Adjoining County News.

Mrs. Rose C. Smith, who is suffering at her home on Lincoln street, Yorkville, with a broken hip, is reported as getting a little better. It could be expected. Mr. John R. Hogue, who has been quite ill at the home of his son-in-law, Mr. W. E. Gentry, near York, for some time past, is improving. Mr. Hogue is one of the oldest men in York county, being in his 86th year. The changed complexion of the city council as the result of the recent election has again brought to the fore the question of establishing a park on the outskirts of the city. The original proposition to the city contemplated the donation of the land, provided the city develop it to the extent of a stipulated expenditure for a given number of years, the property to revert to the donors, along with the improvements made in the meantime in case the city fails to live up to its part of the contract. Mr. S. A. Robinson and little son, Johnnie, formerly of Glover, which was in Chase City, Va., are visiting Mr. J. J. Robinson and other relatives and friends in this section. Mr. Robinson has been in bad health since suffering from heart disease. Mr. Robinson Tom W. Anderson, for the past nine years in charge of the school and club rooms at the Cannon mill in Yorkville, has severed his connection with the mill. Mr. Anderson said yesterday that he had not intended he would do in the future; but that he and his family would remain in Yorkville for a month or more. "A little pop being put on the race for treasury treasurer" observed a well known politician yesterday. "Most of the candidates are working from one to another, and there is no mistake about that. The Please and anti-Pleasant issue has been injected into the race, and the story is being told that some of the candidates are "bleasies when talking to folks they believe are bleasies" and "anti-bleasies" when talking to folks they believe are against Coley. The Bull Weevil was running ahead of the candidates for treasurer of York county. Mr. J. J. Robinson and the candidates are now having their inning. The mails are heavy with campaign literature and numbers of circulars are being mailed. It looks like it is going to be a hot race after all. Hon. Frank P. McGowan, who presided over the race of general sessions, and common pleas for York county last week, underwent a surgical operation at the Pryor hospital in Cleveland, Monday. It was a minor operation, however, and was not expected to give a great deal of trouble. From the latest information, McGowan was getting along very nicely. Perry Bateman recently convicted in the court of general sessions for York county along with the late Whilson and Oliver Crisp of Rock Hill for conspiracy to rob Alexander Long, Jr., of Rock Hill, has been taken to the chain gang to serve a sentence of three months. Bateman was unable to raise the fine of \$150 given him as an alibi. McGowan for Whilson and Crisp were paid by Rev. G. W. Jennings, colored Baptist minister of Yorkville, who was arrested Tuesday on a charge of carrying a pistol. A warrant charging assault and battery of a high and aggravated nature issued against Jennings because of an alleged assault upon his daughter has not been served. Magistrate J. A. Gentry yesterday that the warrant may be changed to assault and battery with intent to kill. The York-Chester Presbyterian College Alumni Association was organized at a meeting of former students of the college held in Rock Hill Wednesday evening. Rev. Powell of Rock Hill, was elected president of the association; Dr. W. R. Wallace of Clinton, vice president and F. E. Clifton, Jr., of Rock Hill, secretary. J. Arthur Flanagan, Jr. of Bowling Green and A. Jones, Jr., of Fort Mill were elected directors for York county—Yorkville Engineer.

