It has been accepted for inclusion in The Johnsonian 1950-1959 by an authorized administrator of Digital Commons @ Winthrop University. For more information, please contact bramed@winthrop.edu.
Pres. Sims Invites High School Students To Investigate Winthrop's Program And Facilities

This special edition of The Johnsonian honors the fine-hallmats of many high schools in South and South Carolina. It is being mailed to the young women members of the grade of Senior Class of many schools who are about to graduate.

We hope that the greater part of these seniors through-out the Carolinas will be able to appreciate their education at the present time. We also hope that some of the students who have been unable to attend high school will be able to participate in this special edition.

Quaintly natural, therefore, Winthrop College would be for many graduates to know something about the advantages they may gain by attending high school and the opportunities for a high level training. A careful reading of the pages of this issue will give some insight into Winthrop College, as it operates and advances young women for a more complete happiness and success in life.

When a person buys an automobile, he or she usually shop the market, examine the various makes, priced prices, then selects the car which seems to be most satisfactory for his or her needs and demands.

Similarly, Winthrop students should be able to shop the market, examine the various schools, priced prices, then select the car which seems to be most satisfactory for her or her needs and demands.

However, his favorite appointments are with members of the student body who come to him with a problem or merely stop by to get acquainted. In the picture above, Dr. Sims is talking with Cecily Baldwin of Columbia, a Winthrop freshman.

20th Edition Of Miss Hi Miss Honors

The 1937 special edition of The Johnsonian, weekly student newspaper at Winthrop College, marks the 20th anniversary of the Miss Hi Miss program at the South Carolina College for Women.

This Miss Hi Miss edition honors more outstanding North and South Carolina high school girls than ever before in its history.

Displayed on the cover of this edition are pictures of 200 girls elected from their schools on the basis of scholarship, leadership, character and personal attractiveness.

Two hundred and twenty-three are from South Carolina and 77 are from schools in North Carolina within a 250-mile radius of Rock Hill.

Winthrop College and the staff of The Johnsonian extend their congratulations to these outstanding young women. It is hoped that all 200 of them will be able to attend the college's special weekend in their honor.

Continued on page 26 March 25, 30, and 31.

THE JOHNSONIAN

WINNINGTON'S ROLE IS ONE OF SERVICE TO STATE, NATION

Winthrop College, located in the picturesque small town of the Carolinas, has served the young women of the state and neighboring North Carolina for over 70 years. Founded in 1886, Winthrop College became a state-supported institution for young women in 1891.

Because of its support from the South Carolina General Assembly, Winthrop is able to offer a strong academic program with the most modern educational facilities to the students at relatively small cost. Student fees are less at Winthrop College than at any other college for women in the state.

Winthrop is a member of the Southern Association of Colleges and Secondary Schools, the Association of American Colleges, the American Council of Education, the South Carolina Association of Colleges, the National Association of Schools of Music, and the National Commission on Accrediting.

WINNINGTON'S MARCHAL:--For more than 25 years, the outstanding members of the junior class have served the college as marshals. Selected for the high honors are juniors who have average or over. Winthrop's honor roll class represents higher honors for high school students. Each student is given a special medal and a certificate of achievement.

Winthrop's annual meeting of the marshals takes place in about the first week of April and consists of the marshals reporting for the previous year's work and the selection of new marshals.

Dean Lawrence of Lake View, Area Director of Columbia, has a long list of honors for Winthrop. She is a member of the Association of American Colleges, the American Council of Education, the South Carolina Association of Colleges, the National Association of Schools of Music, and the National Commission on Accrediting.
Carnegie Library Plays Large Role In Lives Of Students Here

One of the first places a freshman entering Winthrop College spends time in is the Carnegie Library, located on the west end of the campus between McMillan and Reedy Halls.

The Library plays an important part in the life of every student. It is not long after entering Winthrop that the student finds his way to the Library. There, in the quiet seclusion of the study booths, reading room, and shelves from the silent nourisher, he finds the library a quiet place for serious and meaningful study.

Shelves, study carrels, reserve tables, and classrooms lending light are all enhanced by a fine music box, and the composing of a fine tapestry, is the complete delight of the student. The Library has a collection of over 20,000 books and contains some of the most valuable government documents. In addition, the Library has microfilm and micro-reproduce the holdings of the class and information.

Besides providing books for reference, research, and study for the undergraduate and advanced student, the Library has books for leisure reading.

Winthrop students have always been granted the privilege of borrowing the open stacks of the Library, and this privilege permits the student to become familiar with the library's privilege of the best in any subject.

The staff of the Library is alert and well trained. They are always on the job, prepared to help or give advice.

The Library provides another service to the campus in its exhibits. These are often nature facts, historical facts, or general and international events.

Winthrop also exhibits famous paintings and works of famous writers.

The Library is used quite frequently by all Winthrop students.

Librarianship Offers Numerous Opportunities

In a library a student can find a career. Students are engaged in the library as a career. Students may register for either the B.A. or B.S. degree. Courses offered by the Department of Library Science meet library training standards of the American Library Association and are accredited by the agency and the South Carolina Board of Education. The students above are shown in a class in children's literature.

The Library offers to students who would like to combine library work with teaching.

Winthrop College offers a major in library science for students interested in librarianship as a career. Students may register for either the B.A. or B.S. degree. Courses offered by the Department of Library Science meet the training standards of the American Library Association and the South Carolina Board of Education. The students above are shown in a class in children's literature.
COMMERCE STUDENTS AT WINTHROP are trained to use all types of office equipment which they will be using after graduation from Winthrop when they become secretaries, stenographers, and teachers.

Four-Year And Two-Year Courses Are Available To WC Commerce Students

Winthrop College's Department of Commerce, located on its campus, has been described as one of the finest in the nation. The department prepares the four-year graduates for business or law teaching positions, and the two-year graduates for several other careers.

The department offers a four-year curriculum for students desiring a Bachelor of Science degree in Business Administration. The curriculum includes courses in business administration, economics, accounting, and mathematics.

The department offers a two-year curriculum for students who do not plan to attend college.

Pionist Claude Frank Gives Program At Winthrop Assembly

A program at Winthrop College was presented by Claude Frank, a well-known photographer. Frank's photographs were displayed in the college's assembly room.

TWO OUTSTANDING WINTHROP COLLEGE students received certificates in the two-year commerce curriculum. Demands by business and school systems for Winthrop commerce graduates are high, and the department always has fewer graduates than there are job opportunities through the Winthrop Placement Bureau. The students above are operating an electric typewriter, a calculating machine, and a microfilm machine.

FINE ARTS FIELDS OFFERS VARIED COURSES

Fourteen courses are offered in the department of fine arts. Designed to serve all members of the Winthrop College student body desiring such courses, the classes may be taken as electives as well as the credit courses for the major or minor in fine arts.

The department is one of the major fields in which a student may begin taking courses in her freshmen year. The department has something to offer every student, whether majoring or non-majoring.

Courses are available in the fields of commercial art, ceramics, crafts, painting, photography, sculpture, and art education.

Winthrop students may take 13 hours of studio courses during her freshman and sophomore years. Three courses include figure sketching, the history of art and drawing, design and color, painting, and sculpture.

The art major at Winthrop emphasizes art history and theory and studio equally.

CERAMICS STUDY

Ceramics is one of the fine arts fields which offer many practical, career opportunities.

A basic course in ceramic practice, including experience in creative problems and studio practice in technical aspects of ceramic materials, offers a broad range of courses available is made possible by the purchase and use of studio art equipment and the furnishing of adequate space for the college. Available are the entire third floor of the Administration Building used for laboratory and classroom space for the fine arts department.

WINHURP COLLEGE IS ONE OF THE FIRST COLLEGES IN THIS AREA TO OFFER PHOTOGRAPHY AS A COURSE IN THE DEPARTMENT OF FINE ARTS. STUDENTS AT PHOTOGRAPHY HAVE ONE HOUR OF LECTURE AND FOUR HOURS OF WORKSHOP EACH WEEK. THE COURSE IS Taught BY PROFESSOR WILLIAM B. COLVIN, HEAD OF THE DEPARTMENT.

