TUESDAY, OCTOBER 5.

"Greater Columbia," including the suburbs of South Carolina's capital, has a population of 11,000, according to the United States census figures just announced. The population of the city within its incorporated limits is 37,224. The suburbs just across the Congaree river from the suburbs in Lexington county, swell the number to 51,930. One of the suburbs in Lexington county, just across the Congaree river from the city. This is just as much a part of Columbia, commercially, as any one of its suburbs. The population of Richland county is 78,122.

NOTICE — CROSBY-SIMPSON WAREHOUSE COMPANY.

Inasmuch as the Crosby-Simpson Warehouse Company is going to discontinue business as cotton warehousemen, all parties holding warehouse receipts for cotton stored by said company are hereby requested and required to present their warehouse certificates for cotton stored within thirty (30) days from date hereof, so that certificates of the Chester County Farmers' Warehouse Company may be exchanged for the certificates of this company; this company having arranged with said Warehouse Company to store the undelivered cotton of its former customers and patrons. All parties indebted to this company for storage of cotton are hereby urgently requested to settle their indebtedness to this company forthwith, so that the business of this company may be wound up and liquidated.

YOUNG WOMAN TRIES TO END HER LIFE BY TAKING DEADLY POISON.

Union, Oct. 4. — A near tragedy was enacted in the West section of this city when a very pretty young woman about 33 years old tried to end her life by taking a very potent narcotic which is used to remove corns and which is composed of 370 drops of ether and 71 drops of cyanide.

The young woman was from Western North Carolina and came to Union a month or six weeks ago to work in one of the mills here. According to rumor, when her husband appeared on the scene she took the poison for he is quoted as expressing to the physician who attended her that she "would rather die than go back with my husband."

When it was found that the woman had taken the deadly mixture a physician was summoned and it was after about four hours of hard work that her life was saved.

The husband is said to have looked to be about 26 years old and came from a lumber camp. He returned to his home Saturday morning unaccompanied.

Trouble Sure Enough.
Doris refused to her mother one day in a most excited manner.
"Oh, mother, we've been playing postman and we gave every lady on our block a letter."
"But, dear, where did you get the letters?"
"Why we found them in your trunk in the garret all tied up with pink ribbon."

5,000 COWS FOR GERMANY.

Berlin Officially Announces to Accept American Offer.
Berlin, Sept. 16. — The German Department of Agriculture and the German Red Cross are repeating to Americans who have offered to send 5,000 cows to Germany to obtain car space in vessels to send the cattle across the Atlantic. The latter official maritime board announced that it was unable to supply the tonnage requested.

The department of agriculture has sent an expert to the United States to find the ships needed to bring the cows to Germany. The German Red Cross has been trying to smooth away the difficulties here and obtain permission to receive the much desired animals. These objections are due to confusion and inspection of the cattle when they arrive.

The Red Cross officials estimate that the ocean freight charges will average \$50 a head.

While no restrictions are placed upon the breed of cattle desired, it is pointed out that Holsteins more readily acclimate themselves, as that is the predominant breed in Germany.

MARSHALL RESIGNS OFFICE ASSISTANT ADJUTANT GENERAL.

Columbia, Oct. 2. — Major P. G. Marshall, Assistant Adjutant General, today announced his resignation to take effect October 14th. As yet Governor Cooper has not named a successor.

Major Marshall served as captain in the world war and will be stationed at Camp Jackson. He is the youngest man to serve as assistant adjutant general of the State.

The wise man tries to keep the friends he has rather than making an effort to make new ones.

HIGHWAY COMMISSION TAKES OVER PART OF YORK ROADS.

York, Oct. 2. — York county road authorities have completed arrangements for the taking over and maintenance of a small mileage of York roads by the State highway department. This arrangement, it is believed, will result in some permanent improvements on several of the most traveled highways in the county.

Decision has been reached to use the two mill levy on the York-Chester road over a distance of six and three-tenths miles with an expenditure of \$6,500. The same distance on the road from York to the North Carolina line. The department previously took over four miles of road between York and Rock Hill and four miles between Rock Hill and Fort Mill, three miles of the latter being of concrete and one mile of macadam.

Misses Nellie Simpson and Louise Peay, of Wintrop College, spent the week-end in Chester at their homes.

The various churches of Chester joined in a farewell service at Purty Presbyterian church Sunday evening to Rev. J. M. Bennett, who has accepted a call to the St. Andrew's church at Wilmington, N. C. Rev. L. M. C. White, chairman of the Chester Ministerial Association presided over the services. A large number of people attended the service, the church being crowded to capacity.

OPPOSE ANNEXATION.

