FORM NEW PEACE PARTY

Union Against Militarism Gives Way to One Favoring Settlement Germany Would Like

New York, Nov. 14.—The organization known as the American Union against Militarism has gone out of existence, and in its place there has been organized the American Union for a Democratic Peace, of which Amos Pinchot is chairman, and Roy Eastman, secretary, and Dr. Frederick Lynch, Oswald Garrison Villard, J. T. Warshaw, Alexander Trachtenberg, James H. Maurer, Max Eastman, and L. B. Nichols, Executive Committee members. The organization, it is stated, is out to work for peace, and the kind of peace it advocates is the same, according to the announcement made public last night, that the so-called peace party favors, namely, one without annexations, indemnities and military contributions following the war. The announcement is full of kind words for Germany.

"We believe," the statement reads, "that peace negotiations should be entered into as soon as Germany has given some official assurance of her willingness to meet the conditions limited by the President on Aug. 27 in his reply to the Pope. These are in increasing evidence that the people of Germany are ready to meet these terms; witness the Reichstag peace resolution of July 19, calling for a peace without annexations or indemnities, and without political, economic, and financial violations; witness the strikes, riots, and mutinies through which the German people have expressed their discontent at the failure of their Government to act in the spirit of the resolution. We hold that our Government should in no wise be prejudiced by the German people, and we are assured that the Allies are not fighting for selfish imperialist aims, but they are attempting to bring about revolutionary movements during the war. We must convince Germany that we are not fighting to destroy her national integrity or her territory, that we are the enemies of German aggression, but the friends of a German democracy."

It is also announced that the party is utterly opposed to the extension of military service in this country, and especially to all legislation tending to fasten upon the United States a permanent system of compulsory military training and service. The office of the nation is to be maintained, which is also the address of the so-called People's Council of America, which for months past has been sending all over the country, or a peace such as Germany favors.

PRESIDENT WILSON STRIKES LABOR LEADERS ON CALLING OFF THE DOLLARS

Buffalo, Nov. 13.—President Wilson tonight expressed his thanks to the labor leaders for their action in calling off the strikes affecting government work in the United States.

WEALTHY BUSINESS MAN ASSASSINATED

Whitehouse, Ky., Nov. 11.—William Banks, a wealthy business man, was assassinated here today. Banks was shot several times through the back while he was walking down a crowded street. The shots were fired from a building near the courthouse.

METHODISTS TO RAISE GREAT CAMPAIGN FUND

Mission Board will inaugurate campaign to raise \$50,000,000 in Five Years.

Philadelphia, Nov. 12.—The Methodist Episcopal boards of home and foreign missions at a joint conference today approved a recommendation that a campaign be inaugurated to raise \$50,000,000 in five years. Fifty millions are to be raised by such board as is mentioned in all corners of the earth.

About 200 clergymen from all parts of the country, including the entire board of 20 bishops attended the conference which will adjourn Friday for the centennial celebration of the church next year.

DRASTIC BLUE LAWS

Major Announces That He Will Call 'O' Pals to Check Activity

Meredith Miss, Nov. 14.—Major John M. Doherty in a public statement tonight announced that he would enforce the provision of the drastic blue laws next Sunday. Careful investigation of the law enforcement in 1916 has led to the requirement that include hotels, restaurants and newspapers in the list of establishments prohibited from doing business on Sunday. The city police force will be available to enforce the laws, he announced. Any attempts to break the law will be met by arrest. Charges and automobile spoils were exempted from this law provision by legislation recently enacted. Major Doherty said the morning newspaper printed an announcement to the effect that they would observe the law on Sunday and

ACT MENACES COAL OUTPUT

New Explores Law May Stop Mining by Foreign Miners

Washington, Nov. 12.—The coal mines of the country may be seriously crippled if the explosives act is literally carried out forbidding the use of licenses to use dynamite and other explosives to enemies and "other unfriendly to the United States." Van H. Manning, in charge of the enforcement of the law, today expressed his opinion that the act should be interpreted and whether it should be applied to the miners of the United States, as well as to those of other countries, is a question that should be decided by the courts.