COURSES IN PAINTING AND COMPOSITION are among the numerous selections of courses offered by the fine arts department. Pictures are set out to

THE STUDY OF CERAMICS which has recently made great strides in South Carolina has attracted the interest of many Winthrop students. Rose Marie Joines of Dalton, a minor in the fine arts department, is shown pouring the slip into the mold. The slip is mixed in an electric mixer and poured into the mold by handest.

MAYBE IT'S HARD TO BELIEVE but the student at left is painting a free-hand picture of a vase. At right the student is playing her voice into the slip because a vase will take the clay.

TECHNICS, MATERIALS AND TOOLS are familiar subjects which are taught by the faculty of the fine arts department. At left Patricia Pringle of Rock Hill is painting a free-hand picture of a vase. At right, the student is playing her voice into the slip because a vase will take the clay.

Dramatic Art Department Progresses Rapidly

By WILLIAM L. LONG
Head, Department of Dramatic Art

The dramatic art program at Winthrop College is to present an extensive range of productions that will provide a valuable background for students who specialize in this field. The department's productions are designed to engage students in various aspects of the production process, including acting, directing, and technical aspects.

The department offers a multitude of opportunities for students to participate in a variety of productions, from small scale to large scale, and from original works to adaptations of classic plays. The productions are designed to provide students with a comprehensive education in the field of dramatic art, with an emphasis on developing technical and creative skills.

Students are encouraged to participate in the productions, regardless of their level of experience. The department offers courses in acting, directing, and technical production, and students are able to work in various roles throughout the production process.

Choral groups and dramatic groups present a variety of productions throughout the year, and students are invited to participate in these groups. The department provides opportunities for students to develop their skills, and to explore the many aspects of dramatic art.

The department also engages in community outreach, with productions taking place in various locations on and off campus. The department's productions are designed to provide entertainment and to engage audiences in the world of dramatic art.

The Johnsonian Proudly Presents The Miss Hi Misses Of South Carolina

UPPER DEPARTMENT: Mrs. Lowndes of Green, president; Martha Veith, business manager; Mrs. Charles C. Jenkins, secretary; Mrs. R. D. Lowndes, editor.

The Johnsonian, has presented nine major productions since its establishment in the fall of 1952. The last held production was made up of an excellent group of students, both male and female, who produced and performed in the play "Shakespeare's Merry Wives of Windsor." The production was "Shakespeare's Merry Wives of Windsor," and will be presented twice a week until the last of October.

Mr. Johnson has been familiar with the Johnsonian for over two years. He will continue the school's tradition of excellence in dramatic arts.

The new production, "Shakespeare's Merry Wives of Windsor," will be presented twice a week until the last of October. The last held production was made up of an excellent group of students, both male and female, who produced and performed in the play "Shakespeare's Merry Wives of Windsor." The production was "Shakespeare's Merry Wives of Windsor," and will be presented twice a week until the last of October.

Mr. Johnson has been familiar with the Johnsonian for over two years. He will continue the school's tradition of excellence in dramatic arts.

The Johnsonian Proudly Presents The Miss Hi Misses Of South Carolina

IN EARLY DECEMBER, students of the home economics department presented a fashion show in which every student, as part of a required course, made a dress and Thusles with the latest in home appliques. In addition, both economic students study consumer education which today is more intelligent buyers.

THE TEST IN MODERN equipment is available to the students of the high school. This equipment simulates the student with the latest in home appliques. In addition, both economic students study consumer education which today is more intelligent buyers.

SPENDING SIX WEEKS in the home management house. The year prior gives home economics students an opportunity to put into practice the theories of home making which they learn in the class and laboratory work. Above, Gwendolyn Nettles Gantt, president of the home management house, is shown working on a project. She and her group have decided to make a house in South Carolina with a famous architect and builder. They will carry out their plans in the home management house.

CLOTHING AND TAILORING courses are very important in the home economics major. Margaret Burgess of Lancaster is shown pressing her material before sticking the parts together.

WESTHROP COLLEGE is the only institution of higher learning in the state to have a survey school associated with its home economics department. Students who wish to go into work with preschool children observe and practice in the nursery school, which is attended by a limited number of Rock Hill children.
Modern Equipment Is Feature In Home Ec

THURMONT HALL AND NURSERY SCHOOL BUILDING
Department of Music Serves Large Number

Conservatory of Music Is Well Staffed and Equipped to Serve Winthrop and the State

By MRS. ESTHER SEOG COULANCE

The department of music at Winthrop College is a member of the National Association of Schools of Music and is prepared to provide all the courses of study and degree requirements to conform with the high standard of that organization.

The department of music is the largest department at Winthrop College, being located on the second floor of the Johnsonian Building. The main music room, located on the second floor, is the largest room in the building, seating 200 students. The music room is equipped with the latest in musical equipment, including a large pipe organ, a piano, and a variety of percussion instruments.

The music department offers a variety of courses, including music theory, music appreciation, and music history. The department also offers a music major and music minor program. The music department is staffed by a full-time faculty, including professors of music theory, music history, and music performance.

The music department is also equipped with a recording studio, a practice room, and a rehearsal room. The department also has a music library, with a collection of music books, sheet music, and recordings.

The music department is well-respected, with a number of alumni who have gone on to successful careers in music. The department is also well-supported by the community, with a number of local orchards and bands performing regularly on the college campus.

The music department is an integral part of the Winthrop College community, offering a wide range of music courses and opportunities to its students. The department is well-equipped and well-staffed, and is well-respected by the community.

The department of music at Winthrop College is a valuable resource for the college and the community, and is an important part of the Winthrop College experience.

Extra-Curricular Music Activities Are Many

ADDED A TOUCH OF glamour to the Winthrop College Band is the group of majorettes. Shown, left to right, are Jackie Stovall of Lancaster, Ann Shillinglaw of Rock Hill, Peggy Burgin of Myrtle, N. C., Myrna Allen of Orangeburg, Betty F Alt of Ocean Drive, Ann Mielchirch of Rock Hill, drum major; Jo Anne Goolsby of Hartsville and Barbara Austin of Newberry.

WINSCPRA'S MARCHING BAND prepares to provide bold thematic introductions to the college assembly hour. Shown above taking part in the Winter Scene which presents the North Carolina All-Star football game is Clarence C. D. S., North Carolina College of Agriculture and Home Economics. The Winthrop Band serves as a representative of the Rock Hill Schools.

VOICE STUDENT Anna Shillinglaw of Rock Hill receives a lesson from Mr. E. Wood Leonard Jr. of the music department faculty. Music students are concentrating in viola, piano, pipe organ, violin, instrumental and public school music.

MANY HOURS OF practice are necessary before a public appearance of the Winthrop Band. Members of the Band practice three a week. In addition to their marching appearances in parades, band members also present programs during the college assembly hour. Shown, left to right, are Melvyn Austin of Latta, Ann Shillinglaw of Rock Hill and Barbara Segments of Dillon.

ANOTHER PHASE of the annual South Carolina High School Music Festival is the piano events. District music festivals are held each year throughout South Carolina, and the musicians who receive top ratings in their districts take part in the State Festival sponsored annually by the Winthrop Department of Music.

THOUSANDS OF BAND members from the high schools of South Carolina take part in the annual South Carolina High School Music Festival where they receive ratings in sight reading, concert and marching performances.

MUSICIANS GIVE PUBLIC PERFORMANCES

QUALIFIED STUDENT SINGERS from the Winkham College Choir, Class I, compose 12 of students singing in the group for the last year, and Choir II is the original group of music performers.

The Choirs are under the direction of Miss Katherine Pikes of the department of music. These present two concerts each year at the college and make a tour of the state each spring.

FALL MUSIC CLINICS at Winkham covered the district and State High School Music Festivals with the Falls Church and Abingdon choirs. Mr. George F. Koons of Indiana University directs the choiral clinic.
WINHURP OFFERS MAJOR IN JOURNALISM

By CALLIE ATKINSON

Winthrop offers a major in journalism. The curriculum includes courses in writing, reporting, editing, advertising, and public relations. Students have the opportunity to work on the college newspaper, The Johnsonian, and contribute to other publications on campus. A Bachelor of Arts degree is offered.

STUDENTS MAJORING IN JOURNALISM at Winthrop include Barbara Johnson, a junior; Joyce Peek, a senior; and Caroline Knight, a sophomore. Barbara Johnson is pictured with her hometown newspaper, the Abbeville News. Joyce Peek is pictured with her hometown newspaper, the Spartanburg Herald. Caroline Knight is pictured with her hometown newspaper, the Anderson Independent.

