TUESDAY, AUGUST 3.

REMOVAL CHICORA COLLEGE TO NEW SITE APPROVED.

TRUSTEES ALSO ENDORSE CAMPAIGN FOR \$200,000 TO BE WAGED IN COLUMBIA.

Columbia, July 30.—Presbyterians of South Carolina will be interested in the announcement made here today that the trustees of Chicora College, in session Wednesday, had taken action endorsing the proposed new location and plant for the Presbyterian Institution. The trustees also endorsed the campaign for \$200,000 to be waged in the city of Columbia this fall for Chicora, the proceeds of the canvass to be for the erection of the new college plant. The proposed new site for the college is east of the city, between the two suburbs known as Shandon and Walse Garden.

The campaign in Columbia is to be a part of the million dollar campaign for educational institutions being waged in South Carolina. By common consent of these institutions, the Columbia Theological Seminary, the Presbyterian College of South Carolina, at Clinton, and the Thornehill Orphanage at Clinton, all the money raised in Columbia will be used for the new college.

Dr. Byrd, president of Chicora, announces that he has more applications for entrance into the school than he will be able to accommodate. He is adding a second story to his residence on Laurel street, near the college campus, for the accommodation of more pupils. The enrollment will this year be the biggest in the history of the college, Dr. Byrd predicts.

BIG SHOE SALE CONTINUED.

We are going to continue our big reduction sale on all Low Shoes up to Saturday night, August 13th. Buy good shoes cheap at THE BOOTERIE.

A barrel of moonshine seized by New York police exploded and broke two ribs of a truck driver who was handling it.

PLAN MAMMOTH MEETING.

Each County Will Be Asked to Send 100 Delegates.

Columbia, July 31.—Each county in the state will be asked to send 100 delegates to the mammoth meeting to be held in Craven Hall, this city, on Wednesday, August 15, at which reports will be received from the campaign now being conducted over the state for the election of cotton warehouses, the employment of cotton graders and for an increase in the membership of the American Cotton Association. R. C. Hamer, president of the South Carolina division of the American Cotton Association, said last night that it was hoped to make the meeting on August 15 the biggest ever held in the state. The president of each county branch of the cotton association will be asked, he said, to appoint 100 delegates and to see to it that they attended the meeting. A trophy cup will be awarded the county which makes the best showing in the campaign now in progress. The contest for the cup is expected to be very keen. Reports received from over the state, Mr. Hamer said, indicate that all of the counties are going to make a good showing. Invitations have been extended Secretary of Agriculture E. T. Meredith and Governor W. P. G. Haffings of the Public Reserve Board, to deliver the principal addresses at the big meeting. It is probable that several negro college men will be invited. Final arrangements for the big meeting will be worked out in the next few days.

NEGRO LYNCHED BY THOUSAND MEN.

Taken From Jail at Center, Texas. Center, Texas, Aug. 2.—Lay Daniels, a negro, charged with the murder of Mrs. Maggie Hall, a white woman, was taken from the county jail here late today by a mob of over 1,000 men and lynched to a tree in the woods. The mob wrecked the jail and set the jail on fire. The lynching followed an announcement by officers of a full confession made to the grand jury, now in session, and also to the district attorney, it was said. Unconscious, with her skull crushed and her body lacerated, Mrs. Hall, who was the wife of a well-known farmer living near Center, was found at a lonely spot last Thursday night. She was brought here for medical attention, but died Friday.

Capt. W. A. Bridges, commanding Company I, Seventh Cavalry, received wire instructions from Austin to protect the negro and prevent lynching, but he was unable to find any of the members of his company in time for mobilization.

The crowd dispersed after the lynching and the town remained in normal appearance.

MEETS DEATH IN MILL.

Electric Current Kills Dugan Hill in Gaffney.

Gaffney, Aug. 1.—Dugan Hill, a machinist at the Globe Mills of Gaffney, was electrocuted yesterday morning while he was using a machine for cleaning the dust from a room in the mill. His death was instantaneous, and was not witnessed by any one. The deceased was a young man of 24 years of age, and leaves a wife and two small children. He was well-liked by all who knew him, and the Globe Mills by whom he was employed, placed implicit confidence in his industry and integrity. He was a soldier of much more than ordinary ability, and has frequently entertained the people of Gaffney with this accomplishment. The local agent of the Pacific Mutual Life Insurance Company had just delivered to his wife a policy which was worth \$2000, as the death was accidental.

