## SPENT \$1000 A DAY FOR GAY PARTIES IN PHILADELPHIA, SAYS

Prosecutor Wolverson Makes Public Details of Confession of Schuck and James.  
Caden, N. J., Nov. 8. — More than \$5,000 was spent in five days for gay parties in Philadelphia by Raymond W. Schuck and Frank J. James, after they had killed and robbed David S. Paul, Camden bank messenger, according to Prosecutor Wolverson, of Camden county, who tonight made public additional details of the alleged confessions of the two men.

Wolverson announced that \$4,600 of the \$40,000 in cash stolen from Paul was found today in a book case at James' home in this city. The remainder, more than \$30,000, was buried in two packages at the head and foot of the grave of Schuck's mother and had been recovered, the prosecutor said.

Schuck, according to the alleged confession, buried the money in Evergreen cemetery on October 11, six days after he and James, riding with Paul in a motor car in Camden, killed the aged messenger in order to make a better financial showing to a group of friends.

Prosecutor Wolverson said James and Schuck, who are locked up in the Burlington county jail, would be brought to trial in Camden.

The alleged confessions were almost identical on all important points, Mr. Wolverson said. However, he disclaims responsibility for the actual slaying of Paul, declaring he was forced into the plot by James, who Schuck says, was the brains of the police, beat Paul to death. James in his confession is quoted as saying that each plotted and planned the killing and robbery long before they executed it.

## OLD AGE IN PSYCHOLOGY

Rules For Long Life Set Down by Psychologist.

(From Kansas City Star.)  
Gretchen Steel, Chaucer, practical psychologist, says if you want to live to be as old as Methuselah: "Use your intellect."  
"Eat, breathe and exercise properly."  
"Throw out your chest — when your chest is up you can't keep your intellect low."  
"Develop your subconscious mind — you are only about 8 or 10 per cent conscious anyhow."  
"Follow the psychological rules."

## TWO KILLED IN MINE ACCIDENT

Michael Weiss and Clifford Kirby Are Dead; Tunnel Caves in at American Mine near Gaffney.  
Gaffney, Nov. 10. — Michael Weiss and Clifford Kirby were killed in the American Mineral Company mine about three miles from Gaffney and a young man named Philbrick was severely injured when a tunnel in which they were working caved in about 7 o'clock this afternoon. The men were working 20 feet under ground in what is known as the old lead mine.

Weiss' home is in Nanticoke, Pa., and he is about 25 years of age and was killed by a rock fall. Kirby and Philbrick both live in Gaffney. The mine has only been in operation a short time and W. Y. Davis, who is the superintendent of the work, says the accident was an unavoidable one.

The bodies were brought to the undertaking establishment of Shiford & Lemanster, Coroner Winesburg, and the funeral will be held at inquest tomorrow morning. A telegram has been sent to the brother of Weiss at Nanticoke, Pa., and the brother of Kirby at Gaffney. The bodies were taken to the morgue and as to disposition of the remains.

## JOHN L. ROPER-LUMBER COMPANY CLOSES PLANT

Claim That High Cost of Operation and Poor Demand for Lumber Make Closing Necessary.  
New Bern, N. C., Nov. 10. — Announcement is authorized by officials of the John L. Roper Lumber Company, operating one of the largest sawmills in the south, that it will Friday morning their plant here would be closed down for an indefinite period, that all of the men employed therein would be laid off, that the office force would be cut down to a minimum and the logging crew laid off, making a total of more than 2,000 men, who will be thrown out of work.

A lack of demand of lumber and the low price that is being paid for the little lumber is being sold is given as the reason for the shutdown. Crows in all the logging camps in this territory will cease operations and will be allowed to seek employment elsewhere.  
"How long the plant will remain idle is a matter of doubt. Officials say that there is no market for their product, that the cost of operating is enormous and that there is nothing left for the company to do but to close down and remain closed until conditions are more favorable for lumber operations."