BARNWELL FARMERS FACING DARK DAYS

Truck Planted Falls to Bring in Profit—Must Not Lay Dry. Barnwell, July 21.—In the opinion of many keen observers, the farmers of this section are facing the darkest days that they have experienced in many years. This is a bold statement and may be taken by some as the complaint of chronic calamity-howlers. However, there are certain indisputable facts that bear it out. To begin with, the farmers in an effort to carry out a program of diversification, planted a rather large acreage in truck this year, upon which they used a considerable amount of commercial fertilizer at the expense of their corn and cotton crops. The cucumber crop was the first to be marketed and the prices received were so very poor that many farmers did not realize enough to more than pay for the seed planted, to say nothing of the other costs of production. This same cantaloupe crop, which was raised by the producer. This section is now at the height of the watermelon season and carloads have been sold here as well as in the squares. One farmer refused to take the prices offered and shipped their melons to the North. The markets did not receive a penny after the first of July. It is predicted that many farmers will not make enough corn to feed their stock until the first of the year. Cotton, therefore, is the only hope that they have left, and a mighty one. Following the heavy rains, the start, lack of sufficient fertilizer and poor seasons are responsible for the poorest prospect this section has had in many years. In spite of the fact that cotton measures of one sort or another have been, and are being used, the "young weevils" after the boll weevil is now puncturing large sized bolls, in getting into the cotton. One farmer stated that he found three grub in one boll. If this condition becomes general there will be less cotton made in this county this year than was the case in 1921, when the weevil was a bale to a bale and a half to the bush. Heavy rains have fallen throughout the county during the past two weeks, which naturally tends to increase weevil damage. The "young weevils" after the boll weevil were laid here very great this year, still the real test in boll weevil control has just begun. The "young weevils" after the boll weevil were laid here very great this year, still the real test in boll weevil control has just begun. The "young weevils" after the boll weevil were laid here very great this year, still the real test in boll weevil control has just begun.

CLOSED MINDS

In nine cases out of ten let some one propose that a method or process be changed and what happens? The suggestion is immediately opposed by almost everyone. There is a flood of reasons why it cannot possibly be done. The habitual attitude of most human beings is resistance to change. That is why no industry has ever revolutionized from the inside. There are few exceptions. Every innovation makes its way against opposition. Life is a series of adjustments and success is adaptation. This is the lesson of all history. Those who cannot or will not adjust themselves must be snuffed out. It is pitiful, perhaps, but it is true. Nature has no place in her scheme for the closed mind. Closed minds, like everything else, are relative. But in a general way it may be said that most minds are closed to all but a small range of adaptations. Mediocrity is simply another name for this condition. Genius, on the other hand, is no more than open-mindedness. Henry W. Grady told the people of this section time after time to raise their "hog and hony" but their minds were closed and it was cotton, cotton and then more cotton. Possibly the boll weevil is an outside influence which will revolutionize our country. THE COTTON CROP Man of Experience Gives a Little Advice.—The Present is the critical time—Must Not Lay Dry.—The News is in receipt of the following communication from a gentleman who lives in the boll weevil section of Georgia and a man who has had considerable experience in the cotton business. The cotton fields are now being infested with the first crop of new weevils. These new weevils are the first descendants of the old weevils which have passed the winter in hibernation. The multitude of this new crop depends entirely on how successfully the farmer has killed off the boll weevils and how well he has cleaned up and destroyed the puncturing parasites and the eggs of over-wintered weevils. Here, in every great this year, still the real test in boll weevil control has just begun. The "young weevils" after the boll weevil were laid here very great this year, still the real test in boll weevil control has just begun.

TARIFF CHARGE MADE BY SMITH

South Carolina Senator Talks of Arsenic. Written Into Bill Benefits Guggenheims. Washington, July 21.—Development today in the senate consideration of the administration tariff bill included: Material reductions in most of the duties originally proposed on products of flag, hemp and flax. A charge by Senator Smith (Democrat) of South Carolina that the rate of two cents a pound on white arsenic was written into the bill for the sole benefit of the great Guggenheim smelting interests. The introduction of a resolution by Senator Guggenheim (Republican) of Idaho proposing a public investigation of the claim of clothing producers that when the senate came to the vote on a proposed rate of 33 cents a pound on scoured wool would result in an increase of about \$4 in the price of a suit of clothes and \$7 in the price of an overcoat. Senator Smith brought up the arsenic rate in the midst of consideration of the linen schedule and proposed that when the senate came to final action on the arsenic paragraph he would go into details as to whom the tariff would benefit and upon whom it would be a burden. He characterized the proposed duty as "the most shameless favoritism for one concern that we have ever seen. He estimated that it would cost the cotton producers alone \$18,000,000 a year. Calling attention that arsenic was "a very product which the smelters are required by law to contain, because of the damage it had done to vegetation near the smelters," Senator Smith said the smelting interests were not even willing to contribute a by-product to the general welfare of the country "but had gone to the length of buying up the arsenic of Utah denied that arsenic duty would cost the cotton farmers \$18,000,000 a year. On the basis of the total domestic production and importation he said the total increased cost would be about \$400,000 a year. Despite some strenuous discussion the senate made unusually rapid progress on the fax schedule, Saturday night, except four items including the rate on cotton bagging. The Democrats led by Senator Robinson of Arkansas sought to refer the matter to the committee on the duties than those proposed by the committee majority but every amendment offered was rejected. KUL KLUX KLAN HANDS McLENDON A DONATION —Rockingham, July 22.—In the midst of the McLendon revival here Friday night three white robes and figures came down the three aisles of the tent, and meeting in front of the "Clyburne Mark" platform, and without a word handed the evangelist an envelope. They then marched out as quickly as they could carrying like \$125 and \$100 in the envelope and found a check for himself for \$125, and a letter in which the Ku Klux Klan pledged to support the revival and to stand in the fight being waged against blind lyrics and other transgressors. Three services will be held by Mr. McLendon on Friday at 11:30 and 8 o'clock. The meeting was scheduled to close Monday night, but it was then decided to continue it one week longer.

