HERE'S HOPING SUCCESS

I am very much interested in the success of the peach orchard of Land Brothers, just about a mile beyond Lowrys.

I have been familiar with the Sandhills peach section of North Carolina for the past eighteen or twenty years. I recall a trip through that section a number of years ago when there were very few peach orchards. Most of the land was barren and could be bought for \$1.00 an acre or less. The peach business was just beginning to get started. I have seen that section grow from one of poverty to one of plenty and to speak in the course of fifteen years.

Dr. James Land, of Chester, who travels for a candy manufacturing concern, had occasion to travel the peach section a number of times a year and became interested. He thought of starting a peach orchard in Chester county and in talking it over encouraged him. A few years ago he and Land three other Chester citizens visited the peach section, entering it at the north end and coming out at the lower end. We rode seventy miles without once getting a glimpse of a peach orchard. We visited the packing houses and orchards and talked with the men in charge, finding out all we could about the growing and selling of peaches.

We visited the farm of a Mr. Hutt, who was formerly connected with the horticulture department of North Carolina, who is a successful peach grower and a man who knows the peach business. We made arrangements with Mr. Hutt to come to Chester county and to survey lands here for those who might desire his services. His charge was twenty-five dollars a day and expenses.

We returned to Chester and soon called on the THEX secretary of the Chester Chamber of Commerce, placing our idea before him and asking for his support in endeavoring to get a few people in Chester county interested in growing peaches. We got blooming little satisfaction from the THEX secretary. I made more sure to think that an organization supposed to be for the purpose of fostering the interests of Chester and the county should have a secretary who displayed about as little interest in our idea as a tadpole. I told Dr. Land that we would bring Mr. Hutt to Chester county if he had to pay his expenses myself. However, we got a number of people interested and brought Mr. Hutt here, pre-paying the expenses between those whose places he looked over.

Mr. Sanders, the county agent, became interested and altogether we got something like ten dollars and peach trees planted in Chester county that fall. Some of those who planted the peach trees of their trees but the majority, I understand, have paid little attention to them and of course they have not borne fruit. I wish they had given them careful attention because I feel sure they are already regretting it.

Land Brothers' first plantings are coming in pretty good. This year and they will probably have two cars of something like 650 crates each, to ship this year. As this is written they are loading a fleet carload of peaches, which shipped out of Chester county, notice the quotation on peaches in New York is today running from \$1.75 to \$3.25 per bushel. I would think that a car of peaches will now bring an average of \$1,000 a car. Next year the Messrs. Land should have a considerable quantity to ship. They have, I think, about fifty acres in peaches, and a favorable yield will probably be able to ship from forty-five to fifty carloads. By this it can be seen that fifty acres of peaches often amounts to sales of fifty thousand dollars. Sounds big, but it is a positive fact.

Mr. Claude B. Crosby, of Chester, has a brother-in-law who is interested in an orchard of 118 acres in the Sandhills, and a few years ago this orchard shipped 150 carloads.

Mr. Hutt, the man we brought to Chester, was high in his praise of the land in the Lowrys neighborhood as a peach section, and stated that they could be raised there to a better advantage than even in the Sandhills. He also found other sections around here well adapted to

peaches. For instance, in the Hallsville section, but unfortunately this section is too far from the Lowrys section. Other well known authorities have since been to Chester county and also praise the Lowrys section. In fact there is a ridge from Lowrys practically all the way to York that would be fine for peach growing. Think if this section had been put to peaches twenty years ago. If it would now be worth from \$1,000 to \$2,000 an acre.

As I said in the beginning, I hope the Land boys will be successful with their orchard, then possibly others will become interested and plant. However, those who might become interested should give the matter serious thought and study. Most of the failures in the peach section have been caused by men biting off more than they could chew. It is best to plant a commercial orchard gradually unless you happen to have a large tract of land. If you haven't visited Land Brothers orchard yet, let me find out on your peaches. You will also find another nice peach orchard on the property of the Messrs. Cameron.

Let's hope that something has really been started on the ridge between Lowrys and York.

W. W. PEGRAM.

**DAINGEROUS GROUND**

It seems that the Scopes evolution trial held in Dayton, Tennessee, has aroused various sections of the country. Some representatives of the various state legislatures come out and publicly say that they will introduce bills in their respective legislatures teaching of evolution in the public schools. I vote the legislature of South Carolina will let this matter keep started on the coast. The passing of such laws will bring the church and state together and do not believe that the action will be for the best interests of the people of our state. The Constitution of the United States states that church and state shall be kept separate. The men who wrote the Constitution had personal experience with the mixing of state and church and knewing it to be detrimental to the best interests of the people saw that the two bodies were separated.