## Soldier's Dead Body is Found in Laurens Hotel

Private Roscoe Williams, Company G, 110th Infantry, Camp Jackson, was found this morning in his bed in the Laurens Hotel, where he had taken a room Saturday night. A three-ounce bottle of carbolic acid, about open, full and severe burns about the mouth and throat confirmed signs of suicide. Letters from his father, W. Williams, of Crystal Springs, Miss., showed that he had been writing dependent letters home and that he was deeply dissatisfied with army life.

The young man, who is evidently about 25 years of age and of the physique registered at the hotel Saturday night and went to his room immediately. He was not seen again until this morning when a maid reported to the office down stairs that he was still in his room and that she feared something was the matter. A negro boy was sent to the room, and returned with the information that the man was dead. Police officers were notified and they in turn notified the authorities at Camp Jackson as well as the dead man's father, who was still in his room and that she feared something was the matter. ## SHERIFFS CAPTURE STILLS, WHILE 'POSSUM HUNTING'

Columbia, Ga., Nov. 10. — Under the pretense of hunting "possums," deputy sheriffs, with a pack of "possum" dogs, last night captured three large stills, 65 gallons of whiskey worth \$1,000, and arrested Benjamin Howard and Will Willis, the latter a negro. The stills were located ten miles north of Columbia.

## AMERICAN GOODS ARE POPULAR IN NORWAY

Washington, Nov. 10. — The popularity of American goods in Norway is described in a report to the department of commerce by Trade Commissioner Bengtson, which says that American automobiles and trucks are so predominant that they give a distinct American touch to street traffic in many of the cities.  
Agricultural machinery, also prominent and as a whole the United States now ranks first in the trade in metal manufacture as well as first in the imports of leather goods and second in textiles and clothing.  
Discussing the opportunities for American products in the Norwegian market, Commissioner Bengtson reported that in general the high prices were frequently heard that American goods ranked first in quality although the same type of goods from the United Kingdom, Sweden or Germany.

## HOLLAND GUARDS HER FRONTIERS AGAINST INFLUX OF BOLSHEVIKS

Rotterdam. — Holland has established a greatordon along the German frontier to prevent the influx of large numbers of Russian bolshevik agents from Germany. Heavy guards are maintained so that persons wishing to cross the boundary in either direction must pass through frontier posts and other recognized highways. Those who attempt surreptitiously to cross into the country are being shot.

These precautions have failed, however, to check the movement of soviet agents. Most of the agents would like to interview have been seen in this city and Amsterdam, but when the police set their dragnet for their quarry the men vanished, leaving only a few letters and a few pieces of information that the suspects have been found in Germany and are on their way to the Russian frontier. The system followed resembles the "underground railroad" by which fugitive slaves moved through Northern States to Canada in the days before the American Civil War.

Among those who recently passed the armed Dutch frontier, it is declared, was Louis G. Frays, American delegate to the international bolshevik "clearing house" conference held in Brussels. Police surveillance is attempted in Hamburg and some other German cities, but it usually comes to naught, as there are almost in Germany which are friendly to the soviet Russian government.  
The "underground railroad" is utilized by soviet agents in bringing to Holland bolshevik "missionaries" who are to make attempts to reach America. Dutch agents report that many Poles have gone to America some of them being deserters from General Filashuk's army.  
Reports are being received that many bolshevik sympathizers who were last year deported as undesirable from America are to be returned to that country. Police officials assert a special bureau has been created here to take care of this class of "emigrants" and carry out carefully laid plans for their resettlement back into the United States.

## 'PETTICOAT CABINET' TO HOLD SESSION

REINS OF WASHINGTON.  
Mrs. McCormick and Mrs. Longworth Expected to Wield Important Political Influence, Also.  
Washington. — The new administration will have a "petticoat cabinet" which will become famous in history, according to predictions yesterday.  
It will act unofficially but wield an important influence, with the drawing room as the center of its activities and the teacup the symbol of its power.

Mrs. Medill McCormick and Mrs. Nicholas Longworth both daughters of famous political generals, will head the "petticoat cabinet" is said, gathering around them a brilliant coterie of women who will keep Washington sparkling with social gaiety as they try to create political history.  
No man is mentioned in national politics than these two clever young women. Mrs. McCormick, wife of Senator McCormick, of Illinois learned politics from her father, the late Mark Hanna, while Mrs. Longworth, the irrepressible "Princess Alice," daughter of the late Theodore Roosevelt, who reigned at the White House during her father's first term, has the well known Roosevelt motto: "No man is mentioned in national politics than these two clever young women."