Numerous voters and property owners of a section of Rowville township, Chester county, have filed with Governor Cooper a protest against the annexation of the section in which they live to York county. Some time ago voters of a part of Chester county filed a petition with Governor Cooper asking that he order an election to decide whether or not this area should be annexed to York county. The protest filed yesterday with the governor is from voters living in a part of the area involved. The protest is against the annexation to York, the part of Chester county in Rowville township between Fishing Creek and the Catawba river. Commissioners of election in the matter were appointed some time ago by Governor Cooper, but they have not yet submitted their report and hence no date for an election has been fixed by the governor. —The State, Friday.

Mr. and Mrs. W. E. Yandell, of Rock Hill, spent Sunday in Chester with relatives.

The following dispatch was sent from Atlanta, Ga., yesterday: A dispatch in the price of cement from \$7.50 a barrel to \$5 a barrel was announced here tonight by a large supply company. The \$5 quotation applies to carload lots of 5,000 barrels and with the rebate on sacks returned makes the net cost \$4 a barrel.

Mr. E. T. Anderson, of Columbia, spent the week-end in the city with his parents, Mr. and Mrs. J. A. Jenkins. Mr. Anderson left Sunday night for Charleston where he will locate, holding a responsible position in Dr. Parker's Laboratory.

John F. Kell, a carpenter, who was working on the factory of the Rock Hill Fertilizer Company, had the misfortune to lose his balance and get tripped in some way while working on the building one day last week and fell from same, injuring himself so badly that he died Saturday night. He was taken to the Fennell Dispensary, but it was found impossible to save his life, as he was so badly injured. His remains were taken to Sharon this afternoon for burial, he having been a former resident of that section. He is survived by his wife and one son. He was about 41 years of age. He was said to have been a splendid citizen and had only moved here during the past year, having built himself a home north of Wintrop College. —Rock Hill Record.

Beginning next Monday night, union prayer services will be held every night during the week, alternating at the different churches in the city. Committees from the various churches have been appointed to arrange the details in connection with the holding of the union prayer services.

The News is in receipt of a dispatch from San Francisco, dated September 28th, which states that Miss Lulla B. Simpson sailed on that date on the China Mail liner Nanking en route from her home in Chester for China, where she will engage in missionary work. According to the Bureau sponsored by the North Carolina State Board of Health, in proportion to population, ranks first in the number of missionaries sent to foreign countries. There were 250 missionaries on the Nanking and nearly one-half of these were missionaries.

"Greater Chester," a monthly bulletin gotten out by the Chester Chamber of Commerce, has made its appearance for the month of October, and on the front page carries a picture of the proposed station which will be erected in Chester by the Seaboard Air Line Railway, which will be a duplicate of the station at Mountain View. The picture would indicate that the station to be erected in Chester will be a very creditable one.

Mr. C. O. Hill, who has been elected to the local Southern freight office in Chester for the past seven years, has resigned to accept a similar position with the Southern at Hickory, N. C. We understand Mr. Hill expects to resign at an early date but his successor has not yet been named.

The football game between Chester and Lancaster, played on the College street grounds last Friday afternoon, was an easy task for the Chester team, the score being 34 to 0 in favor of Chester. It must be admitted that Chester has a good team but it also admitted that if they go on against anything, with time as they are going to have to play better ball than they did Friday. No doubt the boys to play better ball but they would do well to tighten up in a number of places in order to combat anything like a real team.

The election, planned from the 1920 census by the Bureau of Census, announced yesterday. To the same date last year the change was 178,000.

The services last evening in the First Presbyterian church were greatly enjoyed and a very good congregation was present. The sermon was preached by Rev. F. Ray Riddle, of Lowville, his subject being "Love." The music was especially good, the choir being led by Miss Lucille Randle, of the Withersport musical faculty. Features of the program were a double mixed quartet, "Nearer My God to Thee," and a selection by the male quartet, "Two Yr. Sins Be As Scarlet." — Rock Hill Herald.

Lost: One green silk card case, containing \$3.20 between White's Pharmacy and Hall's barber shop. Please return to The News office.

A contract has been awarded by the Baldwin Mill, of Chester, to E. A. Proctor, of Greenville, for the erection of a Baptist church, which will cost about \$40,000. The new church will be modern in every detail and will have a seating capacity of between five and six hundred. In addition to the main auditorium the building will have a dorm or more Sunday school rooms, with the building of improved streets, water works and sewerage, schools, churches, etc., within a few months the Baldwin Mill village will be one of the most up-to-date and modern in the South and will be one of Chester's greatest assets.

