TUESDAY, JUNE 30, 1925.

Life is a puzzle at best, and
cross words only make it more
difficult to solve.

A business that gets absent
treatment from a winter resort
is functioning under heavy odds.

One good turn deserves
another, providing you do not turn
in the middle of the block.

If exercise always increased
the size of a muscle, some folks
would have a mouth full of
conge.

The quacks are still doing busi-
ness because the change-takers
are not all dead yet.

Keep a cool head, a warm
heart and a hot foot, and you'll
not miss much on this earth.

The great drawback to practical
Jokes is that they are all too
often impractical.

Few people realize that recreation
and re-creation are one and
the same thing.

No matter whether you start
a thing right or wrong, you will
have plenty of imitators.

Life to a woman is largely
a collection of birthdays and of
keeping the figures secret so far
as the can.

The way the sale of dictionaries
has increased must make the popu-
lar fiction-writer green with
envy.

The surprising thing is that
congress has not started an in-
vestigation of the poker-playing con-
gressmen.

The law is not what the legis-
latures and congress enact, so

much as it is what the people
decide it ought to be.

When you see a big strong man
carrying a cane, you are inclined
to wonder if the trouble isn't
under his hat.

If you want to make a record,
choose a field where the competi-
tion is not keen. There's being
good, for example.

Radio programs that don't start
up early in the morning instead
of keeping you up all night are
popular.

A LIVE ISSUE.

The vice president of a large
public utility says that taxation is
a live issue. It seems a live issue
for the big corporations, but it is
as live as for the smaller tax-
payer.

One-seventh of the income of
the American people now goes in
taxes. The people are paying
three times as much per capita as
they did in 1912—an increase of
300 per cent in twelve years.

These are facts that should be
remembered when the legislature
convenes. Most legislation in-
creases taxes. Few laws are en-
acted which do not impose added
expense upon the taxpayer. Few
laws carrying tax levies are ever
repealed. Thus the tax burden
mounts.

There seems to be little pros-
pect of lowering taxes any appreci-
able amount except through
making feasible the \$22,000,000,
000 invested in securities, the in-
come from which if exempt from
federal taxes.

But this is the least of the evils.
It has been determined that five
sixths of the tax-free securities
are issued by cities, counties and
other local governments. This
capital that should be invested in
taxable property does not bear its
share of the expense of govern-
ment.

The one big problem of all gov-
ernment, whether federal, state,
county or municipal, is to reduce
expenditure and increase re-
ceipts.

Economy in government, which
means cutting down expenses
that can be accomplished only by cur-
tailing legislation and checking
the increase of tax-exempt securi-
ties, which are responsible for the
mounting public debt.

The federal government can
not tax the incomes derived from
state, municipal and other local
securities, without amending the
constitution. It would require a

long time to add such a provision
to the constitution, but such an
action would make local securities
less inviting, even if states did not
make them taxable.

FILBERT PICNIC PASSES

The Greenville News had the
following to say in regard to the
passing of the famous Filbert
picnic, as was related in a recent
issue of The Yorkville Enquirer:

"Probably there will be no local
celebration among the citizens of
South Carolina over the anni-
versary of the annual Filbert
picnic in York county, it is un-
likely to be held any more."

The Filbert picnic was a politi-
cal institution, and as such it be-
comes rather to a day that is pass-
ing in South Carolina. While the
material progress of that section
of the state is sweeping away the
physical conditions that contrib-
uted to the success of the Filbert
picnic in former years, the
state's progress in a political way,
in its method of appointment of
candidates and its means of deter-
mining the victor in a political
contest, also to a large extent swept
away the real value of the Filbert
picnic as a determining factor in
state politics. The Filbert grove,
if being cleared away, probably
for agricultural purposes, and the
wide use of automobiles makes an
active traffic problem that is next
to impossible to solve on picnic
days. So the annual picnic, that
once made and ruined candidates
for state office, is doomed to pass.

Political oratory, demagoguery,
and all varieties of supposed
statesmanship were the order of
the day at the Filbert picnics of
old. It was the red letter day of
the year for political partisans,
and provided full opportunity for
the enjoyment of a real political
battle of wit, wisdom, sarcasm
and invective in the people's
presence. From miles around, by thousands
and ten thousands, they
gathered to witness the state
and nation, and the attacks and
repartee of rival candidates, and
to yell themselves hoarse for their
favorite man.

But we seemed to have toned
down somewhat that sort of
thing in South Carolina these lat-
er years. Twenty-five years ago
there were no movies, no auto-
mobiles, no radios, and police sta-
tions were the principal amuse-
ment of the day. Now we are content
with a little less fervor in politics and
a little more sense in the use of
the real kernel of a candidate's views
and pass up the flashy language.
More thousands than ever at

attended a Filbert picnic now get
more real information about can-
didate's policies and view
than they would ever have got by
attending the day as a political pic-
nic. The change, undoubtedly, is
for the better.

