Baron Rothschild, the famous Parisian Banker, in refusing a loan to a friend, said: "I won’t lend you the money, but I will let you walk arm in arm with me across the floor of the stock exchange. That will get you all the credit you need."

And it did.

LOCAL AND PERSONAL

Ladies, Don't Forget the Westinghouse Electric Ranges and the Westinghouse Automatic House Furnaces. They are being sold at surprising New Low Prices. Mrs. A. E. Shaw, of Chester, recently procured 40 Westinghouse Ranges and 20 House Furnaces at a price which amazed her. She says: "The Westinghouse Ranges and House Furnaces are much more than a stove and a furnace. They are, in fact, an entire system of household economy. Westinghouse Electric Ranges open the way to partake of the things which women enjoy and at the same time meet the demands of the most important household tasks that face you in your home. Your pride in your cooking can be indulged in and at the same time the shortage in fuel supply, and what is more important, the Automatic range permits the use, for recreation and for educational affairs, of hours once spent over a hot, stuffy coal or gas stove. Then, too, the kitchen can be made into a well-lit and well-proportioned room, the extent of which will depend only on your own taste and of course, your budget." The New Price Sets It Apart From Competition

The Cleveland holds a distinctive place among light cars by the constant, better service it renders to its owners. On city boulevards or country roads, the Cleveland performs as few cars perform. Its highly refined overhead-valve motor, found under the hood of no other car, is alive with power that smiles at long hills and welcomes a request for speed. Power, too, that throttles down to a creeping pace in crowded traffic and answers to the first touch of the throttle to "get away!"

FAQ: Would you recommend it to your friends, family, or for everyday use? Yes, it is highly recommended for both city and country use. It provides a smooth ride and is quite dependable.