Mrs. McCormick and Congressman "Nick" Longworth will be powers in the new administration and Mrs. Longworth and Mrs. Longworth will be decidedly "in."  
Their drawing rooms are the nearest approaches to the European salon in America. Political history has been made at their famous informal Sunday night suppers at which congressmen and foreign diplomats are invited.  
With their party in power, they will play a leading role in national affairs during the next four years, it is predicted.

With their group to set the pace social Washington is looking forward to the most brilliant four years in its history.  
Society in the capital has been at a standstill the last four years. First the war, then President Wilson's illness, stopped activities.  
President-elect and Mrs. Harding are expected to revive the inaugural ball. They will have a brilliant coterie of hosts and though not expected to entertain on a lavish scale, they will give unique functions. It is predicted to rival the White House to the social world.  
In the embassies there is any number of handsome young titled foreigners. Many are as much as the Auckland Goiden, wife of the British ambassador, and the other women of the foreign diplomatic corps.

## OPPOSES ACCEPTANCE OF \$200,000 FROM K. O. P.

Washington, Nov. 9. — Use of the \$200,000 offered by the Knights of Columbus to the American Legion for a national memorial building in Washington would constitute a "moral breach of trust and an act of injustice" to many suffering soldiers, Marvin G. Sperry, national president of the Private Soldiers and Sailors Legion, declared in an open letter to Supreme Knight James A. Flaherty.  
The money offered was contributed during war for the "aid and relief of soldiers," Mr. Sperry asserted, and its use for the construction of a "great marble palace" at Washington would be a "fundamental diversion from that purpose for which it was intended."

## PHOENIX CITY WARNED TO BOYCOTT COLUMBUS

Columbus, Ga., Nov. 10. — Circulars printed in big black letters, warning the merchants of Phoenix City, Ga., to buy no more goods in Columbus and to stop street cars connect the two cities were placed under the doors of all stores there last night. "Ship from Phoenix, Ala.," the circular says. It is believed to be the work of night riders or white caps.  
The Chattahoochee river divides Columbus and Phoenix City.

## GEORGIA BANK CASHIER RETURNS, CLAIMING HE OWES BANK NOTHING

Butler, Ga., Nov. 10. — A. L. Hendricks, former cashier for the Bank of Maik, for whom a nationwide search was instituted after he disappeared from Maik in Taylor county, early in October, allegedly "short" \$18,000 in his accounts returned yesterday afternoon and filed a petition in the superior court asking for an injunction to prevent bank officials from disposing of any of his property, and setting out that he owes the bank nothing.  
At the time of his disappearance, it was charged that Hendricks, in addition to the alleged \$18,000 shortage at the bank, had borrowed approximately \$10,000 from the bank, all of which was unpaid.  
So far, Hendricks has offered no explanation for his disappearance.

## FIRE AT THREE WHO STOLE CIGARETTES; KILLED WOMAN

New York. — The funeral today of a young and pretty Mrs. Dolara D. D. who was one of the kindest of the East Side has seen in a long time. And next to Frank Dufoule, who was her husband, perhaps the most disconsolate of her mourners who followed the flower heaped bier with his six snowy horses was Dolara, herself, a "Red Cross" worker during the war, left her new baby Saturday night on a short errand, and as she crossed the street was killed by a patrolman Kenny at a blind who had stole a carton of cigarettes struck her down. ## WOMAN KILLS SELF

BY STAB IN HEART.  
Miss Theodore Saunders Takes Own Life While Talking to Former Finance.  
Chicago, Nov. 9. — Plunging a Mexican dagger into her heart while talking with her former fiance, Miss Theodore Saunders, 25, of Laredo, Texas, ended her life on the floor of a downtown hotel here today. If H. Garver of this city, declared that the engagement between the two had recently been broken off, but declined to tell why. The young woman recovered November 1 and appeared well to do.