PRINCIPLES IN NEWSPAPER editing are illustrated by the Winthrop yearbook, a publication produced by Mr. Robert Merrick, professor of journalism. The yearbook provides a laboratory for students in the journalism department.

The Johnsonian proudly presents The Miss Hi Misses of South Carolina.
P. E. DEPARTMENT MUST MEET NEEDS OF ALL

It is the role of the physical education department to prepare the minds of the physical education majors, and the students of all other departments who take this recreational sport, and to supply some of the physical co-requisite needs of the student. A well-rounded curriculum is available to the physical education majors.

The student's schedule is organized and supervised so that the students are able to develop essential qualities of leadership, to master some of the recreational sports, and to develop the skills and knowledge they will need while working in their chosen professions.

Many of the major requirements for majors' completion are to satisfy the skills they must serve as professional at Winthrop Training School.

During the summer many of the majors work as counselors at camps or are employed by recreational departments.

For the non-majors, four semesters of physical education are required. From the courses offered, the student must acquire, tennis, track, basketball, and recreational activities. At four years should be sufficient in the four semesters' work.

Sports include volleyball, speedball, hockey, and swimming.

As an individual sport students might select from swimming, tennis, golf, soccer, and badminton.

The aquatic Winthrop offers beginners' swimming, high and low intermediate swimming, elevated swimming, and life saving.

Costumes in rhythm include baton dance, country dance, modern dance, tap dance, and social dance.

Courses in each course as camp leadership and social recreation are constantly called upon in practice and recreation of campus groups and in sports and social activities.

Such a giving is in the tradition of Miss Julia Pott, head of the department, since the entrance of last year's Miss Hi-More Shrine during the winter.

The gymnasium is utilized with a modern, basketball court, bowling alley, and a swimming pool. Located near the gym are the tennis courts, outdoor rink, tennis court, and outdoor pool, and in athletic field for soccer, softball, and other outdoor sports.

The gymnasium is open to the summer pool, and the facilities at the gym are open to students.

A $25,000 addition to Winthrop's Physical Education building is being planned by officials of the Southern College College for Women.

Anticipate for the addition are roofed locker, and Gift of Florence, the same for women, as given to Winthrop. Plastics Hall, Th containment Hall, and Johnson Hall, all in the only building, will provide the space of Winthrop's central administration and activities. A social room, an activities room, student lounge, faculty offices and a receiving room.

Members of the Modern Dance team in cooperation with the Winthrop College Choirs presented a special Christmas program before the holiday season from the program are shown above.

In the gymnasium which will double the present space. A swimming pool with rec-tile design is located on the first floor of the present structure.

A CHORAL AND DANCE version of the Night Before Christmas highlighted the social production of the modern dance group and Winthrop Choirs before the holidays. Appearing in the roles of the author and mother were, left to right: Larry Halfman of Rockford and Lilian Seller of Florence.

The aquatic group is not restricted to majors. Below, a group of physical education majors which they themselves prepared.

PHYSICAL EDUCATION courses offer plenty of fun with the cheerleaders. Students with excellent scores by making the air a success. A swimming show which attracts a large audience.
The Johnsonian Proudly Presents The Miss Hi Misses Of South Carolina

All Women’s Sports Offered By P. E. Department

Courses in tennis are offered for students whether they are beginners, intermediate or advanced in tennis ability. In the afternoons many other students enjoy matches on the nine courts located near the gymnasium. In the fall, the Winthrop Recreation Association sponsored a tennis tournament between each of the six student dormitories.

One of the highlights of the Christmas season at Winthrop is the display of various types of Christmas crees made and donated by the students in the physical education department studying social recreation. In order to have a well-rounded program of physical education, it is suggested that students who take four semester of credit in the department take a tennis sport, individual sport, dance and swimming course.

Whether outdoors or indoors there are many sports from which students may choose in which to participate in order to remain active. The photographs above show students at speedball and basketball and a group of hammers who entertained recently at the Fort Jackson Hospital.

Adjacent to the gymnasium is a large athletic field on one side and the tennis courts on another. Nearby is the archery range which is used also as a swimming pool when the life guards are on duty. More advanced students may be found in diving, tennis and water games. Another student gives a special water show each year.

The indoor pool of Peabody Gymnasium provides for courses in beginners, intermediate, advanced swimming and life saving training. When not in use by the swimming classes, other students may use when the life guards are on duty. More advanced swimmers may be found in diving, tennis and water games. Another student gives a special water show each year.

The gym addition being constructed will double the space now in use by the department of physical education. Students above are shown at speedball and volleyball.
Students who plan to be teachers will plan their college work to include practice teaching their senior years. In teaching as in almost every field of work, experience is the thing that counts.

Every Winthrop graduate who expects to meet South Carolina teaching requirements must have a total of 50 hours of experience. And so originated the familiar phrase among seniors: "I'm practicing teaching this semester."

Practice teaching for most seniors means a period every day during the school year at the Winthrop Training School, a school established by the Winthrop Training School corporation for the purpose of training Winthrop students for teaching.

For others, including some home economics and commerce majors, it means going to Rock Hill High School, or teaching in other towns for six weeks during the summer. It is a new experience. To become a teacher after 10 years as a student is a beginning as well as an interesting experience.

The most frequent reaction among practice teachers is, "What if I'm not a good teacher?"

Practice teaching is the only thing that keeps you going after a bad day in the classroom. It does no good to hear him say that he has had bad days too."

"Bad" days are days when everything goes wrong. The practice teacher looks back on them as part of the game and finds it easy to keep his records after a pep talk during assembly.

Continued on page 25

FUTURE TEACHERS AT Winthrop College receive actual teaching experience at Winthrop Training School located just across the street from the college. The Training School has 40 rooms including an auditorium, gymnasium, laboratories and classrooms for the kindergarten, the grades and high school. There is special equipment for the teaching of manual arts, household science and homemaking. The question Training School campus provides a playground for the W. T. S. students.

THE PROPER EDUCATION of the speech is serious business, and the teacher-training program at Winthrop College is geared to meet the needs of the state for properly trained teachers. All Winthrop teachers are trained for nursery school, kindergarten, elementary school and high school. Student teachers at the Training School are supervised by the teaching staff of the school. Students in home economics teacher-training do their practice teaching in schools near Rock Hill High School in association with the college's training program. Above, enter Ana Combs at Rock Hill is teaching in the Winthrop Training School.

THE HEAD of WINTHROP'S department of education is Dr. M. L. Story who is an authority in the field of education. Dr. Story heads the schedule of courses, a senior elementary education major, and the plan of courses to meet requirements for teacher certification.

Students at Winthrop College have the opportunity to gain experience teaching in Rock Hill High School, or teaching in other towns for six weeks during the summer. It is a new experience. To become a teacher after 10 years as a student is a beginning as well as an interesting experience.

The most frequent reaction among practice teachers is, "What if I'm not a good teacher?"

"Bad" days are days when everything goes wrong. The practice teacher looks back on them as part of the game and finds it easy to keep his records after a pep talk during assembly.

Continued on page 25

WORKING with children can be fun as well as hard work, and a period of practice teaching also gives the Winthrop student an opportunity to find out whether the enjoys teaching and if she wants to make teaching a career. The photograph at right is a scene from the Winthrop Training School.

Variety Of Fields Are Open To Majors In Science

The Winthrop College department of biology offers numerous courses which enable to make courses to prepare students for careers in medicine, dentistry, veterinary medicine, or teaching. Majors may choose one or more fields of concentration, including biology, zoology, botany, genetics, and physiology.

Winthrop College offers training in chemistry leading to the degree of Bachelor of Arts. The chemistry major, while providing the standard major in the liberal arts, also offers, with a proper choice of courses, adequate training for graduate work in the field or for the practice of professional chemistry at the bachelor's level.

In addition, it provides a suitable major for those students planning to attend medical school, become laboratory technicians, teach, or pursue graduate programs in fields related to chemistry. It is suggested for students who plan to attend graduate school in professional work in chemistry, that they elect mathematics courses through calculus and German or French as their foreign language.