SPARTANBURG MAN DIES OF INJURIES

W. A. Blackwell Held for Killing of B. B. Glover. Spartanburg, July 22.—B. B. Glover, shot late last night in his home on the Howard Gap road, west of Spartanburg, by W. A. Blackwell, his father-in-law, is dead, and Blackwell is being held on the charge of murder under a verdict of the coroner's jury rendered today. Mr. Glover, in her testimony before the coroner today, stated that Blackwell came to her home yesterday and the told him Blackwell was there and drunk and did not disturb him. He went to the room and soon afterwards the shot was fired and Glover fell wounded. After the shooting Blackwell left the house, but was arrested before he reached his home. Glover died at the hospital early this morning. Blackwell stated that he was attacked by Glover and shot in self defense. Glover was shot in the leg. Officers of the law raided a distillery in the lower part of the county two years ago, and as a consequence the case against Mr. Walker is optimistic over the situation throughout the South, as he found it. Mr. Walker left Columbia several weeks ago and went to Memphis, then into Oklahoma and parts of Texas, and then back by way of New Orleans, stopping at points in Mississippi, Alabama and Georgia. It got a good view of the entire country, and received expert reports from many sections. Mr. Walker found the boll weevil doing some damage in many sections. In Texas he found a spotted boll weevil, which he said was not in Western Texas. The crop of Oklahoma the weevil is at work. In the central part of Mississippi the weevil will be in the crop about in fine, with prospects for a large production, if the weather is good for the rest of the season. Mr. Walker found the weevil over the belt. Mr. Walker found this true wherever he went. He says that if the weather is good for the rest of the summer, the weevil will do little damage and the production will be excellent. If he had weather conditions were not so good, the weevil will be encouraged, and the outcome then will be a matter of conjecture. Mr. Walker found a tone of optimism wherever he went. TO REOPEN MINE. —Pittsburg, Pa., July 21.—Western Pennsylvania coal operators, independent of one another, Friday agreed upon reopening their bituminous mines. Plans for starting the various operations were developed in secret. From one end of the state to the other every armory was bristling with excitement and activity. Troops were either leaving or preparing to leave immediately for the coal region within a radius of 100 miles of Pittsburg. Some troops were already on duty as Friday morning. By Saturday night the major part of the Twenty-Eighth Division will be unarmored. A part of it will be equipped with the western company and the balance will start for camp and be held in reserve there. The Pittsburgh Coal Company, largest bituminous operator in the country, has announced it will begin immediate operation of 100 mines, families in Montrose Mine No. 4, Hill Station, Washington. This is one of the big mines to be reopened next week. It is expected that the same company will follow a similar course at its 80 other mines. The eruptions at the Monroeville mine, which killed 100 persons here, and officials of District 5, United Mine Workers, say they will set up tent-camp.