Mr. E. H. Smith is visiting relatives in Texas. Yesterday a total cotton production of 12,125,000 bales was forecast by the department of agriculture, for this year, the estimate being based on the condition of 39.1 per cent on September 25th. The South Carolina yield is estimated at 1,265,000.

Mr. T. C. Weatherly, who has been managing the Chester office of the Pinks Realty & Auction Company, since opening in Chester, has resigned to accept a similar position with another concern at Sanford, N. C.

The general election, in which election the women of this State will be given their first opportunity to vote, will be held on Tuesday, November 2nd. In order to be able to vote in the general election a voter must present his or her registration certificate, and receipts showing that all taxes, including poll tax, if assessed, has been paid. It has been ruled that the women will not have to present a poll tax receipt at the election since no poll tax has been assessed against them. In other words, those who have no taxes assessed against them are not required to present tax receipts but some are excused from presenting their registration certificates. Any one who has lost his tax receipts may secure a duplicate by calling upon the county treasurer, which should be done before the day of election in order to avoid any trouble on that day.

The County Board at its meeting yesterday, elected the following county officers for the coming year: J. E. Orr, superintendent county farm, salary \$125 per month; C. O. Moore, superintendent of chain gang, salary \$125 per month; R. L. Douglas, county attorney, salary \$150 per year, with 75 cents per day magistrate's court fee and fee for higher court cases to be fixed by the board. There were no applicants for the position of county physician.

TRUTH IS STRANGER THAN FICTION!

"Overbuying on Credit" has made its broad black mark across the eventful pages of the world's history from the dim archives of time, down to the marvelous and magnificent splendor of the present. Purchasing on Credit is a powerful check upon extravagance, and its influence in lowering prices cannot be disputed. It has been fully demonstrated to the most skeptical that there is not one particle of a chance on the "Lodge Plan." It might have been so in the days of Nero and Julius Caesar, but certainly not now. Credit, has split, splintered and shivered agricultural and mercantile America. It has led to a thousand bankruptcies. Credit is the obstruction that paralyzes the finest efforts of agricultural and commercial enterprise and builds the only remedy that will save the unfortunate from annihilation. Year after year, and generation after generation, those frightful tallies have burned themselves into the brains of the present age until "Success" demands a revolution, overthrowing the dead ideas of a dead race, and printing upon the face of the future age just before us that sterling, solid word that Livy, Virgil, Cicero, and Plato, that Aristotle, of the English language, speak for the eye of the high, low, middle, the over-care, the old blind stock and the credit system has gone. Over the blessed bones of these barbaric relics science has swept, and left the touch of

BUY AT HOME.

The South Carolina Development Board is starting a "buy at home" campaign to ask South Carolinians to buy agricultural products grown in South Carolina and manufactured articles made in South Carolina.

"In speaking of the matter, the Board says in part: "Few people ever stop to figure up the sum total loss to themselves and their neighbors by following this practice. When they send their money to the mail order houses to leave the home state credit, the merchant, the banker, the farmer, the clerk and the home labor stand a small chance of ever seeing his money after it leaves on its long journey. "Communities, counties and states, grow and thrive just to the extent their citizens practice thrift and pride in their home industries. The South Carolina manufacturer and merchant pay their taxes to support the home government, construct and maintain public improvements and contribute to charitable causes, yet some of their neighbors insist on getting their goods at pay little or no taxes in South Carolina, but on the other hand pay out a percentage of the receipts from sales made in their state, to build up the large cities of the north, east and west. Let us patronize the business men that might deal with us."

A man is not related to a dog because he eats hot dogs.

The Henry Ford movement seems to be without a match.

Before marriage he would fight for her; after marriage he stays away from home to keep from fighting with her.

When you pick up a bee, it promptly stings you. That's the way some friends will do.

The wise man tries to keep the friends he has rather than making an effort to make new ones.

There is no danger these days in a man marrying an angel in disguise if the clocher constitutes the disguise.

When you hear a man saying the world owes him a living, tell him to get out and collect it.

With the price of Ford reduced, common labor will be hardier to get now than ever.

And now comes the information that says Chicago got fine of one dollar and that sometimes the judge will roll it off with the stinner.

There are those who when they don't like a fellow will whisper the fact to all whom they meet and then ask them not to talk to the other fellow.

Keep the streets and sidewalks of the city clean. Throw your trash in the waste baskets that have been provided for this purpose.

There is at least one time when you'd do well to put your foot into it with some degree of comfort—when he tells it into his bedroom slippers.

He thought he was pretty fine. He thought he married Sallie Bell. Now he is in an awful fix. For Sallie gives him Hell.

Will Run Ager.