The normal sequence of courses for the major includes general chemistry, qualitative and quantitative analysis, organic chemistry, and physical chemistry. Electrical engineering and physical chemistry, students may take a general science minor of 14 semester hours, including all three hours of the introductory physics course and seven hours of the fields of biology, zoology, and genetics.

A major in chemistry consists of 32 semester hours. A major in physical sciences consists of 14 semester hours of chemistry, six semester hours of physics, and six semester hours of geology.

The chemistry department is housed in Tillman Hall. Tillman Hall has its own library of science books and some of the best current, immediately, in the world in the field.

This department sponsors Zeta Alpha, the honorary chemistry fraternity. Students elected in membership to the organization are those who have a "B" average for four semesters taken in chemistry.

This fraternity is in the process of developing individual ability stimulating scientific interest and engaging practice applications of chemical research.

Each year members of Alpha Delta Mu field trips to various laboratories and plants within North and South Carolina.

Tillman Hall home of the sciences

Biology students take a course in the anatomy of the human body from a cat. The student of the cat's circulatory system and heart, with brain, eye, and twitch. This course is also taken by physical therapy majors. Pictured above, left to right, are Wilma Kirkpatrick of Bishopville, Ray Anderson of Laurens and Beverly Clark of Wateree.

National Society Officers-Winthrop College biology professor and secretary-retiring in biology teaching in the upper 30 years of the class are invited to join Beta Beta Beta, a national honor society for biology majors. Officers of the organization are, left to right, Barbara Thrust of Sumter, minister of the Winthrop College biology department, and President, Dorothy Veal of Sumter, president of the biology department.

In a class laboratory in organic chemistry, Linda Woman of Spartanburg, a junior science student, practices an electron determination. Students preparing for future careers in organic chemistry jobs are often required to take various classes in chemistry. In the general laboratory two of these classes are included in the major.

A senior zoology major, Miss Myers of Spartanburg, studying in an organic chemistry lab. She is doing the photo which shows the end of a salt solution of a substance.

By Margaret Heitz, head of the department of biology at Winthrop, assistant of the students with the direction of a dogfish in a class in zoology.
Student Government Is Vital Campus Group

THE PRESIDENCY of the Winthrop College Student Government Association is the highest position to which a student of the South Carolina College for Women can aspire. The president is the highest-ranking student official on campus and serves as the president of the SGA at Winthrop. The office is open to all students, including those majoring in English, mathematics, or any other discipline. The president is elected by the student body and serves for one academic year.

Under the leadership of the student president, the Student Government Association (SGA) is the official representative of the student body and is responsible for the organization and operation of student government affairs. The president of the SGA is the highest-ranking student official on campus and serves as the president of the SGA at Winthrop. The office is open to all students, including those majoring in English, mathematics, or any other discipline. The president is elected by the student body and serves for one academic year.

The president is responsible for the organization and operation of student government affairs. The president is elected by the student body and serves for one academic year.

A MOCK ELECTION with its campaign speeches, posters, and an actual vote was held on the Winthrop campus this fall to promote student interest and participation in the election. The Democratic and Republican candidates were selected by the student body, and the campaign speeches were given by students representing each candidate. The election was open to all students, and the results were announced on the day of the election.

W. C. A. Meets Spiritual Needs Of Students

The Winthrop Christian Association attempts to meet the spiritual needs of the students by sponsoring various activities such as prayer services, Bible studies, and worship services. These activities are held throughout the year in the College Union. The purpose of these activities is to provide a focal point for students to gather and reflect on their faith in Jesus Christ.

The WCA also sponsors a yearly Religious Emphasis Week program where speakers are invited to address the students on various topics related to religion. The speakers are chosen from different Christian denominations and are invited to share their insights and experiences with the students.

Special Prayer Is Adopted By Students

The WCA is a non-denominational student organization that encourages all students to participate in spiritual activities. The WCA organizes various events and activities to promote spiritual growth and development among the students. The organization is open to all students regardless of their religious affiliation.

Guest Speaker For The Winthrop Religious Emphasis Week Program this year is Dr. Carl Michelson, a member of the faculty of Drew Theological Seminary. Dr. Michelson received his Ph.D. degree from Yale University and has also served as the Dean of the Graduate School at Drew. Dr. Michelson has also directed Religious Emphasis Week programs at several universities.

The WCA organizes various events and activities to promote spiritual growth and development among the students. The organization is open to all students regardless of their religious affiliation. The WCA is a non-denominational student organization that encourages all students to participate in spiritual activities.
Recreational Activities Are Many At W. C.

The Johnsonian Proudly Presents The Miss Hi Misses Of South Carolina

A GAMEFACE PLAYER in Washington's annual list Wednesday's game set up a pass to a quarterback during the half time game that saw Workmen students representing the University of South Carolina Gamecocks score the winning touchdowns in the final minutes of play in the 1:54 from the Clemson Tigers who had won last year's game.

The Johnsonian proudly presents the Miss Hi Misses of South Carolina with the most by the Workmen Training School Band and due to the Petting Rifle for a reasonable inclusion thereon. Before Thanksgiving the W. R. A. sponsored a Turkey Chase with students from each dormitory competing in running, jumping, throwing the graved yard, etc. Sponsoring jointly by the Student Government Association, the Workmen Christian Association and W. R. A., was the freshman football for new students during orientation work.

Preceding a take off on the 2D Sunday the program was directly by Catherine Porter of Edgerton as master of ceremonies. Engaging performers on the Saturday was Mr. Jackson, a Mr. Smith, a Mr. Brown, a Mr. Green, a Mr. Smith, a Mr. Brown, a Mr. Green, etc. Also on the program were the bands and a Mr. Porter on the program were the bands and a Mr. Porter.

Intra-dormitory tournaments in tennis, basketball, track meets, and other games were added to the Association's program for student life.

The Association also makes games available in the coming for student use between classes and during free time. Officers of the Association are: Peggy McColl of Columbia, president; Catherine Porter of Edgerton, vice president; Dorothy Edwards of Edgerton, secretary; and Elsbeth Marno of Columbus, treasurer.

WHEN IT'S Bbog, taking time from the game, the band will not woop the services of Mike Jones of Columbia. In addition to the Gamecocks, there are also an eastern band and the W. R. A. Band which maintain the program of the Association.

WINNERS OF THE W. R. A. continued events teaming were selected their skill at the W. R. A. Turkey Chase. After the Welcome ended, students competing from each dormitory made work of their take to show how many times the W. R. A. had been persuaded to be sponsored by the Association this year.
FEBRUARY 15, 1957

THE JOHNSONIAN

WINTHROP'S CAMPUS IN PICTURES

FAMILIAR LANDMARKS to South Carolinians are Winthrop College's Administration Building and the College Auditorium. The Administration Building, located in the center of the campus, houses administrative offices, an auditorium, student activities room, and a part of the departments of commerce, fine arts, and library science. The Administration Building was the first building constructed when the school was moved from Columbia to its Rock Hill campus in 1858. The auditorium is used for the college's largest assembly and a stage area for a large opera company or the largest symphony orchestra.

BANCROFT HALL, a dormitory for members of the sophomore and junior classes, is located on the north side of the campus. It was constructed in 1858 and is named for Hon. Dr. David Bancroft Johnson, founder and first president of Winthrop. During World War II, this dormitory housed student airmen of the Army Air Corps who received some of their basic academic training in the South Carolina College for Women. In addition to the student rooms, each dormitory has a kitchen for each floor in which students may prepare meals or full meals, parlor and recreation rooms for the entertainment of guests, and reading rooms. Dormitory residents give parties and entertain several times during each semester. In addition, there is a number of parties just for the students.

Located on back campus is another of the freshman residence halls, Brame Hall named in honor of J. E. Brame, a member of the South Carolina General Assembly. Brame Hall is connected with a covered-way on the first floors and a walk-way along the second floors of the dormitories. During the spring months, many classes are taken in these buildings because of the advantage of the second floor walk-way to take sun-baths, study, play cards, etc.

THE COURT OF Bodge Hall is one of the most prominent on the Winthrop campus. It is the full and square, a place where visitors, especially those in the country with a large capacity of about 3,000, can sit and enjoy a view of the campus from the terrace. The court is used by the Student Government Association, the Student Choral Society, and other organizations. It is also used for outdoor weddings, picnics, and other social events.

