Rebuilding your tomorrow tonight's Meadow will be the theme for Jane Gray Kennerly, the 1958 Queen of May. Deryl Dempsey, maid of honor, will hold court with Queen Jane. Members of the Queen's court will entertain, "The Little Goldens," with an original song, "The Little Goldens."
Handpicked Handbook

If you haven’t seen it, you soon will... the Handbook is looking for you, and a glance at its colorful pictures will tell you why. We can all visualize the inside pages, the thousands of words, the pages of citations... it’s all there. But the Handbook is more than just the printed words. It’s the foundation for all that we stand for, the solid base on which we build our future. The Handbook is the cornerstone of our shared heritage.

We realize that the Handbook is given a handiwork, a handiwork that is valued and respected. Consequent-ly, we must ensure that it is held in the highest regard by all who handle it. To be sure, the Handbook is a valuable resource, one that can take a toll on the mind if not used properly. In order to protect the Handbook from such a fate, we are making every effort to ensure that all who handle it do so with care and respect.

It’s How You Use It That Counts

Time is the most important element in life. It is the single factor that determines our success in completing tasks, overcoming obstacles, and achieving goals. It is the reason why we have deadlines, and it is the reason why we must work hard to ensure that we make the most of our time.

In this regard, the Handbook serves as a valuable tool. It provides us with the information and guidance we need to make the most of our time. It is a reference manual that we can consult whenever we need help or guidance. It is a source of inspiration and motivation that we can turn to whenever we need a reminder of what we can accomplish.

However, it is important to remember that the Handbook is not a magic wand. It cannot substitute for hard work and dedication. It cannot replace our own efforts and determination. It is a tool that we can use to achieve our goals, but it is not a substitute for our own actions.

With Grateful Thanks

This semester’s assembly program has been a great improvement over previous ones. It has been a success because it has been designed with the students in mind. The Planning Committee has taken into consideration the needs and desires of the students and has worked hard to ensure that the program is enjoyable and informative.

The audience has responded positively to the program, and the feedback we have received has been very encouraging. We are grateful to everyone who has contributed to the success of this program, and we look forward to continuing to improve the assembly program in the future.

RAMBLING WITH GARVIN

By Eva

Today, as in the past, when you look back on it, you see the whole thing in a single, unified picture. It’s like looking at a book in one continuous, uninterrupted view. The story is complete, the plot and the characters are all there, and the sense of the whole thing is clear. You can see the beginning, the middle, and the end, and you can see how everything fits together.

It’s not the same as looking at a page in a book, where you have to turn the page to see what happens next. It’s not the same as looking at a series of pictures, where you have to look at each one to see what’s happening. It’s not the same as looking at a movie, where you have to watch each scene to see what happens next.

It’s a different kind of experience, and it has a different kind of impact. It’s like looking at the world from a different perspective, like seeing the world through a different set of eyes.

A Collection Of Thoughts —

What is beauty? Clues are given in a gray world of interpretation, where the only thing that is certain is uncertainty. If the Handbook is a guide to the student, then the Handbook is a guide to the student’s journey. It is a guide to the student’s life, and it is a guide to the student’s future.

The Handbook is a collection of thoughts, experiences, and ideas. It is a guide to the student’s journey, and it is a guide to the student’s life. It is a guide to the student’s future, and it is a guide to the student’s success.

We are grateful to everyone who has contributed to the success of this program, and we look forward to continuing to improve the assembly program in the future.

THE WHITE BOX

Dear White Box,

For a long time I’ve noticed a certain amount of consternation on this campus by musical members of the fraternity. They have been scheduled for work when several events have been planned in the same week. When we discovered and expressed our concern, we were met with the defense that the fraternity has a duty to the campus community. We were told that the fraternity has a duty to the campus community, and we were told that the fraternity has a duty to the campus community.

The fraternity has a duty to the campus community, but it is not the only duty that the fraternity has. The fraternity also has a duty to its members, and it has a duty to its own members to provide them with a meaningful and enjoyable experience.

It is the responsibility of the fraternity to ensure that its members have a meaningful and enjoyable experience. It is the responsibility of the fraternity to ensure that its members have a meaningful and enjoyable experience. It is the responsibility of the fraternity to ensure that its members have a meaningful and enjoyable experience.

We, the brothers of the fraternity, are concerned about the time and energy that is being spent on other activities. We are concerned about the time and energy that is being spent on other activities. We are concerned about the time and energy that is being spent on other activities.

Miss Lochhead Represents Winthrop At D.C. Convention

By JOYCE VEREX

Miss Denise Lochhead has recently added a few more enviable
her reputation with world travel.

This last excursion was a trip to the national meeting of the Associate
of China for Education.

Miss Lochhead and her two companions—Miss Alice
Leech and a friend, Miss Berry Al-
field—left for Washington on
Thursday, March 28. The journey
involved a three hour flight to the
District, N. C. city and a good deal of sight-seeing along the
way.

Arriving early in Washington, the travelers had the opportunity
inquired to attend several governmental
sessions in the Captiol. These sessions were to change from
the afternoon to the evening. This was the case
with Ferber Road Hospitals.

Miss Lochhead was quite im-
pressed with the service. It was
back in the American fashion. The
people were in a mood of seriousness and leisurely pace.

Still, the conference was a useful
experience, as Miss Lochhead and her friends secured
a new perspective on the World's