Garver said the young woman gave no warning of her intention today, but suddenly drew a long slim dagger from her sleeve and plunged it into her left side. She died as she was being moved to her room.  
Garver is married, but is being sued for divorce by his wife. A decree of separation was granted some time ago. The police believe that the divorce action was "settled" referred to in letters found in Miss Saunders' possession.  
In Miss Saunders' room the police found a deck of cards spread out on the table where Miss Saunders apparently had been telling her former fiance in the evening. ## BALTIMORE WORKERS DECLINE INCREASE

Twelve Thousand Vote For Scale of Pay to Limit Wage Rise.  
Baltimore, Nov. 9. — Twelve thousand workmen, members of building unions in Baltimore have declined to accept an increase in wages. At a meeting of representatives of the workers of a motion to accept a wage advance from 90 cents to \$1 an hour was tabled by an overwhelming vote. One year ago the union rate for carpenters was fixed at 90 cents with the understanding November 1, this year the increase would be effective. The agreement was signed by contractors, builders and representatives of the union. Employers made no attempt to recede from the agreement.

## SAW MILL LABORERS WAGES ARE SLICED

Tampa, Fla. — A reduction of approximately 25 per cent in wages of employees of saw mills in Georgia and Florida, operated by members of the Georgia-Florida Sawmill Association, effective November 8, was decided on today at a meeting of that organization here.  
Wages for common labor, it was announced, will be \$2.50 a day and for other classes of work will be cut accordingly. The operative announced the demand for lumber has decreased so much that the operators either have to reduce wages or shut down and that mills throughout the yellow pine belt are closing down.

The force since 1917, notwithstanding the great increase in business in the mill, has few additional clerks and another mill carries it. It is expected that the service will be materially improved and the city service territory materially enlarged so as to include all of the mill villages.

## Plenty of Money

Some people had an idea that it was going to be almost impossible for the farmers to get money to handle their legitimate needs. We told them that this was not the case, and we are demonstrating the fact to our regular loyal customers.

We have plenty of money to carry cotton and to handle all the good commercial business of the community for the customers of this Bank.

We would like to have YOU as one of our customers.

FRIDAY, NOVEMBER 12.

Have you ever seen folks who do everything with bells on? Their minds operate only to the tinkling sounds that advertise their activity. They must have a racket when they do things. But not just any kind of noise will do. They want not so much the rattle of the machinery as bells that call attention to the fact that there is machinery. They want folks to see who it is that does things. And then, too, they like to make the thing they do the center of attraction and admiration. They crave praise. It's no good to them as bottled energy and it adds zest to their toil. They are the kind that work their heads off as long as you have a liberal supply of soft soap to keep them smooth by putting it on in ever thickening smears. If they do things they must do them with bells on.

A man's headache seems a lot worse when he had no fun acquiring it, but what we started out to say was that somehow intellect doesn't seem to have much to do with a man's happiness.

In New York they are dumping confiscated booze to the fishes, and in Texas they are feeding seized mammals to the hogs. If there is anything in the Darwin theory we may expect soon to see man sliding down the backward scale.

Now that the election is over we hope those who have been throwing bricks through the White House windows will stop it.

When you hear a knocking at your door, go to it; it may be opportunity, and you would be sorry afterwards if you failed to show your hospitality.

**WOULD TRY TO SALVAGE**

New York, Nov. 3.—Request that the federal council of churches of Christ in America call a meeting of various protestant denominational organizations for December and January to bring about "further conservation of the values of the inter-church world movement," was included in a resolution adopted here today at a conference of disincarnate leaders.

The conference, which has been in session for three days with Bishop Thomas Nicholson, of Chicago, presiding, in its resolution named the following church organizations which should be asked to participate in the proposed meeting:

Federal council of churches of Christ in America, home missions council, council of women for some missions, foreign missions conference, federation of women's boards of foreign missions, international student society, association, council of church boards of education and the re-organization committee.

**FLOUR PRICES REDUCED**

FIFTY CENTS A BARREL.  
Roanoke, Va., Nov. 10.—A reduction in the price of flour of fifty cents a barrel has been announced by a local mill, one of the largest in the south. This is the second reduction which the mill has made since November 1. The wholesale price of flour now is quoted here at \$11.75 to \$12.25 a barrel.