THE NEWEST AND most modern of the student residence halls is Phoenix Hall, which was built in 1958. Only one member of the senior class lives in Phoenix Hall, which was named in honor of Dr. Melvin J. Phoenix, a member of the Board of Trustees. When the college was moved from Columbia to Rock Hill in 1858, only the Administration Building and this dormitory stood on the vast campus. When McKenney Hall was built six years later, this dormitory was called North Dormitory and McLaurin was called South. The two North Dormitories were moved to the Rock Hill campus in 1860. From that point on, the campus grew to include operating plant valued at more than $10 million.

A SCENIC VIEW of the Winthrop campus is shown from the porch of the Administration Building looking to the North end of the campus. During the spring months, the Winthrop campus is at its best. The beauty of the campus is enhanced by many stone ways and walks and by the careful arrangement of shrubs, trees, and flowers. The campus is located about one mile from the business district of Rock Hill.

Winthrop Professor Plays Major Role In Latin Revival In S. C.

What in the world do you do at a Latin Forum? Just kill the crow.
SOCIeLOy DEPARTMENT PREPARES ITS STUDENTS FOR WORK IN THREE FIELDS

Winthrop College's department of sociology prepares its majors for work in the teaching profession, as social workers and for work in industry, for students in other disciplines, and for students in government, business, and industry. The department offers courses in criminology, industrial sociology, social work, and economic sociology, and an introduction to social research that helps to prepare majors for making informed decisions about their future careers.

The sociology curriculum is designed to help students understand the social problems of our time, and to understand the social processes that shape our society. The course in criminology helps students to understand the causes of crime and the factors that contribute to criminal behavior. The course in industrial sociology helps students to understand the organization of industry and the role of the individual worker. The course in social work helps students to understand the roles of social workers and the services they provide.

The Sociology Club is open to membership for majors and minors and any student who takes, or plans to take, 12 hours in sociology. Membership in the club is to encourage scientific interest in the solution of social problems.

Alpha Kappa Delta, national honor sociological society, has its only South Carolina chapter at Winthrop College and elects sociology majors with a 3.0 average in all courses.

Winthrop College will hold its annual Christmas party before the Christmas holidays, and will hold its annual spring play on March 30. These events, along with a number of other activities, will be held during the sociology department's spring break, which runs from March 29 to April 1.

Winthrop Professor

Winthrop Professor Dr. Frances Jacob presented a lecture on the sociology of deviant behavior. Dr. Jacob discussed the sociology of deviant behavior and how it relates to modern society.

Winthrop's Annual Carol Sing and Christmas Pageant

Winthrop College's annual Carol Sing and Christmas Pageant is scheduled for December 12. The theme of this year's pageant is "The Spirit of Christmas," and it will feature a variety of performances, including a choir, a dance troupe, and a drama group.

A special feature of this year's pageant will be the performance of "The Carol of the Bells," a traditional Christmas carol. The carol is performed by the college choir, under the direction of Dr. Jacob. The choir will perform the carol in a variety of styles, including a cappella, with organ accompaniment, and with a full orchestra.

The pageant will also feature a variety of other performances, including a dance by the college's dance troupe, a drama performance by the college's drama group, and a variety of music performances by the college's music department.

The pageant will be held in the college's auditorium, and is free and open to the public. The college hopes that this year's pageant will bring the community together for the holiday season and provide a unique and memorable experience for all who attend.
Winthrop College inaugurated a Department of Philosophy and Religion in 1954. Courses available on this level of study are designed to be as stimulating and challenging as the senior college years. All over America, college students are asking questions of their religious education directors among the reasons they give for the senior college years as being the most vital and significant years of the college career. A student at Cornell University: "It was a year of living from one semester to the next." Nothing appears to be deeper in contemporary education trends than this concern to stimulate the student in the direction of a vital faith in life, a commitment that is her own.

Dr. John P. Jacobsen came from previous teaching at the state universities of Florida and Oregon to launch the new department. He feels the potential resources of both students and faculty members have been largely untouched in administrative circles here. Professor Jacobsen remarks recently that the most important way in which a college career can mean a student greater failure in life is to start early and keep essentially at the task of impressing the perennial passions of orientation and decision.

Every college department has been left in metal in assigning its faculty, and Winthrop in its religious education department has been no exception. Adequate faculty, economists, and preachers can be found to discuss the physical and social sciences, and the ethical and religious implications of the physical and social sciences. It may be said that the ideal college professor is a man who is capable of training men for leadership and strengthening influences. Historians of religion and philosophy may be new comers to the hope that they may be needed. The religious education director of Winthrop College is a man who is prepared to discuss with the student in the class and on the campus the discoveries they are making.

Winthrop College's new religious education director illustrates the work of the new department of philosophy and religion in philosophy. Professor Jacobsen's recent book, Philosophy, Religion, and Devotion, illustrates the work of the new department of philosophy and religion in philosophy. It is illustrated by the author's recent book, Philosophy, Religion, and Devotion, which traces the development of the subject and its relation in American thought and religion to a variety of philosophical, religious, and social and political values in society.

**Philosophy, Religion, and Devotion**

**Courses Available**

Winthrop College offers a wide range of courses in philosophy and religion. These courses are designed to be as stimulating and challenging as the senior college years. All over America, college students are asking questions of their religious education directors among the reasons they give for the senior college years as being the most vital and significant years of the college career. A student at Cornell University: "It was a year of living from one semester to the next." Winthrop College's new religious education director illustrates the work of the new department of philosophy and religion. His recent book, Philosophy, Religion, and Devotion, illustrates the work of the new department of philosophy and religion in philosophy. It is illustrated by the author's recent book, Philosophy, Religion, and Devotion, which traces the development of the subject and its relation in American thought and religion to a variety of philosophical, religious, and social and political values in society.

**Winthrop Awards B. A. In Religious Education**

Some of the girls concentrating in the religious education program at Winthrop College are now aware to the considerable number of girls at Winthrop with interests in this general field, and they determined to do something to help one another to keep abreast of the development in this area.
The girls established a club for the Winthrop College girls who are working for degrees in religious education. The club was organized to encourage the study of religious subjects and to provide a forum for the exchange of ideas and information.

In the interest of the girls, the Winthrop College girls established the Winthrop College Religious Education Club. The club was organized to encourage the study of religious subjects and to provide a forum for the exchange of ideas and information.

The club has a series of meetings throughout the year in which various topics are discussed. The meetings are open to all girls interested in religious education.

**Department Gives Assistance On High School Level In Guidance Programs**

School officials and high school students appear to be improving the quality of information available through the school guidance counseling programs.

For the past two years, the guidance counselors have been sent to Winthrop during November to school officials of the region informing them about the outstanding careers in religion.

Two years ago there was little or no demand for students to make a life work of these vocations. Today, there is a very serious shortage of ordained ministers and religious leaders in many parts of the country, and the local church religious dramas, radio, television, radio and television, church music, and church work are in need of the services of these laymen.

Winthrop College's new inter-departmental department of philosophy and religion was the first to adopt the use of Outstanding careers in religion and religious education.

Winthrop College's new inter-departmental department of philosophy and religion was the first to adopt the use of outstanding careers in religion and religious education.

A RELATIVELY NEW academic department at Winthrop, the department of philosophy and religion is under the direction of Dr. John P. Jacobsen. In addition to majors and minors of the department and students majoring in religious education, courses in the department may be selected as electives by other students. Student interest in these courses is high with enrollment much larger than initially expected when the department was begun several years ago.

WC History Department Offers Courses For All Students

History Gives Background For Work In Many Positions

Students take courses in the history department to understand the world in which they live and to prepare for positions in various fields.

Some courses are general, others are specialized, but whatever the period, topic, or geographical area students study, they gain an understanding of the past and its relevance to the present.

Two courses are devoted to the study of the United States, including American civilization, which is outlined in two volumes.

The main focus of the economic history course is to study the major aspects of economic life, providing students with a comprehensive understanding of the factors that shape economic policies.

The study of world history is divided into two areas: the Ancient and Medieval periods.

Three courses are offered for an in-depth study of the history of the Middle Ages, including the Reformation, the development of the nation-state, and the impact of religious and political developments on society.

The history of England is studied through a series of courses that focus on the major events and developments that shaped the nation's history.

The history of modern Europe is covered through courses that explore the major political, social, and cultural changes that have occurred since the Renaissance.

