Some of the glands to re-

stream. Of these, the thy-

Hypophysis, and the sex

nomen: in animals the effect is
even less pronounced. The meta-

bic rate, or in other words, the

rate with which the body uses

fat formation.

removal of the sex glands

often makes the animal

stamina. In some cases the effect

lowered by the removal of these

glands is so slight that it is

responsible for the increase

in fat when this does occur. Pro-

essor Carlson thinks, 

The part that the thyroid gland

plays is equally obscure and con-

fusing. In some cases fatness

was held to be the result of low

thyroid activity and the claim ap-

peared to be correct when feeding

a thyroid extract corrected the

condition. But the puzzle re-
mained unsolved, when the re-

moval of part or all of the gland

failed to make laboratory ani-
mals any fatter. A great deal

more, experimental work is neces-
sary, Professor Carlson said, be-
fore the effect of these various

factors can be definitely known

and the problem of the fat per-
person solved.

HIGH SCHOOL NEGROES

MAKE STRIKE THREAT

Greensboro, N. C., Nov. 1.—Threat of a strike among negro high school students today was something absolutely new in education in Greensboro. The threat was made by a dozen members of the negro high school junior in a petition presented to Fred Archer, superintendent of all the schools of the city. Just how awful the consequences would be if they were to take their bodies and desert school—they are over compulsory school now. They want to go to college; they said, and said they need such experience laboratory. Mr. Archer is not paying any attention to the threat strike. But some time a compromise was made arrangements for a drain in:

Chicago, Nov. 2.—An unusual shortage of potatoes throughout the country has resulted in extraordinarily high Chicago prices for the produce, in the opinion of local commission men. They predict the price will go even higher. Wisconsin potatoes were quoted at market prices, wholesale, today from $4.25 to $4.50 per 1/0 pounds, while Idaho Russets for this means a wholesale price of about 60 cents per peck and a retail price of $1 to $1.10 a peck.

Commission merchants point to the failure of the farmer to plant half as much of a crop as they did former years, and to the freezing, weather of the past few days which resulted. There is only one-third to one-half the normal crop this year, said one merchant. "In past years the farmers have had big crops and lost money, so this year they determined not to plant so heavily."
CD that the Chapter was organized in 1900, with Mr. J. J. Stringfellow as regent, who remained until her death in January 1923. The name for the Chapter was changed by Mrs. W. W. Tingle became "Mary Adair" was the ancestor of several of the charter members.

The Chester News

Mrs. Aleene Oliphant, city chairman, has appointed the following as members of a committee to assist in the work with the young people: Miss Anne Spake, Madame James W. and W. A. Cnrkill, N. M. Medlin, Sadie Calhoun and Z. V. Davidson.

An invitation has been extended to Mrs. Leroy Spraggins, Jacksonville, to come to Chester sometime soon, to attend a Golden Rule luncheon, which will be given. It is also planned to have a number of Golden Rule teas during the month. . .

FRIDAY, NOVEMBER 6, 1925

P. W. PEMBEE

Wool Dresses

LOCATION—On Calhoun Highway. 1 1/4 miles of Richburg; 12 miles of Great Falls; 14 miles of Lancaster; 15 miles of Chester, adjoining the town of Bascombville.

Egg Laying Contests

are established to show prospective poultrymen that a flock of pullets is a good investment. They want high egg records and want the pens to stay in good condition.

Poultrymen who depend on their flocks for a livelihood must get eggs in paying quantities. This will also affect the sale of Happy Poultry Feeds exclusively.