ALIENS WITHDRAW THEIR BANK FUNDS

Palmer Reiterates Government Has Intention of Withdrawing With Property—Says Trading With Enemy Act is Designed to Protect the Property of Aliens

Washington, Nov. 13.—Heavy withdrawals of bank and postal savings deposits by aliens in some localities caused A. Mitchell Palmer, attorney general, to issue a formal statement today reiterating assurance that the government has no intention of interfering with the money or property of Germans or citizens of countries allied with Germany living and doing lawful business in this country.

Mr. Palmer said many published statements regarding this matter have been misleading as to give rise to fear that they may have originated in a deliberate wish to "disparage and injure American business interests."

Reports have appeared in the past, he said, that the statement with regard to the aims and purpose of the alien legislation with respect to the United States has caused alarm. This alarm has led to localities to close banks and postal savings banks.

"The statement most circulated and misused and cause uneasiness is that the fact as to the fact as to any one is an enemy of the ally of an enemy under the terms of the Trading With the Enemy Act, is not passed by Congress in one of its legislative or place of business or business connections, rather than national citizenship."

"A subject of Germany or any other country, even though he has made no declaration of his intention to become a citizen, is permitted to continue in trade and commerce and in property while he remains in the United States and obeys its laws and is not regarded as an enemy nor is he regarded as an enemy by Trading With the Enemy Act."

"The broad purpose of Congress expressed in the Trading With the Enemy Act, is to prevent the enemy-owned property situated in the United States from being used to the benefit of the enemy."

"Commerce can not of course, be maintained in the residence of countries that are at war."

"The Trading With the Enemy Act authorized in certain cases a license to permit the temporary exportation of property to be carried on. Where such license is not applied for it is not carried on, and the property is directed to exercise in regard to enemy-owned property the well-defined authority of a common law under the Trading With the Enemy Act, which has been rejected on various judicial qualifications."

President Invites Brotherhood Chiefs to Conference—If Necessary, Will Prepare to Take Railroad Tidelup

Washington, Nov. 14.—The president personally to prevent a general railroad strike. He has called the heads of the four great railroad brotherhoods to meet him in conference on November 22, and will insist that patriotism be put ahead of private interest; that there be no attempt to handicap the operation of a vital part of the nation's war-making machinery.

The president is confident that nothing antagonistic will be done, but if the necessity arises he is prepared to take the required steps to prevent a tie-up of transportation.

The railroad war board, of which Mr. Charles Harrison, president of the Southern Railway, is chairman, has given the government a list of 450 commodities for transportation which could be dispensed without any great inconvenience to the public. The railroads of the country have more business than they can handle with dispatch and the idea is to "cut out" the handling of articles which the public can get along without. The board of the commodities, as an excellent idea, will doubtless receive serious consideration by the government. The fact that this country gets on a war basis the sooner the war will end and the smaller will be the casualty lists.

The reports made public by the federal trade commission, in Washington, which are for a year's dispatch was sent out from Washington advising that the federal trade commission had made public the fact that prices for newsprint paper during the month of October averaged \$2.50 to \$3.25, whereas it had been \$1.75 to \$2.25, a quotation of less than \$4.75 for several months.

SHOULD PUT IT OFF.
Again comes the railway, train men demanding that they be granted another increase in wages and threatening a strike if their demands are not granted.

The heads of the four great rail road brotherhoods will meet President Wilson on November 25th, to discuss the matter. It has already been announced that Mr. Wilson will appeal to the patriotism of the men for the trainmen of this country to try to put off this particular time would most assuredly prolong the war, cause untold suffering among the civilian population and cause the death of many young Americans. To stop the movement of raising at this time, would be nothing but a sacrifice.

The operation of the transportation lines during war times is a necessary as the maintenance of an army of men. We have collected our young men to enter the trenches and save this country from barbarous Germany. If a regiment of our soldiers were to lay down their guns they would be discarded for life and doubtless the public would demand severe punishment. The men who operate the trains of this country are not any better than the young men who are to serve in the trenches and are not deserving of any more consideration.