The three courses are designed to give students a comprehensive understanding of the history of the world, including the major events and developments that have shaped the world today.

Three Clubs Are Sponsored By History Department For Girls

The department of history and government sponsors a number of clubs for girls and women who are interested in learning more about the world and its history.

The International Relations Club, which focuses on the study of international affairs, is one of the most popular clubs among students.

The National History Club, which is open to students from all classes, provides a forum for discussion and the exchange of ideas on a wide range of topics.

The Women's History Club, which is open to girls and women, focuses on the study of women's history, including the contributions of women to society and the issues they face.

These clubs provide a valuable resource for students who are interested in learning more about the world and its history.

In the field of American history an understanding of the country's past is essential for students to appreciate the events that have shaped the country today.

In the field of world history an understanding of the major events and developments that have shaped the world over the past centuries is essential for students to appreciate the complexity of the world today.

In the field of political history an understanding of the major political events and developments that have shaped the country over the past centuries is essential for students to appreciate the complexity of politics today.

In the field of women's history an understanding of the role of women in society and the issues they face is essential for students to appreciate the importance of gender equality.

The three clubs are designed to provide a platform for students to learn more about the world and its history and to engage in discussions and activities that promote understanding and appreciation.
ENGLISH STUDY IS VITAL 
FOR ALL COLLEGE STUDENTS

Every student at Winthrop College studies English for two years. During the first year she is taught more effective writing and reading. The sophomore year emphasizes literature.

Since the beginning of time man has found it necessary to have some method of communicating his thoughts to other men.

Whether this method consisted of grunts or signs or actual words, the more men learned about the method, the more accurate the method became. This man has always strived to improve his method of communication.

Any time, the job of a Winthrop English department is to give students training in effective speaking, reading, and writing of the English language. With this purpose in mind it is the job of the department to be both literary and instructional.

These students who choose to major or minor in English continue in the department after their sophomore year. Taking courses in advanced literature, grammar, and composition.

Most English majors plan to teach when they graduate. Some, however, combine English with economics, sociology, or journalism, and plan different careers.

For students interested in writing, the English department sponsors the Journal, college literary magazine. Department junior and senior majors and minors are members of Sigma Epsilon Kappa, a national journalism fraternity. This group is designed to bring together those students with the same interest in the field.

Also associated with the English department are speech and dramatic arts. Here students interested in public speaking or dramatics can find the training they need.

MAJORS IN THE department of English are advised by Dr. Hampton M. Jarrell, head of the English department, during their junior and senior years. Jrrs Dr. Jarrell is talking with Shirley Gull Luns, a Junior English major from Chesnee.

AN UNDERSTANDING of the geologic and meteorologic sciences is innate to the world among Winthrop students in gaining deeper inside into present scientific theories as they develop. Ed. Alph.

An understanding of the geographic and meteorologic sciences is innate to the world among Winthrop students in gaining deeper inside into present scientific theories as they develop. Ed. Alph.

This understanding goes hand in hand with the student in many cases. Geography courses include climatic, geologic, surface features and the study of the earth in the earth-scientific relationships. Some the very latest work in the earth sciences. They illustrate the current and most most recent realizations, the fundamental explanations of the earth, and the entire explanation of the earth. This is an understanding of the geographic and meteorologic sciences.

Increased Emphasis Is On Mathematics

Mathematics is being emphasized in public school and college curricula because it seeks to educate the individual to be useful professionally, in the home, and in the community.

It is a prerequisite to many careers in industry, engineering, scientific research, and other technical professions.

Students have chosen themselves to be capable of studying extensively pursuing various careers. Recent Winthrop graduates in mathematics now hold positions in the Federal Security Agency in Washington, in the jet aircraft engine industry of the United States, and in high schools in many places.

Twenty courses in mathematics are available for the Winthrop students who are prepared to take courses in this department. Course titles are listed under mathematics in the specialized programs of the department.

Many students other than mathematics majors take mathematics courses in this department. Course titles are listed under mathematics in the specialized programs of the department.

These course titles may be taken to fulfill science requirements toward certain degrees. A nonscience major at Winthrop College is offered for these requirements.

A major in mathematics consists of 30 semester hours of course work. These courses are selected as an in-depth course work.
Experiments and research conducted by students taking psychology courses at Winthrop enable them to obtain a better understanding of human nature through beneficial experiences. Whether a student plans a career in business or in the home, a better understanding of themselves and others will be of housing value. Above, Cathy Linda of Bates, Columbia, Barbara Vreem of Back Hill and Rosemary Knight of Springfield, Mass., study drawings made by school children and college girls to observe differences between people of different races.

Three Winthrop students were among the four college students selected by the Johnsonian Hospital and State Winthrop Hospital at Orangeburg, N. C., to serve as peer-tutors during the summer program which was sponsored by the hospital and was developed by the department of psychology at Duke University, and this is the first time they have used students as aides. Winthrop students taking part in the program were left to their own devices, without a teacher being present, and Millie Martin of Gray, Ga.,

Reading Development Program Aids Students

Office for reading can be a great handicap for the college student. Winthrop students can tell you how reading is not the best way.

Winthrop offers a course in reading development under the direction of Dr. Jacob Mandl of the psychology department.

The purpose of the course is to help students improve their reading through the selection of proper reading material. The course is open to all students and is designed to improve their reading skills. The course is offered to allow students to improve their reading skills.

Courses in reading are designed to assist the students in understanding the content of the course materials. These courses are designed to assist the students in understanding the content of the course materials. These courses are designed to assist the students in understanding the content of the course materials.

A course in psychological measurement is a survey of the field of psychology. The class will be taught by a professor in the psychology department and will cover various aspects of psychological measurement.

Psychology Students Do Original Research

Western students in general psychology have been working for several years on a new kind of laboratory project, one which they think up and carry out original research with psychological problems of interest to them. In their laboratory courses, students use the real world as a source of scientific investigation and experiment in the psychology laboratory. Many research problems are suggested by laboratory experiments, which are illustrated.

Since the purpose of the laboratory course is to introduce the student to scientific procedures in the study of human behavior and experience, such as experimentation on animals, etc., the "lab manual" procedure does not seem challenging and "handy.

In the early part of the semester, the students pose puzzles in psychologic problems in which they are interested. These experiments are planned in detail and are carried out.

Preparation research related to the problem is taken care of on the side, and the students are left to work on their own.

The goal is to be ready to present reports of the investigations at a meeting of psychology students from other South Carolina colleges held each quarter. Last year the meeting was held at Clemson College in September, with the Avery County Academy of Sciences and the South Carolina Psychological Association. This meeting this year will be held in Columbia at the University of South Carolina.

Last year four investigations were reported on by Winthrop psychology students. The topics of the reports were as follows: Some ideas about reasoning for or against imaginary plausible many children create for themselves, various aspects of the Department of Psychology, and the development of mental health.

Trained psychologists are able to give valuable tests which give information on an individual's personality and potentialities. Above, Dr. Harley A. Scott Jr., head of the psychology department, gives an interview last fall.

Students Serve As Psychiatric Aides At Highland Hospital

Three Winthrop College students, Elizabeth Black of Columbia, Millie Martin of Gray, Ga., and Phoebe Simms of Georgetown, spent last summer as psychiatric aides at Highland Hospital, Asheville, N. C. The Winthrop students and a woman student at Duke University were the first aids to be used by the hospital.

Winthrop students work under the direction of Dr. Jacob Mandl, professor of psychology, and Millie and Phoebe are from the psychology department of Winthrop University, with Elizabeth until her withdrawal from college last fall, working as research assistants.

After the winthrop students left, Phoebe and Millie decided to extend their experience to the advancement of mental health.

A. Scott Jr., head of the psychology department, gives an interview last fall.

Women, according to Miss Anne Williams, the chief psychology social worker, the students learned by participating along with the hospital staff in the way they could get experience in a field that was of the hospital program which is designed to be 36 hour therapy for the patients.

Wenten purpose The students went to Highland hospital with the mental illness, psychiatric care in particular, was the thing they wanted to help graduate and also that they were able to work in the mental hospital, from which they were able to improve their mental health. Women directed under Miss Ann Williams, the chief psychologist social worker, the students worked by participating along with the hospital staff in the way they could get experience in a field that was of the hospital program which is designed to be a 36 hour therapy for the patients.