I am a great believer in local government. I believe that if the people of Chester want evolution taught in the schools they should employ a teacher who will teach it. If they do not want it taught they should not employ a teacher who teaches it and if a teacher who is teaching something the people do not want taught then he should be fired out and let it go at that.

If we people keep on mixing our religion and our schools, we are eventually going to get into trouble. History bears out this argument and we all know that human nature is pretty much the same throughout the entire world, in each civilized and uncivilized country. We are treading on the all this agitation about religion and religion is not being promoted by such religious sect after another. We folks are treading on a slippery ground if we all but knew it. We had better put our efforts forth toward leading people to God instead of arguing them. When you try to make the average man do something you usually meet with resistance.

If a man be hungry or thirsty and his children be hungry and his wife and children be hungry and his street-bred or scragal, many things which to say bring it out with him, but when a man steals an automobile I do not sympathize with him. It is not being the punishment for stealing an automobile should be so heavy that the man who does so once would never be heard of again if he caught, he would have a term of years to serve before him. Long years ago the stealing of horses in this country was a meritorious light job. Sentences failed to stop the horse thief and many citizens had trouble in keeping themselves or horses. Finally the public became aroused and when the horse thief was caught he was tied to the horse with one end of a rope hanging around the limb of a tree. The horse was driven out from under him with the rope still tied to the tree, or else the jail sentences were of such length that by the time they got out he was too old to ride a horse. As a result of this, horse stealing almost became a thing of the past. If we were to treat the automobile thief like the horse thief, he would be treated so that he would not be able to leave our almost anywhere without fear of their rolling away.

**HOW LONG WILL IT LAST?**

I have asked many men the above question about the land boom in Florida and now have a few answers to give me a positive answer. All seem to be agreed that there is a limit but they do not know when the limit will be reached. It might go on for several years but it must soon stop. There is such a thing as buying and selling a piece of property and every time it is sold money is made but finally that piece of property will reach the point where every one is afraid to purchase it and finally it will be sold for less than it cost. If this piece of property would pay a dividend of the investment you could go on but otherwise it is bound to stop at some point.

We folks here in Chester could get "worked up" and begin to buy and sell, and since a lot of property on paper had enormous times making money on paper for possibly several months, but finally we would get this "work" up to a figure, and then all begin to get scared that if we

bought we could not get rid of it. Then things would slow down and when the paper began to come down there would be something doing in the old home town. So that is the way I look at Florida. . . . Of course, there is no doubt that millions will be made in Florida for some time yet. Folks are coming there from far and wide and they are jumping right in the game but one of these days somebody is going to lay hand on this hand which he was expecting to reach at a certain point and unable to find a buyer.

Esquire John L. McClain said that if you wanted to make money in Florida you would have to take your money there and go crazy, and I believe he is about right along that line.

W. W. PEGRAM

**Before Fall Rains**

Now is the time to look after your roofs and make the necessary repairs before the Fall rains start. Let us quote you on the needed supplies.

**PEACHES**

Elberta Peaches in small or large quantities. Faultless peaches at low prices. Write for catalogue. A bushel or more should call phone 508, or peaches can be secured at farm near Lowry. Good for canning or eating.

**LAND BROTHERS**

Meeting at Havelville, A. R. P. Church Tuesday of this week through Sabbath. The preacher: Rev. E. A. Lammus, D. D. House was away and will be in on Saturday, 11 a. m., 8:15 p. m. Exterribly invited.

is resolved to the interest fund the sum of \$16,607, being 4 per cent interest paid by the twelve York county banks—July 1, 1926, for use of the road money, until the permanent road commission is passing and putting.

That leaves \$35,048 to be raised and it looks like it must be raised by a levy on the taxpayers. Taxes are actually paid each year on about \$12,000 worth of property in York county. To raise \$50,648 it will require a levy of 4.25 mills of thereabouts, instead of the 1.25 mills that is being talked about in its statement of services rendered at the close of the general assembly.

The delegation had calculated, it is said, that some aid would be received from the state highway commission, but that \$10,000 would be added to the interest fund thereby keeping the county levy for road bonds down to two mills. But the road commission is divided and apparently can't get across on road routes. The state highway department does not seem to have any money to loan necessary to pay interest on the million dollar hard surface road bond issue down to two mills. It looks like we have a big job on their hands. The delegation, it will be recalled, published a statement in The Yorkville Herald, after the close of the last legislative session, in which they did a little ingenuity about being able to keep the various departments of county government up to standard without any increase in taxes. They said that all sorts of things, in their statement, stated that the levy to take care of the interest on hard surface road bonds this year would be only two mills.