COUNCIL MEETS

Monthly Report of Chief of Police—Fire Limits Are Extended—Position for Gasoline Filling Stations.

The regular meeting of the city council was held Tuesday evening, October 27, at 7 o'clock. Those present were Mayor Davidson and Aldermen Frasier, Chitt, Clark, Cross, Calhoun, Gilbert and Byars.

The monthly report of the Chief of Police was as follows: Total arrested, 27; Total fined, \$9; Sent to street, 1; Continued, 4; Suspended, 1; On appeal, 1; Served sentence in all, 1; Discharged, 21. Total fines for the month, \$228.90.

David Hamilton presented a petition signed by Mr. Jas. W. Knox asking that the city run a small water pipe line from the intersection of Lacy and Harris street to his residence on Harris street, a distance of approximately 700 feet. Mr. Knox offered to pay one-half the cost of laying pipe, provided the city would reimburse him for the cost of the same. The matter was deferred to a later date owing to the fact that the city is without the funds for this purpose just at present.

A letter from Mr. Sam Garrett was read in which he asked that the city pay him \$100.00 for the damage to his car on account of damage to corn and pigs, which happened at the site of the fire on the 10th of October. The matter was granted provided he agreed upon at the time the incendiary was built and the council ordered he claim paid.

Mr. Harlan Motor Company asked that they be allowed to erect a gasoline filling station in front of the city hall, on Wall Street. The matter was granted provided they agreed to let some other party do so at least two years and same to be built under the supervision of the city engineer. The Vestal Motor Company was also granted a similar permission under the same policy.

A motion was made by Mr. Byars, seconded by Mr. Frasier, that if any parties who desire to install gasoline filling stations would first petition to sign a contract regarding the city from any damage that might occur. Motion carried.

Mr. W. W. Wise appears before the council with reference to water flowing through the property of Mr. A. W. Wise, on Church street. The Mayor appointed Messrs. Frasier, Byars and Clark a committee to look into the matter.

Mr. John W. Gladden petitioned the council to erect two street lights on or near his "quarter." The petition was referred to the public safety committee.

There are a number of parties interested to the city for cement sidewalks, which have been put down. The matter was discussed and the clerk was instructed to mail statements to all parties. The city is very anxious that these sidewalks be paid at the earliest possible date.

A petition was presented by Mr. Chitt for Mr. F. C. Kirkpatrick, cemetery keeper, asking that he be paid his wages for digging a grave and digging a hole some time ago. The bill was ordered paid.

Mr. Cross stated that some arrangements should be made whereby the fire alarm could be given at any time, which would be paid for. After some discussion the clerk was instructed to have the old tower bell repaired so that an alarm could be given with it.

Mr. Calhoun brought up the matter of automobile light dimmers. A committee will look into the matter and report at the next meeting.

The matter of parking automobiles in front of and near garages and allowing them to remain for an indefinite period was discussed. The fact was brought out that some worn out cars have been parked on the streets for weeks. The Mayor was asked to instruct the policemen to have these cars removed and also to inform the parties parking cars in streets, that the practice must be discontinued.

Action 228 of the city code which is the ordinance defining the city fire limits, was amended so that a wooden building could not be constructed within 250 feet of the site of any railway passenger station within the corporate limits of the city of Chester. The motion to amend the ordinance was made by Mr. Clark, seconded by Mr. Cross.

Mr. Clark mentioned the city buying wood to be used in case of any emergency during the coming winter. The council did not think they could handle the matter without losing a considerable amount of money and those who might run out of fuel at any time during the winter will have to look to some source other than the city.