COMMITTEE URGES HIGHER AGE LIMIT.

No Child Under Sixteen and Not Physically Fit Should Be Employed. Washington, Aug. 1.—Recommendation that a minimum age of 16 years be set for the entrance of children into industry is made by the permanent committee on standards of physical fitness for children entering employment in a report made public today. The committee has conducted an investigation under the children's bureau of the department of labor and was headed by Dr. Geo. P. Barth, of the Milwaukee city health department.

No child, according to the committee's recommendations, should be permitted to go to work until he has had a complete physical examination and has been declared physically fit for the particular occupation which it is about to take up.

Good Prices For Tobacco.

Conway, July 31.—With good weather prevailing the farmers have been gathering and marketing their crops rapidly, and the warehouses here have experienced good sales during this week. The farmers sold on the Conway market Thursday 157,896 pounds of tobacco at a total of \$46,629.32, making an average of about 32 cents. According to reports coming in, the other markets at Loris and Aynor are experiencing good sales and the farmers are realizing a good price for their weed.

WOUNDED SAILOR DIES.

Shot While Burglaring in Room at Hotel.

Norfolk, Va., Aug. 1.—Justin Parker, 19 year old sailor, who was caught in the act of burglarizing a local hotel room Saturday and fatally wounded by a policeman, died this afternoon at a local hospital. The body will be turned over to the navy department today and the policeman will be tried in police court for involuntary manslaughter. Parker, shortly after the shooting, vindicated the policeman, admitting that he was armed and had aimed his revolver at the officer. Parker's father, Harry Parker, lives in Atlantic City, N. J.

SHIPMENTS OF COAL MAY BE RESTRICTED.

Reassignment of cars and Reduced Water Rates Also Suggested.

New York, Aug. 1.—Restrictions on the export of coal and on the reassignment of coal cars and a temporary reduction in the water coal rates to New England were suggested today by Senator William M. Calder, chairman of the special senate committee on reconstruction and production, as a means of relieving the acute coal shortage, especially in New York and New England. These suggestions, arising out of information obtained at a recent committee hearing, were contained in letters sent to the interstate commerce commission and the United States shipping board.

KOLLY FOR JAPAN TO WAR ON UNITED STATES.

Tokio, July 31.—Marquis Okuma, former premier, is quoted today by the Jiji Shimpu as declaring that it would be folly to dream of war between Japan and America, and setting such a thing to be practically impossible. "Opinions more or less held, and rather harmful to our sensitiveness may be openly ventilated in America," Marquis Okuma said, "but this is due to the great political struggle going on there." The former premier continued by warning the newspaper's readers that Japan should be prepared to receive more propaganda from America, but said he thought these protests would only be paper ones.

Over 30 years old and Speaking for first time

HONEST, EFFECTIVE AND GROWING

The latter fact all on account of the first two. **ANTI-FERMENT** has never (before) been advertised direct to the public. In spite of this fact more has been sold every year than the year preceding. Its friends have recommended it to their friends because of the honesty of its claims and its effectiveness when used as directed.

WHAT IT IS RECOMMENDED FOR

That form of Dyspepsia in which the food ferments, or sours, before it is fully digested by the stomach; giving rise in that organ to Colic, Heart-burn, Distention or Flatulence and many other familiar but distressing symptoms. This sour, half-digested food passing into the intestines acts as a foreign irritating body and produces Diarrhoea, Dysentery or Flux, Inflammatory and dangerous diseases. (These disorders are commonly known as indigestion).

WHY IT IS RECOMMENDED

ANTI-FERMENT helps nature neutralize the acid condition of the contents of the stomach and bowels, soothe inflamed and irritated surfaces, and stimulate the secretory glands into normal and easy action.

Get a bottle from your druggist today. If he can't supply you, address Kuykendall Chemical Co., Rock Hill, S. C.

