Dear Student:

Many students believe that the political success of Southern students is due almost entirely to the fact that they are students and have the right to vote. This is not true.

In fact, students are often asked to make decisions that affect their lives in a way that is not always obvious. Sometimes these decisions can be quite personal, such as choosing a major or minors, or deciding whether or not to study abroad.

But other times, these decisions can be much more important, such as voting on issues that affect the entire country, or even the world. These decisions can have a real impact on our lives, and it is important that we make informed choices.

So, if you are a student, I encourage you to take the time to learn about the issues and to vote in upcoming elections. Your voice can make a difference.

Yours truly,

And coming up next is the Junior-Senior Prom. We'll have more about that in the next issue of The Johnsonian.
