## TECH ARGUES RADIO TOPIC AT WINTHROP

Georgia Tech Affirmative Team Meets Winthrop In Non-Decision Debate

The annual Winthrop-Georgia Tech debate was held Tuesday, April 10, in Johnson Hall. The query, "Resolved, that the United States should adopt the essential features of the British system of radio control" was argued affirmatively by Alan Pope and Stuart Mills, of Georgia Tech, and negatively by Elizabeth Glover and Billie Pruitt, of Winthrop.

The main arguments advanced by the affirmative were that the American system has many bad features, especially its poorly prepared morning programs and advertising system; that the English system has well planned programs. The central regulation of radio is the feature desired for the American system.

The negative contended that the American radio system is adequately meeting the needs of the people, and is economically sound; that the English system would be adherent to the Americans because it would tend to make our radio the tools of politicians, and to discard our present freedom of expression.

The debate was non-decision.

## WINTHROP DEBATERS MEET YALE TEAM

Anne Anderson and Susan Daniel Represent Winthrop In Debate

One of the most interesting forensic titles of the season was the Yale-Winthrop debate upon the subject: Resolved, that divorce laws should be uniform throughout the United States. Anne Anderson and Susan Daniel, representing Winthrop, met Ralph Pfozheimer and Walter Brown, of Yale, in a debate upon this subject Wednesday evening, April 4, in Johnson Hall.

In upholding the side of the affirmative the Yale debaters advanced the following arguments: Uniform divorce laws would do away with litigation; divorce, the general moral principle would be elevated; and the nation would no longer have to contend with the evils attending the "divorcements." Finally, the affirmative represented a plan for putting uniform divorce laws into effective action.

The negative debaters contended that migratory divorce would not be eliminated by uniform laws; that legal complications growing out of migratory divorce would not be eliminated by uniform laws; that uniform divorce laws would not decrease divorce and would hinder national progress; that uniform divorce laws would call for a sacrifice of principle on the part of both the liberal and the conservative states; and that public opinion does not merit the enactment of such laws.

IN BEGINNING—

As we, the new staff of The Johnsonian, begin our work, we feel that we should pause to pay tribute to the old staff which worked long and faithfully for the good of the college paper.

“Not in vain the distance beckons. Forward, forward, let us range; Let the great world spin forever down the ringing grooves of change.”

DESIRED: COOPERATION

It is with great trepidation that the new staff assumes charge of The Johnsonian. The position which this newspaper has acquired as “the official organ of the student body of Winthrop College” makes any innovation, however conservative, audacious.

Remember that the staff is no organization handing down precepts from on high; it is of and for the students, and the paper is yours. Our battle is the same; our cause, a common one: to make The Johnsonian a leader in directing student affairs. Give us your cooperation!

HAVE YOU A MEAL TICKET?

Have you got your meal ticket, yet? Professor Maginnis is asking everyone. Now anybody knows that the general professor has his jobs, but also anybody that is anybody who has ever been to Sumner School, knows that this query is not a joke.

WINTHROP Week By Week

(With Apologies to Melroyne) Diary of a Modern Peppa. Jr.: Up betimes... quite sleepy, 'tis true, but up nevertheless... A cold shower... And a nippy little walk before breakfast to rouse the old appetite.

“A lecturer says,” to quote Punch, “that William the Conqueror was a vicious and unscrupulous man. Perhaps so, but will anyone dispute who was always looking that their ancestors came over with him.”

“Always try to put yourself in the other fellow’s place,” says a clergyman. We shouldn’t advise anyone to put us in the theatre line. Or to be tragic, we might add in a Winthrop line.

During our extensive reading (in Punch), we came across this little sonnet (it really isn’t a sonnet, but we’ll let it pass for one): Walt Whitman’s Neak’s Ark

“I used to think of Noah As a rather dull old man, Who made an Ark and lived in it Because a flood began.

“I used to think of Noah As a rather dull old man, Who made an Ark and lived in it Because a flood began.

“I used to think of Noah As a rather dull old man, Who made an Ark and lived in it Because a flood began.

**DR. KINARD DISCUSSES COLLEGE ADVANTAGES**

**Talks Over WBT of Membership In Southern Association of Colleges and Schools**

Dr. James P. Kinard, broadcaster over radio station WBT at Charlotte, N. C. Sunday, April 1, discussed the advantages which Winthrop College has secured as a member of the Southern Association of Colleges and Secondary Schools and the American Association of University Women, and as a member of the approved list of the Association of American Universities.

Dr. Kinard began: "About 50 years ago, long before any talk of the New Deal, a few colleges in the Southern States set out what today would be called a 'College Code.' Its object was first to determine what constitutes a standard college, and second, to encourage and help all colleges in the South to become standard by qualifying for membership in what is now called the Southern Association of Colleges and Secondary Schools. The standards to be met deal in general with admission of students; number of departments; size of classes; equipment, especially of laboratories; library facilities; salary of professors; and revenue of the institution. This association has come to be the chief standardizing agency for colleges in the South. Winthrop College, the South Carolina College for Women, because a member of the Southern Association in 1922."

He continued, "A few years later Winthrop was placed on the approved list of the Association of American Universities. The advantage of this approval lies in the fact that graduates of Winthrop College may pursue college courses for higher degrees in any of the universities of our country, or by transfer of credits may do college work in foreign universities."

"Three years ago Winthrop was admitted into the American Association of University Women. The object of this association is to secure to women students and women teachers in colleges proper and satisfactory living and social conditions, and equal academic opportunities. Another object of this association is to encourage women to continue to study, an end accomplished by the granting of valuable scholarships and fellowships. The American Association of University Women is international in scope, and its help extends to women students and women teachers in all countries in which member colleges are found."

In conclusion, Dr. Kinard remarked: "Those of us charged with the administration of Winthrop College are gratified that the Southern Association of Colleges for Women has attained to the standing in the academic world that attaches to membership in these three associations, grateful for the opportunities for standard college training thus opened to the young women of South Carolina and other states."

Five Copies of Old Tattlers Sent to Alumnae Secretary

The Alumnae Secretary is making an effort to complete a file of Tattlers for use of the alumnae when they return. In the January-February-March issue of the Alumnae News, a request was made for old Tattlers. Since that time five copies have been received. The 1898 (first Tattler issued), 1899, and 1901 Tattlers were given by Olive Boggs Newton, class of '04. The 1916 volume was sent in by Mary Stuart Parker, class of '18. The 1919 Tattler was presented by Elizabeth Storer Hart, class of '21.

The following copies are now needed to complete the file: Volumes for 1906, 1907, 1908, 1912, 1913, 1914, 1915, 1917, 1918, 1921, 1922, 1924, 1926, and 1921. The museum needs all of these except the 1907 volume and in addition the 1898, 1899, 1932, and 1933 issues.

**Four New Alumnae Chapters Organized**

During the past few weeks there has been much activity among the Alumnae Chapters. Recently four new chapters have been organized at St. Matthews, Seaside, Marion, and Conway. Miss Lella A. Russell, Alumnae secretary, plans to go to Westminster on April 28 to arrange for the organization of a chapter there.

Cases of dual personality are very common in this country, according to Dr. Herbert Goldford, of Ohio State University.
