Adjoining County News.

Mrs. John B. Jones of Yorkville and Miss Grace Atkinson of Lowryville, have been re-elected teachers of the school at Bowling Green, for another year. Mrs. and Mrs. W. O. Rowley, Mr. Jack Verborough and Mrs. W. B. Rawls and son, Billy, Jr., of Monroe, N. C., and Miss Mary Jane Thomason of Lowryville spent Sunday in Yorkville, with the family of Mr. C. C. Strop. Miss Lizie Howe, a white woman forfeited a \$5 bond to the town when arrested yesterday morning on a charge of loitering on the streets. The woman seemed to have plenty of money and readily came across with the necessary bond demanded by the police man. According to Chief of Police Steele the woman worked at the Lockmore Mill in Yorkville last week. She is said to have told people that she was out of employment and numbers of them have fallen for her "hard luck" story. At an election held in Blacksheep Saturday afternoon a vote of 128 for the bonds and 28 against. The state highway commission has promised to pay an additional \$30,000 provided the election carried. The town of Blacksburg is showing much improvement in building recently and the raising of bonds for the improvement is another evidence of progress. Mrs. Effie Higgins recently acquitted in the court of general sessions of complicity in the murder of her husband, J. Pink Higgins who was killed November 7, 1921, and for whose murder Albert Zimmerman was convicted and is now serving a life term in the penitentiary, last Saturday with her infant son, Roy Gastonia, where she connects to live in the future in the home of a relative. For several months past the woman has been living at the county home. All indications point to the probability that the state campaign to be held at Filbert tomorrow week will break the record for attendance so far. Of course all the cotton gins should shut down on Wednesday next—at least all the mills that are within the county in proximity to Filbert. The mill workers constitute a large and important element in York county citizenship, and they got out in the streets to see and hear the future officers of the state; but they should be given the opportunity to see and hear. "Yes the street car will be still on in Columbia," said a Columbia man who was in Yorkville yesterday. The motorman and conductors are—most of them—still living in Columbia, and a good many of them are making a living operating "jitney automobiles" in opposition to the street cars. The street cars charge a straight fare of 7 cents with an additional charge of 3 cents for a transfer. The jitney drivers charge 10 cents for a trip inside the city so one can ride in an automobile as cheaply as he can ride on the street cars. While a good many people are riding on the street cars if you stand on the street for a half hour you will find more street cars traveling west than with passengers. Yorkville Equinox.

Mrs. Clyde Funderburk is improving from an attack of pneumonia at the home of her parents, Subt and Mrs. A. C. Rowell. Mr. Robinson, of Chester, came over Sunday and accompanied Mrs. Robinson home from Lancaster, where she has been with her parents, Dr. and Mrs. E. C. McManus. With the exception of two or three names the enrollment books for the Lancaster precinct were practically complete at the noon hour today. The books at that hour showed that 454 males and 355 females had placed their names properly and were entitled to vote in the August primary. The books at that hour of going to press were unable to obtain a report from the collector mill precinct. Messrs. Sapp of this city sustained a fracture of one foot from a broken bottle at the sea plant swimming pool yesterday afternoon. The bottle was thrown by someone who had carelessly thrown by someone near the water's edge. Several stitches were required to sew up the wound, which was attended by a local physician. Mr. A. J. Gregory, for want of a wheat mill near, on yesterday hauled ten bushels, 200 bushels, of wheat grown on his farm near Elgin in this county, to Monroe, N. C., to be ground into flour and brought back to the mill. What do you think of that? Why can't the farmers and business men of this county establish a wheat mill at some suitable place and take care of Lancaster wheat? The diversification which the mill will surely bring about will make a good opening for the growing of wheat as a part of the diversification. If Mr. Gregory can grow wheat so successfully so can many others. Mrs. May Chitman has been suffering from the breaking of a bone in the left arm near the wrist where a mistake was made in ascending the front steps to her

