TUESDAY, SEPTEMBER 19.

Chester is in need of more school buildings. Last year it was necessary to fix up and make class rooms out of the basements of the various schools. This year it has been found necessary to have morning and afternoon classes. If the attendance increases next year, and according to the past record we may look for 150 new pupils, where are they going to be placed?

The children of Chester must be educated. They must be provided with ample school facilities, and the only way in which to do it is to build additional school buildings. An election for the purpose of voting bonds for the erection of a new school building should be held in Chester at an early date.

WHITES RESENT BLACK INVASION

Race Riot Breaks Out in New York. Six Taken to Hospitals After Gun and Fight With Rifles and Bricks.

New York, Sept. 17.—(Bricks, razors, clubs and fists were the weapons that sent six victims to hospitals and a score of others, less seriously injured, to physicians for treatment early today as the result of a riot between whites and blacks that grew out of the invasion by negroes of a neighborhood tenanted by white families. Police reserves quelled the battle.

Three of the six seriously injured are under arrest and under police guard in hospitals. They are white men, all charged with felonious assault. They are suffering from razor cuts, stab wounds and broken

heads. A negro and two negroes also are in hospitals but have no wounds arrested. The battle occurred in West 59th street in the upper west side, where police say, trouble has been brewing for some time following invasion of the neighborhood by the blacks. Early today a party of white men is alleged to have invaded a hall where a celebration of negroes was in progress. They were ejected, and they dragged two negroes and their male escorts from a taxi cab and set upon them. This is said to have precipitated a general battle, whites and blacks flocking to the melee from all directions. Razors, knives and clubs augmented fists, while adherents of both factions stood on nearby streets and hurled into the swirling mass, bricks from chimneys. Riot calls brought several squadrons of police, who rushed the two factions into an enforced peace. Extra police tonight are patrolling the neighborhood to ward a resumption of hostilities.

FORD CLOSES PLANT

That Period of Idleness Will Be Indefinite, Only Advice at Detroit. Detroit, Sept. 16.—Henry Ford's industrial plant at Detroit, which has charges are excessive coal prices was in full swing tonight, and approximately 75,000 of his workmen in the Detroit district were ordered to lay aside their tools. In addition a score or more of small industrial concerns here dependent upon the Ford Motor company for orders were preparing to close. These employ upward of 30,000 men.

The Highland Park and River Rouge plants of the Ford Motor company, employing about 60,000 men, were deserted tonight, save for comparatively small crews that will be retained to keep coke ovens warm. Although many of them were small, the majority of the Ford workers who passed through the gates of the Highland Park plant after turning in their tools today expressed concern over the shut down. Their foremen had handed down to them advice from Mr. Ford to buy as little coal as possible and to cut their living expenses to a minimum. Many of the workers were met by wives and children eager to learn how long the heads of families would be unemployed.

STATEMENT OF THE CONDITION OF THE Commercial Bank

Located at Chester, S. C., at the close of business September 15, 1922.

LADY WAS IN A BAD FIX FROM NERVOUS INDIGESTION

Blizz, Miss—'I had, for a year or that nervous, light feeling was going, as more, nervous indigestion, or some form of stomach trouble,' says Mrs. Almonzo Ford, 1147 Clark Street, this city. 'The first I drank that day, I found it was a relief. I had a good sleep, and I felt like I could eat. I was so nervous I could not sleep. I had a good sleep, and I felt like I could eat. I was so nervous I could not sleep. I had a good sleep, and I felt like I could eat.'

COTTON SIGNED UP

Two and One-Half Million Bales in Texas. Dallas, Texas, Sept. 16.—More than two and one-half million bales of cotton have been signed into state marketing associations by 156,600 farmers in the South within the last two years, according to a review published here by L. F. McKay, director of information of the American Cotton Growers' exchange. These growers plan changes in the marketing system which will eliminate, they say, many of the evils in the present system of selling.

H. L. SCHLOSBERG IN THE VALLEY

It Takes Money. It takes money to operate a printing plant. It takes money to operate a mercantile business. In fact it takes money to operate any business—even a Ford business.

Printing is our business. We must have printing to do business and when we do printing we must make money in order to continue to do business. No business can operate long unless it makes a profit on the business done. Every sensible business man knows that and should be willing to allow the other fellow a reasonable profit.

