Another year has passed and upon the threshold of the new, we desire to emphasize again our intention to conduct our business on the same substantial principle as in the past—a Square Deal for all.

 Christmas place cards. A deli-
 cious dinner was served in courses
 by Misses Ellen Walker, Jennie
 Outen, Ida May Pressley and Lil-
 lie Miss Oubertson.

After dinner the guests gathered in the music room where they joined in singing the old but ever new Xmas hymn, Silent Night. The song was interrupted after a while by the ringing of the door bell, loud and persistent, and in came Santa Claus himself, laden with packages, one for everybody present. The flight of years was apparently forgotten and all seemed to revert to their childhood days in the enjoyment of the toys received.

The hostess then invited the visitors into the living room where tables were arranged for 42, and the chair members remained in the music room for a practice. The Christmas spirit prevailed the air, everybody was in a holiday mood, and the practice proved to be a joyous climax to the evening's pleasure.

Christmas Spirit Running High At The Rodman-Brown Co's. Department Stores

Of all the years of our lives—both young and old, rich and poor, of both races—this is one time of the year that our hearts beat quicker and faster, and the finer qualities of humanity surge to the front—when we get our minds on our Master's birth and feel that anxious desire springing up in our minds to do something for others that shows a love akin to our Maker's love for us. It is our earnest desire that our many friends will at this Yuletide get a larger vision than ever before of the happiness derived from doing for others more than you would have them do for you!

The law protects us in what we are entitled to, but stops short of going out and getting it for us.

Why condemn the girls because they can't cook. Their brothers can't use the duck law either.

Germany wants to translate the Locarno pact to suit her convenience. Germany wanted many things she never got.

Many maiden women are guided by the thought that it is much easier to get a husband than to get rid of one if he doesn't fit.

The men who selected Locarno for making peace did not do so very goodly by picking a place with a pronounceable name.

Agitation grows for eliminating the submargins. Cutting out all of the deep sea stuff would help international affairs.

Nothing is so ridiculous as a bigoted man or woman who tries to appear younger than she is.

Two o'clock in the morning is a poor time for effective argument, and wise wives prefer to be asleep when "the other half" comes in after a night out.

A manuring year is a good gift even if you don't know what all the queer looking things are for.

Tomorrow, 'tis said, never comes, but its bills do.

If a woman's place is in the home where is man's?

The man who cries loudest for justice yelps when he gets it.

ONE MORE WEEK

But one more week remains for Christmas shopping, and it is high time for all those who have not already begun, to start before all of the choice gifts have been purchased by early shoppers.

The merchants of Chester have made extensive preparations to serve the people, of this trade area during the Christmas season and many people have taken advantage of the opportunity to buy their gifts early, but there are also many who have delayed their Christmas purchases.

Those who wait until Christmas are almost certain to be disappointed. They have probably pictured in the mind just what they buy. If they put it off, the blame cannot be shared with anyone.

Business houses of Chester begin early to persuade people to buy. They gave everyone an opportunity to attend to this matter at the customer's leisure, but that time has passed.

The hour has come when a decision must be reached. The Christmas shopping can't be postponed much longer. Every day now is precious. Take advantage of the chance to save time, that the arrangements give you, and DO IT NOW.

stop that CARBON KNOCK

NO-NOX MOTOR FUEL

Carbon knock or motor detonation aside from being annoying greatly reduces power efficiency—combustion taking place before the complete rise of the piston. The mechanical method of correcting such knocks is to retard the spark which again reduces power efficiency. Many gasoline mixtures have been devised which in a way might eliminate the knock but oftentimes the remedy is worse than the ailment.

In NO-NOX Motor Fuel we have the remedy without a single harmful feature—it positively takes the carbon knock out of the motor, and any motorist knows that this means easier and quicker acceleration, smoother running motor and More Power, less gear shifts and generally a more satisfactory operation of the car at a lower repair cost.

The ORANGE gas at the sign of the ORANGE DISC

NO-NOX is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline. We ask you to try it, after that be your own judge.

NO-NOX is priced only three cents per gallon higher than That Good Gulf Gasoline.
