VOL. 9
SAM SNODGRASS.

"Well, Mr. Editor," said Sam Snodgrass as he dumped two scums of coal in our office heater, "I see what you done writ a piece 'bout them that gambing out-rit what was at the county fair. Yes sir, Mr. Editor, 'I fails to recognize much difference twixt a game of craps and a game that a wheel does of work. Matter of fact, when you roll de white ivory you is got er chance of throwin two sixes when de mah oppoosit ain't throwed but a six and a five, but when you roll de white ivory on a carnival it altogether 'pends on what de mah behind de counter thinks 'bout lettin' you win.

"Mr. Editor, I is always been a supporter uv home organizations, and if we must gambie I contends dat it too ought to be a home affair. In other words, if you is going to gambie, let's trade at home too. See Mr. Editor, if you add me plays a game of some seshen, come 'leven and I will give you money, but if you it stays in town, and likewise when you win. But if ever you makes a pass at a carnival you take de money some way de way and you and me not only lose, but de community also loses de money. No sir, if we is going to have gambin' in our community, I suggests dat we set apart a certain day, and have everything fixed 'On de Hill' next to de moon. We will have a table with two decks of white ivory, a numb' uv sets of cards, two or three put and take propositions. Den a man could take his choice of gambier. Den we will have a table where we could have a rule that no man what was not a citizen of Chester, county could'nt park de money. Den we will have a table through wher our gambing you can easily see dat if even five thousand dollars was lost 'twixt a single night, it would be a loss to de community. What one Chester man would lose another Chester man would win. Yes sir, I is shore did want de an imping'ing connection of gambing what we has at a carnival. It might not be a bad idee to work this 'Trade at Home' gambin' proposition in our community, you know de county fair. You know a fair means a crowd, eide it ain't no fair, and I kinder thinks this here Exchange Chester man de drawing card and folks from far and wide would motor to Chester to see de big game.

"The Bowlin' league was a record for itself last night when we had our bowlin' night. We have bowlin' stations in England, Germany, Holland, Mexico, France, Norway, Italy, Japan and Spain. We receive news of the world from stations in Oxford, England, and Nauen, Germany, and look forward to our evening paper.

"The long Arctic night, as vividly described with all its consequences in their narratives, has no terrors for the crew of the 'Nansen' as they live in conditions as vast as different and all constructive to good health and happiness.

"I am thoroughly convinced dat we can make extensive improvements in our annual budget. We will not be able to do it unless we get our hands off our backs, and we must either go forward or backward. I is shore dat de point uv our annual budget is de most important matter what plan is decided upon. It must be so fixed dat all money must remain in Chester county."

"And Snodgrass, as an old hand of play of Apple Jack as he went out of the door.

WALTON INDICTED ON SEVEN COUNTS

Charges Same as in Impeachment. Declines to Make Statement but Requests That Trial Be Held at Once.

Oklahoma City, Okla., Nov. 26.—J. C. Walton, deputy governor of Oklahoma, was indicted here today by a district court grand jury on charges on which he was impeached and removed from office by the state legislature. Seven indictments were returned against the former executive, charging diversion of state funds, intimidating an officer and prohibiting an assembly of the lower house of the legislature.

Having anticipated the action, Walton immediately posted bond of \$6,750 and requested that the trial of the indictments be held to make a statement.

Six of the indictments allege felony and the seventh a misdemeanor. A charge of diverting funds also formed the basis for five indictments each of which were returned against Dr. A. E. Davison, who had been executive, and T. P. Edwards, representative.

Former Governor Walton is charged in five of the indictments with coming into an agreement with Senator J. D. Davenport, who had been executive, and J. H. Edwards, who had been executive, to bring about the passage of the health department payroll. The indictments against Dr. Davenport, the hearing of the legislature, which attempted to meet to impeach him, and preventing the convening of a district court grand jury to investigate some of his official acts. The latter charge is a misdemeanor and has been transferred to the grand jury.

County Attorney J. K. Wright indicated that arraignment of the former governor probably would be set for some time next week.

ARCTIC NIGHT IS ROBBED OF TERROR

Explorer McMillan and Party in Daily Touch With Radio Station. Means of Their Radio Station.

Prince Rupert, B. C., Nov. 25.—Wireless reports have been received from the Arctic expedition in Greenland and Alaska and with a station in Hawaii, by the radio operator of the vessel Bowdoin. The long Arctic night, as vividly described with all its consequences in their narratives, has no terrors for the crew of the 'Nansen' as they live in conditions as vast as different and all constructive to good health and happiness.