THE COTTON CROP

Man of Experience Gives a Little Advice.—The Present is the critical time—Must Not Lay Dry.—The News is in receipt of the following communication from a gentleman who lives in the boll weevil section of Georgia and a man who has had considerable experience in the cotton business. The cotton fields are now being infested with the first crop of new weevils. These new weevils are the first descendants of the old weevils which have passed the winter in hibernation. The multitude of this new crop depends entirely on how successfully the farmer has killed off the boll weevils and how well he has cleaned up and destroyed the puncturing parasites and the eggs of over-wintered weevils. Here, in every great this year, still the real test in boll weevil control has just begun. The "young weevils" after the boll weevil were laid here very great this year, still the real test in boll weevil control has just begun.

KU KLUX KLAN ROBES AND MASKS

Order Sent Out From Atlanta. No Permission Will Be Granted to Use Robes Except in Parade. Atlanta, July 22.—The Knights of the Ku Klux Klan have been ordered to discard their masks, robes and other regalia except when in their lodge rooms. It was announced here tonight at headquarters of the organization. The order is first made public in a letter to Governor Hardwick of Georgia from E. Y. Clarke, imperial wizard, mentioned only Georgia klansmen but later it was stated the order was general. The imperial Klansmen governing body of the plan, passed a rule more than a year ago, it was stated, prohibiting the wearing of the masks and regalia except by permission of the imperial wizard, and it was stated tonight that the present rule would be made effective only if no such permission will be granted except for parades. Clarke's letter to the governor, however, stated that he had issued orders forbidding all further parades or the use of the masks or other costumes of the Klan in the small range of Georgia except in the lodge rooms until further notice. Investigation by local officials of any unauthorized wearing of the regalia and of lawlessness by persons wearing such costumes also was mentioned. Clarke's letter said he added that he could not believe hostility or animosity towards the organization. Outrage by hands of masked men have increased in the last year. Governor Hardwick added, and expressed his appreciation of the unmaking order and also of Clarke's statement that the Klan is not a "regulatory body." He reiterated his stand that "there is no room in Georgia for any organization, secret or otherwise, which sets itself up as a censor of the conduct of the citizens of this state, which undertakes to try such citizens in secret lodge rooms and to execute its decrees by the power of the mob above our laws and outside our courts."

FIRST BALE BRINGS 30 CTS. AT ALBANY

Albany, Ga., July 22.—Dougherty county's first bale of 1922 cotton was brought in Friday by W. F. Fleming, on whose place it grew. In fact, a certain part of the county, Mr. Fleming also brought in the county's first bale in 1922. His bale was the third in the state, and he received a good amount for it by the Georgia Cotton Company. Mr. Fleming also brought in a premium for the first bale. THE PROPOSED TARIFF. The congress which in March was talking of adjourning in May, in July is talking of the possibility of adjourning in August, while the country sweat under the uncertainty of new great will be the burden of new taxation piled up by the Fordney bill. The best statisticians who have looked their pencils to bear on the problem are of the opinion that for every dollar taken from the pockets of the average citizen under the present (Underwood) tariff law, the new bill will be taking like \$125 and \$100 in the envelope and found a check for himself for \$125, and a letter in which the Ku Klux Klan pledged to support the revival and to stand in the fight being waged against blind lyrics and other transgressors. Three services will be held by Mr. McLendon on Friday at 11:30 and 8 o'clock. The meeting was scheduled to close Monday night, but it was then decided to continue it one week longer.

McLENDON A DONATION

Rockingham, July 22.—In the midst of the McLendon revival here Friday night three white robes and figures came down the three aisles of the tent, and meeting in front of the "Clyburne Mark" platform, and without a word handed the evangelist an envelope. They then marched out as quickly as they could carrying like \$125 and \$100 in the envelope and found a check for himself for \$125, and a letter in which the Ku Klux Klan pledged to support the revival and to stand in the fight being waged against blind lyrics and other transgressors. Three services will be held by Mr. McLendon on Friday at 11:30 and 8 o'clock. The meeting was scheduled to close Monday night, but it was then decided to continue it one week longer.

