SAVE TIME AND LABOR

In the present age there is no excuse for a housewife to depend upon the old-style iron and stove in order to iron clothes. The old-style is slow and is very hard work.

Ironing at its best is a tiresome job and such being the case every one should have an Electric Iron in the home, even for the little jobs that come up almost daily. The cost is very small, so why do without such a convenience? a convenience?

TO KILL THE CHILL

on these cool mornings nothing can take the place of an Electric Heater. They are also ideal for the bath room-no dan-

ger of exploding; no smoke; no ashes.

We carry them in various sizes and prices and will be glad to show them to you.