CLEMENCY IS ASKED FOR THOMAS B. MCLAURIN

Columbia, S. C., Nov. 23.—Clemency for Thomas B. McLauren, former president of the defunct Mutual Savings Bank of Bennettsville, and son of former United States Senator John L. McLauren, has been recommended by the state pardon board in a report Governor McLeod yesterday. The board recommended commutation of the ten year sentence imposed for breach of trust in connection with the bank failure to five years, with suspension of one year of the time of the service of four. If this recommendation is approved, McLauren will be released from the state penitentiary on March 16, 1925.

Thanksgiving should carry our thoughts upward to the Siver of all good.

MANLY DEMANDS A SQUARE DEAL

Declares Power Rate Increase Would Stifle Mill Competition. Cannon Representative Asks Congress to Investigate.

Winston-Salem, Nov. 23.—At the United States in possession with most potent power than any other nation and in using its moral influence in world affairs would not be involved in another war. Senator Underwood, Alabama, declared today in an address before the Southern Power company's petition, now pending before the corporation commission for increase in rates, that the proposed rate, which is an increase of 20 per cent in the North Carolina will be higher than in either South Carolina or Alabama.

"The Alabama Power & Light company furnishes power to one of the mills in Alabama at a cost of 2.2 cents per kilowatt hour, less than the present rate of the Southern Power company in North Carolina and 33 per cent less than the proposed rate, which is an increase of 20 per cent in the North Carolina will be higher than in either South Carolina or Alabama.

"The present trend of government toward autocracy," he declared, "is a danger to which we cannot close our eyes. When autocracy rules a greater part of the world, the democracy of America is at stake," the senator asserted, "and when democracy prevails in foreign countries, the democracy of America is doubly assured."

"We now sit by and see this present movement of the world democracy without a protest from Washington," he said. "It was not an accident when our colonies were defeated the greatest military power on earth. Destroyed shaped our forces in order that men in all the world might be the cup of freedom. We cannot now neglect the duty that destiny imposed upon us without bringing condemnation upon our heads in government."

In speaking of conditions in this country, Senator Underwood urged a return to the "old-fashioned principles of democracy, with local self government, protecting the Federal government function within its rights."

UNDERWOOD CRITICIZES THE FOREIGN POLICY OF PRESENT ADMINISTRATION

Declares Present Trend of Government Toward Autocracy a Danger to the World and the United States.

Atlanta, Ga., Nov. 23.—The United States is possessed with most potent power than any other nation and in using its moral influence in world affairs would not be involved in another war. 'BOSS' TOLBERT GETS THE CAN

Kirksey Given Reces Appointment at United States Marshal. Tolbert Will Remain Republican Leader in S. Carolina and Deliver the Delegates.

Washington, Nov. 23.—Joe W. Tolbert, republican boss for many years of South Carolina, has given up his program to be United States marshal, properly appointed and confirmed, but will be leader in his state. All southern congressmen are interested in his case.

Tolbert tendered his resignation to the President today. Robert Kirksey was given a recess appointment to succeed him, and Tolbert's nephew, Joseph A. Tolbert, was appointed at the same time to be United States attorney for the western district of South Carolina.

By-adjunct of President Coolidge, Tolbert, a picturesque figure as a republican conservative with a good string of delegates to the federal patronage, is "in the kept in the saddle" in that state.

"It is not apparently to be allowed to take any patronage for himself before the light of the world," he said, "and I will not be a lobbyist for the party."

Tolbert declared today he was entirely satisfied with this arrangement, and that it did not signify that he was being thrown overboard at all. In fact, he had the commissions for the appointees signed and stated that they were men whom he recommended.

HOPE FOR SOUTH PUT ON ARSENATE

Ten Per Cent of Acreage Dusted This Season. Comparatively Speaking, Cost Was High—Government Purchase Killed by House.

Washington, Nov. 24.—The South has pinned its hope on valium arsenate. Ten per cent of South was dusted, the current total cost average to the season with that bill would point, according to an official report of the department of agriculture, comparatively speaking, the cost was high. An effort was made by southern senators to purchase an adequate supply of calcium arsenate for sale to southern farmers at cost. The authority to do this was given to the Senate in the bill.

At any rate, southern senators were informed that a certain substance called by another name by the United States district of South Carolina, which was believed the information correct. At least, they did not investigate.

"When the bill was completed, it was ascertained that the information was false. It was not correct. So calcium arsenate bears a duty which the farmers pay."