The Filbert picnic, not unlikely
was the forerunner of the bienni-
al political campaign that is still
one of the frank features of poli-
tics in this state. No doubt some-
body conceived the idea that it
would be a splendid thing if the
Filbert picnic could be duplicated
in every county in the state.
That seems to be about the ob-
ject of the biennial tour, anyway.

The passing of the Filbert picnic
suggests that it's about time to
away, with its county-to-county
controversy.

PAY UP WEEK.

List to be Made up of Those Not
Paying or Making Satisfactory
Arrangements—Will Follow Up
Past Due Accounts.

"Pay Up Week" was a date set
for Chester's Merchants' Credit
Association for all patrons in
arrears 60 days or more to settle
their bills or make some satis-
factory arrangement with the
merchant. The dates set June 29
and July 2nd, inclusive. At the
end of this ten day period all
merchants will compile a list of
those patrons who on that date
have bills in arrears 60 days or
more and have made no arrange-
ments to pay these bills during
"Pay-Up-Week," or at any subse-
quent period, and will turn this list
into the Association. These vari-
ous lists will be compiled togeth-
er with the information on the
books regarding the bills, the amount,
the length of time it is
past due and the number of mer-
chants with whom such bills in
arrears are outstanding. This
compiled list will be handed to
each merchant in the Association
to be used for his information in
extending credit.

The Merchants' Credit Associa-
tion has maintained from the be-
ginning that this plan was being
fostered only to stabilize business
which would work to the eventual
good of everyone. Almost all
cities have Credit Associations,
especially in the larger cities.
In these larger cities, how-
ever, the Credit Associations are
much stricter. When a man's
bills become past due his name is
placed on the black list and it is
impossible for him to get credit
with any other merchant in the
Association. Chester merchants,

however, have originated a much
more liberal plan. They will not
and never have contemplated us-
ing a black list, believing that his
knowledge of them and some per-
sonal care to raise sheep profit-
ably, but all of these registered
within the power of any man
who will to succeed. It is pretty
certain that in some lines of
sheep production the natural ad-
vantages in the South more than
balance the natural obstacles. In
the production of early lambs for
instance, the mild climate which
makes it possible to furnish winter
and early spring grazing is an
advantage which far outweighs
any natural disadvantages. But it
takes some personal attention and
sheep knowledge to raise early
lambs successfully, just as it does
in other lines. Perhaps sheep are
a little more insistent in their
demands for this little, intelligent
attention, than other livestock,
but if this be true, it is equally
true that when this required at-
tention is given them, they pay
for it.—Tait Butler, in The Pro-
gressive Farmer.

are likely to make sheep raising
unprofitable in most sections, un-
less the caretaker does his duty in
protecting them. It requires some
knowledge of sheep and some per-
sonal care to raise sheep profit-
ably, but all of these registered

who will to succeed. It is pretty
certain that in some lines of
sheep production the natural ad-
vantages in the South more than
balance the natural obstacles. In
the production of early lambs for
instance, the mild climate which
makes it possible to furnish winter
and early spring grazing is an
advantage which far outweighs
any natural disadvantages. But it
takes some personal attention and
sheep knowledge to raise early
lambs successfully, just as it does
in other lines. Perhaps sheep are
a little more insistent in their
demands for this little, intelligent
attention, than other livestock,
but if this be true, it is equally
true that when this required at-
tention is given them, they pay
for it.—Tait Butler, in The Pro-
gressive Farmer.

are likely to make sheep raising
unprofitable in most sections, un-
less the caretaker does his duty in
protecting them. It requires some
knowledge of sheep and some per-
sonal care to raise sheep profit-
ably, but all of these registered

The News is asked to remind the public of the musicals to be held at the High school auditorium this evening at eight-thirty o'clock, under the auspices of the Student Body.

An excellent program has been arranged for the occasion. (Alex Long, Jr., of Rock Hill; The Spicard aria, of Rock Hill, who will dance; Mr. E. K. Harris, of Columbia, violin; Miss Mary Alexander, of Thompson, Ga., vocal; Miss Mims, of Winchester, Col., singing; Miss Annie Irvin, of Chester, violin. There will be no admission charge but a free will offering will be taken at the door.

The rains of the past few days were predicted by Mr. Martin Grant of Chester, RFD, local weather forecaster. Mr. Grant is gaining considerable reputation as a weather prophet.

The Chester Gun Club, shoot to the five scoring highest in the gun club member class. Several prizes will be awarded to club members and a contest for non-members will also be held.

The ladies of Cassell's Chapel church will sell ice cream on the lawn at the home of Mrs. J. W. Ferguson, Thursday evening, July 2nd, from 8 to 10 o'clock.

Reports from various sections of the county advise that the boll weevil is beginning to do considerable damage to cotton. From reports it is surmised that a considerable number of our farmers have concluded that poisoning is the best plan to use in fighting the weevil.

The attention of our readers is again called the Chester Gun Club shoot to be held Monday at the Chester Fair Grounds. Much interest is being taken in this shoot as a large number of prizes will be given.

Patrick, two and one-half year old son of Mr. and Mrs. N. M. Young, of Rock Hill, died at the Chester Sanatorium last night as the result of a low fever which yesterday lodged in the child's throat.