TROOPS ARE MOBILIZED

Pittsburg, Pa., July 21.—Western Pennsylvania coal operators, independent of one another, Friday agreed upon reopening their bituminous mines. Plans for starting the various operations were developed in secret. From one end of the state to the other every armory was bristling with excitement and activity. Troops were either leaving or preparing to leave immediately for the coal region within a radius of 100 miles of Pittsburg. Some troops were already on duty as Friday morning. By Saturday night the major part of the Twenty-Eighth Division will be unarmored. A part of it will be equipped with the western company and the balance will start for camp and be held in reserve there. The Pittsburgh Coal Company, largest bituminous operator in the country, has announced it will begin immediate operation of 100 mines, families in Montrose Mine No. 4, Hill Station, Washington. This is one of the big mines to be reopened next week. It is expected that the same company will follow a similar course at its 80 other mines. The eruptions at the Monroeville mine, which killed 100 persons here, and officials of District 5, United Mine Workers, say they will set up tent-camp.

TUESDAY, JULY 25.

A dispatch from Bennettsville advises that tax exonerations to the amount of \$30,000 have been turned over to the sheriff for collection. The York county treasurer recently turned over more than \$60,000 in exonerations to the sheriff. Word came from various sections of the State advise of similar cases.

It makes one wonder when things get to the point where the people cannot pay their taxes. But we will continue to be bothered with non-payment of taxes as long as South Carolina people rely upon cotton for their money. Some people say that cotton is our only money crop. The News does not believe any such rot. There are thousands of things in this world which will bring money into a section other than cotton. The richest section of the United States is not a cotton section. If cotton is what it is paid for, by we are we of the Cotton Belt not the richest?

We of the South must discontinue the practice of solely depending upon cotton, and now is the time to start—not tomorrow.

Newman Orchestra Coming Here.

Under the auspices of the Chester Chapter American Legion, the internationally famed Newman Orchestra of photographic and radio fame, direct from Rector's Broadway Cafe, New York is to appear Tuesday evening, August 1st, at 8 o'clock in Hardin's Hall.

The Newman Orchestra needs no introduction to the music lovers of this or any other community, for in any home that boasts the possession of a photograph there will find numerous Rector's records. To these far-sighted and fortunate folk who are the proud possessors of a radio-receiving outfit, the Newman

Orchestra indeed needs no introduction.

According to all reports Sir Newman whom, the variety clubs, "The Incomparable Saxophones," will actually appear in person at this gala event.

This organization is now on its fifth annual tour, performing for most exclusive society functions throughout Virginia, North and South Carolina, and judging by the advance press comment, also by the opinion of some of the clubs, who have danced the "light fantastic" to the strains of this combination, the prevailing forecast among the music lovers is that Chester is due for a never-to-be-forgotten evening at Hardin's Hall.

Various selections will be rendered and music lovers will enjoy the evening program, which includes music from the old masters to the latest jazz and rag-time from New York.

The price of admission is 75 cents.

# Great Falls News Items

Great Falls, S. C., July 25.—Miss Virginia Trammell, of Kannapolis, is visiting her aunt, Mrs. J. A. Lybrand, Jr.

Mr. Clyde Pittman has returned from a two weeks' trip to Tampa, Key West and Cuba.

Mrs. and Mrs. Luther Love and two little sons, and Mrs. Curry, from Lockhart, spent Friday in Great Falls, in guests of Mr. and Mrs. A. B. Love.

Mr. R. S. Mebane accompanied his son, Mr. Robert Mebane, Jr., to New York Tuesday. The latter will call upon the Majestic on the 29th instant for an extended trip to Europe, going first to London where he will visit Col. James Hindle. He will then accompany Col. Horlick on a hunting expedition in northern Scotland. Before returning Mr. Mebane will tour continental Europe, and will spend some time studying the textile plants at Lancashire and Manchester.

Capt. J. E. Bailey is at his post of duty again on the S. A. L. Catawba-Great Falls railway, after several weeks' treatment in Hot Springs, Ark. Capt. Bailey was much benefited by his stay in Hot Springs.

Mrs. J. P. Mebane and daughter, Miss Bertha P. Mebane, accompanied Mr. Robert S. Mebane, Jr., home from Greensboro Saturday, and will spend a few days in Great Falls visiting Messrs. R. S. and H. B. Mebane.