The department reports that the smallest relative of the poison was in states of long infestation. In Texas, only 25 per cent of the acreage was poisoned; Mississippi, 10 per cent; Alabama, 1 per cent; North Carolina, 8 per cent; Tennessee, 14 and 15 per cent.

Okahoma poisoned only one half of 1 per cent. The four methods used in the dusting, spraying, drenching, and the balls in the first and second applications, followed by dusting. A survey of the cotton field to determine the value of results and the value of relative methods, now underway by the department, is announced.

FARMER KILLED NEAR EASTOVER

W. B. Halthcock Confesses to Shooting J. Arthur Peden Still on Leeburg Road. Halthcock in County Jail.

Columbia, Nov. 24.—J. Arthur Peden, 29 year old farmer, living about nine miles from Eastover, was shot and killed in his second field near Leeburg road about 6 o'clock last night by W. B. Halthcock, 38, also a farmer, according to a confession made by Halthcock to a rural policeman.

Halthcock surrendered to Rural Policeman J. E. Fraylick and Magistrate E. T. Peden an hour later after the shooting. This morning to be lodged in the county jail.

A double barreled shotgun was used, only one shot being fired and this taking effect just above the heart, to cause Rural Policeman Fraylick said, immediate death.

The rural policeman said that he was on the way to the scene of the tragedy Sunday morning. He said that he went to the point on the road where the shooting had taken place and there found the floor of the coupe open and one gun shot wound on the body of the dead man, a hole just above the heart.

The shooting took place at a point about midway between the homes of the two farmers, according to Officer Fraylick. Halthcock said that he was in the car with Peden when the shot was fired and that she was the eyewitness to the tragedy.

Comparatively speaking, the cost was high. An effort was made by southern senators to purchase an adequate supply of calcium arsenate for sale to southern farmers at cost. The authority to do this was given to the Senate in the bill.

At any rate, southern senators were informed that a certain substance called by another name by the United States district of South Carolina, which was believed the information correct. At least, they did not investigate.

MAYOR KILLED AT HOME.

Mayor R. V. Bray, of Beaufort, Returns Home from Federal Prison—Pardoned by President Coolidge.

Beaufort, Nov. 23.—Mayor R. V. Bray, of Beaufort, who was recently pardoned from the Federal Prison, in Atlanta, Georgia, and who is a son of Capt. R. V. Bray, Jr., who has been in the Atlanta Federal Prison since July on the charge of assaulting a federal officer. The pardon was received by Mayor Bray, who received a wire from a friend in Washington, who said that Mayor Bray had been pardoned.

President Coolidge signed the release Tuesday in effect at once.

Full news of the receipt of the telegram by Mrs. Bray, the news of the release spread like wildfire over the city, and has been the subject of conversation everywhere. As the release took effect immediately, Mr. Bray left Atlanta Wednesday evening arriving in Beaufort on the morning train.

Mr. Bray could not be reached for a statement on Thursday, but he has a healthy happy smile for which he is being commended. It will be remembered that Mr. Bray's trouble came up by his chivalrous action in defending a federal officer in a dispute over a tax case. In making the remark he aroused Mayor Bray's resentment to such an extent that Mr. Bray stepped into the face, and the charge of assaulting a federal officer was the outcome, resulting in Mr. Bray receiving a ten year term in prison.

Received National Attention. Mr. Bray's case has had national attention in both newspaper and magazine columns. His influence at the disposal of Beaufort citizens, as well as state and national persons, was brought to bear on the matter.

Even since his incarceration, efforts have not slackened in the effort to secure his release. Recently Mayor Bray secured a petition to the Department of Justice, which was referred in the regular way to the Attorney General, J. P. Smith and District Attorney, D. E. Meyers. It is presumed that both endorsed it. The petition was accompanied by statements from Mr. Bray and his friends, and the first petition sent some time ago. The later petition was carried by friends to the office of Attorney General Cummings.

General Cummings and Senator Dix have from the first been very active in Mayor Bray's case. It is believed that the citizens of Beaufort are welcoming him back to our city."

HAVE YOU A REMINDER. If you want out for a suit of clothes, a pair of shoes, a suit of shoes, a hat, a typewriter, you would have learned from experience a basis for comparison in considering the merits of the different articles.

But when it comes to investing money, how many people have a knowledge of the actual merits of the various properties under consideration? The impulse to invest is a very common one, but it is a mistake to invest in such questions has made this country the mecca for stock speculators and get-rich-quick artists of every description.

VERY LIBERAL OFFER.

