Dr. James Monroe is a physician in this town, and he has been treating a great many of the farmers who have been affected by the drought. The farmers have been very much despondent, and they have been urging the government to do something to relieve their suffering. Mr. James R. Reid and Miss Helen Smith, of the American Red Cross, have visited the farmers, and they have been very much impressed by their sufferings. They have promised to do all in their power to relieve their suffering.