NOTICE TO VOTERS.

Information has reached the undersigned that there is an impression among many of the voters in some sections of the county that only one County Director is to be nominated at the primary this year. This is not the case. The law provides for three County Directors and three voters to be nominated and any voter who has more or less than three names left on it for that office when voted will not be counted for that office.

J. M. WISE,
County Chairman
Chester, S. C., July 25th.

SENATORS PAY \$15,000 FOR SECOND BARE RUTH

Cleveland, O., Aug. 1.—The purchase of first baseman Brower by the Washington Americans for \$15,000 from the Reading club was announced here today. Brower is to report at the end of the International League season.

The expenses of the British government since the beginning of the war have been placed at more than \$55,000,000,000.

The United States holds \$58,000,000 of Polish bonds, taken in exchange for food, clothing, arms and equipment.

LOCAL AND PERSONAL

Mr. Jas. L. Hardin spent the week-end at St. Matthews.

Mrs. Kelsey, of Fort Lawn, spent Sunday in Chester with her daughter, Mrs. Jet Huggins.

For Sale: 1,500 pounds Crimson Clover seed, 8-1 cents. J. H. Yarbrough, Lowville, Route 1, 1-2.

Miss Beattie Walsh has returned from Hildesheim where she spent several days.

Miss Lizzie McNeill has gone to Columbia where she will undergo treatment at a hospital in that city.

For Sale: Fine Jersey cow and calf three months old. S. M. Hogg, 113 E. Lacy Street. 10-31

Mrs. H. K. Hough has returned to her home in the city after a visit of several days with relatives in Monroe, N. C.

Dr. S. B. Koser has returned to Chester after having spent several days at Atlantic City and other points.

Miss Annie Elliott and Julia Harris have returned to the city after a series of several days at Lake Junaluska.

Miss Jane Ferguson has returned to her home in the city after a visit to her sister, Mrs. W. J. Orr, at Gibson, N. C.

Mrs. J. K. Hough has returned to her home in Chester after a visit to her mother, Mrs. A. S. Reddick, at Lancaster.

Mrs. W. D. Peay and children will leave tomorrow for Clover where they will spend some time with the former's parents.

Strayed: One black mare, small knot on right front leg, weighs about 900 pounds. Notify John Whitlock, W. E. Cornwallis farm, Chester, Route 2. 1-1

Mr. O. M. Tally, of Greenwood, S. C., piano tuner and repairer, will be in Chester for a few days. If you want your piano put in order drop a card care the Carolina Inn. 1-2

Mrs. Matthew Shannon left yesterday afternoon for her home in Jacksonville, Fla., after spending several weeks with her sister, Mrs. A. C. Cassels, on Chester Road 2. 1-2

Miss Liza Gregory has returned to her duties as clerk in the office of the Clerk of Court of Richmond county in Columbia, after spending several days with her parents, Mr. and Mrs. Eugene Gregory.

The electrical storm Saturday night did considerable damage at the Great Falls plant, burning out several machines. The power in Chester Sunday was furnished from the plant at Tallahassee, Fla.

Major Griffith, of the U. S. Public Health Service, of Washington, spent a few days in Chester last week looking over the health situation here and was very much impressed with the work being done in Chester.

Dr. W. W. Campbell, of Rock Hill, S. C., was called to the bedside of Mrs. J. Neely, of Rock Hill, who is spending the summer at Montreat, last Saturday. Mr. Neely has a number of friends in Chester who hope for his an early recovery.

The bridge over Rocky Creek, near Great Falls, constructed by the Southern Power Company, has been opened for traffic, and shortens the distance to the Miffler section by several miles. This is now the shortest distance to Camden and other points in that section.

I have bought the interest of Mr. W. F. Burdell in the automobile trimming shop, which will in the future be conducted by F. E. Benoit Co. We will appreciate your continued patronage and guarantee first class service.

The residents of Bateson School District No. 6 contemplate increasing their school levy five mills and will hold an election at an early date to decide whether to increase the levy. The levy will provide approximately \$1,800 additional for that school district.

The picnic to be held at Tirah tomorrow is expected to be the largest of its kind ever held in York county and thousands of people from surrounding counties are expected.

