TUESDAY, JULY 20.

It will be recalled that Mr. James Casler, one of the members of the South Carolina Railroad Commission, recently visited the bridge for the purpose of going over the highway bridge which crosses the tracks of the Southern Railway, about four miles from Chester, on the Saluda Road, commonly known as the Chester-Rock Hill road.

Every person who has had occasion to travel this highway is familiar with the bridge mentioned above and those who are possessed of average intelligence know that the bridge is unsafe and a hindrance to the traffic of the times. It might have been an adequate bridge twenty-five years ago but with the traffic of the present day such a bridge is not only unsafe, but it is also a hindrance to the traffic of the times.

Mr. Casler states, in a new structure erected at Chester, people will require two-and-one-half or three times more bridge. Over extended friend must have been using, manifestly, that the bridge looked over the situation some time ago. It is true that the new structure will require more timber than the present one, but it will cost less, as Mr. Casler mentions.

Judging from Mr. Casler's recommendation one would think that he is more anxious to clear the traffic than to provide for its safety. If this is his object it seems to us that the new bridge could be built and four inch logs placed every ten feet so that all vehicles would have to take them "on low."

The news do not believe in automobiles going at break-neck speed over the country but the time has arrived in this country when a road or bridge that will not stand at a rate of twenty to twenty-five miles an hour is out-of-date and is a drawback to the country and those living in it.

The news is frank to say that unless something is done to the Saluda road bridge, mentioned above, that it will be only a matter of time before some party or parties will lose their lives at this place.

Chester county has gone a considerable expense in building a highway through the county from the Fairfield line to the York county line and it is certainly discouraging to have some one come along and render such a decision as that rendered by Mr. Casler. Instead of giving Chester county his assistance in building highways it appears as if he wants to place himself as a block in our progressive move.

The news would suggest that unless Chester county can get a bridge across the railroad at the point above-mentioned in a business way that our citizens use the "iron hand" and make "somebody" who we think we are progressive citizens, entitled to.

Crushed to Death.
Spaulding, July 15.—William W. Warren, second in the card room of the "Globe" billiard hall, was killed today on a heavy piece of machinery, falling, crushing his abdomen and chest. With some of the men upon the machinery to a point above the heads of the party when a some man of the men took the grip upon the machinery. The deceased is survived by his wife and six children.

BEAUFORT FARMER DRAGGED TO DEATH.
Foot of Rider Catcher in Tree Chain When Thrown by Fractious Mule.
Beaufort, July 17.—T. M. Thompson, a prominent farmer near here, died Thursday afternoon as the result of an accident occurring in the woods. Mr. Thompson attempted to ride one of the work mules to the house from the field where the hands had been working. He had no sooner gotten on the mule than he was thrown and his foot became entangled in the traces and he was dragged through stumps and undergrowth. He suffered a broken hip, a broken rib, which pierced one lung, some internal injuries and many lacerations all over his body.

Dr. Hughes and Griffin were called and it was decided to remove the sufferer to the hospital at Savannah for X-ray examination and treatment. The injuries were of too serious a nature for recovery, and death took place early in the afternoon of Thursday. Mr. Thompson leaves a wife and five children.

MAINTAIN THE ROADS

EVIDENTLY SOMETHING WRONG WITH CANSLER.
"Uncle Jimmie" Casler Recommends Present Saluda Road Bridge Remains—Desires Prohibition.
Below will be found the recommendation of the South Carolina Railroad Commission by Mr. James Casler, a member of the commission, who recently visited the bridge on the Saluda road, about four miles from Chester.

People in this section are familiar with his lecture and will probably long wonder how "Uncle Jimmie" ever arrived at the decision as noted in his letter of recommendation follows:

June 28, 1920.

The Board of Railroad Commissioners of South Carolina, Columbia, S. C.
Gentlemen:

I take pleasure in saying, in response to the Chair, on Saturday morning, the 26th inst., I went to the overhead bridge crossing over the Southern Railway, about four miles north of Chester, and examined same. I found the bridge in good condition, save perhaps the top of one pier. I looked over the bridge to give you that the present crossing is better than the new and proposed. It is at right angles with a small curve on the west side. This will aid to slow up automobiles, buggies, etc., and on the east side is a right angular turn. This too helps to a slow-up for the traveling public. Besides all this, travelers can see easily opposite centers in ample time to assist the stay of danger and damage to other.