house early Sunday evening. Physicians were at once called in and found the woman somewhat weak, which, though painful at times, is doing very well. Miss Etta Fails and Walter J. Brass were united in marriage at the home of Mr. and Mrs. T. Sheahan of Heath Springs Saturday, July 22, 1922. T. Sheahan officiating. The bride is a daughter of Mr. and Mrs. W. B. Rawls and is a popular young lady. The groom is a son of Mr. and Mrs. J. B. Brass, of the Heath Springs section. Also a well known young man, a number of friends of the bride and groom witnessed the ceremony. The bride and groom were accompanied by Miss and Mrs. W. B. Rawls, of Falls and by Mr. and Mrs. J. B. Brass, of Heath Springs. The bride and groom were accompanied by Miss and Mrs. W. B. Rawls, of Falls and by Mr. and Mrs. J. B. Brass, of Heath Springs. The bride and groom were accompanied by Miss and Mrs. W. B. Rawls, of Falls and by Mr. and Mrs. J. B. Brass, of Heath Springs.

CLOSED MINDS

In nine cases out of ten let me propose that a method or process be changed and what happens? The suggestion is immediately opposed by almost everyone. There is a flood of reasons why it cannot possibly be done.

The habitual attitude of most human beings is resistance to change. That is why no industry has ever revolutionized from the inside. There are few exceptions.

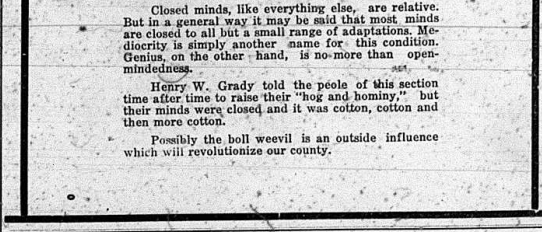

Every innovation makes its way against opposition. Life is a series of adjustments and success is adaptation. This is the lesson of all history.

Those who cannot or will not adjust themselves must be snuffed out. It is pitiless, perhaps, but it is true. Nature has no place in her scheme for the closed mind.

Closed minds, like everything else, are relative. But in a general way it may be said that most minds are closed to all but a small range of adaptations. Mediocrity is simply another name for this condition. Genius, on the other hand, is no more than open-mindedness.

Henry W. Grady told the people of this section time after time to raise their "hog and hominy," but their minds were closed and it was cotton, cotton and then more cotton.

Possibly the boll weevil is an outside influence which will revolutionize our country.

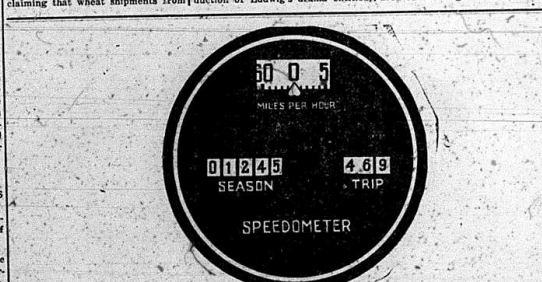

SHORTAGE OF COAL
Stock of Greenwood Practically Exhausted.

Greenwood, July 24.—Greenwood coal yards are practically out of coal with little prospect of any more. The coal strike is settled. Local wholesale grocers already are preparing for a food shortage in case they are making every effort to secure shipments of flour and other foodstuffs. Grocers estimate that Greenwood at present has enough flour and staple groceries to last ten days, pending considerable difficulty in getting flour shipments through from the Eastern mills, the mills claiming that wheat shipments from

the West have been delayed and that local factories are slow. A local ice factory reported Saturday that it was burning shavings under its boilers to supplement the depleted coal supply.

EX-KAISER'S OATH BE REQUIRED
Berlin, July 25.—The former kaiser may be called upon to give testimony under oath in a case now pending in the Berlin courts. If the kaiser testifies, his deposition will throw light upon the most intimate reasons for the dismissal of Hindenburg.

