CATTLE INDUSTRIES GROWING.

Farmers of Chester county are beginning to give more thought and attention to cattle raising every day. They recognize that this important industry hasn't had the attention which it deserves. That there is a new awakening is evident by the purchase of several head of Herefords by Mr. S. D. Cross, who paid \$1,225 for one lot. Mr. Cross brought these to his county and put them on his farm five miles from the city. Mr. Cross believes in getting the very best cattle he can raise from the best blood. He said such a high price for them shows belief in their worth. This is a matter which The Lantern is glad to see pushed. For this county needs the very best bulls for the raising of cattle, being one of the many industries which this favored locality will produce profitably. This is very encouraging to the breeders of good cattle and the tendency of both buyers and sellers indicate that prices of cattle are drifting toward a higher level.

During the progress of a lawsuit a witness was asked whether the defendant was not a lawyer. "Well," answered the man in the box, "I don't want to do the man any injustice. I'll try to do so far as to say he's a lawyer. It required any voluntary work he could do of lack of knowledge of Philadelphia inquirer."

"That fellow is evidently a kinsman of the jury," Chesterfield who confided in an exclusive diet of matted hair, peepholes and nose, and that he is to avoid even the unconscious effort of accumulating solid food—Lancaster News.

Now we bet he is a double first cousin of the gluttonous Lancasterian who gorges so much that there is no left for the Philadelphia.

We are sorry to hear of the illness of Editor Hall, of the Rock Hill Herald, and hope that he will soon be restored to health and again be at his desk contributing his bright and useful gems to the people and the press.

With cotton bringing over 13 cents Chester county farmers are smiling and business is booming. Farming lands are rapidly increasing in value and life in the country wearing a more rosy outlook.

GETTING READY FOR THE COURT

Prisoners Who Are in Jail Awaiting Trial—One to Be Tried for Murder.

The full term of the Court of General Sessions convenes here on the first Monday in November, being the first day of that month. Sheriff Colvin, Deputy Sheriff Dye, Clerk of Court, J. E. Cornwell, and Deputy Clerk T. J. Cornwell, are busy in making preparations for the convening of court. The jury venire for first and second week were drawn yesterday morning by the jury commissioners and the sheriff and his deputy are busy serving them. The clerk is getting the dockets ready and making other necessary preparations. Judge Pitco, of Anderson, who was to preside at this term, is sick, and Mr. Ernest Moore, of the Lancaster bar, as special judge will preside in Judge Pitco's place.

In jail awaiting trial at the coming term of court are the following prisoners:

Nathan Johnson, colored, charged with housebreaking and larceny.

Nathaniel Love, colored, charged with housebreaking and larceny.

James Johnson, white, charged with selling liquor.

Fred Carter, colored, charged with selling liquor.

John Humphreys, colored, charged with housebreaking and larceny.

Will Miller, white, charged with housebreaking and larceny.

Ben Chapman, colored, charged with assault and battery with intent to kill.

Lill Chispen, colored, charged with assault and battery with intent to kill.

Tom Smith alias "Crowing Tom" charged with selling liquor.

William Stewart, colored, charged with murder.

Robert Witherspoon, charged with housebreaking and larceny.

Samuel Brown, Jr., charged with assault and battery with intent to kill and carrying concealed weapons.

James Stevenson, colored, who was convicted of murder at the last term of court and sentenced to life imprisonment, is in jail awaiting the outcome of his appeal to the supreme court.

Ben Moore, colored, charged with selling liquor, is the latest addition and he will face the jury at the coming session of court.

A dispatch from Lexington says a case without precedent in this county, and with few, if any, in the State has recently been filed in the office of the clerk of court. Mediator purchased by Mr. Spann for his child an infant of two months. It is alleged that the parents gave the medicine to the child, believing it to be one certain kind of drug, when in reality it was not what it was labeled on the bottle, but a dose of a powerful poison. The public is cordially invited.

Rev. S. M. Jones has gathered from the Henry place 120 bales of cotton to date. When the whole crop is gathered there will be easily 150 bales of cotton. If not more, from this fine plantation. There is 150 acres in cotton on this place which is farmed by Mr. Jones with up to date machinery. He will thus average a ton to the acre, which is a phenomenal yield for this year at least. This farm has advertised Chester a great deal and The Lantern is constantly in receipt of inquiries asking about how much will be raised on it. We bet this record can be best in upper South Carolina.

Rev. C. R. Watson, D. D., of Pittsburgh, Penna. secretary of the Board of Foreign Missions of the United Presbyterian church, will deliver an address in the A. B. Preyerian church Sunday night, Nov. 28th, at 7.30 o'clock. Dr. Watson is a native of this county and a member of the public is cordially invited.