Everywhere in this issue of the News will be found details with reference to a subscription campaign being put on by the News. This plan is entirely different from the usual newspaper subscription contest, which has its objections and features. The News has given this matter considerable thought for the past several weeks and believes it has inaugurated the most liberal and fair subscription campaign ever placed in this section of the country. The plan, as explained in detail in the large advertisement, gives every one who wishes a prize and who cares to do a little work, an opportunity without the least fear of any one out-bidding them. Every one who participates in the campaign has the opportunity to keep their own books and when they have secured the desired number of subscribers they get the prize desired.

The prizes are on display in various stores in Chester and can be seen by anyone desiring. They are all excellent prizes and will be appreciated. Any person in the county may enter this campaign and those who wish to do so are requested to send their names into The News office.

Read the big ad—it's a wonderful offer. In fact it's the biggest subscription campaign ever placed before the public in this section of the country.

Thursday is Thanksgiving Day. Thanksgiving Day started in America three hundred and two years ago when the Pilgrims knelt at Plymouth, Massachusetts, and gave thanks to Jehovah for bringing them to safety and abundance and in enabling the colony to stand the test of hardships encountered in the New World. These honored forefathers of ours had only a few grains of parched corn to feast on. Their Thanksgiving consisted chiefly in prayer and worship.

But with the passing years what a change has been encountered in the observance. Thanksgiving has become generally known and recognized as a feast day—a holiday—when schools, public institutions and all places of business shut up shop and the motto is "eat and drink and make merry," or "foot-ball, food and frolic."

Thanksgiving Day is more than a holiday.

Right here in Chester we have this year made more than twenty

thousand bushels of cotton for which we are getting more than thirty cents a bushel.

What man can claim credit for this prosperity? Back of this crop are the soil, the sunshine and the shower.

In a proclamation issued in 1789 George Washington said: "It is the duty of all nations to acknowledge the providence of Almighty God."

Chester county along with others should pause long enough Thursday to look upward and thank the Giver of all good.

CLEMSON NEWS.

Special to The News.

Clemson College, S. C., Nov. 26.—President W. M. Ripley, Prof. H. W. Barr, Dr. F. H. Calhoun, Prof. C. P. Blackwell, Mr. D. W. Watkins and Prof. S. B. Earl have returned from the annual meeting in Chicago of the American Association of Land Grant Colleges and Agricultural Experiment Stations. Dr. Ripley was on the program for an address on engineering education.

Clemson's radio station W6A-C began on Monday, November 12, a six-weekly program of broadcasting agricultural information. This program consists of thirty minutes and will be given on Monday, Wednesday and Friday at 7 p. m. and will include weather and market reports, timely agricultural hints and brief talks on agricultural subjects. The station broadcasts on 360 meters.

The Armistice Day banquet of the American Legion Post 42, held on Monday evening, was presided over by Congressman J. K. McSwain, of Greenville, as the chief speaker, was one of the big events of the season among local American Legion men. Others on the program included Toastmaster C. L. Morgan, Rev. John McSwain, Major T. C. Parkman, Prof. J. T. McAllister, and Dr. C. A. Ludwig. Music by the Clemson College Orchestra and a solo by Mrs. Claude Sligh added to the pleasure of the evening.

At the meeting of the Calhoun Literary Society on November the ninth, officers for the rest of this term were elected. The officers elected were as follows: President for second quarter, J. R. Shannon; President for third quarter, E. H. Hall; President for fourth quarter, W. H. Moore; Vice-President for second quarter, J. H. Alexander; Senior Critic for second quarter, A. B. Fitzgerald; Recording secretary, J. P. Baton; Corresponding secretary, T. G. Roache.

WHY NATIENS FIGHT.

"Why do men fight?" inquires Charles Milton Newcomb, in an article on human psychology. "Because man is a fighting animal" will be the common reply. But that is not conclusive.

The writer, admitting the existence of an instinct which impels an individual to fight for himself and for his group when occasion requires, is not convinced that "national fighting is necessarily due to this."

There are individuals, he admits, with an inborn disposition

to go out and attack other human beings by force. But such individuals are not considered normal. They are usually locked up in jails and insane asylums. It is not normal to fight except in self-defense. Why, then, should nations turn aggressive, when nations are presumably made up of normal persons?

"Fighting is 'anger in action,' and the trouble is, says this authority, that 'too often anger is stimulated by artificial means and not for the purpose of defense.'"