In a sensational lawsuit, the former kaiser and the widow of his late minister, Von Kaettlich, are suing the well-known author Dr. Emil Ludwig, in an effort to prevent the production of Ludwig's drama entitled,

You buy Gallons but you get mileage!

AND how much do you get? It isn't what you pay for gasoline or tires or anything in fact, but what you get out of them, that counts. In the case of gasoline, it is the economy of maximum power and full mileage that you want.

This company has never considered manufacturing a gasoline that would be phenomenal in any one way. It is producing a gasoline which is more than satisfactory in every particular—balanced to fit the motor.

The greatest power consistent with instant starting, full mileage with the smallest possible amount of carbon, purity, uniform quality and economy—"Standard" gives you all of these and no other fuel can give you more.

You will find Polarine Oils as dependable in every way as "Standard" Motor Gasoline. A hard combination to beat, or equal!

"STANDARD"
The Balanced Gasoline!

STANDARD OIL COMPANY
(New Jersey)

You need your county paper.

SOUTHERN CLERKS WILL NOT STRIKE

Railway and Union Sign Agreement. Document Accepted at Chattanooga Result of Concessions by Road and Employees.

Washington, July 25.—An agreement has been signed at Chattanooga, Tenn., between officials of the Brotherhood of Railway Clerks and the Southern railway which definitely averts the threatened walkout of clerks on the Southern and its affiliated lines, local officials of the brotherhood announced tonight.

The agreement was formally signed this afternoon, according to a message received by the local union chiefs and comprised concessions from both sides, the employees accepting a reduction of from three to four cents an hour and a reduction in minimum entrance salaries, while the management agreed to grant 14 days' vacation with pay annually, full pay for definite period during sickness and half-holidays on Saturdays.

The agreement affects some 6,000 clerks throughout the Southern system. The annual vacation provision has been generally granted, according to officials of the road, but is to be placed in writing for the first time. The reduction accepted by the clerks was described as an act of the shrewdness of the State's provisions of decision 1074 of the railroad labor board.

GOVERNOR NEFF DECLARES MARTIAL LAW AT DENISON

Says Chambers of Commerce Are Threatened by Threats of Violence on Part of Strikers.

Austin, Texas, July 25.—Martial law has been declared at Denison and five infantry companies here are expected to move there, according to Governor Pat M. Neff announced today. The action was taken due to disorders growing out of the strikers' strike, it was stated. Rangers called to Denison will be shifted to Childress and Sherman under the "open port" law, the governor announced.

Martial law becomes effective at 3 p. m. tomorrow. Detachments of rangers from Denison also will go to Childress, Temple, Amarillo, Marshall, Lufkin, Kingsville, De Leon and Waco to guard duty and protect the railway.

Contributing factors to the necessity of martial law, the governor said, were the Missouri, Kansas and Texas strikers' strike, the inability of the railroad to carry on regular traffic and maintain the regular flow of commerce because of the workmen lately employed were intimidated, threatened and injured by physical violence, and the inability of officers who had personally conferred with him to protect workers.

WITH THE COUNTY AGENTS.

J. M. Eneas, Saluda.—The first purchase of sheep ever made in this season. Some remarkable figures on this crop will be gotten this year here.

W. M. Eggs, Dillon.—Our fourth Annual Short Course was from every standpoint by far the best we have ever had. The attendance was better than ever before as I had 47 boys that spent the three days and a few others that dropped in occasionally. Quite a number of men in the community expressed themselves as being very much impressed with the work.

W. C. McGowan, Abbeville.—The co-operative buying of seed has been a big item in the work of this spring. Arranged with merchants to handle all seed for less than 5 percent profit in co-operation with county agent. Together, we have handled 2500 bushels of seed such as velvet beans, etc., at an approximate saving of \$1000.00, and in addition we have sold only very best seed, and the best prices are being secured to this factor.

M. M. McCord, Georgetown.—S. D. Sims, Livestock Specialist, is about to begin to conduct some valuable demonstrations in determining the cost of producing pork. One farmer who is keeping an accurate record of the cost has remarked that he had no idea that pork could be produced so economically as his records have shown. He is now planning to increase his herd.