Little Miss Elizabeth White is home again, after a visit of several weeks in Chester with her grandmother, Mrs. Hardin.

The Great Falls boys crossed bats with the Camden nine on Saturday afternoon, on the Great Falls diamond, and won the game in a score of eleven to one.

Mr. and Mrs. Walter Hulse, and little daughter, Mary, left Saturday for Pottsville, Pa., where Mr. Hulse takes up his former position with the White Construction Company. Mr. Hulse has been with the Southern Power Company as civil engineer, on the construction of the new plant at Great Falls for the past several months, and he and family have made many friends in Great Falls who regret to see them leave.

Mrs. Jacobs, of Clinton, is visiting her sister, Mrs. E. H. Hall, on Bangsday street.

Mrs. A. C. Lyles had as her guests for the week-end Mr. Marton Wilson of Sumter, and Miss Margaret Marion, of Chester.

We are glad to report that Mr. Roy Lybrand, who has been a pa-

tient in the Fennell Hospital at Rock Hill for several weeks, is improving, and will probably be able to return home in another week.

Mr. and Mrs. B. A. Head spent the week-end in Chester.

Death of Mrs. W. S. Brown.

Friends throughout the county were grieved to learn of the death of Mrs. Mary J. Brown, which occurred at the home of her daughter, Mrs. R. A. Stevenson on the Great Falls road Saturday night at eleven o'clock, after a serious illness of

some time. Mrs. Brown was a native of the Rowlesville section of Chester county and was seventy-eight years of age. She was a consistent member of the Methodist church and leaves hundreds of warm friends to mourn her loss. Mrs. Brown was a daughter of the late Samuel Barber and Sarah Barker Crawford Barber. She was married three times. First to Dr. William Wylie, of the Lewisville neighborhood; next to Capt. A. W. Clarkson, of Philadelphia, Penn.; and third to Mr. William S. Brown, who survived her. She is also survived by

three daughters: Mrs. Mary W. Robinson, of New York City; Mrs. John H. Barber, of Chester; and Mrs. R. A. Stevenson, of Richburg, S. F. D. She is also survived by one sister, Mrs. Julia Hagrin, of Chester.

A large concourse of sorrowing friends were present at Mount Prospect church Sunday afternoon to pay their last respects to this good woman. The funeral services were held by Rev. Henry Stokes, assisted by Rev. A. Q. Rice and Rev. B. H. Franklin, after which the remains were laid to rest in the church graveyard. The flowers were many and beautiful and attested to the high esteem in which Mrs. Brown was held by hundreds of friends.

At a meeting of the County Board of Directors held yesterday the members were unable to decide up on a cotton weigher for Chester, and postponed the election until next Saturday. The News is asked to state that applications, in addition to those already in, will be accepted. It is stated that the board only considered two applications of Chester men yesterday. The Mayor of Chester, in addition to the board, has the matter of selecting a cotton weigher in hand.

Get The Right Tire at the right price. Chester Hardware Co.

Friends throughout the county learned with much sorrow of the death of Dr. J. Ryke Coleman, which occurred at noon yesterday at the Pryor Hospital in Chester, where he had been for several days for treatment. The cause of Dr. Coleman's death was acute lymphatic leukemia, a disease of the blood which the medical fraternity so far has been unable to find a cure for. Dr. Coleman was a native of the Feasterville section and was one of the foremost citizens of his community taking a part in all matters for the best interests of the community.

Brick-lee Cream, any flavor, delivered to your table, 65 cents a quart. Hardin-Brice Drug Co., Phone 202.

Mr. Ervin Hough, of Greenville, spent the week-end in Chester with relatives.

Strike ballots are being received in Asheville, by H. C. Caldwell, general chairman of the express division of the railway and steamship chiefs, from members employed by the Southeastern Express company involving the Southern Railway and allied lines. The ballots are returnable August 1, on which date Mr. Caldwell plans to assemble his committee to canvass the vote. The clerks are \$4 per cent. organized and last December had a membership of 1,426. It is stated that their salaries have been reduced about one-third during the past year.