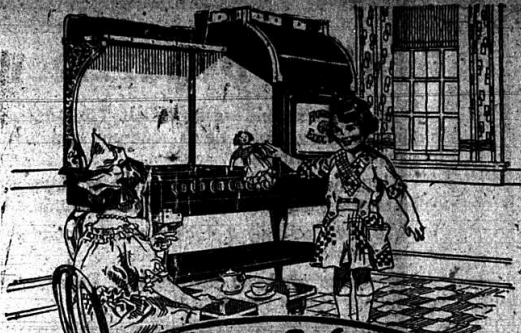

Brevinville, Oct. 4.—Thomas P. Colman, speaker of the state house of representatives since 1917, will be a candidate this year to succeed himself as presiding officer, according to formal announcement today. Other members of the Greenville delegation who are vying behind Mr. Colman's candidacy have received assurance that there is no doubt but that their colleague will be elected. George E. Meyer, of Newberry, is the only other representative yet to announce for this office.

Making Him Useful.

A lady who kept a little curly pony last year set sail on the police to find it. The next day one of the force came around with the dog, very wet and dirty. The lady was overjoyed and asked a number of silly questions—among others: "Where did you find my sweet, dear little darling?" "Why, ma'am," said the officer, "a fellow had him tied to a pole and was washing windows with him."

Two Different Views.

"What's wrong, Mrs. Hoppech, our son is supposed to be married. We will write to the dear lady and congratulate him." "Mrs. Hoppech agreed the dare not do otherwise, and his wife picked up her pen. "My darling boy," read the note, "was a glorious man. Your father and I rejoice in your happiness. It has long been our greatest wish that you should marry some good woman. A good woman is heaven's most precious gift to man. She brings out all the best in him and helps him to suppress all that is evil in him." "Then there was a postscript on different handwriting: "Your mother-in-law says you are a good man."

Stove Safety and Cleanliness

DO not fear for the safety of the children. Let them play around the range to their hearts' content, never doubting its safety and cleanliness. The safety of the HUGHES ELECTRIC RANGE has been established beyond question. It is as safe as an electric light and just as easily operated. As regards cleanliness, it is actually possible to wipe the burners with your daintiest linen handkerchief and not soil the fabric.

Come in and let us prove these statements to your satisfaction. It will not obligate you.

- PAPER PULP FROM SAW GRASS.**
- It has become automatic in the paper industry that there is no substitute for spruce wood in making paper pulp. And so they have received a great deal of surprise at the recent announcement that a satisfactory paper can be made from the saw grass of Florida, and that a practical method of production has been developed.
- Engineers connected with the enterprise say that a preliminary survey reveals that there is in Florida nearly 6,000,000 acres of saw grass. This can be harvested twice a year, yielding 60 tons of paper per acre to each cutting. "It would seem therefore that Florida might eventually furnish paper to the whole world, for it is claimed at greater or less economy can be made from the grass."
- It is not surprising, in the light of past experiments, that paper is the present paper situation should come from such a source. Fiber suitable for paper making has been produced from a number of plants, among them corn had cotton stalks. In many chief difficulties stood in the way of commercial exploitation of the spruce. The second and perhaps the most important, difficulty is that, because the material is not compact, only a small amount can be placed in the pulp "digester" at one time, making the production very expensive.
- The great objection—that of inefficient supply—at first applied even to saw grass, for although there is an enormous quantity, it grows in strong inaccessible swamp lands and cannot be harvested by ordinary methods. With the later development of a special harvesting machine, model of which has been successfully operated, this objection seems to have been eliminated. This machine is an amphibious modification of the wheel harrow that works equally well on land and water. Its cutting bar being so arranged that it can be lowered beneath the water as much as four feet, it removes 75 per cent of the saw grass, leaving a sufficient quantity of material left in the ditches. It has been removed or more can be treated at once.
- Sample runs of the paper have been made by the Bureau of Standards, and some commercial mills and these are declared to have been satisfactory.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I feel—"

GOOD STREETS

Yes, good streets help the appearance of a town and are generally admitted to be a good investment.

Good streetwork also helps the appearance of a business letter. To write a man a business letter on unprinted letter heads, the day and time is a sign of "poor business."

Let The Chester News do your next job of printing.

GROWTH

Steady financial growth brings greater happiness than sudden riches.

LEGITIMATE business looks for steady returns. The thoughtful business man forms a banking connection with an honorable, capable institution such as this bank, and avails himself of the service of its various departments.

AS MANY SEEK JOBS AS THERE ARE JOBS

New York, Sept. 4.—Special made public tonight by the employment agencies of the National Army and the Knights of Columbus indicates that jobs will soon be scarce in cities. The National Army said that in the first time in two years soldiers are being sent to their jobs in