W. F. Howell, Lancaster.—Interest in drawing contest to grow, as shown by the fact that several men have started shipping cream. A milk truck to carry whole milk to Charlotte from Van Hook has been started up, and around 100 gallons daily is sent to this market by the farmers of this community. Several farmers have been lined up to do demonstration work with their best equipment ordered for them.

GOOD ROADS EVERYWHERE.

The virus in an established condition of road maintenance is becoming fore and more impressed upon the people as Summer travel increases. It has been demonstrated that a sand clay road, properly "kept up," becomes better with usage. In any direction one may travel in South Carolina and clay roads have been beaten into condition of glass smoothness, with two hard-pressed parallel "tracks" at some points reaching the width of the road. Even the highway between Lenoir and Blowing Rock has a glossy smoothness, in spite of the fact that during the present season there has been no two rainless days in succession. The splendid condition of the dirt roads is due entirely to the State's system of maintenance, and it shows how far behind its opportunities the old county systems had fallen. It is a system that North Carolina has inherited from the era of bad roads. Its hard-surfaced highways are standard and the sand and gravel will be always good. Charlotte Observer.

FORD PLANS TO MAKE MEXICO LEADING POWER OF WORLD IN INDUSTRY

Wants to Put the People To Work and Have No Time To Fight. His Plan Has Backing Of The Principal Men Of Mexico.

Development of Mexico industrially and agriculturally to a point and its place as one of the leading powers of the world is the plan of Henry Ford.

This has been learned by The Associated Press from sources close to the manufacturer. Mr. Ford, it was learned, proposes to end forever the state of stagnation in the south, to be put "putting the people to work," as he expresses it, by making it possible for the people to obtain subsistence in short, it was said, by elevating the masses in the country to the highest possible standard.

The motor manufacturer wants to keep the lands and minds of the Mexican common people occupied so "they will have no time for fighting." This, it is learned, is the basis of Mr. Ford's theory, one that he hopes to carry out in the near future by creation of a number of factories throughout the country. He hopes to reveal to the people of Mexico how they can help themselves.

The first step in the program may be taken soon with establishment of a Ford Motor plant in the city of Saltillo. Business interests of that city and the governor of the state are anxious to have Ford bring to the industrial development. Mr. Ford, it is known, would enter into his development program with the state government, and the necessary factory buildings. Similar enterprises would be established by Mr. Ford in other parts of the country. The plan is carried out, it is estimated.

Mr. Ford is said to believe that if he were made for the third time the value of industry, better methods of agriculture and their possibilities individually and as a nation, the advantage of this country will be the one of the most notable in history.

The manufacturer is known to have founded faith in the people of the country. He announced his idea several years ago, at a time many persons in the country were beginning to feel that the United States sent troops to "clean up Mexico."

At that time Mr. Ford said: "Let me invade Mexico with factories and give the people something to do. Then there will be no more war here."

At the initial step toward carrying out his plan Mr. Ford for the last few years has been training Mexicans in his automobile factories. Several hundred representative workmen from the southern republic have become skilled workmen in the art of automobile repair and are ready to return to their own country and become native foremen when the wheels in the Mexican Ford plant begin to turn. These men, it was explained, have learned American methods, adopted American standards of working and have seen the value of the new Mexico. They will pass this enthusiasm on to their countrymen, the manufacturer believes, and from this step will sprout the end of the Mexican peonage system.

Mr. Ford, it is known, proposes to take into the southern republic all the ideas that he has worked out in this country. He would open schools where farmers would be taught the use of improved agricultural implements. He would make it possible for his workmen to become educated by state schools and that the children of the poorer class had educational advantages necessary for the welfare of the country.

The S. M. Jones Comp'y

Local and Personal

Cotton 21 1-2c

If You Want A cool dress to finish out the season on, ask to see our styles and figured Swis. Special prices. The S. M. Jones Co.

