TO-MORROW
SUNDAY
JULY 14th, 1906

The Last Day of the Big Sacrifice Shoe Sale at COLVIN'S, Main Street, Chester, S. C.

Just as we expected. The up-to-date Men's Ladies' and Children's Shoes are sold at the bargain counters at 15 per cent. less than cost. We do this in order to discontinue the Shoe Business, as our store must be remodeled for our new line of Ladies Tailor-Made Clothing. So, therefore bear in your mind that this stock of Shoes must be sold regardless of cost. No matter how unusual, how extraordinary our values are, you'll find them exactly as advertised.

This news has a sensational flavor, but it is all true, every word. Read, then act. It means money saved. Promises in print performed at the counter.

A Remarkable Operation.

A Hard Lot of troubles to contend with, spring and winter, and the system. 25c at the Chemist.

A Hard Lot of troubles to contend with, spring and winter, and the system. 25c at the Chemist.

The Sale Positively Closes To-Morrow, Saturday, July 14th, at 10.30 P. M.

L. KIRSTEIN & CO., Sale Conductors for COLVIN'S, . . . Proprietor
Mr. J. Fraser Lyon, in the interest of prohibition. We are getting along very well. If conditions in this country are not improved, there will be a demand for prohibition.

John D. and John M. have been inspected and the unfavorable reports made, on account of the conditions in the United States. The prohibitionists should not have their investigation stopped, but should be continued.

The following statement of methods is made for the information of the public:

The Cherokee Indians against the sale of liquor in their country. They insist that the police authorities and the courts should not be permitted to operate on Sunday.

The foregoing, bear in mind, is from a reliable source.

The little daughter of Mr. and Mrs. J. A. Hood, 111 years of age, died on Saturday, the 1st of May. She was a grandchild of Mrs. Rebecca Hillman, a grandson of Mrs. Rebecca Hillman, and a great-grandson of Mr. and Mrs. J. A. Hood.

The following statement of methods is made for the information of the public:
"In the world of science, we are still learning. Our theories are constantly being refined and changed as new evidence comes to light. It is a never-ending quest for knowledge, and we must always be open to new ideas.

"The world is full of mystery and wonder. From the smallest subatomic particle to the vastness of the universe, there is so much to explore and understand. The universe is a vast and complex place, and we are just beginning to scratch the surface.

"Our understanding of the world is based on evidence and observation. We must be cautious and careful in our conclusions, and always seek to verify our theories through experiments and data.

"Science is a process of discovery, and we must be willing to adapt and change our beliefs when necessary. The world is constantly changing, and our understanding of it must keep pace.

"The future of science is bright, and I am excited to see what new discoveries and breakthroughs we will make in the years to come. Let us continue to explore and learn, and never lose our sense of wonder and curiosity.

"In the end, it is not the conclusions we reach that are important, but the process of reaching them. Science is about questioning and challenging, about seeking to understand the world around us.

"Let us all be part of this great adventure, and continue to explore and learn together.

"The world of science is an exciting and rewarding place, and I am proud to be a part of it. Let us all continue to learn, to explore, and to discover."