The proposed crossing will be at an angle of 45 or more degrees and will require two-and-one-half or three times more timber than the present one, but it will cost less, as Mr. Casler mentions.

Judging from Mr. Casler's recommendation one would think that he is more anxious to clear the traffic than to provide for its safety. If this is his object it seems to us that the new bridge could be built and four inch logs placed every ten feet so that all vehicles would have to take them "on low."

Something more than a sentimental loss is entailed in the passing of the old hotels, another hotel manager points out.

"With the closing of the Holland house, Sherry's, the Knickerbocker and the Manhattan," he said, "there has been a decrease of about 2,200 rooms available in the center of the city. Recent structures have supplanted about 4,200, leaving a net gain of about 2,000 rooms in five years. This gain is not adequate to accommodate the increased demand. I doubt if even the new hotels now planned will be sufficient to supply the demands of the greater number of applicants."

That fact is appreciated by hotel interests is proved by the extensive preparations being made to fill the need. Plans are under way for the construction of several new hotels in the uptown district.

One large hotel is to add 2,000 rooms and another will be reconstructed as to contain at least 3,000 rooms. In addition, besides construction of smaller houses, it is said that California syndicates is casting about for sites for several mammoth hotels in the city.

Balloons Destroyed.
Akron, Ohio, July 19.—A dirigible balloon, the D-1, belonging to the United States navy, and two balloons owned by the Goodyear Tire & Rubber Company were destroyed today, with a loss estimated at \$100,000, by a fire which broke out in a hangar at Wingfoot Lake. Origin of the fire is not known.

CHILD KIDNAPPED 18 YEARS AGO IS LOCATED.
Petersburg, Va., July 18.—Luna Joyner, the little five-year-old girl who was kidnapped 18 years ago near Church Road, Va., is now in Blackstone, Va., visiting her sister. She has been living in Tonawanda, N. Y., and an anonymous letter sent to her from New York City this past February was the instrument that started investigation of finding out who she really was.

BOLD ROBBER ENTERS HOMES IN NEW YORK.
Succeeded in Making Rich Heist from President of Pulp and Paper Company.
Hartsgovon, N. Y., July 17.—Three robbers, one armed in a bedspread and armed with a knife in one hand and a revolver in the other, entered the home of David L. Luke, president of the Virginia Pulp and Paper Company, here early today. While two waited at the door, the masked burglar, snatched the \$20,000 from the pocket of Mr. Luke and his three daughters in a bed room.

He found Mrs. Luke in the kitchen and conspired by her at the point of a revolver to open the safe. She trembled so violently she was unable to unlock the combination.

"Open it, or I'll kill you," the man ordered.

Mrs. Luke succeeded in opening it and then collapsed. The robber took the contents of the safe, including money and escaped with his companions in an automobile.

Later they entered and robbed the home of William Fletcher and

FAMOUS HOTELS CLOSING DOORS.
Bidding Power of Office Seekers Prevails.
New York, July 17.—The bidding power of office seekers and not prohibition has caused many hotels in the general vicinity of 42nd street to close recently, according to opinion of real estate men expressed today.

Within a relatively short time of one another such old and famous structures as the Holland house, Sherry's and the Fifth Avenue Hotel have closed their doors and more recently the Knickerbocker—a relatively new and imposing structure—abandoned business.

"Prohibition has done this," cried many "wets," but now one well-known hotel woman advanced the theory that the steady march of business toward the newer uptown sections was a paramount consideration of the men who decided to close their hosteries.

"A hotel doesn't have to run behind to close," she declared, "if the owner of the property considers it better business policy to erect an office building on the ground, he isn't likely to let sentimentality sway him. Prohibition? No! Let's say business!"

Real estate men admitted, however, there was no general formula for account for the disappearance of the old hotels, some of them the possession of international reputation.

Some people who are closely in touch with the hotel business, describe the closing of some of the older hotels to the fact that the price of the original construction has in the last decade. Hotels, they say, are being built with several times as many rooms as formerly, effecting a concentration about one controlling headquarters and reducing the "overhead expense" incident to upkeep individual rooms and apartments.

Something more than a sentimental loss is entailed in the passing of the old hotels, another hotel manager points out.