The Lancaster Mercantile Company's stock of goods, fixtures, etc., will be sold at public auction to the highest bidder on Monday, the second day of October, by the terms of an order made Monday by Judge W. H. Townsend, presiding judge of the fifth circuit, after a hearing at Camden. The hearing before Judge Townsend followed several before Referee Spencer at Lancaster and at Rock Hill. By the terms of the order the stock will be sold separately in departments and as a whole, whichever sale is for the highest amount to be confirmed.

Greatly Reduced price on Summer Dresses at Wylie's.

Mrs. H. S. Heyman has returned to the city after a visit to Georgetown and the island.

"Keep Smiling With Kelly's" Get them at the Chester Hardware Company.

Misses Frances Marshall and Carolina Heyman, of Rock Hill and Camden, are the guests of Mrs. H. S. Heyman, on York street.

Misses Sadelle and Frances Harry of Grover, N. C., are the guests of their aunt, Mrs. W. H. Lowrance.

Brick Ice Cream, any flavor, delivered to your table, 65 cents a quart. Hardin-Brice Drug Co., Phone 202.

Messrs. Holmes Hardin, C. C. McAliley and Edward Hamrick returned Wednesday night from the Sandhills section of North Carolina where they toured the peach orchards. All were very much surprised with the peach season and expect to give the matter of peach growing considerable thought.

Cheating out all our colored voiles and dotted Swis at low prices. The S. M. Jones Co.

A number of the farmers in various sections of the county are complaining of the red spider in their cotton. Mr. A. S. Presley was in town Wednesday afternoon and stated that he had a patch which the spider had practically destroyed. We hear of others being troubled with the spider also.

Mr. James Key, who has been indisposed with pneumonia, was able to be on the street yesterday.

Fresh Shipment of Pennsylvania Vacuum Cup tires at The Chester Hardware Company.

Chester people who are interested in peach growing expect to have an expert horticulturist in Chester possibly during the month of August, for the purpose of making a survey of certain tracts of land to ascertain their adaptability as to peach growing. Any parties in the county who desire their lands investigated are requested to communicate with Mr. H. B. Beach, secretary of the Chester Chamber of Commerce. In order to secure the services of an expert horticulturist it is necessary to pay him for his time and expenses and those who wish their soils and location of their land investigated will be expected to pre-pay the expenses. If a sufficient number can be secured it is probable that the expense can be reduced to something like ten dollars each.

Special prices on all our summer voiles and dotted swis, The S. M. Jones Co.

Mr. R. S. Knollenberg who has been manager of the McCrorey store in Chester for a number of months, has moved with his family to Rock Hill where he will manage the store of the same company there. Since being in Chester, Mr. Knollenberg and family have made many friends who regret to see them leave the city. Mr. H. F. Jump is the new manager of the Chester store.

Brick Ice Cream, any flavor, delivered to your table, 65 cents a quart. Hardin-Brice Drug Co., Phone 202.

The colored Knights of Pythias Grand Lodge which has been in session in Chester for the past three days came to a close last night. Several hundred delegates from various sections of the State were present for the occasion. A feature of the session was a parade yesterday afternoon and one which was very creditable. The News takes this opportunity to commend the colored Knights for the orderly session in Chester and from all reports the meeting was one of the best ever held.

Get the Right Tire at the right price. Chester Hardware Co.

The Chester county campaign opened at Armenia Tuesday and a large crowd was present to hear the candidates. The News takes this opportunity to commend the colored Knights for the orderly session in Chester and from all reports the meeting was one of the best ever held.

Get the Right Tire at the right price. Chester Hardware Co.

Special Prices on all summer ready-to-wear. The S. M. Jones Co.

Chester business men were pleased to learn that the master of a strike of the Southern Railway was not pulled off and that the railway company and the clerks came to an agreement. The majority of people are in sympathy with the clerks, knowing that they are among the poorest paid employees of the railways, whereas other crafts get their share.

