CLOSED MINDS

In times past out of the let some one propose that the bell was rung, and there was a call to the public. The proposal was immediately opposed by almost every one present. The proposal was then withdrawn and something else was proposed and this process was repeated. This is the method of opposition. Those who are closed to all but a small range of adaptations. Most minds are closed to all but a small range of adaptations. This is the lesson of all history.

Genius, on the other hand, is no more than open-mindness. As soon as the mind is opened, it is simply another name for this condition. Nature has no place in her scheme for the closed mind. Possibly the boll weevil is aaioutside influence that must be snuffed out. It is pitiless, perhaps, but it is possibly true. Nature has no place in her scheme for the closed mind.

The habitual attitude of most human beings is resistance to change. That is why no industry has ever been revolutionized from the inside. There are few exceptions. The suggestion is immediately opposed by almost everyone. There is a flood of reasons why it cannot possibly be done. The verdict of the coroner's jury is suicide.

The suggestion is immediately opposed by almost everyone. There is a flood of reasons why it cannot possibly be done. The verdict of the coroner's jury is suicide.

Another little trouble with the country is that too many people think happiness is always quoted from Detroit.

Regarding with a degree of suspicion the fellow who looks us up to do something for us.

Astronomers have discovered that the moon is traveling faster than formerly. She has to in order to keep up with this hustling old earth.

That the only cure for unemployment is employment may not sound like a very profound observation, but it falls more gently upon the ears of many than to say the only cure for unemployment is work.

RUB-MY-TISM
Will cure Rheumatism, Neuralgia, Gout, Sciatica, Neuralgia.

FORD CAR DUMPS NEAR CEMETERY

RECORD NEXT TO CEMETERY

Ford, Aug. 11.—John Gilmore, a colored, narrowly escaped death yesterday as he came coasting down the hill by the Reaford cemetery and lost control of his Ford. Travelers passing shortly afterwards saw a Ford's four wheels bailing around skyward and the body repossession upon the bottom of a deep ravine, and, wondering the cause, got out and lifted the Ford up and took a peep underneath only to be accosted by John Gilmore: "Ola heah Ford sho musta knowed whuh...

A new rotary spray pump weighing but 69 pounds is expected to revolutionise orchard spraying. It is declared that the machine, running at normal speed, can deliver from 300 to 600 pounds of pressure and will distribute from 20 to 36 gallons of material a minute.

Sometimes an opportunity comes in and drags a man out of bed, but not very often.

S. H. McLean,
A Tonic
For Women
"I was faintly able to and I was so weakened." wrote Mrs. W. P. Barts, of Greenville, S. C. "The doctor treated me about two months, but I didn't get any better. I had a large family and felt I surely must do something to enable me to take care of my little ones. I bad...

"If at First You Don't Succeed, Try, Try Again" is a mighty appropriate motto for us, for we've undoubtedly had our "ups and downs" during the recent business depression of our country. And, at one time, we believed the Boll Weevil had us. But we've arranged to take care of our debts (and more especially our Debtors), and I am particularly pleased to be able now to say to my valued patrons and friends that I am back in business At the Same Old Stand.

District Passenger Agent
Columbia, S. C.

"Across the Continent On FIRESTONE TIRES"

McCoy Correll and Robert Davidson, of Chester, Henry Massey, of Winterville, N. C., and John Pate, of Elizabeth City, Miss., have returned from their automobile trip across the continent to California.

The trip was made in a Ford, four FIRESTONE tires being used on the entire route without a single blow-out. The tires are still on the car and apparently are good for from three to five thousand miles yet. The distance covered was about 8,000 miles. Some of the roads encountered on the trip were good, some of them were bad, and some of them were very bad and very rocky.

Why speculate in buying automobile tires when you can get FIRESTONE tires from us.
COOL DRESSES FOR SUMMER WEAR

We have on display a wonderful selection of Cool Summer Dresses in Organza, Voiles, Ratines, Gingham and Castle Crepe. These dresses are marked very low for quick selling.

SPORTS PUMPS

2 pairs for $3.00 and without we are selling:

Sport pump...$3.00

We have a complete stock of white pumps and refresh from:

$3.00 to $7.00

No extra charge for your summer wearing.

The S. M. Jones Comp'y

M. B. H. Williams, president of the S. M. Jones Company, took the floor at an open meeting of the insurance company, Thursday afternoon, May 27, at 2:00 o'clock, Mr. Williams being in charge of the meeting. The president was very energetic and eloquent in his presentation of the company's work. He said he was very satisfied with the company's security, and he gave the company's prospects a very favorable vote.

It Takes Money

It takes money to operate a printing plant. It takes money to operate a newspaper. It takes money to operate any business—even a Ford garage or a music store.

Politics is our business. We must have publishers to do business and when we do printing we must make money to keep the business alive. The business must make money. It is a fact that the demand of the public is the money that we have to meet. Money is the lifeblood of our business. Money is our lifeblood.

The New York is the largest daily newspaper in the world. We have the money to keep it running. We have the money to keep it going. We have the money to keep it alive. Money is our lifeblood. Money is our bread and butter. Money is our lifeblood. Money is our lifeblood.