The Chester Plumbing and Heating Contractors Association, is holding a meeting in the home of Mrs. J. H. Hough, on Wylie Street, this evening.

The U. S. Civil Service commission announces an open competition examination for radio operator to fill a vacancy in the U. S. Post Office at Rock Hill, S. C. August 6, at a salary of \$1320 per year. Also a vacancy in the U. S. Post Office at Rock Hill, S. C. August 6, at a salary of \$1200 per year. Those interested should call on Mr. R. H. Crowley, at the Chester postoffice.

James Grifton and James Dixon, of Rock Hill, were arrested last night on the charge of stealing the cats and it was thought that he was selling them. Mr. Dixon was found five dollars or so in his pocket and notified officers to be on the look-out and get both the buyer and the Saturday night officers were in waiting and as was thought, Dixon came up to get the cats. It proved to be the purchaser of the stolen goods.

Miss Ann Frazer entertained a number of her friends, in honor of Mr. Lucius Melton who leaves today for Ashland, at a very nice party at McAdams' pond last night. Amusements for the evening consisted of a wienie roast, a social and dancing.

The News is asked to state that there will be a potato dusting demonstration on the farm of Mr. R. A. Olliphant, five miles from Rock Hill, on the highway near the Pryor school house on Thursday, July second, at ten o'clock in the morning. Those interested to attend the demonstration and inform themselves of the best methods of dusting cotton.

Owing to the fact that the Fourth of July year falls on Saturday the various mercantile establishments of Chester will observe next Monday, July fifth, as their day of closing. The closing of the banks of the city appears in this issue. The cotton mills of Chester will also close down on Monday.

Earthquake In California

An earthquake at Santa Barbara in early yesterday morning did considerable damage estimated from thirty to thirty billion dollars. Something like a score of people were killed and the city of Santa Barbara, the largest in the city of thirty thousand people, was completely wrecked. State street, the main thoroughfare of the city, is a complete mass of wreckage.

Maj. L. C. McFadden, who returned last week from Charlotte, where he was undergoing treatment in a hospital for an injured knee, which he sustained in a fall several months ago, returned Saturday to Charlotte and entered the Mercy Hospital for treatment. His many friends will regret to learn that it will be necessary for him to return to the hospital. He will probably be in Charlotte for 10 days.—Rock Hill Record.

County Agent Sanders is working on the potato blight and insect exhibit for the Chester County Fair. He has been collecting grains from various farms and will have them in the Lloyd Building at the Fair ground.

The ladies of Cassell's Chapel church will sell ice cream on the lawn at the home of Mrs. J. W. Ferguson, Thursday evening, July 2nd, from 8 to 10 o'clock.

Chester Leads The State

Chester county has received considerable publicity the past few days on account of the fact that the county leads all other counties in South Carolina in the percentage of cotton delivered to the South Carolina Cotton Growers' Co-operative associations during the past season—delivered twenty-six per cent of the total crop to the association. Dipping county came second.

Chesterite Builds Spanturburg. The Spanturburg Herald states that a photograph of Mr. Leonard H. Ferguson, son of a builder of Spanturburg, Va. Ferguson is a native of Chester county and was born in the Rock Hill section, the son of James Barber Ferguson, who lived his entire life except four years while a soldier in the Civil War, in the same home.

Mr. Ferguson attended the common schools and attended the W. Rankin Thomas high school at Blackfoot. For a few months Mr. Ferguson worked in a store in Spanturburg where he learned the insurance business. He has been a resident of Spanturburg for the past two years and is now district manager for the Prudential Life Insurance Company, having agents under him in many sections of the State.

Many Chester county friends of Mr. Ferguson will be glad to hear that he is settling well in Spanturburg and that he is one of the builders of that city.

Judge Carter will take pleasure in appearing on one interested in striking demonstration of what Cow Peas will do for the land and the crop even in long drought.

Chester County Farms need more legumes grown.

National Defense Day. Mayor Carter has appointed Mr. Angus H. Macaulay and Mrs. J. Lykes Glenn, Jr., as a committee to have charge of any local preparations for National Defense Day on July 4th. Business houses are urged to display the National colors on this day.

Mayor Carter has issued a proclamation as follows: "Whereas, the President of the United States has suggested that defense tests shall be held July 1st, 1925, for the purpose of bringing to the attention of our people the man power and resources of our country for the purpose of the national defense and in memory of those who have sacrificed their lives for that purpose."

Now, therefore, I, S. C. Carter, Mayor of the city of Chester, hereby convey to the people of our city the President's desire and suggest all citizens to join in the observance of July 4, 1925, as National Defense day to carry out such plans as are outlined by committees appointed for that purpose for the proper observance of the day in our community to the end that the anniversary of the Declaration of Independence be fittingly observed.

Death Of Mrs. Mattie Scott. Mrs. Mattie Scott, age eighty-six years, died at the home of her son, Mrs. Martha Davis, on Pinckney street, last Saturday evening. Mrs. Scott had been ill for the past six months but her death was due directly to a stroke of paralysis which she suffered Saturday.