A number of prominent speakers from various sections of the country will be present.

The big satisfied crowd attending Klatta Department Store's great Summer Clearance Sale is proof of the bargain being offered. Read big advertisements in last Thursday's Reporter and Friday's News. Continues through Saturday, August 11. Everything reduced in price.

Increases more than a million bales in the prospective production of cotton over the indicated yield of a month ago was forecast yesterday by the department of agriculture. A total of 12,610,000 bales was estimated from the condition of the crop July 25, as compared with 11,450,000 predicted June 25.

Considerable damage is being done to crops in Chester county by the army worm. George Solomon, colored, who lives on the York Road about two miles from Chester, was killed yesterday morning displaying a cotton stalk which had been stripped by the worm.

Silmon stated that the worm has destroyed a field of seven acres for him in about ten hours. It is stated that the worm has also killed several other sections of the county.

The ferry at the L. & C. bridge between Lancaster and Chester was put in operation yesterday morning by the Lancaster and Chester county authorities jointly. The flat is in charge of Robt. Beckham and will be operated only in daylight, will be arranged to be made for night service. This ferry has never before operated. The flat was built to carry box cars across the river after the flood in 1916, but the venture was unsuccessful. The fare for automobiles will be 50 cents.

The section south of Neely's Creek church, and from there to Catwax Junction, was hit hard yesterday afternoon about 3 o'clock by a hail storm. Among those who were badly hit by the storm were Sam W. Druffin, W. H. Williams, Fred Boyd, W. H. Spence, C. G. Fowler, N. B. Williams, Alex Martin, W. H. Wills, G. B. Stewart and many others. Some of the cotton exhibited here from the storm exhibited here from the storm.

morning was stripped of practically everything in it. Hall Spencer, of Nine worth. He is a deep student of political economy, yet understands its practical application. His knowledge of government affairs and the high regard we have for George Warren as a man, as a lawyer and as a statesman. However, we can and do commend him to the people with the assurance that, in by right of his election, South Carolina will be proud of her young senator.

Friends were grieved to learn yesterday afternoon of the death of Mrs. William A. Triplett, which occurred at her home about four miles from Chester on the Saluda road about 1 o'clock. Mrs. Triplett had been in declining health for some time and although the end was not unexpected it came as a distinct shock to many friends and relatives. The funeral services will be held at the home this afternoon at four o'clock after which the interment will be made in Evergreen cemetery. Mrs. Triplett was survived by her husband and the following children: Medames W. H. Hains and W. F. Burdell and Misses John A. E. and William Lindsay Triplett.

Special prices on ladies' Oxford, flannel and styles. The S. M. Jones Co.

In a game of many thrilling plays Chester's crack aggregation, from Clow's Beat by the score of 1 to 1 yesterday. As the final count shows it was close enough for any "tiger" bet. The folding of sport-fiving. The folding of sport-fiving. The folding of sport-fiving.

"Bitter" was especially sensational, accepting many chances and finally being able to save the day for the home boys. Betridge at bat was about the best, although all the team played together, supporting Stuart, who pitched a good game for Chester in a style that shows well for the locals. On the other side we are unable to give names but there were several who deserve special mention.

The pitchers had poor support in one inning which accounted for those runs, but pitched a good game. "Bitter" played well as did the right fielder, who got a three-bagger and was out trying to make it a home run. The game therefore should be well supported by the fans and especially by the ladies, who are admitted free.

New Fall Suits just arrived. Just the best for the girls going away to college. The S. M. Jones Co.

Attention is called to the fact that the various candidates for county offices will speak at the Court House next Thursday evening at seven o'clock. Friday they go to Wilkerson.

Approximately 2,400 voters placed their names on this Democratic Club rolls in Chester county and are entitled to vote in the upcoming primary election, which will be held the latter part of this month.

Rev. J. C. Roper has gone to Lake Junaluska to attend the Missionary Conference.

Chester people are now promised some "old time" baseball. The game was played at the former Chester College grounds to tackle the present Chester College grounds and a hot contest is promised. It will be recalled that the old Chester team had some up-and-coming players in the game are promising to get in the game at the present time. As the game is going will be taken which is an offering, paying off an old indebtedness.

