Crematories pay cash for cream every month. The farmer gets butter price with none of the butter trouble. Cotton makes land and farmer peace. Butter makes land and farmer rich. Which?

To Prosecute Violators

A series of southern railroads formed only a part of a comprehensive scheme to nullify the Fourteenth Amendment, under which the civil rights of colored citizens were to be ignored. A number of the railroads began operations against the order of city council for the protection of colored citizens, but the order was carried out by the state. The railroads have been found guilty of violating the Fourteenth Amendment, and are now being tried in the county court.

Time of Tourists

Greenville, S. C., Nov. 7.—The tide of tourists is rising in this city, and the hotels are being filled daily. The weather is mild and pleasant, and the tourists are taking advantage of the opportunity to visit the city.

Betrayed By Daughter

The case of the daughter who betrayed her father in his business was tried in the county court yesterday. The daughter was found guilty of fraud and was sentenced to five years in the state penitentiary. She is the daughter of a prominent businessman in the city.

As Your Child Sleeps

There is a hint of practical importance in the following extract from a letter: ‘If you are going to put your child to bed tonight, you will know that God is watching over you and that when you wake refreshed and with great courage, you will have a new strength for the day.’

Shaken By Daughter

The sun sets earlier in the winter, and the days are shorter, so your home may require more light. Keep your lamps ready for use.

In the summer you should turn off your lights before 9:00

at night while in winter it becomes necessary to turn them on

earlier. Always turn off lights when you leave a room to save on energy.

When you take lists, consider that it takes more current in winter to keep electrical appliances in their correct temperatures.

Better, Stronger Citizenry Now

Every time a woman spends a dollar for goods

made outside  the Carolinas  as a substitute  for
goods made within the state, she works just

that much  the  possible  advancement  of  her

band.

Only a relative small number of us have  e-

ough to live  on  without  active  daily labor. The

balance of us work regularly, for upon  our  per-

sonal effort depends our monthly pay check or

our semi-annual dividend.

A woman is not justifying  her name of  good

housekeeper  if  she  pays  more  money  for  a  home-

made article than she would  have  to  pay  for

something made elsewhere. Nor will she be jus-

tified in buying  an inferior article  for  the  same

money  she  would  have  to  pay  for  a  superior piece

of  goods  made  outside  the Carolinas.

But a patriotic housewife's duty to her state is

know  of  her  own knowledge  that  she  can  not

buy  a  home-made  article  of  the  same  value  for

the  same  money  that  she  must  pay  for  the

foreign-made  merchandise.

When the women of the Carolinas look, their
dealer  straight  in  the  eye  over  the  counter  and

demand  to  be  shown  the  home-made  labor,  he

may  not  have  them, but if  enough  women  join

in this work,  he will get them.

A dealer sells what his customers want. Some of

them  are  committed  by  contract  or  agency  or

personal preference  to  certain widely-known  pro-

ducts  and  may  be  slow  to  change,  but  they

will  change  quickly  enough  when  they  see  that

the buyers have become  open marketers.

Ask your dealer to show you a garment  or a

kitchen utensil  that  are  made  in  the  Carolinas.  He

may  not  have  them, but if enough women  join

in this work,  he will get them.

He is in business  to please  you and  you  both

are  in  the  business  of  making  the Carolinas

greater and more prosperous.