The News has long since quit guessing at printing prices—we have the prices figured out, right ready for you when you offer the job to us, and on every job we do, a profit is figured. We are in the printing business to make money just like you are in the mercantile business to make money.

Some printers still hang on to the old style of guessing at every job of printing brought to them. John Smith brings them a job and they guess less than cost and give him a cheap job. Tom Jones brings in a job and they guess 100 per cent too high and Jones helps pay for the Smith job. That's not right. Every man should pay for his own job. That's the way The News charges for printing. It lets every fellow pay for his own job.

There is no need of your sending a job of printing out of Chester. The News can and will give you as reasonable a price on your work as any printer who does printing in a business way.

The News is a Home Establishment and every dollar you spend with us stays right in your town to help the town grow. In fact, the each year than the total spend more money in Chester each year than the total business received from Chester business houses. If it were not for "foreign business" The News would have to move its plant out of Chester. Looks funny, but the figures prove it.

Don't send your printing out of town. You might be able to get a cheaper price some where but there is no print in the country which can do printing as a whole, cheaper than The News and stay in business very long.

We not only want you to buy your printing at home but we want you to buy everything else at home. That's the way we must all do if we are to see Chester grow.

Follow the Crowd And Equip Your Car With FIRESTONE CORDS "Most Miles Per Dollar" Victory Service Station

The Character Of Your Home Plans and specifications for every building on your city lot or farm determines a great deal of the character of your home. There is also lawn, paint, arrangement—but most vital of all, the quality of lumber or building material used. "A" grade lumber insures substantial and durable building. For building materials, still leave the best of construction perishable and the owner subject to continual care and expense. Seasoned lumber which is carefully inspected upon arrival at our yard is always included in estimates we gladly make for you when you are thinking of building. No matter whether it is house, barn, alteration or repairing, we want to supply you with materials. Pine Tar Millwork Cement Windows Glass Barns Lime Doors Homes Chester Machine & Lumber Co.

Chester Must Have More School Buildings!

HALVE OUR TROUBLES.

The Charleston News and Courier has come out strongly in favor of South Carolina elections being held every four years instead of biennially, as at present. With the second primary just closed, this is an opportune and fitting time to call the

attention of the commonwealth's people to the advantages of the quadrennial system, and we wish to lend our indorsement to the agitation fostered by our contemporary in the City by the Sea.

We admit that it is impossible for us to advance one solid, substantial reason in reply. The Charleston paper continues by showing that the second election of a governor is but a matter of form, since "it is the unwritten rule in this State to re-elect a governor every two

years!" asks the News and Courier. We admit that it is impossible for us to advance one solid, substantial reason in reply. The Charleston paper continues by showing that the second election of a governor is but a matter of form, since "it is the unwritten rule in this State to re-elect a governor every two

THE LONG STAPLE PLANTING.

Last fall and winter The Gazette conducted a campaign for long staple cotton in Gaston county. As a result of this campaign 1,200 bushels of Webber strain No. 49 long staple seed, the pure variety obtainable, were planted in the county. We staked our reputation on long staple cotton, so to speak, and urged the farmers to go in for it at least a trial. This spring disappointments and discouragements galloped up and we were afraid that the cotton farmers would run us out of the county. A late spring delayed the planting. Then, along came the boll weevil, and the chances for a crop of long staple looked exceedingly slim.

However, reports from farmers the past few days, all indicate that the long staple crop is coming along fine. Most farmers who planted both long and short cotton, report that the staple variety is much the better. We wish, for instance, that every farmer in the county could see Bessemer City, route two. It is universally acclaimed the best field of cotton in that entire neighborhood. It is nearly head high, heavily fruited and opening rapidly. The contrast between it and a field of short cotton a few yards removed is so noticeable as to cause one to wonder why the short cotton was ever planted. We should like to get reports of the long staple plantings from other farmers.

The Prince of Wales was considerably out of pocket as a result of his recent extensive trip to the East even though Parliament granted certain sums for the tour.

Members of the British Expedition to Mount Everest managed to reach a record height of 27,500 feet, more than half a mile higher than man ever scaled mountain heights before.

In the United States Senate, from noon on April 20 to 2:50 p. m., on August 2 constituted but a single legislative day of 2,475 hours without opening prayers by the chaplain.
