CAMPAIGN PROGRESS

THE FULLNESS OF OUR DAY

"When every farmer in the South shall eat bread from his own fields and meat from his own pastures and disturbed by no creditor, and enslaved by no debt, shall sit amidst his teeming gardens, and orchards, and vineyards, and dairies, and barnyards, pitching his crops in his own wisdom and growing them in independence, making cotton his clean surplus, and selling it in his own time, and in his chosen market, and not at a master's bidding—getting his pay in cash and not in a receipted mortgage—that discharges his debt, but does not restore his freedom—then shall be breaking the fullness of our day."

—Henry W. Grady, 1885

TO OFFICE PURCHASE

The American Oil Company has decided to purchase the Sumter Oil Company, located at Sumter, S. C., including all the property, including oil wells, lands, equipment, etc., on or near the property, for a consideration in the sum of $300,000. The purchase is subject to the approval of the American Oil Company's board of directors.

Marked Scarcity of Ford Cars and Trucks

The following is an extract from a telegram sent to the Charlotte Branch of the Ford Motor Company from the Detroit Factory, dated September 16th:

"Branch telegrams report extreme short stock sales for Ford cars and trucks demanded. For past week since production was slightly increased, shortages have been fairly severe for all types of Ford cars and trucks, particularly the medium types. Shortage not expected to be excessive during the remainder of the year, however, because the increased demand will be met in part by stocks at the present time and by anticipation orders for 1927."

“IN THE VALLEY”

Chester, S. C.
24½ Million Dollars
Invested by Employees
of Swift & Company

More than 21,000 employees of Swift & Company own or are paying for shares in the business. These men and women have invested their faith in the integrity and good will of the company by investing their savings in the business.

Their holdings represent a total of nearly 22,000 shares, the value per share ($100 a share) of which is more than $500,000.

These 21,000 represent more than one-third of our average number of employees.

One man of every three, in plant, office, and branch house, from the bricklayer on the floor to the brain worker at the desk, working with us as well as for us, devoting himself to his own business while devoting himself to ours; providing much interest in every motion or moment saved, in every product improved or made the subject of a premium, in every service rendered through prompt, thorough, and efficient work.

This interesting, eager group of fellow workers working with us for the betterment of both Swift & Company and the public which we serve, constitute something of the ownership of Swift & Company in point of numbers, and nearly one-sixth in point of value.

It represents practical and successful progress toward the goal set for us in the second decade of the twenty-first century.

As a result of the efforts of this group of employees, we have been able to strengthen our position in the market, improve our products, and increase our efforts for the benefit of the consumer and the farmer.