Mr. John M. Jones, Jr., has returned to Chester after an extended trip to Western points and the Pacific Coast.

WARREN FOR U. S. SENATOR

WHAT OTHERS SAY ABOUT GEORGE WARREN

The Hampton Guardian Editorially States:

"George Warren is a man of ability, courage, common sense and determination. He is a deep student of political economy, yet understands its practical application. His knowledge of government affairs and the high regard we have for George Warren as a man, as a lawyer and as a statesman. However, we can and do commend him to the people with the assurance that, in by right of his election, South Carolina will be proud of her young senator."

We are not given the power of prophecy, but knowing the man and his respect for the Constitution, his ability, his ideas of government, his belief in the doctrines of Calhoun, we are convinced that George Warren, by the possession of those qualifications and by the power of his personality will be a great asset to our State. We can not afford to release the services of such a man."

Warren for Senator.

George Warren, of Hampton, has been growing in popular favor since his entry into the race of the United States Senate.

A few weeks ago the prediction was freely indulged that Senator Smith would defeat his three opponents in the first place.

Now it is generally conceded that there will be a second race and that George Warren will be a factor in the second race.

In a second race with Senator Smith, the advantage will be with Warren.

The boasted Smith strength is fast dwindling away. It has largely been a myth.

Not all the farmers are Smith men. This is the day of the young man.

Warren is young, but he has a record of achievement behind him.

Smith is no longer young, but there is little to which he can point, despite his long years in the United States Senate, as his accomplishment for the public good—Aiken Standard.

State's Rights.

There can be no doubt but that even the casual student of political history can detect that the Federal government is steadily infringing upon State's rights. Particular instances are pointed out by Mr. Warren, candidates for the United States Senate. We are among those who do not like this thing.

There should be free to regulate their own affairs. The nineteenth amendment of the Constitution of the United States stands as a barrier to the Federal government. Only one more State is required to ratify the woman's suffrage amendment, and the Government of Tennessee has called a special session of the legislature in its state which will consider this amendment. If Tennessee ratifies this amendment, we will have woman's suffrage and the individual states cannot help themselves. We believe each state should be allowed to regulate this matter independent of the Federal government. If the people of the state want woman's suffrage they should be allowed to adopt it for themselves. If they are opposed to it they should not have it thrust upon them. In various ways the Federal government is infringing upon a state's rights and the people in this direction should be checked.

The Columbia Record Said:

"The many conduct of George Warren, of Hampton, must commend itself to the people of South Carolina. The generous conduct which he has displayed will merit for him the respect and the approbation of the people of his State."

SPEECHES MADE BY WARREN

State's Rights.—Because I stand for the Declaration of Independence because I advocate the Constitution of Jefferson, because I repeat the identical words of Calhoun, because I dare to raise my voice in behalf of the identical principle for which my father fought in the 60's, the doctrine of State's Rights, I am unjustly charged with being opposed to prohibition.—Democratic Convention at Hampton.

"I stand squarely for economy. I believe in a vigorous and active administration of government, but I believe in a prudent and economical administration of government. I believe in a vigorous and active administration of government, but I believe in a prudent and economical administration of government."

Farming Interests.—I endorse the various activities and accomplishments of the American Cotton Association and have pledged my support to it. I am a farmer and I am proud of it. I am a farmer and I am proud of it.

Our Country.

One of the South Carolina candidates for United States Senate this year is calling the attention of our people to one of the most vital issues that confronts the American people today.

It is the issue of State's rights as against a centralized Federal government.

State sovereignty is absolutely necessary to protect the rights and liberties of the people under our form of government. The founders of this republic recognized this fact and they have left it to the people to decide whether they will maintain the principle of State's rights or whether they will surrender it to a centralized Federal government.

"No one will deny that our government is becoming more centralized. The sovereignty of the states is gradually being undermined and taken away."

A continuance of this practice will inevitably and absolutely lead to the destruction of our country."

With you at this point, I will say, I am not a politician, I am a citizen. I am not a politician, I am a citizen. I am not a politician, I am a citizen."