Today last day for enrolling for Democratic Primaries.

Dr. W. D. Barnes and P. A. Feuchtenberger on their way to Fort Lawn Wednesday had a narrow escape from going into Calatwa river when a car in front was cranked while in reverse and backed on Dr. Barnes' new Chevrolet, pushing his car backward until the hind wheels hung over the end of the flat near the water. Thinking their automobile would surely go into the river, both Dr. Barnes and Mr. Feuchtenberger took the side of safety and cleared themselves from the car at a Nancy Hanks point, Mr. Feuchtenberger exclaiming himself from the automobile by means of a cable that was within his reach. No damage was done, though considerable excitement prevailed around the scene for several minutes—Lancaster News.

Fresh Shipment of Pennsylvania Vacuum Cup tires at The Chester Hardware Company.

### A Tonic For Women

"I was hardly able to drag, I was so weakened," writes Mrs. W. F. Ray, of Easley, S. C. "The doctor told me that about two months, still I didn't get any better. I had a huge family and felt I surely must do something to enable me to take care of my little ones. I had heard of

### CARDUI

The Woman's Tonic

"I decided to try it," continues Mrs. Ray. "I bought eight bottles in all. I regained my strength and have had no more trouble with my many weaknesses. I have ten children and am able to do all my housework and a lot outdoors. I can cure your weakness Cardui."

Take Cardui today. It may be just what you need. All druggists.

## Unexpected!

a New "USCO"—  
Better, Heavier, Longer Wearing  
30x3 1/2—\$10.90 No Tax added  
on Sale Now

USCO set the high value mark for 30 x 3 1/2 tires when it originated the \$10.90 price last fall.

USCO today betters that mark with a new and greater USCO—an USCO improved in many important ways.

For instance, a thicker tread—with a surer hold on the road—thicker side walls, adding strength and life to the tire.

And the price is \$10.90—with the tax absorbed by the manufacturer.

Men have always looked to USCO for the biggest tire money's worth on the market.

They always get a bigger tire money's worth than they expect.

## 35,000 Miles Without a Puncture!

We've got the Tire, and the Truck on which it ran is Right Here in Chester. It was a

### Firestone Cord

The Texas Oil Company ran a Firestone Cord tire on one of their trucks 35,000 miles without a puncture. The mileage was recorded by a hub speedometer. You are doubtless familiar with the fact that the Texas Company's trucks carry heavy loads of oil and gasoline over all kinds of roads—some good and some very bad.

We have the tire on display at our place of business and would be glad for you to look it over—also get the Texas people to verify this statement.

We have no way of telling but we believe this tire would have made 70,000 miles on an automobile since an automobile is not subject to such heavy loads and rough service to which a truck is subjected.

Let us equip your truck or automobile with FIRESTONE CORDS and forget all about your tire troubles.

### SAYS IMMIGRATION LAWS ARE NEEDED

By David M. Church.  
London, July 21.—The United States needs an immigration restriction law as well as an immigration restriction law.  
For the good of friendly relations between Europe and the United States there should be just as strong measures to keep the bad Americans and the undesirable Americans in the United States as the strict measures that are taken to keep the undesirable Europeans out of America.  
Former Vice President Marshall, during a recent visit to London, publicly advised the English people not to judge America by those "wax profiteers who come over here and strut up and down Piccadilly," and the former vice president didn't tell it all.  
The influx of Americans to Europe this summer has been great

and among the thousands who have come here who might have better have been kept at home. London newspapers have attributed several sensational crimes of late to "Americans." Whether their conclusions were correct or not it is impossible to say, but it certainly indicates London believes there are some undesirable Americans among those present.  
There have been hundreds of Americans who have come to Europe to flout their wealth off the backs of the still war-impooverished Europeans.  
This does not make for friendly feeling toward the United States and causes the deepest disgust among those Americans who are anxious that their country shall be truly represented on this side of the water.  
There have been too many Americans who have figured in the police court news in London this summer. The London press never fails

