Scope and Content Note: **This collection documents the development of Ms. Freeman's career as a writer from 1948 to the 1960s as well as her relationship with various members of her family. The collection is divided into two groups. The first, her personal files, mainly includes family and personal correspondence, biographical materials, genealogical charts and histories and other papers concerning her children. The second group, her professional files, includes Ms. Freeman's prose, poetry, plays and radio scripts as well as correspondence with publishers, editors and Archibald Rutledge, her friend and critic. The subject files consist of reference materials that Ms. Freeman used for story ideas. There is much information relevant to York County history, including the York County Nature Museum, Glencairn Garden and the Catawba Indians. Related material will include the official college records, since Ms. Freeman was involved with Dr. Kathryn Powell's Title I Education project for quality preschool education and since Ms. Freeman is a former employee of Winthrop.**