If we surrender these liberties now to our children, we are surrendering them to our children. We are surrendering them to our children. We are surrendering them to our children."

We say the centralization of our government has gone far enough. Let us put a stop to it by a peaceful use of our ballot rather than to have our children do it by a revolution.—The Daily Press.

George Warren is going to be very much in the running for United States Senate. His doctrine of State's rights is proving very popular.

IT IS ARGUED AGAINST HIM THAT HE IS IN FAVOR OF WHISKY, WHILE AS A MATTER OF FACT HE IS THE AUTHOR OF THE PRESENT PROHIBITION LAWS ON THE STATUTES OF THE STATE.—AMERICAN DAILY MAIL.

The Waterboro Press and Standard.

"Showing that he possesses a high degree of honor, George Warren is called up higher and that soon."

ASK ANY ONE

WHO KNOWS HIM

Alligators are becoming fewer in number because of the demand for their skins. The demand for their skins is increasing and the number of alligators is decreasing. The demand for their skins is increasing and the number of alligators is decreasing."

ANNULING OUR MAN-POWER.

The Arkansas citizen sitting in his roofless cabin while the rain pelted him, asked why he didn't cover his house, remarked that it was raining too hard. Asked why he didn't put a roof off in dry weather he answered that it didn't leak a drop when the sky was cloudless. The story is aptly illustrated in the report of the present census.

The report shows that in the glum American Middle West, generally known as California, the Japanese race increased 111 percent during the last decade. In the Middle West in the same territorial unit increased 33.5 percent while the white race increased 8.2 percent. According to this percentage it will not be more than a baker's dozen decades until the white race is assimilated into the yellow races in our most beautiful playground.

On top of this report, as it were, not enough to drive one to drink, comes the news also that 11,000 Americans were self-deported to Canada during the same period. For these perfectly good, honest citizens we give to Canada what sort of citizens do we get in return? All men who are so ignorant that they cannot write their names in their own or any other language. Men and women devoid of our idea of civilization. People who know how to raise a million-dollar building, dynamite, but who haven't sense enough to sign a check.

America, in this respect, at least has become a broker in citizenship, a fabricator of human wealth, with no power to retain it. Uncle Sam, heroic old scout that he is, is content to doze while somebody comes along and steals the race horse. He

is proud to hold the bag while the posse-hunters, long in bed, after laughing themselves hoarse over his credulity, are sound asleep. To it any wonder that we have a multitude "running" for the Presidency? Is it any wonder that, at least the head of one of the national tickets is turning his attention toward getting the head of another ticket out of the penitentiary?

Many of us have heard the old story in our childhood days about how two dogs quarreled and fought over a bone, while a third dog ran off with the prize. If the American people do not quit listening to the tales of the past, and stop listening to lying politicians they bid fair to wake up some fine morning to find a sign on their front door announcing that it is moving time. We Americans are not meeting our social obligation. We are remiss in many ways. What must of all, in seeing to it that we get that fine blend of nation-builders who made the republic great and inspired it with a passion for orderliness and genuine citizenship. —Columbi Record.

W. K. MAGILL Veterinary Surgeon

OFFICE WHITE'S PHARMACY
CHESTER, S. C.

A 623-pound citizen of Philadelphia reduced his weight to 300 pounds in three months by working in the steam room of a laundry.

The Inefficiency of One-Teacher Schools as Shown by the Army.

The United States Army during the war taught us a most valuable lesson with regard to literacy and education. The army didn't call a soldier literate provided he could sign his name and spell out a few words in print. They tried out every man to find out two things: (1) Could he read an ordinary newspaper article readily and understandingly? (2) Could he write a passably good letter to a friend or about business?

And judged by these two tests, what did the army find? It found that thousands and thousands of the brave boys turned out by our one-teacher and two-teacher schools here in the South were not literate. Judged by practical results they were illiterate. For it's no use for a man to be able to write a few words if he can't write a letter. It's no use to be able to spell out a few words if he can't read a paper or a book with understanding and pleasure. A long time ago Henry D. Thoreau said something all of us should remember:

"I confess that I do not make any broad distinction between illiterates and the illiterate, of whom I have learned only too well that it is for children and feeble-minded."