"With the closing of the Holland house, Sherry's, the Knickerbocker and the Manhattan," he said, "there has been a decrease of about 2,200 rooms available in the center of the city. Recent structures have supplanted about 4,200, leaving a net gain of about 2,000 rooms in five years. This gain is not adequate to accommodate the increased demand. I doubt if even the new hotels now planned will be sufficient to supply the demands of the greater number of applicants."

That fact is appreciated by hotel interests is proved by the extensive preparations being made to fill the need. Plans are under way for the construction of several new hotels in the uptown district.

Arrest and Search Bring Damage Suit.
Anderson County Man Goes to Court With Officers, Asking Ten Thousand Dollars.
Anderson, July 17.—Boone R. Moss and Jake Gosnell are named as defendants in an action for damages brought by R. O. Elrod, of this county. The action is for damages, actual and punitive, claiming judgment in the sum of \$10,000 for alleged unlawful arrest and treatment by the officers.

Mr. Elrod claims that on June 25 he was lawfully traveling in company with his wife, child and mother, demanded a search of his automobile for whiskey, compelling him to go to Wallaha. When the search of the automobile was made no whiskey was found, and Mr. Elrod was released.

This case will be an interesting one, as it will be a precedent for other cases which may come up later.

County-Wide Attendance Contest.
A county-wide attendance contest has been suggested in connection with the approaching County Sunday School Convention to be held at Pleasant Grove Presbyterian church on Wednesday, July 28th, according to Leon C. Palmer, general superintendent of the South Carolina Sunday School Association.

At this convention an attractive banner will be publicly awarded to the Sunday school having the largest number of delegates (over 18 years of age) present at the convention, in proportion to the distance traveled. Under this plan, ten delegates coming ten miles each to the convention count the same as twenty delegates traveling only five miles each, thus making it fair to all, both near and far.

The banner becomes the property of the Sunday school winning it and may be taken home for permanent display in the Sunday school room.

NOTICE.
To Democratic Voters:
Please take notice that July 27th is the last day, under Rule No. 12 of Democratic party, for enrolling your name on your club. No one can enroll for you; you must do it in person. It is your duty to enroll and if you fail to do so you cannot vote in primary of 1920.

Belled Buzzard Dead.

The famous "Belled Buzzard" known all over the country, and said to have lived more than 100 years, is believed to be dead. A few days ago the buzzard was seen on the farm of W. H. Leach, near the mouth of Second Creek, West Virginia. It looked to be greatly emaciated and ready to give up its career. When the bird was seen, other buzzards were flying overhead, as if keeping their suitor-mate company.

This buzzard has a small sleigh bell attached to its neck. The bird had put its beak fastened behind the

bell attachment which bowed its neck in a curve, and seemed unable to release itself from this uncomfortable position.

Members of the Leach family went to the buzzard's aid, but when they approached it flew away with the rest of the flock. It is felt certain that the bird has since died.

The sleigh bell was tied around the buzzard's neck in the War of 1812. The bird has been seen as far south as Fern, though its summer haunts spent in the mountains of southern West Virginia. During the Mexican trouble several years ago the bird

was on the border for two consecutive summers.

HIGH POINT GIRL, 20, SLAIN BY JEALOUS LOVER

High Point, July 16.—Mrs. Martha Latham was stabbed to death early today by the knife of her father, Walter Hingley, and Frank Foster, an Italian, who had been a guest in the Hingley home for about a week, was arrested three hours later at Jamestown, near here.

According to the sheriff, Foster speaks in the English language, but the police believe jealousy was the cause of the killing.

The woman, who was 30 years old, was married and has one child but had been separated from her husband.

MEMPHIS CITIZENS TAKE CHARGE, FIREMEN STRIKE

Memphis, Tenn., July 16.—With no salutation of the difference between the city commission and the Fire Fighters' Union over the question of wages, in eight plans were being perfected today for the reorganization of the Memphis fire department without a union agreement, while 600 volunteers, including a number of business and professional men stood watch in eight-hour shifts at the city's fire stations.

Members of the Fire Fighters' Union, comprising virtually the entire personnel of the department, quit their posts at noon yesterday in accordance with restrictions presented Tuesday when demand for increased wages were not complied with. Two fire last night were extinguished by the citizen firemen with only minor property damage.

As a precautionary measure, two companies of the state militia, due to leave yesterday for the state encampment, were held here.

NITRATE OF SODA KILLS FOUR HOGS

Newberry Farmer Has Unusual Experience—Animals Drank Water From Wash Tub.