All that piece, parcel or tract of land, lying, being and situated in said County and State, containing nine and two-tenths (9 2/10) acres, more or less, bounded by Saluda Public Road, by Rights of way of Seaboard Air Line Ry. Co., and Southern Ry. Co., by estate lands of C. L. Landis (Headpath, Darfo's Mills, et al.); said lands are located ten (10) dwelling houses, one (1) large store building and one (1) small store building erected thereon by P. T. Land, Sr., now deceased; and lands bounded originally thirteen and one-sixth (13 1/6) acres, more or less, and were acquired by R. T. Cloud, Sr., deceased, and his heirs, and were conveyed to the Chesapeake Development Co., W. J. Cloud, M. I. Stringfellow and Julia Clayburn, respectively. The aggregate of said conveyed parcels is 13 1/6 acres, more or less. From said lands R. T. Cloud, Sr. conveyed in his lifetime about 6 acres by six conveyances, to-wit: (1) to C. C. Gage, Sr. in active; (5) R. T. Cloud, Jr. 1 acre, and (6) J. A. Gossett about 5 1/2 in active, aggregating as above stated, about 11 1/2 acres, which he deducted from 13 1/6 acres, approximately leaves about 2 1/6 acres. He then re-purchased and re-acquired the 5 1/2 acre parcel of his own improvement thereon, containing 5 1/2 in active, and the John P. Cloud conveyance of about one acre, aggregating 1 1/6 acres. Adding this to the 1 1/6 acres makes 2 1/6 acres, more or less, with the improvements thereon, an abode stated, which he sold to R. T. Cloud, Sr. deceased, owned in fee simple at his death. This property has been platted and subdivided into several lots, showing the improvements and lots not improved, and will be sold separately by the Clerk. These plats may be seen at the Clerk's office.

Terms of sale: one-third (1/3) of the purchase price of all the improved lots to be paid in cash, the purchase price of the unimproved lots, one-half (1/2) in cash. The balance of the purchase money shall be payable in two equal annual installments from date of sale, with interest on deferred payments at the rate of seven per cent per annum, payable annually, until paid in full. To be secured by notes of the purchaser, and a mortgage of the premises. And the purchaser of any of the improved lots shall cause the improvements thereon to be insured for at least three-fourths of their value at the point of insurance made payable to the Clerk as his interest may appear, and said policy deposited with said Clerk as additional security. The purchaser shall have the right to pay all cash or any amount in excess of one-half of said unimproved and improved lots if he so desires. The purchaser shall pay for all necessary papers, revenue stamps and recording fees of deed and mortgages. In the event the purchaser at said sale fails to comply with his bid within five days from date of sale, he shall resell the property by himself, said defaulting purchaser after due advertisement on some subsequent sale, and he shall refund the purchase price of said second sale full share of the first sale. The defaulting purchaser shall be liable for such deficiency.

Sold at the suit of Robt. T. Cloud, Jr. et al. vs. John P. Cloud, et al for partition and in aid of assets.

ANDERSON TO HAVE A CITY WOOD YARD

Anderson, Nov. 15.—The city council voted to establish a municipal wood yard, as recommended by the city fuel committee and the state fuel administrator, to be operated during the period of the present fuel shortage—until the coal situation is relieved.

The mayor was authorized to have cut up the supply of oak wood which the city has on the quarry lot on East Market street, near the city barn, and to advertise for wood of all kinds. The matter of fixing prices for the wood will have to be determined by the council after the costs of different kinds of wood are ascertained, and the cost of operating the wood yard is learned. Wood will be sold in limited amounts on the wood yard lot and for cash only. The city council will make the prices as low as possible. The council is not ready to begin selling wood yet, and will not be in position to do so within the next three or four days. Due notice will be published as soon as plans are perfected.

SPECIAL NOTICE.
To the Pastors of Chester County: The National Committee for the raising of the \$35,000,000.00 War Fund for Y. M. C. A. work has requested that on Sunday, November 18th, each pastor give the people in the congregation an opportunity of subscribing to this fund. Therefore, as County Chairman, I urge upon every pastor of the County the giving of an opportunity at every service held that day for those present to subscribe to this fund. In case no suitable cards are available a slip of paper can be used, giving the amount of the subscription and stating that it is for the Y. M. C. A. Fund and name and address of the subscriber. These cards can be turned in by hand or mailed to me on Monday as County Chairman. We need many more than \$25.00 in order to raise our quota in this County. Some of our citizens have very patriotically contributed sums from \$50 to \$500. Again I want to urge upon every one to make a generous contribution in proportion to his other means, keeping in mind the noble and patriotic purpose for which the contribution is made.