A 800,000 cotton mill, so known as the Republic, seems now to be fairly assured for Great Falls, this county, a dispatch from Charlotte yesterday saying that "the organization of this mill has been under discussion for some weeks, and there appears to be no doubt whatever but that the mill will be built." The officers of the company are: Hal Melrose, of Graham, N. C., president; Thos. Fuller, of Durham, N. C., vice president; and E. S. Melrose, secretary-treasurer. It was said that the mill would be the largest and most modern textile plant in the South.

New York.—The bleached skeleton of a young woman, partly covered by a sheet, was found in a ditch, and other clothing, was found today in a lonely stretch of woodland near Lailp, L. E.

The coroner found nothing by which the identity of the young woman could be established. Close to the skull was a thick mass of blonde hair, tied with fragments of a big girl's head of ribbon. The teeth were well cared for, with several gold fillings. It was evident that the victim had been dead for about a year. The skull was intact, showing no marks of violence, and it is impossible to ascertain whether it is a case of suicide or a mysterious murder.

BIG COTTON MILL IS WANTED HERE

The announcement that a 800,000 cotton mill is to be built at Great Falls, South Carolina, is a matter of great interest here. The plans for the new mill are being drawn by a Greenville architect and there appears to be no doubt but that the mill is a certainty. The Commercial Club of this city has gone to work on the proposition to see if there is any possibility of getting it located in Chester. President Gaston, on behalf of the club, has addressed a letter to the interested parties. A site will be offered there and no doubt many local parties would take stock in the mill were it located here. It would be a great thing for Chester could it site land this mill and would turn lots of money loose in circulation locally.

The Southern Power Company no doubt wants to locate the mill at Great Falls so that it would use their power. They could use the same power here and besides Chester could offer them many more advantages in the way of railroad facilities, etc. Further announcements in the matter are awaited with interest.

MR. E. H. HARDIN CHOSEN AS DEMOCRATIC NOMINEE

WILL BE MAYOR OF CHESTER FOR UN-EXPIRED TERM

PRIMARY ELECTION A GREAT SUCCESS

Democratic Candidate for Mayor of the City Selected—Will Be Chosen Mayor on October 28th.

Today's battle of the ballots commenced at 8 a. m. and lasted till 4 p. m. when the last shot was fired in the race for the democratic nomination for mayor. The day dawned clear and bright and more perfect conditions, so far as the weather was concerned, could not have been possible. Nature seemed to smile on the citizens of Chester as they registered their will at the polls.

The polls were in the office of the chief of police, Messrs. W. S. Hall, J. M. Henshelf and Andrew Peden were the managers of the election, and of course they conducted it to the satisfaction of all parties. Everything ran smoothly, so far as the election was concerned and it seemed to be a question as to votes entirely. There was an entire absence of any display of feeling.

Today's nomination is equivalent to an election for all who voted today took an oath to support the democratic nominee at the general election on next Thursday which will simply be a confirmation of today's nomination. For the number of democrats in Chester look at the size of today's vote, consequently no other candidate other than the democratic nominee is likely to be put out for the election on next Thursday.

The nominee will have the united support of the people of Chester, and they will work with him for its up building.

Today was the first time there has ever been a primary for the nomination of a majority candidate and it has proven to be an abundant success.

It gives voice and the voice of the white people of Chester and it is now a secured success.

Today's nominee will be elected mayor on next Thursday in the general election to serve out an unexpired term. The following is the result:

K. of P. Election Monday Night.

The local lodge K. of P. will, on Monday night, elect their officers for the coming year.

The members are urged to attend as business of importance will be transacted.

About the most striking illustration yet brought to the attention of the experts of the fact that pellagra proceeds usually of pronounced type is said to be a pathetic case of a handsome young woman, the mother of several small children, now being treated at the State hospital for the insane. The experts, working with her after many soul trying attempts, have been unable to drive her, perhaps her, from the grasp of the disease in any other manner induce to say a word.

Apparently she has not lost the power of speech, but she refuses to associate it. Her case seems to defy all the resources of human strength, intellect, art, craft and ingenuity.

Force, prayer, persuasion, temptation are unavailing. Of course no physical violence has been imposed upon her, but the experiments have gone far enough to show that she will not yield whatever may be done to her.

Edgemoor.—Mr. Vandy May, a prominent citizen of Johnson, was Thursday acquitted of the charge of murder. The defendant killed his brother-in-law, Mr. Charles R. Tidwell, at Johnson, on the 28th of August last.

There was much testimony to the effect that the deceased had maltreated his wife, and the protection of her by May brought about the tragedy that resulted in the death of Tidwell. The special plea was self defense.

Fate.

Warm milt water is good for sore throat used as a gargle. It is also a good mouth wash and hardens the gum.

Chester B. & L. Association.