Brick Ice Cream, any flavor, delivered to your table, 65 cents a quart. Hardin-Brice Drug Co., Phone 202.

The members of Chester Post American Legion, enjoyed a smoker at Hardin's Hall last night and a representative crowd was present. Judge J. H. Marjan, Dr. R. G. Lee, Dr. D. G. Phillips and others, presided those present. The legion is arranging to have a big Armistice Day celebration in Chester this fall and it was for the purpose of discussing the plans, etc., that the smoker was held. Dr. H. B. Malone, post commander, says that they expect to have one of the biggest celebrations in this section this fall.

Special Price on Men's Summer Clothing at Wylie's.

Dr. O. L. Sharp, who has located in Chester for the practice of his profession, was among those who recently passed the examination before the State Medical board, in Columbia.

Bathing Suits and other bathing supplies at low cost at the Chester Hardware Co.

Ladies' Summer Dresses, going at about half price at Wylie's.

The three members of the County Board of Directors and Mayor G. W. Byars expect to select a cotton weighing for Chester at a meeting to be held tomorrow morning. It will be recalled that they were unable to make a selection recently and postponed same. It is stated that several applications, in addition to those considered at the previous meeting, have been filed for consideration.

A Good Time to supply your needs in Towels, Shirts and Pillow Cases, our prices are very low. Wylie & Co.

Rev. James Russell Jr. returned to the city after spending several days at McClendonville.

Kelly Springfield—a real tire. Chester Hardware Co.

Mrs. L. T. Nichols is visiting relatives in Augusta, Ga., and other points in Georgia.

Mr. and Mrs. R. E. Hafner and R. R. Hafner, Jr., left yesterday for the mountains of North Carolina to spend several days. R. R. Jr. will spend a month at Breward.

In conversation with a citizen from Cheraw this week a News representative was informed that the boll weevil was playing havoc with the cotton in Chesterfield county. That section has had considerable rain for the past two weeks or more and such being the case the farmers have been unable to combat the weevil. The Cheraw man stated that some farmers had picked up squares until they became so numerous that it was decided that there was no use to fight the weevil any more this year and the practice was being discontinued.

NOTICE OF FINAL RETURN.
 On August 13th, 1922, I will make my Final Return as guardian of Jasine Crawford and will apply to the Probate Court for Letters Dismissory.
 J. H. Crawford.

Great Falls News Items

Great Falls, S. C.—Mr. and Mrs. W. F. Cappers and little son, Billy, who have made their home in Great Falls for the past year have returned to Greenville. Mr. Cappers has spent the summer at the farm of Patter and Shackford, Greenville, S. C., the construction of a high school building, moving picture theatre, twelve stores, war houses and other buildings for Republic Cotton Mills, all of which have been erected within the past twelve months.

Mr. M. G. Wolfe, of Patter Mills Department Store, together with his wife and children, are spending a week with relatives in and near Monroe.

Dr. P. S. Thomas was called to Rhems a few days ago, to the bedside of a former patient, Mr. Rhems, who was critically ill.

Miss Church, of Charlotte arrived in Great Falls a few days ago to take charge of the Southern Power Company's hotel, recently managed by Mr. E. O. Limmer. Miss Church copies highly recommended, and the boys of the Southern Power Company are very much pleased with the new management.

Mr. W. H. Taylor made a business trip to Columbia Thursday.

Mrs. J. L. Thomas and little son, J. L. Jr., of Lynchburg, Va., are visiting the former's brother-in-law, Mr. R. H. Thomas and wife, on Circle street.

Mr. J. F. Sloop, who has been an inspection job for Southern Power Company at Mount Holly, Spindale and other North Carolina points, for the past several weeks, is at home again.

Dr. M. A. Allen, a former pharmacist of Republic Pharmacy, now of Kannapolis, N. C., was in town recently, shaking hands with his old friends.