Newberry, July 17.—John Turner, a farmer living near this city, has learned something about nitrate of soda that he thinks he ought to tell his fellow farmers. Two days this week he was engaged in putting nitrate in his fields to make the crop grow. He was in the shirt-sleeves while at work, wearing one shirt the first day and another the next day. Yesterday Mrs. Turner put the shirt in a tub containing about 15 gallons of water and left them to soak while, and then wrang them out. She turned the tub over to let the water run out. Some of it ran into a pen where there were four hogs—three of them were about weighing about 150 pounds. They all drank of the water, and all were dead in 30 minutes. Mr. Turner says he would not have taken \$75 for the sow.

Wheat Tumble of 10 1/2 Cents Friday, Buying Orders Scarce.

Chicago, July 16.—Wheat underwent a sensational break in price today. The market opened all the way from unchanged figures to 9 1/2 cents lower, and soon was down 10 1/2 cents a bushel in some cases for December. The big tumble in values was attributed more to lack of buying orders than to any great pressure on soil.

COX PROMISES TO HELP SUFFRAGE.

To-Do All Feasible for Ratification in Tennessee—Gives Promise to Deputation from Woman's Party Headed by Miss Alice Paul. COLUMBUS, Ohio, July 16.—Members of the national woman's party were assured today by Governor Cox, Democratic candidate for President, that he will do all in his power to bring about ratification of the federal suffrage amendment by Tennessee. Other speakers voiced similar sentiments. To suggestions by women speakers that the governor might expect their votes in November if he should be successful in efforts to obtain ratification by Tennessee.

His promise was given to a deputation from the woman's party headed by Miss Alice Paul, chairman, late tonight for Washington, where, with his running mate, Franklin D. Roosevelt, he will confer Sunday morning with President Wilson.

The suffrage leaders had urged the governor to use his influence in an effort to have the Tennessee legislature ratify the amendment and some of them insisted that unless he came staunchly to their aid, he might expect little or no support from the woman voters in the November election. Mrs. Margaret Graham Jones of Seattle, Wash., said: "The women are going to vote for the candidate who gives us the 'right state.'"

Other speakers voiced similar sentiments. To suggestions by women speakers that the governor might expect their votes in November if he should be successful in efforts to obtain ratification by Tennessee.

Governor Cox urged them not to "preach the gospel that I should recede the votes of the woman because I helped to give them the suffrage. He told them there were things more vital than rewarding a man for a service which he has rendered in behalf of suffrage."

Governor Cox suggested to the woman's party representatives that they appoint a committee to confer with him on a definite plan to be followed in handling the Tennessee situation. In giving his promise to help them, the governor said: "I give to you without any reservation the assurance that my time, my strength, and my influence will be dedicated to your cause, with a view to procuring a favorable result in Tennessee."

Punch!

It is the man with punch and vigor who accomplishes the big things in life. Sound health gives him a force that sweeps all before it.

Back of his health is regular functioning of the physical organs, sound lungs, a good heart—regular bowel action.

Nujol will give you punch by keeping the poisonous food waste moving from your body—and by an entirely new principle.

Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.

Nujol thus prevents constipation because it helps Nature maintain easy, thorough bowel movements at regular intervals—the healthiest habit in the world.

Nujol is absolutely harmless and pleasant to take. Try it.

Nujol is sold by all druggists in sealed bottles only, bearing Nujol trade mark. Write Nujol Laboratories, Standard Oil Co., (New Jersey), 50 Broadway, New York, for booklet, "Thirty Feet of Danger."

Value of a College Education
There was never a time when expert knowledge was so highly prized and so highly compensated.
High wages for untrained labor will tempt many a young man to discount the value of a college education. But such an education, representing the work of four years, viewed merely as an investment of time and of money, is equal in earning capacity to an estate of more than \$30,000.
What estate comparable with this can the parent of average means hope to give or leave to his son?
What young man can acquire that much value in the same time at any other business?
Education fits one for a life whose possibilities are limited only by his capacity and character. Eventually for the untrained there awaits the slavery of ignorant and undirected effort.
Clemson College brings within the reach of every young man in South Carolina the benefits and possibilities of a technical education. At Clemson College a boy from the humblest home in South Carolina can prepare himself for a high place in the service of his state and nation.
W. M. BIGGS, President.
