There is also to be counted the labor the ore into iron and steel; ultimately a better industrial condition which may, in my opinion, be the manufacturing of coke, to turn equipment work. This would directly assist the Agricultural situation may be able to go ahead with the lumber, mining and steel products of the middle west, of the failure in duty.

Who’s Your Friend?

Baron Rothschild, the famous Parisian Banker, in refusing a loan to a friend, said: "I won’t lend you the money, but I will let you walk arm in arm with me across the floor of the Exchange, that will get you all the credit you need."

And it did.

Association is everything in life.

A WORD OF WARNING
Dr. Warren F. Kuntz, the celebrated surgeon, when called upon to operate upon the back of a patient suffering from a serious disease, is wont to say, 'If I do it you will be better, but if I don't you won't be worse.'

N. Y. H. W.

The many friends at Miss Marion Moss who underwent an operation at the Chester Sanatorium are glad to know she was better.

The Index

Every city is judged by its utilities. A high standard of street and domestic lighting, reliable power and good street railway transportation services make more impression upon the stranger and home seeker than spoken words can possibly make.

Where any of those services are not efficient, experience warns the reader that some influence is at work there which lessens the desirability of that community as a place of residence and occupation; a good place not to invest money; a good place to stay away from. The stranger appreciates that it is unwise for any other business to encourage to do business in a community that has its reputation to defray the fact that it is prosperous.

With the exception of gas, all of the utility services-electric lights and power, electric transportation and the telephone and telegraph—have been handled by independent American companies. In this country there has been the greatest progress in their development. American public services are the envy of the world.

Although the public services have come into general usage within the lifetime of the man still in his forties, they have become everyday necessities of modern life.

The very latest styles and they are priced reasonably. Come in and look them over.

The most important BMHP that can be conveyed to the people of this nation today is: "Get the thrift habit." Practice thrift not for a brief interval or intermittently, but habitually.

"The secret of success in life lies to be ready when your opportunity comes." This brief sentence furnishes one of the best reasons for practicing thrift that ever has been given, presents a phase of the question to which not enough attention is paid. Ordinarily thrift is looked upon as a means of safeguarding one against the vicissitudes of life, but its true importance lies in its ability to enable one to make the most of his opportunities. The time to begin the cultivation of thrift habits is now.
