Law and Order to Athens.

The person in Athens, Georgia, who is the author of the law that the state is to enact is coming to these states to attend the session of the Legislature. He is a man of great respectability and integrity, and it is believed that he will not be influenced by the political parties of the state. The law will be a good one, and it is expected that it will be passed.

The law will provide for the establishment of a bank in Athens, Georgia, and for the issuance of bank certificates, which shall be legal tender in payment of debts and taxes. It will also provide for the establishment of a state bank in Athens, which shall be directed by a board of directors, appointed by the Governor, and shall have a capital stock of one million dollars. The bank shall have power to lend money on mortgage, and to issue bank certificates for the purchase of goods and services.

The law will be a great improvement in the financial condition of Athens, and will be a great benefit to the people of the state. It will also be a great benefit to the state itself, as it will provide a means of funding the state debt, and will be a great source of revenue to the state.

There is no doubt that the law will be voted for by a large majority of the legislature, and it is expected that it will be passed without much difficulty. It will be a great benefit to the people of Athens, and will be a great benefit to the state as a whole. It is expected that the people of Athens will take a great interest in the law, and will support it in every way possible.
