TRUE WEALTH

We have all been told since our babyhood days that happiness is not in the possession of the material things of this world. This is a cold philosophy.

LANCASTER NEWS HEREDITY, GLANDS, MODE LIVING, MAKE FOLK FAT

Items From The Lancaster News of More or Less Interest to Chester County People. Mr. and Mrs. W. J. Boyd, who have their main home in Rock Hill, will leave for city in five days for Greenville, where Mr. Boyd will become manager of the Lawrenceville Roller Mills, a branch of the Indiana concern doing business in this state.

Apparently there was nothing wrong with the man's mind at all this moment. Mr. Thompson placed himself in the visitor's service. "I would like to speak to you privately," the stranger told the deputy sheriff.

Mr. Thompson escorted him to an inner office. "I came to see you," began the man, "to know if something can be done with all these rollers that are taking place."

There is no longer any hope of happiness. Yes the world is filled with living, breathing examples of broken dreams. It still depends upon the individual.

When city council received the information from the traction company, to meet the public's needs, a resolution was immediately and unanimously adopted.

Mr. Thompson asked him to wait in an inner office. "I came to see you," began the man, "to know if something can be done with all these rollers that are taking place."

A York county man who is interested in matters public is a visitor in Yorkville during the week. He is a man of high standing in the state legislature.

He is a man of about fifty in height and weighs about 170 pounds. He wore glasses yesterday and was dressed pretty much in the style of a knickerbocker.

350-YEAR-OLD COFFIN TO BE PRESERVED IN DON P. DAVIS MEMORIAL MUSEUM. It Has Housed Bones of Don P. Davis, Merchant, and His Family.

FRIDAY, NOVEMBER 6, 1925

That the Chester County Fair this year was not a financial success is regretted by all, but the weather went strongly against the gate receipts and although the management carried rain insurance it failed enough to keep people away and yet not enough to be able to collect the insurance.

While the fair was not successful financially it was a considerable success insofar as exhibits were concerned. The agricultural exhibits this year were undoubtedly the best in the history of the fair and the credit for this excellent showing is due the untiring efforts of Secretary Cushman and County Agent Schmitt, both of whom spent many hours in getting the exhibits. The farmers of the county are also due a word of praise in co-operating with these two gentlemen and they have clearly demonstrated that the soil of Chester county is well adapted to diversification and that it is possible and practical for the farmer here to raise his "hog and hony" at home.

## NET WEDNESDAY

Adair Chapter Had Interesting Meeting Last Wednesday at home of Mrs. J. Hal McCleure—Much Business Attended to.

Wednesday afternoon, Mrs. J. Hal McCleure was hostess to the Adair Chapter, D. A. R. This being the last meeting before the State Conference, there was much business to be attended to. Among these, the annual report, prepared for Conference was read and proved most gratifying, showing that all state and National obligations had been promptly met and that most interesting historical and social programs had been held each month. Among the most outstanding feature of the year's work, was the number of new members added to the roll, with a number of papers out in preparation for membership.

The historical program for this meeting, was a paper on the "Old Exchange" by Mrs. Ina Hemphill. Mrs. Hemphill had just returned from Charleston where she visited the "Old Exchange" expressly to get material for this meeting.

Another paper was a brief sketch of the twenty-five years of the Chapter's existence, as gathered from old minutes and shown

ed that the Chapter was organized in 1900, with Mrs. J. J. Stringleff, regent, who remained so until her death in January, 1923. The name for the Chapter was suggested by Mrs. G. W. Gage because "Mary Adams" was the ancestor of several of the charter members.

It was interesting to note that in this resume that in 1911 Mary Adair entertained the State Conference, the meetings were held in the Opera House and the lunches were to be served in the Army, but there was no water in the Army, so accommodations were made to the City Council asking that water be put in, so Council had water put in at the request of and for the convenience of Mary Adair Chapter.

Mrs. J. R. Carson, Publicity Chairman.

REPORT BIG BUSINESS

Nash Automobile Manufacturers Report Wonderful Business in their Cars—Advertisement in this Issue of The News.

The Nash Motors Company, in closing their books for September, report a volume of business greater by 83 per cent than that of September 1924. "The past month," says E. H. McCarty, General Sales Manager, "was the thirteenth consecutive month to show a substantially material gain over the corresponding period of the previous year. The number of cars shipped in September was 10,144. This is but 331 cars less than the August total of 10,475—and August rolled up the biggest monthly volume in all Nash history. September, however, having one less working day than August, actually established itself at the peak of greatest daily production since our company was founded.

"During August and September there were produced and sold 20,989 Nash cars. This constituted over 39 per cent of our entire business for the year 1924. It will be noted in their advertisement appearing in this issue that the increase in business in June was 1.2 per cent. This small increase was due to the fact that the manufacturers arbitrarily halted to bring new models into production.
