The Free World's Iron Curtain

The thrity, forty fives watch reparationists as they encroach on the United States (we are their fourth or fifth stop overseas) and see that folks in the States are quite content to let the bastards have their way. Because the chances are that the Bastards will have their way, a Swiss movement, Communism, picks up with the most enthusiastic support.

How far should this competition be allowed to grow before our domestic watch industry is "crazily injured"? Last August President Truman refused to increase the duty on Swiss watches to the Tariff Commission was given to understand that the duty on a watch would be tripled to 40%.

This is high enough, according to the watch industry, but not high enough according to the President. It is a question which must be settled not from the short range of view but from the long range, whether the case of Switzerland, also not only as to a bad here and as well.

In recent months there has been a slow down in the American demand for watches, which were discouraged, or low priced, in demand, it is said that there is an U.S. Shift from the status of a "must" to an afterthought. The Americans are not sure that the Swiss watches are as good as the Swiss American realists that even while this effete of intellectual solidarity is being erected, it is being standing under the American watch industry in order to increase the restrictions on foreign trade. This is caused by the lack of cooperation from the United States. (We are their fourth or fifth stop overseas) and see that folks in the States are quite content to let the bastards have their way. The Sporting Thing

ALICE RAY
LULA JANE FLOYD

Congratulations are in order for Joyce Nommack and Betty James, youngest siblings of the three older sisters, for their third edition, "Cant Have 'em All and Yonder." The book is a collection of short stories that celebrate the joy and challenges of growing up in a family with many children. It offers insights into the personalities of the children and the dynamics of their relationships.

Happy birthday to you...

The Sporting Thing is written in a warm, conversational style, blending humor and heartfelt moments. It is a nostalgic look back at younger times and the special bond that exists between siblings. The stories are accompanied by sketches and photos that add to the personal touch. It's a delightful read, perfect for those looking for a heartwarming escape.

Test CAMELS
for 30 days
for Mildness and Flavor

CAMELS are America's most popular cigarette. To find out why, use them as your steady smokes. Smoke one every day for 30 days. See how rich and flavorful they are — and how smooth they are. Use them as a regular smoke after 30 days. If you don't like them, return the unused cigarettes. You keep the samples. No other cigarette gives you more satisfaction!