The construction work on the additional power plant at Great Falls is assuming an imposing and definite appearance. The forms for the gigantic wheels are being placed, the concrete work taking shape, and altogether the scene presented by the mammoth machines, derricks, steam shovels, dump trucks, crushers, mixers, pumps, etc., together with hundreds of men, is one of unusual interest from a constructive and scientific basis. The hum of machines and whistle of the trains can be heard day and night, except Sunday.

Mr. Dever Little accompanied Mr. R. S. Mebane and Robert Mebane, Jr., to New York Tuesday, to see the latter off for Europe on the 29th instant.

A party of young people from Chester enjoyed sailing, swimming and a fish fry at Rocky Creek pool near Great Falls, Wednesday evening.

George B. Logan, of Spartanburg, representing Anderson-Dulin Varnell Co. of Knoxville, spent Wednesday night in Great Falls, visiting his sister, Miss Logna Logan.

35,000 Miles Without a Puncture!

We've got the Tire, and the Truck on which it ran is Right Here in Chester. It was a

Firestone Cord

The Texas Oil Company ran a Firestone Cord tire on one of their trucks 35,000 miles without a puncture. The mileage was recorded by a hub speedometer. You are doubtless familiar with the fact that the Texas Company's trucks carry heavy loads of oil and gasoline over all kinds of roads—some good and some very bad.

We have the tire on display at our place of business and would be glad for you to look it over—also get the Texas people to verify this statement.

We have no way of telling but we believe this tire would have made 70,000 miles on an automobile since an automobile is not subject to such heavy loads and rough service to which a truck is subjected.

Let us equip your truck or automobile with FIRESTONE CORDS and forget all about your tire troubles.

Victory Service Station
 Hudson Street

FRIDAY, JULY 28.

Because a stock clerk kept putting off a small task a large store lost hundreds of dollars' worth of sales. Now this particular stock clerk was not much different from the average individual. It is human nature to leave the disagreeable things until last.

A Pittsburg bank president has his motto hanging over his desk: "Do the Hard Things First." He put the motto there because he found himself picking out the easy things. He was avoiding the really hard things. He called a half-dozen houses and started on the road to success.

Tomorrow is the day of promise. A man decides to embark upon a new enterprise—tomorrow. He will turn over a new leaf tomorrow. But not today! Gradually he finds himself getting behind in his work. Disagreeable tasks which he has put by from time to time pile up. He becomes discouraged and has an increasing incapacity for his work. This is equally true, be he in business for himself or for somebody else. He becomes discouraged and has an increasing incapacity for his work. This is equally true, be he in business for himself or for somebody else.

On last Tuesday a representative of The News traveled over 243 miles of roads in North Carolina and every mile of the entire route was in first-class condition; a six-cylinder automobile being able to maintain a speed of thirty miles an hour with the greatest of ease—there was no slowing down for rough spots—they were conspicuous by their absence.

A very noticeable feature in connection with these roads was the fact that they are maintained and there was no evidence that it took a score of laborers to keep any part thereof in proper shape. No road maintaining gang on the entire route was found which consisted of more than three men. The usual gang consisted of two men, one road scraping machine and a truck; one man to drive the truck and one man to work the machine. Picks and shovels were also carried and every once in a while you would find the men repairing places in the roads. Apparently the road authorities in North Carolina believe that "a stick in time saves nine," and they practice it.

Chester county has quite a number of miles of good roads but The News is of the opinion that the maintenance of these roads should receive some careful thought and attention.

While other industries of the country are facing a shut down because of the rail and coal mine strikes, Henry Ford's enterprises have an "open for business" placard.

Ford's coal mines and his railroad the Detroit, Toledo and Iron Mountain, is in full operation. The employees are paid a higher wage than the union scale and consequently the Ford Motor car plants are operating at full capacity, as there is plenty of coal for the plants.

Ford's railroad and his coal mines are operated on the "open shop" basis.

KLUTTZ DEPARTMENT STORE

CHESTER, SOUTH CAROLINA