Death of Mr. J. L. Wood.
Friends throughout this and neighboring counties will regret to learn of the death of Mr. Jerome L. Wood, which occurred at the residence on Saluda street, in this city, Wednesday afternoon after a lingering illness. The funeral services were held at the home this morning by Rev. C. C. Herbert, pastor of Bethel M. E. church, assisted by Rev. H. A. Bagby, pastor of the First Baptist church, after which the interment was made in Evergreen cemetery, a large concourse of friends being present to pay their last respects.

Mr. Wood was a native of York but had been residing in Chester for the past forty-four years, during which term he has been engaged as a salesman by various mercantile establishments of the city. He was an active member of the Methodist church and for many years was a trustee of the church.

He is survived by his widow; two sons, Messrs. F. L. and C. F. Wood, of Augusta, Ga., and one daughter, Mrs. J. T. Perkins, of Chester.

Attorney R. E. Wylie of Lancaster is in the city attending court, being one of the attorneys in the case of P. G. Curtis vs. The Lancaster & Chester Railway. The case is in connection with the reconstruction of the river bridge between Port Lown and Lancaster.

Mr. Geo. W. Gage, Jr., who enlisted in the city attending court some time ago and who was discharged until he could gather his crop, received a telegram yesterday advising him to report for duty. He left this morning for Columbia from which place he will be sent to a training camp.

Mrs. F. M. Hicklin and **Mrs. Stringfellow** of Chester were guests at the home of Dr. and Mrs. J. B. Johnson on Tuesday.—Rock Hill Record.

In spite of previous announcements that the American Red Cross does not approve the chap-let system of raising money, and that it has never authorized any chap-let promoters to use the name of the Red Cross in any way, letters of this nature are in circulation and many copies of them have been forwarded to national headquarters for explanation. The American Red Cross reiterates that no chap-let project has its approval. While some of these schemes may have been started in good faith, mention of the Red Cross is not warranted. Red Cross members and the public in general are warned that there is no assurance that donations in response to any chap-let letters will reach the Red Cross treasury, and are urged to pay no attention to such appeals, whose sincerity is always open to doubt.

The army and navy have been put to a great deal of trouble and annoyance because information as to troop movements has become public. A determined effort is to be made to prevent such disclosures in the future, and hereafter officers and enlisted men are forbidden to communicate information as to troop movements, even to members of their families. The chief of the embarkation service has written a letter which explains the matter, and at the same time gives warning as to the punishment that may be meted out to officers and enlisted men who may disobey the order in this regard.

Father Lewis J. O'Hern, of Washington, D. C., **Father O. A. Duff**, formerly of Greenville, now a chaplain in the United States Navy, and **Andrew Ward Knisley**, a midshipman at the United States Naval Academy, will be arrested on bonds which has been agreed to by Federal authorities in connection with the true bill found against them by the Federal grand jury here last week charging that the three entered into a conspiracy to have Knisley appointed to the Naval Academy. Judge Johnson has agreed to a bond of \$400 for each defendant. It is probably that the three will be tried at the next term in Federal Court in Greenville. Greenville Daily Journal.

Forms on which to fill out personal income taxes are not expected by D. C. Heyward, internal revenue collector, until some time next month, but in the meantime the department is desirous of having each individual subject to the tax become thoroughly familiar with the provisions of the act. There are many people in Chester county who have

never given income tax paying a thought; however, all parties who have an income of over \$1,000 per annum had better get their books in shape to make a proper return as double the returns will be checked by government inspectors and excuses are not accepted. Failure to make the return is punishable by a heavy fine.

U-BOAT CAPTAINS FEAR THEIR CREWS Officers Heavily Armed, While Sailors Are Surcharged for Weapons to Avert Mutiny.