As Dr. Charles W. Eliot has well said: "The school must teach not only how to read, but what to read, and it must develop a taste for noble reading." This is what the one-teacher school has never done—and can never do. Teaching reading to a child is like teaching a man to swim. He can do more than go through a monotonous drill in pronunciation and punctuation—a monotonous drill which often makes the child hate reading. He thinks of it as a task to be shunned rather than a privilege to be enjoyed, and so on with regard to all other studies.

Our one-teacher schools are not really educating children. It is true that in a one-teacher or two-teacher school a bright boy or girl may manage to educate himself or herself to a degree. But even the brighter boys or girls in most cases will never be what they might have been with better nurture, training, help and encouragement. While thousands and tens of thousands of girls will leave school actually illiterate, judged by army tests.

Of course we hate to quit having a little one-teacher school right at our doors. But isn't it time better to have the children well farther-of-rude farther—and get real education instead of wasting their time and their lives for one-teacher schools—even though these one-teacher schools may be within walking distance of home. —The Progressive Farmer.

FIX COAL PRICES ON SPECULATORS

To Blame For Exorbitant Charges Made.

Washington, July 21.—Blame for exorbitant coal prices was placed on speculators in a formal statement issued today by the National Coal Association. Federal trade commission figures giving the average sale price at the bituminous mines during last April as \$2.26, it is said, clearly indicate the exorbitant 50 per cent profit per ton realized by the industry as a whole.

Mine cost was placed at \$2.76 a ton by the commission, the statement pointed out, adding that the 50 per cent margin between the cost and selling price was not net profit, for from it must be deducted selling expenses, interest on borrowed capital and other items of expense.

"The blame for exorbitant prices lies in the activity of a coterie of speculators who have taken advantage of the unsettled market," declared the operators' statement, which added that coal shortage favored the war for the play of speculative prices. "Responsibility for prices for which the railroads are responsible," it continued, permitted exchange of coal in transit sometimes resulting in a "higher price to be tacked on" two or three times.

The speculators have obtained only a relatively small portion of the coal output, but their activity further disrupted a situation that for months has affected the nation's coal supply," the operators said. "With the priority orders of the interstate commerce commission not accumulating the movement of coal to the Great Lakes and to New England," concluded the statement, "the bituminous coal operators believe that the coal shortage crisis soon will be straightened out. The effective working of this program will depend upon full co-operation by the railroads, which have been secured, and at the same time the faithful discharge by the mine workers of their obligation imposed upon them by the wage agreements made last spring to stick at their work and dig the coal the country needs."

"Just as soon as the new program is in practical working operation, which will take some few days," abnormal market conditions will disappear, high speculative prices in the open market will vanish, and the public will have no fear of a fuelless winter."

SAVING AND HOW.

Thrift is well spending. A controversy goes on between those who say that a nation of people who spend little, like the French, is the best nation, and those who say that the nation which spends enough to keep raising its standard of living, like America, is the truly wise nation. There is a good deal to say for the latter view. If everybody goes to hoarding and saving, by not buying enough to maintain a decent standard of living, production is made stagnant, development of resources is stifled, and the nation goes into a long journey through the narrow rut of stagnation.

Just now, however, when the war has exhausted so much resource and readjustments must be made, the "pure thrift" view is stronger. Every man owes it to his family to make a special effort to save.

"There may soon be a lot of second-hand luxuries on the market," we overheard a railroad division foreman say the other day. "I am saving that when that time comes I'll rather have a bank account or a good bond than some luxury that I'd have to sell for what I could get for it."

Saving is an extraordinary plan. It is hard to sell down and spend. It is hard to spend and then come back again to the saving. "I began to save," he says. "I began to save just \$1 a day. That is \$365 a year, which is enough interest in less than 50 years it will make a man worth a tenth of a million. Seems easy." Well, it is easy. After he'd done that two years, I said: 'I'll double it. I'll make it \$2 a day. You'll see next, if I promoted, I'll make it \$3 a day.'"

