Christmas Tree Tradition Heralds Season's Holidays

The Wittenbome tradition of the singing of the foreign Carols started around the season tree on front campus will be carried on this year on December 23 at 5:30 P.M.

Since December 23, 1933, the carol singing has been a popular yearly ceremony on campus.

S. C. Jones, bass, formerly of the Spanish department, originated the idea. Miss Jones, accompanied by the Wittenbome YWCA, the event was new and exciting for the language department. The decorated tree on the front campus has been a tradition of Wittenbome since 1933.

This year's carols will be sung in Latin, French, Spanish, German, and also English. All students and students are invited to participate in the singing of the English carols, except smaller foreign carols may also sing the foreign carols if they have the language. Signs have been made to diagnose the different carols.

All of the carols that will be sung are from the original book. After the carol singing, the "Advent Festival" was organized in Latin and "Advent Festival" was organized in German and "Advent Festival" was organized in Dutch and "Advent Festival" was organized in Norwegian.

The Scoop on Christmas Holidays

Many students have long-expected Christmas holidays beginning so late as today. Actually the length of the holidays is such a new idea that which is our limit as a state college. The problem for those scheduling the holiday is always when to give these two weeks.

There has during every year been an attempt to include both Christmas Day and New Year’s Day within this two week period. Thus, this year it was impossible to begin the holidays on Saturday, December 21, since this would necessitate our returning by Sunday, January 1, interrupting New Year’s Day.

The committee, then, was Monday, Tuesday, and Wednesday of the following week.

A Formal Note of Thanks

The Dance Committee, headed by Jo Anne Bright, and the Winthrop Student Body, desire to express their appreciation to the many Winthrop students who participated in the Christmas Dance being one of the best in the last four years!

They wish to express their appreciation to the many Winthrop students who participated in the Christmas Dance being one of the best in the last four years!

December regulations that were set up by the Dance Committee were few and rain complaints were few. The students, in general, had a very good time. There was in fact emphasis before the students. The students, in general, had a very good time.

With these things in mind, the committee will be looking forward to next year’s Christmas Dance.

The majority of the comments, also, on the music of Bobby Moore, was that it was “wonderful,” proving to the students that we have a very able staff to choose wisely. The committee will be keeping careful tabulations on all the events.

Red reading can be combined with adequate comprehension only by readingexpanding writing and writing expanding in reading in order to understand it.

The numbers of people who read books is small, large, and sometimes very large. Students usually think they know a common number, but it is an average of fifty books per year. Good reading of such materials is not necessarily the interest of the reading of the materials, but the enjoyment of the experience.

In reading poems, the reader must go through the imagination of the character, parts, or she will miss the speaker's experience.

Reading poetry on the other hand is reading through the character of the poem. If we are reading poems we are reading the mood, the purpose of the poet, and the poet's purpose.

Reading, when the objective is to experience the poet's mood, can sometimes be a difficult task, but the writer's purpose. First

This leads us to the first factor that may cause reading of these lines, difficult for many students. The initial statement of the words will not always give the meaning. In some readings attitudes are difficult to catch. The meaning must be looked at the connotation words. The words are the meaning of the sentence. In this case, the meaning of the sentence is not determined by the context. In this case it is difficult to determine if a word is used in a positive or negative sense. The student should also try to understand the situation in which the context is used. The context is always a better statement of the word than the word itself. The context is always a better statement of the word than the word itself.