London—Captains of the German submarines are compelling their crews to carry their revolvers and to disarm the members of their crews to prevent mutiny and voluntary surrender to their enemies, according to an Amsterdam correspondent of the Daily Express. He quotes a man who claims to know the conditions of the German submarine service as saying: "The last two months, the U-boats have been putting on a very peculiar condition. The commander and his second start heavily armed. The men, on the other hand, are searched for weapons before every embarkation. From some of the vessels all the rifles and other small arm ammunition have been removed. In some cases rifles are on board, but they are kept securely locked in their racks, and the key remains in the commander's pocket. "The reason for all these drastic measures has to be found in the spirit of the men at present serving Germany beneath the water. "I will give you the psychological experience of the German submarine sailor. After his course of special training for the work he makes his first trip. His vessel has one or two narrow escapes from danger, but returns safely to base. The sailor goes ashore for his short leave, spends his pay, and enjoys himself. Then, he makes a second trip, and again returns after escaping death by inches. "Gradually it dawns on him that life of this kind cannot go on forever and that eventually his fate is certain. From the moment that this realization forces itself upon him his duty becomes a psychological nightmare. He sets out on each new cruise with the conviction that it will be his last. In the language of the English soldier, he is perpetually going over the top and his period of strain is much more lengthy and nerve-racking than that of the land fighter. "The effect on his mind is easily to be understood. He begins to cast about him for some means of escape from this branch of the service. He quickly realizes that his only chance of escape is that of capture and internment, either by an enemy or neutral power. It is this looking forward which sends him to sea battles and unarmed—while his officers battle with the means of war."

He Accepts a Great Responsibility.

That Chicago doctor whose curiously persistent ill-luck it has been frequently to get his name into the newspapers as doing in his professional domain things that shock the sensibilities of the general public, has again been mentioned in an unusual overtaken-by-the-fate which dogs him with such thought-provoking pertinacity. "In the past, which what and all he did was to refuse to prolong by surgical or other means the lives of babies obviously doomed at birth to brief existence as monsters and idiots, the arguments by which he defended his course were not without weight, and his more reasonable critics found fault with him chiefly because he started, or allowed to be started, nation-wide discussion of a subject better kept strictly within professional circles. There it can be handled, as it always has been, with the same old moral responsibility, but without the horrified exclamations of unenlightened sentimentalists. "It is the latest reports from the hospital which this publicity-hungry doctor renews him as playing an active part in the problem of long-life, which in his judgment worth-while as setting as well as raising the least arduous question of "guthanasia"—the question wearsome because settled against him a thousand times—whether the physician ever justified in merely coping out of existence a patient seemingly doomed soon to die of a cruelly painful malady, that in absolutely no cases would his brief not justify, at least extensible, there might be some hesitation in asserting, but the most confident of adverse prognoses have so often been met by recovery and survival that the next to unanimous agreement of medical as of lay opinion is that the doctor's business always is to prolong life, better to shorten it. "Certainly the law has only one rule—the deliberate and intentional taking of any human life not forfeited to the State by heinous crime, and not in defense of human life, is murder and punishable as such, no matter by whom done. That punishment, if the Chicago dispatches are true, the physician under consideration, has risked by administering lethal doses of narcotics to an aged child of cancer. Now York Times.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia Hliggins, of this town says: "At my age, which is 65, the liver does not set so well as in my youth. A few years ago, my liver was all out of gear. I was fatigued, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I would give Black-Draught a thorough trial as I knew it was likely recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved, and I became stronger. My bowels acted naturally and the local trouble was soon stilled with a few doses of Black-Draught."

planned references to German injuries in the ranks of the Italian army by an official dispatch received here today from Rome. It tells how, on the eve of their great offensive, the Germans circulated among the soldiers of certain parts of Italy—namely, front-line companies carrying out operations of rebellions in Italian provinces, of English soldiers shooting down women and children, and of French cavalrymen riding over the bodies of agonists.

In further explanation of the breakdown of the Italian defense the message says Italian speaking Bulgarians and Croats in Salonica and Greece had been on the move, penetrating the line on the front, newspapers carrying sensational stories of rebellions in Italian provinces, of English soldiers shooting down women and children,