It is that so hard? With sound investment of the principal and interest of a few decades will bring a family without a cent into a position of real affluence. The first part of the process may be a little painful. But what a painless result!—Collier's.

Pennsylvania has been imported in great quantities notwithstanding the fact that the United States (the world's greatest peanut producer.)

Japan's highest factories, 115 of them, have closed down.

CLERK OF COURT.

I offer myself as a candidate for re-nomination for the office of Clerk of Court, subject to the Democratic primary, and promise, if re-elected, to serve faithfully.

J. E. CORNWELL.

SHERIFF.

I hereby announce myself a candidate for re-nomination to the office of Sheriff, subject to the rules and regulations of the Democratic party, and pledge myself to abide by the will of the primary.

D. G. GIBBS ANDERSON.

FOR CORNER.

I hereby announce myself a candidate for re-nomination to the office of corner of Chester County, subject to the result of the Democratic primary election.

J. HENRY GLADDEN.

FOR HOUSE OF REPRESENTATIVES.

The friends of Mr. R. O. Atkinson to announce him as a candidate for re-election to the House of Representatives, subject to the will of the Democratic primary.

A. C. FISCHER.

FOR COUNTY TREASURER.

The friends of Mr. W. O. Gay wish to announce him as a candidate for the office of County Treasurer, subject to the result of the Democratic primary.

SOLICITOR.

The friends of J. E. Henry hereby announce him for re-nomination for the office of Solicitor of the Sixth Judicial circuit.

TREASURER.

I am a candidate for re-nomination as County Treasurer, subject to the Democratic primary, and will appreciate all support that may be given me.

A. T. HENRY.

FOR HOUSE OF REPRESENTATIVES.

The friends of Capt. J. Lytle Glenn, Jr., wish to announce him as a candidate for the House of Representatives from Chester county.

FOR COUNTY AUDITOR.

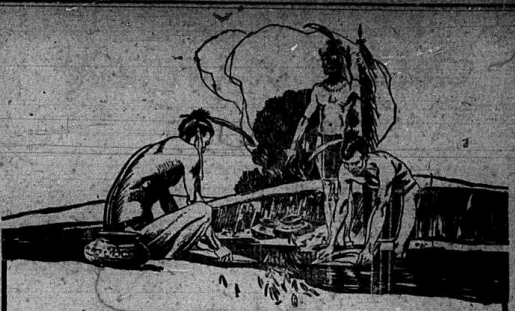

I hereby announce myself as a candidate for Auditor, subject to the will of the Democratic party.

C. E. DABY.

FOR COUNTY SHERIFF.

I hereby announce myself a candidate for the office of Sheriff of Chester county, subject to the rules of the approaching Democratic primary.

R. L. BROWN.

The Indian Knew

The Indian drank water that bubbled from the rock. His food was game he had killed; his bed, the hard ground.

He attuned his habits to the rigorous, open-air life he led. As a result he was abundantly healthy—tireless on the march or in the hunt.

You lead a different kind of life, but you can enjoy the same glorious, vivid health. Adapt your habits to a less vigorous existence. Eat the right sort of food, exercise a certain amount daily, but above all—keep the poisonous food waste moving regularly out of your body. Nujol will help you do this.

Nujol works on an entirely new principle. Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.

Nujol thus prevents constipation because it is Nature's maintenance easy, thorough bowel movements at regular intervals—the healthiest habit in the world.

Nujol is absolutely harmless and pleasant to take. Try it.

Nujol is sold by all druggists in sealed bottles only, bearing Nujol trade mark. Write Nujol Laboratories, Inc., Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet, "Thirty Feet of Danger."

The Modern Method of Treating an Old Complaint.

Nujol For Constipation

REG. U.S. PAT. OFF.

Everybody Knows

Value-in-Head Means

THE demand for Buick Valve-in-Head motor cars this season is steadily exceeding production, causing thousands of purchasers to protect their Buick ownership by placing orders now for future delivery. Purchasers who prefer Buick quality and performance, realizing that the Buick trade mark is a symbol that represents a reputation of twenty years in efficient and reliable motor car construction, are content to await their dealer's ability to make delivery of one of these famous Valve-in-Head motor cars.