The annual meeting of the Chester Building and Loan Association was held at the court house Tuesday evening, a large number of the stockholders being present to hear the reports of the year's work. Of the stock in force, 1,180 shares were represented, 436 in person and 744 by proxy. Dr. J. B. Bigham, president, and Mr. A. G. Thornton were secretaries. Messrs. Robert Gage and David Hamilton acted as tellers to a certain number of shares of stock represented.

The first item of business was the reading of the president's report, which was as follows:

The stockholders of the Chester B. & L. Association:

I beg to submit my annual report as president of the association. Last year, Manual at the same time received a slight wound. He is 19 years old and succeeded to the throne immediately after the death of his father and brother.

Within the past few months there have been various reports of a possible alliance between King Manuel and a British princess. Two princesses, Beatrice, daughter of King Edward's late brother, the duke of Edinburgh, and Princess Patricia of Connaught, have been mentioned.

The question, however, has up to the present time proved a barrier to such a union.

The assets of the company are well secured by first mortgages upon city property. The report of the annual examining committee will show the condition these securities are in. The board of directors also makes a complete examination of the securities and records at least once a year which has been done during the past year, and in this way the affairs of the association are closely examined and investigated.

Series No. 7 has started, and series No. 1 will mature and be paid off in at least six months, and possibly a little earlier. This is a splendid showing, and all the members are urged to get in getting new subscribers.

Respectfully submitted,
Joseph Lindsay, Pres.

Chester, S. C., Oct. 19, 1909.

The report of the secretary and treasurer was a financial statement of the association, the value of the different series, the number of shares in force, and other such information.

The association is well divided as follows: Series No. 1, 355 shares; No. 2, 220 shares; No. 3, 278 shares; No. 4, 408 shares; No. 5, 631 shares; No. 6, 434 shares. In No. 7, the new series, about 500 shares have already been subscribed, with promise of considerably more. Messrs. J. Lindsay, president, R. B. Caldwell and others made short talks, pointing out the exceedingly fine showing that the association has made this year, having eclipsed all previous records for earnings, and exhorted the members to persuade others to join.

On motion of Mr. David Hamilton the old directors were elected as follows: J. Lindsay, A. L. Gaston, Z. V. Davidson, Wm. McKinnell, J. C. Stewart, R. B. Caldwell, E. H. Hardin, R. E. Sims and L. B. Davidson.

At a meeting of the directors held yesterday morning the following were re-elected officers of the association: J. Lindsay, president; R. B. Caldwell and others made short talks, pointing out the exceedingly fine showing that the association has made this year, having eclipsed all previous records for earnings, and exhorted the members to persuade others to join.

Portugal's Key King is Ill.

Lisbon, Portugal, Oct. 20.—King Manuel is confined to his bed with an intestinal trouble, accompanied by a light fever.

King Manuel, of Portugal, is the son of King Carlos, who, with the Crown Prince Louis Philippe, was assassinated in Lisbon in February of last year. Manuel at the same time received a slight wound. He is 19 years old and succeeded to the throne immediately after the death of his father and brother.

Within the past few months there have been various reports of a possible alliance between King Manuel and a British princess. Two princesses, Beatrice, daughter of King Edward's late brother, the duke of Edinburgh, and Princess Patricia of Connaught, have been mentioned.

The question, however, has up to the present time proved a barrier to such a union.

The assets of the company are well secured by first mortgages upon city property. The report of the annual examining committee will show the condition these securities are in. The board of directors also makes a complete examination of the securities and records at least once a year which has been done during the past year, and in this way the affairs of the association are closely examined and investigated.

Series No. 7 has started, and series No. 1 will mature and be paid off in at least six months, and possibly a little earlier. This is a splendid showing, and all the members are urged to get in getting new subscribers.

Respectfully submitted,
Joseph Lindsay, Pres.

Chester, S. C., Oct. 19, 1909.

The report of the secretary and treasurer was a financial statement of the association, the value of the different series, the number of shares in force, and other such information.

The association is well divided as follows: Series No. 1, 355 shares; No. 2, 220 shares; No. 3, 278 shares; No. 4, 408 shares; No. 5, 631 shares; No. 6, 434 shares. In No. 7, the new series, about 500 shares have already been subscribed, with promise of considerably more. Messrs. J. Lindsay, president, R. B. Caldwell and others made short talks, pointing out the exceedingly fine showing that the association has made this year, having eclipsed all previous records for earnings, and exhorted the members to persuade others to join.

On motion of Mr. David Hamilton the old directors were elected as follows: J. Lindsay, A. L. Gaston, Z. V. Davidson, Wm. McKinnell, J. C. Stewart, R. B. Caldwell, E. H. Hardin, R. E. Sims and L. B. Davidson.