He quotes the celebrated social psychologist, Prof. Edward A. Ross, to corroborate his view that "passivity is not at the root of modern war, but the common people are wont to support foolish and dangerous aggressions by popular means."

That was certainly true of the rousing of the German nation to make war on the rest of Europe. It is true of some of the nations in Europe today. In other words, war has become largely a matter of propaganda. The natural antidote for war is therefore propaganda for peace.

At a meeting of representatives of the Methodist, Presbyterian and O. I. W. (Tirzah) Methodist churches, in Yorkville Tuesday night, it was resolved that there should be a substantial increase in the salary of Rev. R. L. Holroyd, of Yorkville, who is now receiving only \$1,800 a year. There is a very pronounced feeling in the churches that their common pastor could not live as comfortably as they wish such income. For one thing, they are not living as comfortably as they should be, but they have to serve three churches, pretty widely scattered. It is out of the question. There was no definite amount fixed as to the proposed increase, but there was agreement that the salary should be not less than \$2,000 and the stewards are now at work trying to see whether or not the amount can be raised. —Yorkville Enquirer.

In speaking of the game of football between the Chester High and the Clemson scrubs scheduled for Thanksgiving day, Prof. M. E. Brockman stated this morning that it had been decided to call off the game and to take the Chester boys to Greenville to witness the Furman-Clemson game. Owing to the fact that many events are scheduled for Thanksgiving in Greenville it is not thought likely that a very large crowd would attend the Chester game. Hence the change in plans. The News is wondering who the Chester High boys will root for, Clemson or Furman. Coach Magill is a Clemson man and Prof. Brockman is a Furman man. The boys are found to be very much divided in their opinion as to who to go 'alf and 'alf.

REV. J. E. PURCELL ACCEPTS LARGER FIELD OF WORK
Secretaryship Mrs. W. H. C. Committee Southern Presbyterian Church.

Rev. J. Edward Purcell, formerly pastor of Purty Presbyterian church here, has accepted the appointment to the secretaryship of the New Work Committee of the Southern Presbyterian church and will be located at Chattanooga, Tenn., after the first of the year. Rev. J. E. Purcell has a great number of friends here among all denominations who will be greatly interested and pleased if this announcement made to his congregation at St. Andrew's Presbyterian church in Wilmington, last Sunday morning. His new duties will carry with them greatly added responsibility and a distinct promotion for him in the field of Christian service.

The Wilmington Morning Star, of November 24th, contained the following:
"At the Sunday morning service at St. Andrew's Presbyterian church, the Rev. J. E. Purcell, the pastor, announced to the congregation his acceptance of work under the general assembly of the southern Presbyterian church. This church has for some time had under consideration far reaching plans for a more complete organization of the men of the church. This plan of work contemplates the conservation of all the developments among the men in the past few years under the leadership of the laymen's missionary movement, and the consolidation of this in a larger measure with the life and work of the church as a whole."

"In announcing his acceptance of this work, Mr. Purcell spoke with deep feeling of his pastorate at St. Andrew's church. He declared that he had never enjoyed fellowship with the people more, nor had he ever had better cooperation from the people. He said that the period had been a fruitful one and that the life of the pastorate was in an wholesome and vigorous condition."

He also expressed regret at leaving Wilmington and parting with the many friends he had made in the city. He will live in Chattanooga, Tenn., and will go to his new work early in the new year."

Mr. Purcell came to Wilmington more than three years ago to succeed the late Dr. A. D. McClure, who served so long and so faithfully as pastor of this church.

HIGH GRADE FERTILIZERS

Clemson College. The farmers of South Carolina, by using only high grade fertilizers, could save more money each year than it now costs to operate Clemson College in all of its departments, according to C. P. Blackwell, Chief of the Anatomy Division, who gives bold suggestions as to how this money can be saved by the farmers.