CRAWFORD INFRARY

The Winthrop Infirmary is maintained by the Board of Trustees, with the charge to the college. The infirmary serves as a training ground for students in the field of nursing. It is administered by the Nursing Department and is under the direction of the infirmary director, who is also the head of the Nursing Department.

The infirmary is equipped with modern medical facilities and is staffed by qualified nurses and physicians. It provides care for both inpatient and outpatient services. The infirmary is open 24 hours a day, 7 days a week, ensuring that students and faculty have access to medical care at all times.

The infirmary is located in the main campus of the college and is easily accessible to students and faculty. It is equipped with state-of-the-art medical equipment and has a comfortable atmosphere, providing a welcoming environment for patients.

The infirmary is committed to providing quality care to all patients and is dedicated to maintaining the highest standards of medical care. It is designed to meet the needs of patients of all ages and is staffed by experienced and knowledgeable professionals.

In conclusion, the Winthrop College Infirmary is a vital resource for students and faculty, providing quality medical care in a comfortable and welcoming environment.

Home E Department

The Home E Department offers a range of courses designed to prepare students for careers in home economics and related fields. These courses cover topics such as nutrition, food preparation, home management, clothing and textiles, and child development.

In addition to coursework, students in the Home E Department have the opportunity to participate in practical experiences, such as cooking demonstrations, home improvement projects, and child care activities. These hands-on experiences allow students to apply theoretical knowledge in real-world settings.

The Home E Department is committed to providing a supportive and inclusive environment for all students. It offers a range of courses and programs to meet the diverse needs and interests of students, including options for part-time and online learning.

Overall, the Home E Department prepares students for successful careers in the field of home economics, equipping them with the knowledge and skills needed to be successful and make a positive impact in their communities.

The Johnsonian Proudly Presents The Miss Hi Misses Of North Carolina

Formal Dances Highlight WC Student Life

Much preparation goes into dressing for one of the top campus social events sponsored by the Winthrop Student Government Association. This Miss Hi Miss picture story features Elizabeth Adams of Moulton, a sophomore home economics major.

Before leaving the dormitory for the dance staged in the college dining hall, Gwen turns out on special arrangement for dance weekends. The SGA sponsors four formal dances each year, in addition, there are the junior-senior, sophomore, and freshman class dances which are all formal. Numerous informal dances for students and their dates are held periodically throughout the school year.

Ticket Please—Gwen and Layton arrive at the formally attired event sponsored by the Winthrop Student Government Association. The dance is open to all Winthrop students, and a variety of special events are offered to enhance the dance experience.

Meeting the Judges at the Miss Hi Miss competition, Gwen and Layton are evaluated on their appearance and personality to choose the winners. This year, in addition to the Christmas Ball, there are the Autumn Ball, Valentine Ball, and Spring Formal.

Many Men On Campus make a dance weekend extra special at Winthrop. In addition to the music and entertainment, students from the different dormitories have a test for the ladies to wear either and donate to the girls and their dates before they leave for church the next morning. Some playing overnight in the Rock Hill are housed in homes near the campus.

After a Night of Dancing, Gwen and the other students return to their dormitories where they check in on the charities with whom they signed out. Winthrop dances are held on Saturday and end at midnight.

FIRST WEEK OF SCHOOL IS BUSY ONE FOR NEW STUDENTS

NEW STUDENTS HAVE an off duty every day but Sunday with the help of sophomore and junior boys. The first week of school is full of activities and events. The Johnsonian proudly presents the Miss Hi Misses of North Carolina.

IN HONOR OF THE new students, the Sophomore and Junior boys held a welcome party for the new students.

The opening day of fall semester is always a special day for the new students. The boys welcome them with songs and cheers as they enter the college gates.

WINSTON-SALEM UNIVERSITY, N.C.-Winston-Salem University students were selected for the position of Miss Hi Misses of North Carolina. The election was held during the opening week of the fall semester.

THE HIGHEST COURT of the land, the Winston-Salem College Faculty, in session to pass judgment on the new students. The court is made up of faculty members and is presided over by the president of the college.

THE ED MILLS ABBOTT AWARD is given to the student who possesses the highest scholastic average in the college. This year, the award was given to John Smith.

THE JOHNSONIAN is the student newspaper of the college. It is published biweekly and covers all aspects of college life. The paper is read by students, faculty, and alumni.

THE SEARCH for the perfect Miss Hi Misses of North Carolina begins in the fall semester. The competition is open to all students and is judged by a panel of faculty members and alumni.

WINSTON-SALEM UNIVERSITY, N.C.-Winston-Salem University students were selected for the position of Miss Hi Misses of North Carolina. The election was held during the opening week of the fall semester.

DURING THE SCHOOL YEAR, the Miss Hi Misses participate in various activities, including charity events and social functions. They also help to raise money for various causes.

OUTSTANDING ARTISTS AND LECTURERS APPEAR AT WINTHROP

WINTHROP'S arts, music, literature and moving entertainment have been abounding since last spring and continue in a most encouraging manner. Among the many delectable events planned this spring will be an appearance of the noted writer, Edward Weeks, editor of The Atlantic Monthly, at the time of the dedication of the college's $70,000 Aeolian-Skinner organ. In the lecture series Ernest Gruening, who served as governor of Alaska from 1939 to 1941, and as senator from 1943 to 1953, will be on the Winthrop program on Wednesday, December 4.

The noted writer, Edward Weeks, editor of The Atlantic Monthly, will present two concerts at Winthrop in the spring of the dedication of the college's $70,000 Aeolian-Skinner organ. In the lecture series Ernest Gruening, who served as governor of Alaska from 1939 to 1941, and as senator from 1943 to 1953, will be on the Winthrop program on Wednesday, December 4.

Fox presented two concerts at Winthrop in 1951 at the time of the dedication of the college's $70,000 Aeolian-Skinner organ. In the lecture series Ernest Gruening, who served as governor of Alaska from 1939 to 1941, and as senator from 1943 to 1953, will be on the Winthrop program on Wednesday, December 4.

The Johnsonian Proudly Presents The Miss Hi Misses Of North Carolina

STUDENTS SEE AND HEAR FAMOUS PERSONALITIES AT COLLEGE
CLASSES SHOW SCHOOL SPIRIT \n
A THING OF BEAUTY brought out an exuberant sense of style for the Junior class in their Cama Night shawls and gowns. An elderly woman lends touch to her 30-year-old dress from the 1950s. The Winthrop College atmosphere was much beauty here.

A huge victory goes to the seniors who won the competition between the classes. In addition to the shawls, the Juniors also wore the most creative and stylish presentation, and the use of the theme.

FRESHMAN CHEERLEADERS Patric- ia Bryant of Burlington and Javellle Dempsey of Augusta, Ga., lead their class in a round of songs during the Class Night program. Each class has an entrance song and a farewell song.

THE TOTAL PERFORMANCE of the Classes during Class Night includes the winners: Parade songs on the floor, a general theme, and the use of a special theme. The dance received enthusiastic acclaim from the crowd.

AN ARTIST SEARCHES for beauty among many flowers of every color, as the student's paint brush paints a picture of life. The seniors point out that beauty is necessary part of the experience.

LIFE SIMPLIFIES its complex elements, too, with the mention of the complex species and members of each class participating in Class Night, school and class spirit leaders.

Cheering up the seven stages of music between the two classes, these groups were the major attractions of the evening. TheWinthrop College community celebrated the classes.

While the date is uncertain upon the stage, perhaps several at least this year, the theme of the school ended in a memorable fashion. The Winthrop College community celebrated the classes.
The Johnsonian Proudly Presents The Miss Hi Misses Of North Carolina

1957 MISS HI MISSES WILL BE GUESTS AT WINTHROP

MISS HI MISS WEEKEND is a very special occasion at Winthrop College and every effort is made to make the guests feel at home. Winthrop students enjoy entertaining their high school guests and when possible the guests may room with Winthrop freshmen whom they already know or with a Miss Hi Miss from another school they have met before. The pictures above show the Miss Hi Miss crystallization deck last year during the rush hour (left), and a stag feast during the picnics for the Miss Hi Misses at the College Beach.

The 1957 Miss Hi Misses of North and South Carolina, representing high school senior girls, will be honored with a special weekend at Winthrop College March 3-4.