It doesn't look that way just now. The delegation is today doing considerable traveling and touring, and negotiating about. Admittedly, they are in a rather uncomfortable position. It looks like it is going to take a year or ground four and one-half mills or more to pay this year's freight interest on the bonded two, and the gentlemen may explain that to the dear voters from a dozen stanzas of summer verse.

Here's the rub: Interest on the road bonds that must be paid each half year is \$23,750. This year it is necessary in all probability to provide for the interest period which falls due July 1, 1926.

In addition one serial bond of the value of \$1,000 must be retired January 1, 1926. The total to be raised is \$72,250.

TEXTILE NEWS

Clinton, S. C. — The Lydia Cotton Mills will probably install 100 automatic dobbie looms.

Fort Mills, S. C. — It is reported that the Fort Mill Manufacturing Company may erect a large bleacher at its mill here.

Griffin, Ga. — The Chamber of Commerce is working on a proposition to have a new mill built here. Transon, N. C. — The Transon Mills will install a wet finishing shed.

Ballou, N. C. — The additional machinery to be added to the Ballou four mills will include 5,000 spindles and 100 Hopdale high speed automatic looms, 12 crans and other equipment.

Greenville, S. C. — The American Spinning Company will close down six of its mills on July 15 and the other on August 1 and will start up on August 26.

Ellenboro, N. C. — A movement is on foot among the business men here to establish a yarn mill. W. H. Bell, of Charlotte, is interested, and John Landon, formerly of the Henric Mills, is expected to take an active part in organizing the company.

Emery, N. C. — The Corbitt Mills have purchased from the Corbitt-Chalmers Manufacturing Company forty individual spinning frames and Atlas Chalmers texsizing drives to change over spinning frames from the belt drive.

Midson, N. C. — The Penn Handkerchief Company, manufacturers of handkerchiefs, has been incorporated in the Southern, Penn, Madison, the capital stock being \$125,000.

Hocky Mount, N. C. — The Gumbeget Mill, capital \$100,000, has been incorporated by J. R. Rose, P. C. Gosport and D. N. Brewer, all of Hocky Mount.

King Mountain, N. C. — The Dixie Cotton Mills have awarded to Parks-Cramer Company a contract for the installation of a Park Spray humidifier system, including a new type of head, complete with regulation. This equipment is to be installed in the next weaving mill, which is now being erected.

Greenville, S. C. — The addition to the plant of the Southern Franklin Process Company will be completed within ten days of the completion of the B. S. Phelan plant, superintendent of the latter plant, which is a branch of the Franklin Process Company, of Providence, R. I.

The addition, which will consist of a basement and two floors, will practically double the winding capacity of the plant. The building will be used for storage purposes, the first floor for drying activities, and the third floor for winding.

The addition agreement will require an expenditure of about \$40,000. Machinery is now being installed, and it is thought the addition will be ready for operation soon after the outside work is completed.

Mr. Holly, N. C. — At a special meeting of the directors of the Holly Spinning Company, it was decided to install a dyeing system in connection with their main mill.

Galaxia, N. C. — The Galaxia Weaving Company, which was organized here some time ago, has begun operations in the town of Galaxia, formerly occupied by the Galaxia Cotton Manufacturing Company. The company plans to build a mill building late in the year.

Machinery is being installed for the manufacture of woven labels for shirts, underwear, caps and similar goods. The label fabric is woven from 2-ply 160s yarns made from Egyptian cotton, the yarns being imported from Nottingham, Eng. — A cost of \$1.00 per pound.

F. F. Musser, of Philadelphia, is local manager of the plant, which is owned by New York stockholders. A stock company has been appointed superintendent of the new Orin Mill, Shelby, N. C.

J. B. Brooks has resigned as senior hand at the Wade Manufacturing Company, Wadesboro, N. C. T. B. New has been promoted from second hand to oversee spinning at the Pickett Mills, High Point, N. C.

J. C. Tutman has resigned as master mechanic at the Erwin Mill, No. 3, Colesburg, N. C. J. H. Cook has been promoted to master mechanic at the Erwin Mill, No. 3, Colesburg, N. C.

M. D. Lawson has resigned as superintendent of the Rhyne Anderson Mills, Troy, N. C. L. L. Blackwelder has resigned as section hand in spinning at the Wade Manufacturing Company, Wadesboro, N. C.

I. S. Robinson, from Cocharan, Ga., is now superintendent of the Home Company, Spindale, N. C. A. A. Brannon, from Lowville, Ala., is now over at Stonecutter Mills, Spindale, N. C.

L. P. Presley, from Belmont, N. C., is now master mechanic at the Erwin Mill, No. 3, Colesburg, N. C. H. Parker, formerly of the Kilburn Mill, Fall River, Mass., is now working in an advisory capacity at the Nelson Mill, Lenoir, N. C.