The statement appearing this morning that flour was selling here at \$7.60 and \$8.00 a barrel was erroneous.

**MARRYING OFF A PRINCE.**

Of course, it is a truism that being a Prince has its disadvantages. The Princess of Wales has always managed to see it cheerfully under these hardships, however, and doubtless he will continue to do so, as he seems to be of a cheerful disposition. One would think, though, that he must feel somewhat annoyed over The London Times delicate but plain hint that it is time the Prince were getting married. Even a Prince hardly likes to be hurried in a matter of such great importance.

This Prince, however, is really a very lucky man and the chances are that he realizes it. A great change has come over the institution of matrimony as applied to Princes—at least to Princes of Wales. His choice of a wife will not be limited strictly by reasons of State as in the old days. If it is not quite true that the Prince of Wales can marry any girl he wants to provide the girl is willing—it is much nearer to being true than it was half a century ago. The World War, which has changed almost everything on earth, has had a notable effect in the respect also. Before the war the Princes of Wales would have had to marry someone of royal blood. Now he can go outside the narrow circle of royalty if he desires.

Rumor says that this is what he is going to do. In fact, it is hinted that the Prince has his bride picked out already and that it is a case of true love with no politics in it at all. There has been no revival of the early reports that the next Queen of England will be an American girl, and there is little likelihood that she will be. Probably this is not a matter for regret. It is doubtful whether such a marriage would really strengthen very greatly the bond of friendship between the two countries.—Ex.

Two negroes are being held in the Gadsdenville, Ga. jail in connection with the horrible crime committed near Gadsdenville last night. The negroes were taken to the jail in the last issue of The News. Both negroes were arrested at Latta, Ga., about 15 miles from Gadsdenville, early Tuesday morning, after coming out of a box car full of cotton seed hulls. Both negroes tally with the description given by the Gadsden parties, however the Gadsden parties are not able to positively identify them. The negroes are being held pending investigation of their story as to their whereabouts at the time the crime was committed.

The McGarity-Wilson case, which has been attracting quite a bit of local interest, went to the jury yesterday and a verdict was handed in this morning in favor of the defendant, which means the breaking of the will, the property going to others than Mr. W. A. McGarity, a half brother of Mr. Wilson. Other members of the family contested the validity of the will, and the case was the present term, which resulted in a mistrial. Messrs. Marion & Marston and S. E. McAdams were attorneys for the plaintiff, and Messrs. Gaston & Hamilton and R. B. Caldwell attorneys for the defendant, all of whom did excellent legal work in connection with the above-mentioned case. Attorneys for the plaintiff have made a motion for a new trial which will be argued before the presiding judge.

Robbers entered the express car of Southern Railway train No. 36, which runs from Columbia to Chester, early yesterday morning, near Killians, bound the express messenger and rolled the express safe, watching about 1200 packages out of the door, then left the train. The express messenger, whose name had been left behind his bag, managed to climb onto a barrel and benched over the bell-cord and signaled the engineer to stop. The train was backed a considerable distance but nothing could be found of the safe, which contained \$21,000.

However, at Blytheburg the passenger train met a freight train going South, and informed the conductor of the robbery. The freight train proceeded to Columbia and the conductor located the safe about twenty feet from the track at the point where the messenger stated it had been thrown from the train. The safe was taken to Columbia and the money was found to be intact. From a small safe in the express car the robbers secured about \$221 in currency.

H. L. Gardner was appointed game warden for South Carolina by Governor Cooper yesterday.

**PRICES REDUCED AT ALL CHILD'S RESTAURANTS.**

New York, Nov. 8.—Prices of foods served at Child's restaurants throughout the United States will be reduced about 10 to 25 per cent as soon as the new menu card can be printed and distributed. It was announced today by R. W. Riley, head of the government's "dining equation" of profited business.

A revised menu given Mr. Riley by the general manager of the restaurants shows reductions in the prices of staple dishes such as roast, chops and various meats and vegetable combinations. The cheapest cup of coffee, however, will remain.
