses 70 per cent of the cultivated land of the world

although it comprises only 40 per cent of the world's population. West Graham, Va.—The Rev. Lewis Evans, a well-known minister, now past 80, living here, has a high opinion of Dr. Black-Draught, which he says he has taken when needed for 45 years. "For years I have been suffering with my liver," he says. "Sometimes the pain would be very intense and my back would hurt all the time. Black-Draught was the first thing I found that would give me a relief. My liver has always been sluggish. Sometimes it gives me a lot of trouble. I have suffered a lot with it—pains in my side and back, and bad headaches, caused from extreme biliousness. "After I found Black-Draught, I would begin to take it as soon as I felt a pain coming on and it relieved the cause at once. I can recommend it to anybody suffering from liver trouble. I can see two now and then keeps me in good form. Made from selected medicinal roots and herbs, and containing no dangerous mineral drugs, Black-Draught is nature's own remedy for a tired, lax liver."

THE SOUTHERN SERVES THE SOUTH

Railroad service that profits all of us

On the Southern Railway System last year we handled seven million tons of farm products. We carried back to the farms a great volume of things that the farmer gets in exchange for his products.

This is a big part of the day's work of our 8,000 miles of lines, stretching across the South from the Potomac to the Mississippi.

Farm prosperity means prosperity for us. To give the best service, at rates which will enable our shippers to sell their products in the markets at a good profit, and which will enable us to make a fair profit, too, is a fundamental policy of the Southern Railway System.

Did you ever stop to think how much better service the Southern has given you in recent years since it was relieved from financial starvation? That is part of your share in our prosperity.