Zack L. Underwood, from the Allen Mills, Blaine, N. C., has been

come section man in spinning at the Tomona Mills, Pomona, N. C. W. Y. Carter has been promoted from second hand to oversee spinning at the Pickett Cotton Mills, High Point, N. C.

Chas. R. Caldwell, has resigned his position as cotton buyer for the Industrial Cotton Mills, Rock Hill, S. C.

H. C. Long, Jr., has resigned as treasurer and general manager of the Rhyne Anderson Mills, Troy, N. C. in order to enter the spot cotton business.

Col. Leroy Springs, of the Springs group of Mills, sailed recently for an extended tour of Europe. S. C. head of the Lenoir group of Mills, sailed recently for an extended tour of Europe.

Mr. Holly, N. C., to become superintendent and treasurer of the Rhyne Anderson Mills, Troy, N. C. A. A. Tobey, general superintendent of the Morven Mills, East Durham, N. C., died at his home in Raleigh, N. C., on July 10.

Mr. Tobey was widely known as a mill man and had been superintendent of several Southern plants. He was superintendent of the Langley Mills, Langley, S. C., before going to the Morven Mills.

A Luxury Today is a Necessity Tomorrow. By Wickes Wamboldt. A man who owed a balance of \$10 for a year, called his lawyer to get payment by explaining that if he had settled his account he wouldn't have had gasoline for his car.

Twenty years ago that man's ownership of an automobile would have been considered a mark of wealth. It would have branded him as a spendthrift, to whom no credit should be extended.

Today most folks who feel that the luxury of today becomes the necessity of tomorrow. Twenty years ago the auto was a luxury — an extravagant luxury. Today most folks who feel that

luxury of today becomes the necessity of tomorrow. Twenty years ago the auto was a luxury — an extravagant luxury. Today most folks who feel that

thought it cheap because it consisted of a steep hill and a big gully. But he said to the hill, "Be thou removed and cast into that gully!" and he put some steam shovels to work and it was done. Then he sold some choice building sites and adjacent land to the railroad for 500 percent on his investment.

The person with faith is invincible. Now, for instance, if you were a young woman who had married a selfish, no-account man just because he was good looking, and found yourself deserted, except for his suit and hat, and went to work on a commission basis for a undue concern and then after you had worked two weeks the crooked owners back and out after your commissions, and then that night the place where you were living burnt down, and you escaped with only your life and a ragged night dress, and then your husband decided it

was about time for him to skip and he skipped, you would feel pretty glum, wouldn't you?

Well, that was one young woman's fix. But she borrowed a funny little old flat black hat and a rusty black dress and a pair of rough shoes and a few other things from some kindly person, and she started out to find a living.

I took a lot of faith for one to go after anything but a good woman's job with clothes like those. But she went into the high places. And she had so much faith that she communicated some of it to the manager of a large company. She advanced her salary to buy something like that. And she went to work for them. And she made good, too.

There is much said about faith these days, but it is also emphasized that the Lord helps him who helps himself.

ATE TOO FAST

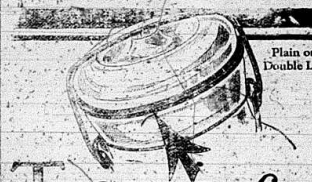

South Carolina Took Black-Draught For Indigestion, and Says He Could Soon Eat Anything.

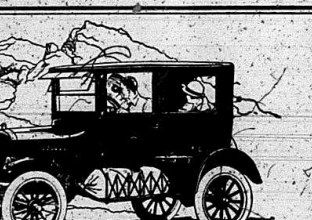

Ballentine, S. C. — Mr. W. B. Ballentine, of this place, gave the following account of his use of Theodor's Black-Draught. "Just after I married I had indigestion. Worried out, I got in the habit of eating fast, for which I soon paid by having a tight, bloated feeling after meals. This made me very uncomfortable. I would feel tight and heavy, didn't sleep like workmen. I was told it was indigestion. Some one recommended Black-Draught, and I took it after meals. I soon could eat anything again. I was told it was indigestion. Some one recommended Black-Draught, and I took it after meals. I soon could eat anything again. I was told it was indigestion. Some one recommended Black-Draught, and I took it after meals. I soon could eat anything again."

"I use it for colds and biliousness. It makes me feel better and carry away any liver muddle I have ever found. Getting too fast, too much, or eating anything of your food often causes discomfort after meals. A little of Black-Draught, taken down with a swallow of water, will bring prompt relief. Bloating, constipation, vertigo, head and other common symptoms of indigestion have disappeared after Black-Draught has been taken several days." N-1514