to feature the case of the American who over-imbibes and gets into the toils, and those who don't get into the toils but make public scenes cause a great deal of comment among the English people, who look upon prohibition and drunkenness as great curses.  
The American stage has been terribly misrepresented in England and particularly in the English vaudeville theaters. There are American acts now headlined on English vaudeville circuits that have never seen the light of any theater out of the "stank circuits," and the English theatergoer is pretty skeptical if any performance that is labeled "American." There have been some excellent American performers come to England, but there have been many more who should have been kept at home.  
The impression of America that Europe is gathering from the post-war American influx is a poor one, and it certainly will not enhance in the European that wholesome respect which they gained for America by close contact with the American armies.  
The PLIGHT OF FRANCE.  
France, who so gallantly faced the bullets of Germany's invading armies as they turned her homes into desolation, is now having to face the merciless criticism of her former allies.  
Germany was smart enough to lay down her arms and cry "Kamerad" as soon as the victorious Allies were ready to invade her territory, knowing her enemies well enough to be sure that they would respect the white flag. She did not want her own lands over-run and homes and factories and mines destroyed as she had done in France, and thus saved

herself from loss and humiliation. France, as the chief sufferer at Germany's hands, has rightly been the largest claimant in the big bill for reparations that Germany is justly called upon to pay. And, if that was the Germans are paying taxes at the rate of only \$18.88 a year per capita, while the French are paying at the rate of \$46.62, yet the Germans claim to be unable to pay anything for reparations. If Germany had been the victor, any hesitation on the part of the conquered as to payment of her demands would have brought the failed fist and iron heel in wrath upon them, and—also by the way—if the Germans had won, there are some folks in these United States who are making much ado about their taxes who would then have found out how much they could really pay.  
Germany owes France an enormous debt under the terms of the Versailles treaty, but is apparently making no honest effort to pay it, and probably never will unless force is used against her, and the well known that Europe does not want to see another big war in the near future. She claims, however, that if the reparations bill were modified and she could be granted a foreign loan, she would turn this loan over to her creditors. A group of international bankers, among them representatives of American institutions, recently went to Germany to make arrangements for such a loan, but France refused to be a party to

the scaling down process, and the plan failed.  
France has been bitterly criticized for her refusal to agree to modifications, but her position is perfectly natural. She owes vast sums to Great Britain and the United States, the loans being made to save them from defeat as well as herself, and she does not feel that she can afford to make concessions to her ancient enemy while her friends are demanding

adjustment from her. She is willing to do her part, but does not want to do it all. American critics of the French would do well to understand their viewpoint before judging too harshly.—Selected.

## It Takes Money

It takes money to operate a printing plant. It takes money to operate a mercantile business. In fact it takes money to operate any business—even a Ford business.  
Printing is our business. We must have printing to do business and when we do printing we must make money in order to continue to do business. No business can operate long unless it makes a profit on the business done. Every sensible business man knows that and should be willing to allow the other fellow a reasonable profit.

The News has long since quit guessing at printing prices—we have the prices figured out, right ready for you when you offer the job to us, and on every job we do, a profit is figured. We are in the printing business to make money just like you are in the mercantile business to make money.

Some printers still hang on to the old style of guessing at every job of printing brought to them. John Smith brings them a job and they guess less than cost and give him a cheap job. Tom Jones brings in a job and they guess 100 per cent too high and Jones helps pay for the Smith job. That's not right. Every man should pay for his own job. That's the way The News charges for printing. It lets every fellow pay for his own job.

There is no need of your sending a job of printing out of Chester. The News can and will give you as reasonable price on your work as any printer who does printing in a business way.

The News is a Home Establishment and every dollar you spend with us stays right in your town to help the town grow. In fact, the employees of The News spend more money in Chester each year than the total business received from Chester business houses. If it were not for "foreign business" The News would have to move its plant out of Chester. Looks funny, but the figures prove it.

Don't send your printing out of town. You might be able to get a cheaper price some where but there is no printing house in the country which can do printing as a whole, cheaper than The News and stay in business very long.

We very only want you to buy your printing at Home but we want you to buy everything else at Home. That's the way we must all do it if we want to see Chester grow.