The 250 young women pictured in this special edition of The Johnsonian will in the near future receive invitations from Winthrop’s president, Dr. Henry H. Snow, to be special guests of the South Carolina College for Women during the last week in March.

Students and staff members of Winthrop College go all out each year to make the Miss Hi Miss Weekend something special in the lives of the honored guests.

Last year 216 of the 277 Miss Hi Misses of North and South Carolina were able to accept Winthrop’s invitations for the weekend. The 1957 weekend will follow the same pattern as last year’s program.

Amidst the staff of The Johnsonian in events of the weekend will be the former Miss Hi Misses who are now enrolled as students at Winthrop.

Upon arrival at Winthrop, the guests register with the Miss Hi Miss committee in the Administration Building and are given a program for the weekend and a special booklet to the students in the student orientation to which they have been honored as guests are issued, each year in Snead-Hauser and McFarland Halls.

The first official event on the agenda for the weekend is a visit to the college dining hall. The Miss Hi Misses eat in a special section of the dining hall, and they are seated at each table. For the first meal Mrs. Snow and other college officials join the Misses and other guests at the head of Winthrop’s dining table.

After supper on Friday night, a special treat in honor of the Miss Hi Misses. They will be special guests of the Winthrop Theatre which is scheduled to present a special night of music, drama, and dance by the students under the supervision of Mr. William I. Long, and Mr. Donald T. Housman of the department of dramatic art.

Following the plays, members of the Winthrop Theatre will have an informal coffee hour in Johnson Hall in order to have an opportunity to meet and talk with the guests of the college.

On Saturday, the high points of the weekend will be conducted on the tour of the campus, and they will be especially invited to visit the departments of the college which are of most interest to them.

At some great during the tour, the student guides will serve light refreshments, and also tea will be served in the Johnson Dining Hall. A special program for the Johnson dining hall is planned, and the college students will serve cakes and potato chips to the Miss Hi Misses.

Saturday afternoon a picnic will be served in The Shack located on the college farm. They will be the guests of the staff of The Johnsonian, and the recreation will be directed by students of the physical education department.

The Miss Hi Misses will attend a picnic in the Col- lege YMCA and be entertained by staff members of that organization, and this will be followed by another picnic in another location in Johnson Hall.

Sunday morning the Miss Hi Misses will attend the services of the Student Assembly and the College Assembly. The Miss Hi Misses will then have the privilege of attending the Brigham Young University Assembly which is held in the city of Rock Hill. After the services, the Misses will have the privilege of being entertained by a group of students from the Brigham Young University and taking a tour of the city.

A special coffee and refreshments will be served in Johnson Hall. The Miss Hi Misses will have the opportunity to meet other Miss Hi Misses from other colleges and to relax and have a pleasant time.

To all of the Miss Hi Misses who come to the Johnsonian, it is hoped that you will have a pleasant time and take back happy memories of your visit to Winthrop College.
Junior Follies Is Largest Student Production

Original Show By Juniors
Is Leading Campus Event

By EMILY CONNAGHAN

One of the biggest annual events of the spring term is the Junior Follies production given in the spring.
The first Follies presentation was given in 1912. It was then that the Juniors took their cue from the footlights and set up the stage for their own production. The Follies becomes a permanent part of the spring term at Winthrop, and the Juniors have been putting on a show ever since.

Although the main purpose of Follies is to raise money for the Student Union, it also gives the junior class a chance to show their talents in an organized fashion. The Follies is a showcase for the talents and abilities of the junior class.

The production is a combination of music, dance, and comedy, with a variety of acts ranging from skits to full-scale musical numbers. The Follies is known for its lively and entertaining performances, and it always draws a large crowd of students and faculty.

The Follies is also a way for the junior class to bond and work together as a team. The production requires a lot of planning and coordination, and the class must work closely together to make it a success.

The Follies is a beloved tradition at Winthrop, and it is always a highlight of the spring term. It is a testament to the talent and creativity of the junior class, and it is a testament to the importance of fostering a sense of community and teamwork in the student body.

END OF BOOK
SOPH WEEK REVIVES SPIRIT OF CONFEDERACY AT WINTHROP

ROBERT E. LEE, states the rear end of his horse for the last time on the road to Winton, was serenely present in the sophomore class in Winthrop's annual May Week. Scenes told in right angle of the campaign were modeled after Robert E. Lee's" campaign. Scenes were modeled after Robert E. Lee's campaign.

A SPECIAL COMMEMORATION scene of the York Hill City Council was shown by the Winthrop College sophomore class for their efforts in behalf of the miniature of the mile. Ray B. Nettles, a member of the sophomore class, left, sits on the miniature "Lee." At right, Mrs. W. R. Thacker, president of the York Hill City Council, right, sits on the miniature "Lee.

A STRONG SOUTHERN CAMPAIGN was shown by the sophomore class in Winthrop's annual May Week. Scenes were modeled after Robert E. Lee's campaign.

Shades of Robert E. Lee—the South has finally risen again after years of threatening sins. That's the way it looked on the Winthrop campus, a campus for a week. The event was all for their minor event, Sophomore Week.

Sophomore Week yearly honors the members of Winthrop's second year class who had previously been honored by the campus community which comprised Senior Week. Junior Class and Rat Week. It had nothing to offer the leafy sophomores, for it is the sophomore campfire to please themselves. They too have a week to sing, dance, have fun, fish, etc. to their heart content.

The leaves are up in the south of the south— they select them and carry them out. Through the years, the Winthrop campus has been trod by knights and ladies of old, balladists, and blood-thirsty patriots. This year it was the gentle gray of the year. The Winthrop campus carried out the theme "The South Shall Rise Again!"

The week's events were directed by the class president, Anne Ragsdale, of Easley.

Winthrop History Shows Growth And Progress

It began with one man's dream. It was sustained by many men and women of vision. Today Winthrop offered the lives of nearly all South Carolinians.

From a borrowed stable to a campus of 80 acres and 23 buildings...just a $1,500.00 pledge is an enormous state appropriation of more than $1,000,000...

From the first 14 graduates to an enrollment of nearly 200...from a single course of study in 1878...to an up-to-date curriculum offering 100 courses...

Progress and growth are related by these facts, but there is more that the people of Winthrop College. Winthrop was born in the mind of David Winthrop Johnston. His inheritance was a small brick chapel, originally built on the site of a great estate, in the grounds of the Columbia Presbyterian Theological Seminary.

Its birthdate was Dec. 15, 1855, when it was first opened to students.

As superintendent of the Columbia city schools, David Winthrop Johnston had in mind the need for teachers trained in the profession.

THE WINSTON\'S VISION

With energy and sureness, he launched the proposition of a training school for young women. Gaining the enthusiasm and support of others in education, he secured financial aid and opened the school in 1878. The school was named Winston Training School for Teachers in honor of Robert E. Winston of Boston, who, as chairman of the Peabody Board, had been largely responsible for the grant of a sum to establish the educational institution.

Two teachers were employed, and later in the opening year, a third. The first school for training teachers in the South Atlantic states. Winthrop admitted high school graduates, provided observation and practice with graded school children.

The site was conveniently located until today, the college operates a complete nursery school, as we have already pointed out to the students.

The school in the little brick chapel was a success. The state could not afford to fail. It was the development of a training school for young women. It was the beginning of a school for the training of teachers.

In December of 1877, the South Carolina General Assembly legislated a $500 monthly appropriation for the institution. Providing scholarships for each of the 24 countries in the state, the institution was now on a sound financial footing. It was moving forward.

The first building was the little brick chapel. It was the first step toward a college.

The institution was chartered in 1881, and under the direction of the Board of Directors of Winthrop College, it was moved to its permanent location in 1883. The little brick chapel was, as we have already pointed out, located on the grounds of the Columbia Presbyterian Theological Seminary.

The cornerstone of the new building was laid on December 15, 1883. The cornerstone was laid on the site of the old brick chapel. The new building was completed in 1884. The building was dedicated in 1885.

The 25th anniversary of the college's founding was marked by the laying of the cornerstone of a new building.

To the three original buildings on the campus, the Administration Building, the Student Union, and the infirmary, the other buildings were added. In 1912, the school was able to offer a liberal arts curriculum and a complete course of study in music, art, and science.