One might ask what is meant by high analysis fertilizer. In answer, we will say that any fertilizer which contains sixteen per cent or more of plant food elements is a high analysis fertilizer; that is, if the total and potash is equal to sixteen per cent or more. To illustrate, a fertilizer which analyzes 8-4-4 has a total of plant food elements equal to sixteen per cent. A low analysis fertilizer is one that analyzes less than sixteen per cent, and in speaking of these we usually have in mind such formulas as 8-2-3, 3-3-3, 4-4-4, 5-5-5, 6-6-6, 7-7-7, 8-8-8, 9-9-9, 10-10-10, 11-11-11, 12-12-12, 13-13-13, 14-14-14, 15-15-15, 16-16-16, 17-17-17, 18-18-18, 19-19-19, 20-20-20, 21-21-21, 22-22-22, 23-23-23, 24-24-24, 25-25-25, 26-26-26, 27-27-27, 28-28-28, 29-29-29, 30-30-30, 31-31-31, 32-32-32, 33-33-33, 34-34-34, 35-35-35, 36-36-36, 37-37-37, 38-38-38, 39-39-39, 40-40-40, 41-41-41, 42-42-42, 43-43-43, 44-44-44, 45-45-45, 46-46-46, 47-47-47, 48-48-48, 49-49-49, 50-50-50, 51-51-51, 52-52-52, 53-53-53, 54-54-54, 55-55-55, 56-56-56, 57-57-57, 58-58-58, 59-59-59, 60-60-60, 61-61-61, 62-62-62, 63-63-63, 64-64-64, 65-65-65, 66-66-66, 67-67-67, 68-68-68, 69-69-69, 70-70-70, 71-71-71, 72-72-72, 73-73-73, 74-74-74, 75-75-75, 76-76-76, 77-77-77, 78-78-78, 79-79-79, 80-80-80, 81-81-81, 82-82-82, 83-83-83, 84-84-84, 85-85-85, 86-86-86, 87-87-87, 88-88-88, 89-89-89, 90-90-90, 91-91-91, 92-92-92, 93-93-93, 94-94-94, 95-95-95, 96-96-96, 97-97-97, 98-98-98, 99-99-99, 100-100-100.

The next question is why should a farmer use a high analysis fertilizer rather than one of low analysis? The principal arguments for the higher analysis are as follows: It saves the freight—saves the cost of handling—does not require so much to be used—the use of high-grade goods by the manufacturer.

If a farmer buys a low analysis fertilizer, the manufacturer will endeavor to make this up, must be received do one or two things. He must either use low analysis material for his ammonia and potash or he must use a filler. In either case the result to the farmer is practically the same. For example, the manufacturer may use sand as a filler. One may argue that sand is very cheap and it should make little difference in the price of the fertilizer, but let us see if that is true. To begin with, sand must be hauled to the fertilizer plant and the farmer must pay some one to do this hauling. The sand must be included and hauled in the plant. It must then be mixed in with the fertilizer, sacked, tagged, and handled out of the plant. All this is paid for by the farmer. It is then shipped to the farmer's freight station at his expense, and he must haul it to his farm and distribute it over his land. All this takes labor, so in the end this sand has cost the farmer a great deal. The manufacturer will generally say that he does not charge the farmer for this filler, and perhaps he does add it to the farmer's bill. Again one may say that the filler does not amount to much. That may or may not be true. If the farmer is buying 8-3-3 fertilizer (and more than forty per cent of the fertilizer sold in this state is of that analysis) this 8-3-3 fertilizer can be mixed from high analysis materials with less than fifteen hundred pounds of ingredients. If a filler is used, this means five hundred pounds or more for each ton of fertilizer. Five hundred pounds of filler to a ton of fertilizer must be materially to the cost of buying this fertilizer and applying it to the field.

As a general rule, however, the manufacturer would not usually use so much sand for filler in any one case. Most likely he would use low analysis materials for making up this fertilizer. The result would be practically the same so far as the farmer is concerned. He pays for the expense of handling the large bulk of low grade material used in making up this fertilizer, and frequently the materials used are not so good as the higher analysis materials.

OVER EIGHT MILLION.
Detroit, Mich.—Ford Motor Co. 8,500,000 went off the assembly line at the Ford Motor Company's plant in Highland Park on October 4th, it is announced. The last six Ford models were produced in seven days less than three months, for Motor No. 8,000,000 went out July 14th, this year.

One factory of the Ford Motor Company, located at Northville, Mich., near Detroit, is devoted exclusively to the manufacture of valves for Ford Model T motors and for Fordson Tractor motors. The plant employs 350 men working in three eight-hour shifts and turns out 85,000 Ford motor valves and 10,000 Fordson valves daily. The plant was opened in March, 1920, the Northville plant has produced more than 44,000,000 valves.

Demand for ammonia sulphate for fertilizer is growing rapidly. During five months nearly 7,000 tons of it were shipped from the River Rouge plant of the Ford Motor Company to all parts of the United States. It is a by-product of coke, carries from 20 to 21 per cent available nitrogen and is known as one of the world's best commercial carriers of that element.

CLERK'S SALE.

By virtue of a decretal order so directed, I will sell in the Court-house at Chester, S. C. December 3rd, at 11 A. M., 1923, all the following property to-wit:
